("**Mediobanca**"), Mediobanca International (Luxembourg) S.A. ("**Mediobanca International**") and MB Funding Lux S.A. ("**MBFL**") (each an "**Issuer**" and together the "**Issuers**") may, from time to time, issue notes ("**Notes**"), subject in each case to compliance with all relevant laws, regulations and directives.*

*The payment of all amounts due and the performance of any non-cash delivery obligations in respect of any Notes issued by Mediobanca International and MBFL will be unconditionally and irrevocably guaranteed by Mediobanca (in such capacity, the "**Guarantor**") under, respectively, a deed of guarantee and subject to the limitations thereof executed by the Guarantor and dated 18 September 2023 (the "**Mediobanca International Deed of Guarantee**") and a deed of guarantee and subject to the limitations thereof executed by the Guarantor and dated 18 September 2023 (the "**MBFL Deed of Guarantee**").*

If the Notes are Secured Notes, as specified in the applicable Final Terms, in order to secure its obligations under the Notes, MBFL will grant to BNP Paribas Trust Corporation UK Limited, as security trustee (the “**Security Trustee**”) on behalf of holders of Secured Notes, security over certain collateral (the “**Collateral Assets**”), as well as its rights in respect of certain agreements that MBFL will enter into in relation to the Secured Notes. If the Notes are Unsecured Notes such security will not be granted.*

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks, see “Risk Factors” beginning on page 32.

*This Base Prospectus has been approved by the Central Bank of Ireland (the “**Central Bank**”) as competent authority under Regulation (EU) 2017/1129 as amended (the “**Prospectus Regulation**”). The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation and such approval should not be considered as an endorsement of each of the Issuers nor as an endorsement of the quality of the Notes that are the subject of this Base Prospectus. Such approval relates only to the Notes which are to be admitted to trading on a regulated market for the purposes of Directive 2014/65/EU, as amended (the “**MiFID II**”) and/or which are to be offered to the public in any Member State of the European Economic Area (the “**EEA**”). Investors should make their own assessment as to the suitability of investing in the Notes.*

*This Base Prospectus is valid for a period of twelve months from the date hereof in relation to Notes which are to be admitted to trading on a regulated market for the purposes of MiFID II and/or which are to be offered to the public, in any Member State of the European Economic Area other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation. For the avoidance of doubt, each of the Issuers shall have no obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy when this Base Prospectus is no longer valid. This Base Prospectus comprises three base prospectuses (one for each Issuer, each of which referred to herein as the “**Base Prospectus**”) for the purposes of Article 8 of the Prospectus Regulation. The validity of this Base Prospectus ends upon expiration on 18 September 2024.*

*Application has been made to the Irish Stock Exchange plc trading as Euronext Dublin (“**Euronext Dublin**”) for Notes issued under the Programme within twelve months after the date hereof to be admitted to the Official List of Euronext Dublin (the “**Official List**”) and trading on its regulated market. The regulated market of Euronext Dublin is a regulated market for the purposes of MiFID II. Application may also be made for certain Notes issued under the Programme to Euronext to be listed and/or admitted to trading on Euronext Paris (“**Euronext Paris**”). The regulated market of Euronext Paris is a regulated market for the purposes of MiFID II. The Notes may also be admitted to trading (i) on the multilateral trading facility of securitised derivatives financial instruments, organised and managed by Borsa Italiana S.p.A. (the “**SeDeX**”), (ii) on the multilateral trading facility of EuroTLX managed by Borsa Italiana S.p.A. (“**EuroTLX**”) and (iii) on the multilateral trading facility of Euronext Access Paris operated by Euronext Paris (“**Euronext Access Paris**”),*

being understood that the admission to trading on SeDeX, EuroTLX or Euronext Access Paris and/or any other multilateral trading facilities will not be done under the Prospectus Regulation passporting regime. The applicable Final Terms will specify whether or not application will be made for the Notes to be listed and/or admitted to trading on Euronext Dublin and/or the Luxembourg Stock Exchange and/or Euronext Paris and/or SeDeX and/or EuroTLX and/or Euronext Access Paris.

The Programme provides that Notes may be listed or admitted to trading (as the case may be) on such other or further stock exchange(s) or market(s) as may be agreed between the relevant Issuer, the Guarantor (where applicable) and the relevant Dealer (as defined in "Plan of Distribution"). Unlisted Notes or Notes not admitted to trading on any market may also be issued.

