“RISK FACTORS”

The following risk factors “*Systemic risks in connection with the economic/financial crisis*” and “*Risks connected to a potential rating downgrade*” shall replace the risk factors “*Systemic risks in connection with the economic/financial crisis*” and “*Risks connected to a potential rating downgrade*” set out in the section Risk Factor on pages 39-40 of the Base Prospectus:

Systemic risks in connection with the economic/financial crisis

It should be noted that the earnings capacity and stability of the financial system in which the Issuer operates may be impacted by the general economic situation and the trends on financial markets, and, in particular, by the solidity and growth prospects of the economies of the country or countries in which the Issuer operates, including its/their credit standing, as well as the solidity and growth prospects of the Eurozone as a whole.

The Issuer’s performance is also influenced by the general economic situation, both national and for the Eurozone as a whole, and by the trend on financial markets, in particular by the solidity and growth prospects of the geographical areas in which the Issuer operates. The macroeconomic scenario currently reflects considerable areas of uncertainty, in relation to: (a) the trends in the real economy with reference to the prospects of recovery and growth in the national economy and/or resilience of growth in the economies of those countries, such as the United States and China, which have delivered growth, even substantial, in recent years; (b) future developments in the monetary policy of the ECB for the Eurozone area, and the Fed for the US dollar area, and the policies implemented by various countries to devalue their own currencies for competitive reasons; (c) the sustainability of the sovereign debt of certain countries, and the tensions noted more or less frequently on financial markets. In this connection, attention should be drawn in particular to: (i) the recent developments in the Greek sovereign debt crisis, which raised considerable uncertainties (as yet not entirely dispelled) over the prospects of Greece remaining part of the Eurozone, not to mention, in an extreme scenario, the risk of contagion between the sovereign debt markets of the various countries, and indeed the very resilience of the European monetary system based on the single currency; (ii) the recent turbulence on the main Asian financial markets, in particular China. There is therefore the risk that the future development of these scenarios could impact adversely on the Issuer’s capital, earnings and financial situation.

Such factors, particularly during periods of economic and financial crisis, could lead the Issuer to incur losses, increases in the cost of financing, reductions in the value of assets held, with a potentially negative impact on the Bank’s liquidity and the solidity of its capital.

More generally, continuation of the adverse economic conditions, or a slower recovery in Italy, or the countries in which the Issuer principally operates, than the other Eurozone countries, could impact negatively on the operating results or financial conditions of Mediobanca.

Risks connected to a potential rating downgrade

Mediobanca is rated by Standard & Poor’s Ratings Service, a Division of the McGraw Hill Companies

Inc. (“**S&P**”) and by Fitch Italia S.p.A. (“**Fitch**”), which are established in the European Union and registered under Regulation (EC) No. 1060/2009 on credit rating agencies, (as amended) (the “**CRA Regulation**”) as set out in the list of credit rating agencies registered in accordance with the CRA Regulation published on the website of the European Securities and Markets Authority pursuant to the CRA Regulation. A downgrade of Mediobanca’s rating (for whatever reason) might result in higher funding and refinancing costs for Mediobanca in the capital markets. In addition, a downgrade of Mediobanca’s rating may limit Mediobanca’s opportunities to extend mortgage loans and may have a particularly adverse effect on Mediobanca’s image as a participant in the capital markets, as well as in the eyes of its clients. These factors may have an adverse effect on Mediobanca’s financial condition and/or the results of its operations. In addition, on 5 December 2014, S&P downgraded Italy’s sovereign credit rating from BBB to BBB- and such downgrade might have a material on Mediobanca’s rating.

Wholesale Banking

Mediobanca seeks to provide its corporate clients with the advisory services and financial services to help them grow and develop.

The wholesale banking division comprises three different units: *Corporate finance, Lending and Structure Finance, Capital Markets*.

Corporate finance

Mediobanca is the leader in Italy and has an increasingly significant role in financial advisory services at the European level through its branches in Paris, Frankfurt, London, Madrid, Istanbul and Mexico City. A client-based approach is adopted, backed by in depth knowledge of the financial issues and a consolidated track record in executing deals. The operating unit is organized into different industry teams covering individual industries in order to provide greater focus.

Corporate finance involves the following activities:

- defining strategic objectives for companies and identifying extraordinary financing transactions in order to help meet them;
- extraordinary financing transactions: mergers and acquisitions, joint ventures and partnerships, disposals and spinoffs;
- liability restructuring: earnings/financial analysis of companies/groups undergoing restructuring; working out financial rebalancing scenarios; negotiating with key creditors;
- corporate restructuring: LBOs, MBOs, spinoffs and tax-/inheritance-related issues;
- company valuations, on a standalone basis and for purposes of setting exchange ratios;
- relations with authorities: assistance in handling relations with market and regulatory authorities, principally CONSOB and Borsa Italiana.

Lending and structured finance

The Financing teams serve Mediobanca's Italian and international customers, through the branch offices located in Paris, Frankfurt, London, Madrid and Istanbul to offer:

- advice in evaluating possible capital structures and financing solutions available from among a vast series of debt products, including considering possible implications in terms of rating;
- structuring and executing lending transactions;
- access to the international syndicated loans market;
- facility and security agent services for corporate and structured lending transactions.