*The Central Bank may, at the request of the relevant Issuer, send to the competent authority of another European Economic Area Member State (i) a copy of this Base Prospectus; and (ii) a certificate of approval pursuant to Article 25 of the Prospectus Regulation attesting that this Base Prospectus has been drawn up in accordance with the Prospectus Regulation (an "**Attestation Certificate**"). The language of the prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.*

*Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes which are applicable to each Tranche (as defined below) of Notes will be set out in the final terms relating to the Notes (the "**Final Terms**") which, with respect to Notes to be listed on the Official List of Euronext Dublin, will be delivered to the Central Bank and, with respect to Notes to be listed on any other or further Stock Exchange, will be delivered to the relevant Stock Exchange.*

*The base terms and conditions of the Notes to be issued under the Programme (the "**Base Terms and Conditions**" or the "**Base Conditions**") will be completed by the relevant product specific terms and conditions applying to a particular type of Notes as set out in the applicable Chapters below (the "**Specific Terms and Conditions**" or the "**Specific Conditions**" and together with the Base Terms and Conditions, the "**Terms and Conditions of the Notes**" or the "**Conditions**"). The Terms and Conditions of the Notes to be issued under the Programme will be completed by the Final Terms.*

The Final Terms may specify that (a) Charged Agreement/Collateral Arrangements apply to the Secured Notes or (b) Collateral Arrangements Only apply to the Secured Notes. In the case of the Charged Agreement/Collateral Arrangements, the Final Terms will specify details of the Charged Agreement(s) under which the MBFL and the specified Counterparty will have payment and/or delivery obligations from time to time and this may lead to adjustments to the Collateral Assets from time to time. The Charged Agreement(s) may comprise a Transfer Agreement and a Credit Support Document specified in the Final Terms. In the case of Collateral Arrangements

Only, MBFL may have the right or obligation to adjust the Collateral Assets from time to time but there will be no Charged Agreement unless otherwise specified in the Final Terms.

Notes issued by MBFL issued under the Programme will have a denomination of at least EUR 100,000 (or, where the Notes issued by MBFL are denominated in a currency other than euro, the equivalent amount in such other currency).

The Notes have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), or any state securities laws, and may not be offered or sold within the United States or to, or for the account or benefit of, any U.S. person (as defined in Regulation S under the Securities Act) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. The Notes will be offered and sold in offshore transactions outside the United States in reliance on Regulation S under the Securities Act. The Notes will be in bearer form and as such are subject to certain U.S. tax law requirements.

Amounts payable under the Notes or assets deliverable under the Notes may be calculated by reference to EURIBOR, SONIA, SOFR, €STR, SARON or CMS which are respectively provided by the European Money Markets Institute ("EMMI") for EURIBOR, the Bank of England for SONIA, the Federal Reserve Bank of New York for SOFR, the European Central Bank for €STR, SIX Swiss Exchange AG for SARON and ICE Benchmark Administration Limited ("ICE") for CMS. At the date of this Base Prospectus, EMMI has been authorised as a regulated benchmark administrator pursuant to Article 34 of Regulation (EU) 2016/1011 (the "EU BMR") which forms part of the domestic law in the United Kingdom by virtue of the European Union (Withdrawal Act) 2018 (the "UK BMR") (together the "BMR") and appears on (i) the public register of administrators established and maintained by the European Securities and Markets Authority ("ESMA") pursuant to Article 36 of the EU BMR or (ii) the register of administrators and benchmarks established and maintained by the Financial Conduct Authority ("FCA") pursuant to Article 36 of the UK BMR. As at the date of this Base Prospectus SARON is provided by SIX Swiss Exchange AG and is endorsed for use in the European Union by SIX Financial Information Nordic AB. As at the date of this Base Prospectus, SIX Financial Information Nordic AB appears on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU BMR. As at the date of this Base Prospectus, ICE (as administrator of CMS), the Bank of England (as administrator of SONIA), the Federal Reserve Bank of New York (as administrator of SOFR), and the European Central Bank (as administrator of €STR) do not appear on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU BMR. As far the Issuers are aware, the transitional provisions in Article 51 of the EU BMR apply, such that ICE (as administrator of CMS) is not currently required to obtain authorization/registration (or, if located outside the European Union, recognition, endorsement or equivalence). As far as the Issuer is aware, SONIA, SOFR and €STR do not fall within the scope of the EU BMR by virtue of Article 2 of that Regulation.

Amounts payable under the Notes or assets deliverable under the Notes may also be determined by reference to an index or a combination of indices (other than EURIBOR, SONIA, SOFR, €STR, SARON or CMS). Any such index may constitute a benchmark for the purposes of the BMR. If any such index does constitute such a benchmark, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in (i) the register of administrators and benchmarks established and maintained by ESMA

pursuant to Article 36 of the EU BMR or (ii) the register of administrators and benchmarks established and maintained by the FCA pursuant to Article 36 of the UK BMR. Not every index will fall within the scope of the EU BMR or the UK BMR. Furthermore, transitional provisions in the Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the applicable Final Terms. The registration status of any administrator under the EU BMR or the UK BMR is a matter of public record and, save where required by applicable law, the relevant Issuer does not intend to update the applicable Final Terms to reflect any change in the registration status of the administrator.

Neither this Base Prospectus nor any financial statements are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by either of the Issuers, the Guarantor or any of the Dealers that any recipient of this Base Prospectus or any financial statements should purchase any Notes.

Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Base Prospectus and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Dealers undertakes to review the financial condition or affairs of the Issuers or the Guarantor during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers.

By investing in the Notes each investor represents that:

- (a) **Non-Reliance.** It is acting for its own account, and it has made its own independent decisions to invest in the Notes and as to whether the investment in the Notes is appropriate or proper for it based upon its own judgement and upon advice from such advisers as it has deemed necessary. It is not relying on any communication (written or oral) of the relevant Issuer or the Dealers as investment advice or as a recommendation to invest in the Notes, it being understood that information and explanations related to the terms and conditions of the Notes shall not be considered to be investment advice or a recommendation to invest in the Notes. No communication (written or oral) received from the relevant Issuer or the Dealers shall be deemed to be an assurance or guarantee as to the expected results of the investment in the Notes.*

It is also capable of assuming, and assumes, the risks of the investment in the Notes.*

STABILISATION

*In connection with the issue of any Tranche of Notes under the Programme, the Dealer or Dealers (if any) named as the stabilising manager(s) (the "**Stabilising Manager(s)**") (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) in accordance with all applicable laws and rules.*

*Notes may be issued on a continuous basis in series (each a "**Series**") having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Notes of each Series being intended to be interchangeable with all other Notes, as the case may be, of that Series. Each Series may be issued in tranches (each a "**Tranche**") on different issue dates. The specific terms of each Tranche (which save in respect of the issue date, issue price, first payment of interest and principal amount of the Tranche, will be identical to the terms of other Tranches of the same Series) will be set forth in the relevant Final Terms, the form of which is set out in Chapter 2 Part 2 "General Form of Final Terms for Notes" below and which will include, depending on the type of Notes that is being issued, the terms applicable to such form of Notes as are set out in the applicable Chapters below.*

IMPORTANT – EEA RETAIL INVESTORS *If the Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive 2016/97/EU, (as amended or superseded, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.*

IMPORTANT - UK RETAIL INVESTORS – *If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client,*

as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (“EUWA”); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act, 2000 (the “FSMA”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it form part of UK domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET The Final Terms in respect of any Notes will include a legend entitled "EEA MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**Distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the product governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

UK MIFIR PRODUCT GOVERNANCE / TARGET MARKET The Final Terms in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending such Notes (a "**Distributor**") should take into consideration the target market assessment; however, a distributor subject to Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA ("**UK MiFIR**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Notes issued as Green Bonds, Social Bonds, or Sustainability Bonds

None of the Dealers accepts any responsibility for any social, environmental and sustainability assessment of any Notes issued as Green Bonds, Social Bonds, or Sustainability Bonds or makes any representation or warranty or assurance whether such Notes will meet any investor expectations or requirements regarding such “green”,

“sustainable”, “social” or similar labels. None of the Dealers is responsible for the use of proceeds for any Notes issued as Green Bonds, Social Bonds, or Sustainability Bonds, nor the impact or monitoring of such use of proceeds. No representation or assurance is given by the Dealers as to the suitability or reliability of any opinion or certification of any third party made available in connection with an issue of Notes issued as Green Bonds, Social Bonds, or Sustainability Bonds, nor is any such opinion or certification a recommendation by any Dealer to buy, sell or hold any such Notes. In the event any such Notes are, or are intended to be, listed, or admitted to trading on a dedicated “green”, “sustainable”, “social” or other equivalently-labelled segment of a stock exchange or securities market, no representation or assurance is given by the Dealers that such listing or admission will be obtained or maintained for the lifetime of the Notes. No representation or assurance is given by the Dealers as to the suitability or reliability of the “Mediobanca Green and Sustainable Bond Framework”. For the avoidance of doubt, the “Mediobanca Green and Sustainable Bond Framework” is not incorporated in and/or does not form part of this Base Prospectus.