The main products of the Lending and structured finance team are:

- **corporate lending:** (bilateral loans, club deals and syndicated loans): corporate loans aimed at supporting customers' financial requirements generated by investments or related to their companies' growth; the financial solutions offered are aimed primarily at medium-/large-sized firms operating on domestic and international markets, in industrial and service-based sectors;
- **structured finance:** (acquisition finance, loans for LBO/MBOs, project finance, infrastructure finance, real estate finance): financial support to corporate counterparties and institutional investors as part of leveraged transactions to acquire stakes in listed and unlisted companies; a wide range of lending transactions are developed, arranged, structured, underwritten and executed based on complex structures, and because of their size these are often syndicated on the international market. On the back of its solid track record in various sectors, customers are provided with advisory services covering the entire process of structuring deals to support investment and infrastructure or industrial projects, including offering strategies, selection of the most effective debt instruments, hedging strategies, financial modelling and structuring contracts; and
- **factoring:** (with and without recourse, maturity, and supply credit): sale and discount of trade receivables to help refinance companies' working capital. As well as the financial benefits, factoring can also provide insurance (guarantee against insolvency or delays in payments) and facilitate operations (credit management, accounting, collection and recovery).

Capital Markets

Mediobanca operates on both the primary and secondary markets, trading equities and fixed-income securities, foreign exchange products and credit risk, interest rate and exchange rate derivatives.

In the equity market (primary and secondary), activity is divided into the following areas:

- **equity capital markets:** it is the Italian leader and has a role of increasing importance internationally in structuring, co-ordinating and executing equity capital markets transactions, such as IPOs, rights issues, secondary offerings and ABOs, and bonds convertible into equity solutions (equity derivatives to manage investments and treasury shares): this unit structures and implements extraordinary financing transactions involving equity investments and treasury shares; using a dedicated trading platform, the team offers customers innovative, high value-added solutions, and also handles any legal, accounting, tax and regulatory issues;

- **equity finance (securities lending, equity repos, collateralized financing):** the unit offers tailored securities lending solutions, which range from simple loans to hedge short-/medium-term positions, to equity repos, to upgrades and collateralized financing;
- **equity derivatives institutional marketing:** a range of equity-linked investments are offered to banks, insurances, asset managers and family offices, from synthetic replications of simple underlying assets to sophisticated protection mechanisms and solutions for increasing the return on portfolios, funded or unfunded;
- **MB Securities:** this is Mediobanca's equity brokerage division, offering global access to equity markets and research on the Italian market (over 100 companies are covered), plus a pan-European focus on the financials sector (banks and insurances); a dedicated team also offers corporate broking services.

In relation to the debt market, the activity is divided into the following areas of operation:

- **debt capital markets:** this team originates, structures, executes and places corporate and financial bond issues, covered bonds and securitizations to meet its customers' financing needs.
- **CRAL solutions:** this area structures solutions based on interest rates, credit and alternative products; it targets corporate clients, banks and institutional investors who need to restructure their investment portfolios, increase asset liquidity and diversify their sources of funding. An activity of advisory and structuring of *ad hoc* solutions on alternative investments focusing on institutional investors.
- **proprietary funding:** this team is responsible for structuring, issuing and placing debt products, the revenues from which finance the Bank's own activities. Fund raising, supported by the Bank's high credit rating, takes place primarily through the issuance of securities, both plain vanilla and structured. Securities are placed with retail investors through public offers (executed using the proprietary networks of CheBanca!, through individual third banks – including that of BancoPosta – either on an exclusive basis or via groups of banks in syndicates) and direct sales are made over the screen-based bond market (MOT) operated by Borsa Italiana. Demand from institutional investors is met via public offers of securities on the Euromarket and private placements of products customized to meet the subscribers' specific needs.

Private banking

The range of services offered to clients by the Mediobanca Group includes private banking, via Banca Esperia and Compagnie Monégasque de Banque.

- Banca Esperia was set up in July 2001 as a joint venture between the Mediobanca and Mediolanum groups with the aim of becoming the private banker of choice for high net worth clients, offering them portfolio management, advisory and financing services. Independence, operational autonomy, focus on private banking activities, and excellence and quality of service, are the hallmarks of a bank which has approximately €18bn in assets under management at its branches in Bergamo, Bologna, Brescia, Cesena, Florence, Genoa, Milan, Padua, Parma, Rome, Turin and Treviso.

- Compagnie Monégasque de Banque (“**CMB**”) is 100%-owned by Mediobanca. CMB is market leader in the Principality of Monaco, with total deposits of approx. €8bn. Its geographical position, indepth knowledge of markets and the absolute discretion make it a player of primary importance, able to provide exclusive services to its client, ranging from loans to asset management.