*In this Base Prospectus, unless otherwise specified or the context otherwise requires: references to "**Member State**" are references to Member States of the European Economic Area, references to "\$", "U.S.\$", "USD" and "US Dollars" are to the lawful currency of the United States of America; references to "CHF" and "Swiss Francs" are to the lawful currency of Switzerland; references to "**Euro**" are to the single currency introduced at the start of the third stage of the European Economic and Monetary Union pursuant to the Treaty establishing the European Community, as amended; references to "£", "**GBP**" and "**Pounds Sterling**" are to the lawful currency of the United Kingdom; and references to "**Yen**" are to the lawful currency of Japan.*

IMPORTANT INFORMATION RELATING TO PUBLIC OFFERS OF NOTES WHERE THERE IS NO EXEMPTION FROM THE OBLIGATION UNDER THE PROSPECTUS REGULATION TO PUBLISH A PROSPECTUS

Public Offers of Notes in the European Economic Area or in the UK

Certain Tranches of Notes with a denomination of less than EUR 100,000 (or its equivalent in any other currency) may, subject as provided below, be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to in this Base Prospectus as a "**Public Offer**". Subject as provided below, this Base Prospectus has been prepared on a basis that permits Public Offers of Notes in Member States of the European Economic Area. Any person making or intending to make a Public Offer of Notes in any Member State of the European Economic Area (each, a "**Relevant Member State**") may only do so if this Base Prospectus has been approved by the competent authority in that Relevant Member State (or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State) and published in accordance with the Prospectus Regulation, provided that the Issuer has consented to the use of this Base Prospectus in connection with such offer as provided under "Consent given in accordance with Article 5(1) of the Prospectus Regulation (Retail Cascades)" and the conditions attached to that consent are complied with by the person making the Public Offer of such Notes.

Notes issued by MBFL issued under the Programme will not be offered by way of a Public Offer.

The Issuers have requested the Central Bank to provide a certificate of approval in accordance with Article 25 of the Prospectus Regulation (a "**passport**") in relation to the passporting of the Base Prospectus to the competent authorities of Luxembourg, France and Republic of Italy (the "**Host Member States**"). Even though the Issuers have elected (or will elect) to passport this Base Prospectus into the Host Member States, it does not mean that it will choose to make any Public Offer in the Host Member States. Investors should refer to the Final Terms for any issue of Notes to see whether the Issuer has elected to make a public offer of Notes in either the Republic of Ireland or a Host Member State (each a "**Public Offer Jurisdiction**").

Each Issuer accepts responsibility in the Public Offer Jurisdictions for which it has given consent referred to herein for the content of this Base Prospectus in relation to any person (an "**Investor**") to whom an offer of any Notes is made by any financial intermediary to whom that Issuer has given its consent to use this Base Prospectus (such financial intermediary, an "**Authorised Offeror**"), where the offer is made during the period for which that consent is given and is in compliance with all other conditions attached to the giving of the consent, all as mentioned in this Base Prospectus. However, the Issuers do not have any responsibility for any of the actions of an Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

This Base Prospectus has not been approved by the UK Financial Conduct Authority (the "**FCA**") and has not been prepared on a basis that permits a Public Offer (within the meaning of the UK Prospectus Regulation) in the UK. The expression "**UK Prospectus Regulation**" means Regulation (EU) 2017/1129 as it forms part of "retained EU law", as defined in the EUWA.

Consent given in accordance with Article 5.1 of the Prospectus Regulation (Retail Cascades)

Any offer made without the consent of the relevant Issuer or the Guarantor (as applicable) is unauthorised and neither the relevant Issuer nor the Guarantor (as applicable), nor, for the avoidance of doubt, any of the Dealers accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

Final Terms or Drawdown Prospectus:

Notes issued under the Programme may be issued either (i) pursuant to this Base Prospectus and the relevant Final Terms or (ii) pursuant to a Drawdown Prospectus. The terms and conditions applicable to any particular Tranche of Notes are the Base Terms and Conditions of the Notes as completed by the relevant Specific Terms and Conditions relating to the relevant type of Notes and completed by the relevant Final Terms or, as the case may be, the relevant Drawdown Prospectus.

References in this General Description of the Structured Note Issuance Programme to the "Final Terms" shall, where applicable, be read as references to the Drawdown Prospectus relating to the Notes, as the case may be.