Principal Investing

Mediobanca has an equity portfolio of investments made over time, consisting of minority stakes in leading Italian and international companies, most of which are listed, and which are generally leaders in their respective spheres of activity, with a view to contributing, including through representation on investee companies’ governing bodies, to value creation over a medium- and long-term time horizon. In the 2014/15 financial year, too, and in accordance with the guidelines of the 2014/16 strategic plan, which provided for a significant reduction in the Mediobanca Group’s exposure to equities, the Bank has continued its asset disposal programme, selling approx. €290m worth of equity investments, generating gains of some €120m. In view of the size of the investments and the role played by Mediobanca in the governance of the companies concerned, the shareholdings in Generali, RCS MediaGroup, Atlantia and Pirelli&C are assigned to the Principal investing division.

Each year the Board of Directors assess the positions of the individual directors, which may have changed as a result of changes in the activities or size of the other companies in which they hold posts. To this end, each director, in order to also avoid potential conflict of interest, shall inform the Board of any changes in the positions assumed by them in the course of their term of office.

Mediobanca also adopts the procedure recommended under Article 136 of the Italian Consolidated Banking Act for approval of transactions involving individuals who perform duties of management and control in other companies controlled by such parties.

Legal and arbitration proceedings

As at the date of the Base Prospectus, none of Mediobanca and its consolidated subsidiaries is or has been involved in any governmental, legal or arbitration proceedings relating to claims or amounts of money which may have, or have had in the recent past, significant effects on the Group's financial position or profitability, and as far as Mediobanca is aware, no such governmental, legal or arbitration proceedings has either been announced or is pending. A description of the main tax disputes and litigation pending is provided below, purely for information purposes:

Tax disputes

As at 30 June 2015 the Mediobanca Group had litigation pending, in respect of higher tax worth a notified amount of €37.2m, plus interest and fines, all involving disputes with the Italian tax revenue authority and regarding:

- fourteen claims in respect of allegedly non-existent leasing transactions, involving higher tax worth a notified amount of €35.6m (€31.8m by way of VAT and €3.8m IRES/IRAP); €24.1m of the higher tax involves leases on yachts, while the remainder involves real estate and brands;¹
- other minor claims, involving higher tax worth a notified amount of €1.7m;
- eight claims in respect of other items, involving higher tax worth a notified amount of €2.1m.

In the year under review, the Milan tax office waived its €30.5m claims made in connection with losses on Compass receivables in the 2007/08 financial year (€30.5m) in respect of withholding tax on loans from Mediobanca (€3.8m), thereby ending the dispute.

The companies concerned have appealed against all the above rulings in the conviction that their actions were correct (cf. the ruling in the Compass dispute going in its favour). For this reason no amounts have been set aside to the provision for risks and charges, including in view of how the legal process is progressing.

Litigation pending

The most significant litigation pending against Mediobanca is as follows:

the proceedings initiated against Mediobanca relating to the Bank's alleged failure, jointly with other parties, to launch a full takeover bid for La Fondiaria in 2002. A total of sixteen cases were brought, six of which are still pending, another six settled out of court during the year under review, and four settled the previous year (three out of court and the other statute-barred). The total amount of the six claims still pending is some €68m (plus interest and expenses); Mediobanca's share in this would be approx. €23m (plus interest and expenses). The present status of the trials in respect of these claims is as follows:

- five claims, in which the court of appeals has ruled in favour of Mediobanca, are pending at the court of cassation;
- one claim, in which the ruling went against Mediobanca, is pending before the court of appeals in Milan;
- the case pending with the court of Milan for damages totalling €134.4m in connection with the Burani group bankruptcies for Mediobanca's alleged role as advisor on the takeover bid concerned. Mediobanca, cited by Centrobanca, has appeared in court and has pleaded not guilty, on the grounds that its activity as advisor consisted exclusively of preparing one analysis (defined as "Discussion material") on behalf of Burani Designer Holding NV, regarding the principal impact of the takeover bid in financial terms;

¹ These include the claim for the 2005 and 2006 tax periods in respect of certain allegedly non-existent transactions involving brands and real estate leases (involving higher amounts of VAT, IRES and IRAP tax totalling €11.1m), which the Italian tax revenue authorities has appealed to the supreme court despite losing at both levels so far. Mediobanca only learnt of this appeal at a late stage, hence the claim was stated as having been dismissed in the financial statements for the six months ended 31 December 2014

- one claim filed with the court of Siena for damages in an amount of €286m by the Fondazione Monte dei Paschi di Siena, for an alleged non-contractual liability, jointly with the other thirteen lender banks, in connection with the execution of a loan granted to Fondazione Monte dei Paschi di Siena in June 2011;

There is no other significant litigation pending at present.

The provision for risks and charges amply covers any charges that may be payable as a result of the claims made against Mediobanca and the Group companies.

Significant changes in the Issuer's financial position

There have been no significant changes to financial or commercial position of Mediobanca or the other companies forming part of the Group since the most recent financial information available was disclosed in the consolidated financial statements as at 30 June 2015.

Material Agreements

Neither Mediobanca nor any of the companies controlled by Mediobanca has entered into or participates in agreements outside of their normal course of business which could result an obligation or entitlement for Group members that would impact significantly on the Issuer's ability to meet its obligations in respect of the holders of financial instruments issued or to be issued.