If the Notes are represented by one or more Global Notes, the relevant Final Terms will specify whether each Global Note is to be issued in New Global Note or in Classic Global Note form. Accordingly, all Notes of the same tranche shall be deposited by their owners with an intermediary participant in the relevant Centralised Custodian. The intermediary will in turn deposit the Notes with the Centralised Custodian.

In such circumstances, it will not be possible for a Noteholder to obtain physical delivery of certificates representing the Notes. Such adjustment will be as specified in the applicable Final Terms and/or the Charged Agreement(s) and may be in whole or in part and may be for cash or other assets. Such adjustment will be as specified in the applicable Final Terms and may be in whole or in part and may be for cash or other assets. Such adjustment may involve the Issuer or Counterparty topping up, removing, maintaining and/or substituting Collateral Assets and this may diminish or have an adverse effect on the value of the Collateral Assets in some circumstances.

RISK FACTORS

The Issuers and the Guarantor believe that the following factors may affect their ability to fulfil their obligations under Notes issued under the Programme and the Guarantee. Most of these factors are contingencies which may or may not occur and the Issuers and the Guarantor are not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuers and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuers and the Guarantor to pay interest, principal or other amounts on or in connection with any Notes or the Guarantee may occur for other reasons which may not be considered significant risks by the Issuers and the Guarantor based on information currently available to them or which they may not currently be able to anticipate.

Investors should be aware that they may lose the value of their entire investment or part of it, as the case may be.

The purchase of Notes involves substantial risks and is suitable only for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and the merits of an investment in the Notes. Before making an investment decision, prospective purchasers of Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risks and that they consider carefully, in the light of their own financial circumstances, financial condition and investment objectives, all the information set forth in this Base Prospectus and as supplemented from time to time.

No person has been authorised to give any information or make any representation not contained in or not consistent with the Base Prospectus and/or the Final Terms, or any other information supplied in connection with the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or the Dealer.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views, based upon their own judgement and upon advice from such financial, legal and tax advisers as they have deemed necessary, prior to making any investment decision.

Words and expressions defined in “Form of Final Terms” and “Terms and Conditions” or elsewhere in this Base Prospectus have the same meaning in this section. Prospective investors should read the entire Base Prospectus. In this section, “Issuer” refers to Mediobanca and/or to Mediobanca International and/or MBFL as appropriate.

1. Material Risks that are specific to the Issuers and that may affect the Issuers’ ability to fulfil their obligations under the Notes

The risks below have been classified into the following categories:

- (A) *Risks related to the business of the Issuer and the Mediobanca Group and to the sector in which they operate;*

(B) *Risks related to the financial situation of the Issuers and of the Mediobanca Group;*

(C) *Risks related to legal and regulatory scenario;*

(A) ***RISKS RELATED TO THE BUSINESS OF THE ISSUER AND THE MEDIOBANCA GROUP AND TO THE SECTOR IN WHICH THEY OPERATE.***

Systemic risks related to the economic/financial crisis, the impact of the current uncertainties in the macroeconomic scenario, and deriving from the Covid-19 pandemic and Russia/Ukraine conflict

The operations, earnings capacity and the stability of the sector of both the Issuer and the Mediobanca Group may be influenced by its/their credit standing, the general economic situation of the country of Italy and the entire Eurozone, trends on financial markets and the economic, social and financial consequences generated by the Covid-19 pandemic and the Russia/Ukraine conflict. With reference to financial markets, the solidity, resilience and growth prospects of the economies of the countries in which the Issuer operates in particular will be especially important.

The macroeconomic scenario is currently marked by considerable uncertainty in relation to: (a) the crisis generated by the pandemic, as described in more detail in the following sections; (b) the slowdown in the rate of growth following the recession caused by the pandemic, aggravated by the increase in inflationary pressures; and (c) the Russia/Ukraine conflict, which has caused volatility on financial markets and driven a spiral of inflation, as described in more detail in the following sections.

In relation to point (a) above, the spread of new variants or a return of the virus itself could impact further on the economic, social and financial situation of Italy and thus indirectly on the credit quality, capitalization and profitability of the Issuer which operates primarily on the Italian domestic market. As at 30 June 2022, loan loss provisions amounted to €242.6 million (compared to €248.8 million as at 30 June 2021), while the Group's cost of risk stood at 48 bps (compared with the 52 bps as at 30 June 2021). It should also be noted that as at 30 June 2022, the additional provisions or overlays of the Mediobanca Group had been maintained, in an amount equal to €293.9 million. These overlays have been provided: (i) for sectors particularly exposed to the risks posed by the pandemic scenario (i.e. corporate finance, leasing and factoring) and application of exceptions to contracts or moratoria on mortgage loans and corporate and leasing exposures; and (ii) for the corporate, leasing and factoring loan books.

In relation to point (c) above, the conflict in Ukraine has generated strong tensions on the energy and commodities markets, and in particular has driven sharp increases in the prices of gas, cereals and fertilizers. The Eurozone Harmonized Index of Consumer Prices rose from 1.9% year-over-year ("YoY") at end-June 2021 to 8.6% YoY at end-June 2022 (net of energy components and food commodities, the increase in the HICP was from 0.9% YoY to 3.7% YoY), reaching 9.1% YoY (4.3% YoY) in August as a result of further increases in the cost of natural gas and energy commodities in particular.

The Bank of Italy's surveys of firms' prospects confirm the estimates of rising energy costs, and the relevant trend for production costs to increase as a consequence. In Italy, the average six-monthly inflation figure recorded at

the start of the financial year was 1.0% YoY, which by end-2021 had trebled to 3.0% YoY, and doubled again by end-June 2022 to reach 6.7% YoY.

Although the Italian government has taken steps to find alternative energy suppliers in the Mediterranean basin and Africa, the country remains highly exposed due to its sizeable energy imports from Russia. In this scenario, the prospects for Italian growth continue to be strongly linked to developments in the Russia-Ukraine conflict and to the economic sanctions imposed on Russia in agreement with the allied countries.

Hence, as at the date of this Base Prospectus, the ongoing downward trend in the growth estimates for macroneconomic indicators, such as inflation, employment and private consumption indicators, coupled with the increase in volatility on financial markets, risks creating adverse repercussions on the earnings, capital and financial situation of the Isser and/or on the Group.

Credit and counterparty risk

The business activities of both Mediobanca and the Group and their earnings and financial solidity depend also on the credit standing of their respective clients and counterparties.

Mediobanca is exposed to the risks traditionally associated with credit activity. Accordingly, breach by its customers of contracts entered into and their own obligations, or the possible failure to provide information or the provisions of incorrect information by them regarding their respective financial and credit situation, could impact negatively on the earnings, capital and/or financial situation of Mediobanca.

The Group's portfolio has no material direct exposures versus the Russian Federation or Ukraine.

As at 30 June 2022, the Mediobanca Group had a gross NPL ratio (i.e. gross non-performing loans as a percentage of gross total customer loans) of 2.5%, compared with 3.2% for the same ratio as at 30 June 2021.

As at 30 June 2022, gross non-performing loans totalled €1,327.3 million (compared to €1,597.1 million as at 30 June 2021), and represent 2.5% of total loans. The reduction is chiefly due to Corporate & Investment Banking, as a result of certain UTP positions exiting non-performing status, and to Consumer Finance, which, compared to the financial period ended on 30 June 2021, has shown exceptionally low default rates (some 30% below pre-Covid levels) despite the stricter forbearance and UTP classification rules. The prudent provisioning policy has continued (the coverage ratio has risen from 64.9% to 71%), which is reflected in the reduction in net NPLs, from €560.2 million to €384.4 million, and now represent under 1% of total loans (down from 1.2% to 0.7%). Net bad debts amounted to €53.5 million, and represent 0.1% of total loans, with a coverage ratio of 87.2%. Non-performing loans do not include the NPLs acquired by the Group and managed by MBCredit Solutions, which during the financial year decreased from €383.7 million to €350.6 million.

With regard to loan concentration, as at 30 June 2022, gross aggregate exposures (including equity investments and those deriving from market risks) to a total of seven exposures were in excess of 10% of the regulatory capital (c.d. "*Patrimonio di Vigilanza di Classe I*") totalled €8.9 billion (€6.7 billion, taking collateral and weightings into account). The seven positions involve one industrial group, one insurance company, and five banking groups.

As at 30 June 2022, moratoria outstanding – recording including those which expired at the end of the financial year but for which repayment resumed in the following months – involved loans in a total amount of €22.4 million (0.1% of total gross loans). The moratoria outstanding regard CheBanca! mortgage loans as to €19.6 million, and SelmaBipiemme Leasing leases as to €2.7 million.

It should also be noted that as at end-June 2022, new loans supported by public guarantee schemes totalled €124 million, the majority of which involved the parent company Mediobanca S.p.A. (a total of four deals with SACE backing were granted under the terms of the “Liquidity” decree, for a total exposure of €86 million). Of the other deals backed by guarantees, €31 million are attributable to CheBanca! (granted to Italian firms and professionals/freelance workers under the “Liquidity” Decree), €2 million to CMB Monaco (which has received government support for eight clients), and €5 million to SelmaBipiemme Leasing (granted to SMEs under the “Liquidity” Decree).

Risks related to the 2023-26 Strategic Plan

On 24 May 2023, Mediobanca’s Board of Directors approved the guidelines of its 2023-26 Strategic Plan (the “**Strategic Plan**”) – and unveiled it to the financial community on the same date – based on the results achieved in the past four years.

The Strategic Plan contains certain targets to be reached by end-June 2026 (the “**Plan Objectives**”). The Plan Objectives include a growth of the Mediobanca Group in all the segments in which it operates (Wealth Management, Corporate & Investment Banking, Consumer Finance, Insurance, Holding Functions) in terms of (among others) profitable assets, revenues, earnings and profitability.

As at the date of this Base Prospectus, the Plan Objectives and strategic targets were generally confirmed.

As at the date of this Base Prospectus, the Issuers’ capability to implement the actions and to meet the Plan Objectives depends on a number of circumstances, some of which are beyond the Issuers’ control, including, but not limited to, the macroeconomic scenario, which could be compromised by the consequences deriving from the Covid-19 pandemic, the Russia/Ukraine conflict, the changes in the regulatory framework, and the effects of specific actions or concerning future events which the Issuers are only partially able to influence. However, there is no certainty that the actions provided for in the Strategic Plan will result in the benefits expected from implementation of the Plan Objectives; if such benefits fail to materialize, the results expected by the Mediobanca may differ, even materially, from those envisaged in the Strategic Plan.

Market risk

The Issuers are subject to market risk, defined as the risk of the loss of value of the financial instruments, including sovereign debt securities, held by the Issuers as a result of movements in market variables (including, but not limited, interest rates, stock market prices and/or exchange rates) or other factors that could trigger a deterioration in the capital solidity of the Issuers and/or the Group. Mediobanca calculates the Value at Risk (“**VaR**”) on a daily basis. VaR is a measurement of the market risk associated with a financial asset, of the positions held in its trading book, assuming a disposal period of a single trading day and a confidence level of 99%. The other

sensitivities (known as the “*Greeks*”) are measured in relation to risk factors such as interest rates, share prices, Exchange rates, credit spreads, inflation and volatility. Stress testing versus the main risk factors is also carried out, in order to pick up the impact which significant movements in the main market variables might have and *ad hoc* indicators are implemented to capture risks not measured by VaR.

Such fluctuations may be caused by political, economic and market considerations, the availability and cost of capital, the level and volatility of share and bond prices, the price of commodities, interest rates, credit spreads, the value of currencies and other market indicators, innovations and developments in the field of technology, the availability and cost of credit, inflation, and investors’ perception of and confidence in financial markets.

The financial year ended at 30 June 2022 has been characterized by a generalized increase in volatility in all asset classes due primarily to the effects of the Covid-19 pandemic and to the Russia/Ukraine conflict.

These have been compounded by the supply-side effects of the Russia/Ukraine conflict, which have been felt particularly strongly in Europe. The economic policy reaction in both the United States and Europe, based on support for aggregate demand, resulted in inflationary pressure which initially was considered to be temporary. The level of inflation and the possibility of the phenomenon which had started towards year-end 2021 persisting caused the central banks to take action, resulting in widespread increases in interest rates across the Western world. This drove a material increase in market interest rates and triggered volatility in forward rates. Stock markets reported consistent declines in the second half of the year, while commodity prices continued to remain high and also prone to strong volatility. As the conflict worsened, some breaches of the stop loss and VaR limits were recorded for certain financial instruments held by the Issuer.

The aggregate value-at-risk on the trading book for the year ended on 30 June 2022 ranged from a low of €3.6 million at the start of January 2022 to a high of €11.8 million recorded at the start of May 2022. The average reading of €6.1 million was 46% higher than the previous year’s average (€4.2 million). After the high recorded in May 2022, VaR remained highly volatile during the month of June 2022, reflecting an average reading of €6.2 million.

Operational risk

Operational risk is defined as the risk of incurring losses as a result of the inadequacy or malfunctioning of procedures, staff and IT systems, human error or external events.

The Issuer is exposed to different types of operational risk. The event types most impacted by operational risk are originated by products sold to clients, commercial practices, the execution of operating processes, and frauds committed from outside the Group.

Although the Mediobanca Group has adopted a system for recording, assessing and monitoring operational risks with a view to preventing and containing them, it should be noted that unpredictable events or events otherwise beyond the control of the Issuers could occur, which could impact negatively on the Issuers’ and the Group’s operating results, activities and earnings, capital and/or financial situation, as well as on their reputation.

The operating losses recorded in the twelve months account for approximately 0.4% of total income. Although no material losses were generated, there was an increase in certain instances (classes) of operational risk, such as outsourcing risk.

Operational risk does not include compliance risk – identified by the Issuer as a relevant risk and included in the section on “Other risks” on p. 357 of the audited consolidated annual financial statements as at and for the year ended 30 June 2022, incorporated in this Base Prospectus by reference – strategic risk or reputational risk.

Risks related to climate/environmental changes

The Issuers and the Group are exposed to risks related to climate and environmental change, which includes two main risk factors, referred to as physical risk and transition risk. Physical risk can have an adverse effect on both the Group’s assets (e.g. properties being damaged following severe weather events) and on those of its clients, with potential repercussions on, for example, assets used as collateral for loans granted. Transition risk can generate possible adverse repercussions on the performances of clients impacted by the transition to a low carbon emission-based and more sustainable economy.

Against the backdrop of a strongly and quickly changing regulatory scenario and the adoption by the European Commission of an ambitious package of measures to encourage the flow of capital towards sustainable activities throughout the European Union, the Mediobanca Group – since the start of 2021 – has launched a programme of ESG risk integration, disclosure and financial sustainability of products, and alignment to the European taxonomy regulation. Phase 1 was completed in June 2022, whereas Phase 2 has the following objectives: (i) performance of the actions included in the plan sent to the ECB in May 2021; (ii) completion of the process of adapting the Group’s operations to meet the obligations introduced by the EU Sustainable Finance Disclosure Regulation (SFDR) and MiFID II); (iii) definition of the preparatory activities for making the first disclosure in relation to the Sustainable Finance Taxonomy Regulation (as defined below) based on the business areas impacted by the regulations.

In accordance with the climate change objectives included in its Strategic Plan, the Mediobanca Group, which was already a member of the so-called Global Compact, has also signed up to the Net-Zero Banking Alliance (NZBA), with the objective of achieving net zero emissions by 2050. Furthermore, the Mediobanca Group recognizes the importance of a balanced distribution of the value created from the activities it carries out *versus* its own stakeholders, value which the stakeholders themselves have directly or indirectly contributed towards creating; for this reason it has decided to publish the economic value it has generated and distributed, calculated in accordance with the Italian Banking Association’s instructions by restating the various items of the consolidated profit and loss account.

The Mediobanca Group has been called to perform a stress test on climate risks operated by the European Central Bank in 2022 to identify the weaknesses of banks on risk factors related to climate change and whose results will be part of the 2022 Supervisory Review and Evaluation Process (“SREP”) prudential evaluation.

The possibility of the adoption of new policies for climate and environmental risk, the future development of the areas of intervention in ESG and sustainable growth terms, and changing consumer preferences and market confidence impacting adversely on the operating results and on the earnings, capital and/or financial situation of the Issuers and the Group cannot be ruled out.

IT and Cyber Risk

IT risk is defined as the risk of incurring losses in terms of earnings, reputation and market share in relation to the use of the company's information system and in relation to malfunctions in terms of hardware, software and networks.

Cyber risk is defined as a type of IT risk relating to cyber security aspects and involving risks deriving from cyber attacks.

Although they do not constitute new risks as such, significant exposure to them can doubtless be expected, because of the increasing dependence on computer systems (and the consequent increase in the numbers of users using online channels and interconnected devices), the growing quantity of data managed (which requires quality protection), and the increasing use of IT services provided by third parties.

It is also worth noting that, with update no. 40th of 3 November 2022, the Circular No. 285 was amended in order to implement the EBA Guidelines on ICT and security risk management. Among the others, as of 30 June 2023, Italian banks (thus including Mediobanca) would be required to set up a second-level control function to manage and monitor over the risks associate with ICT and security. Alternatively, upon bank's decision, such tasks may be assigned to the pre-existing risk management and control functions, in line with the roles, responsibilities and competences of each of those functions, and provided that the relevant monitoring and managing activities would be properly performed and the technical competences requirements would be duly met. Italian banks are required to submit to the Bank of Italy a communication, describing the planned steps to be taken and the arrangements to be implemented to be compliant with these recently introduced changes, by 1 September 2023.

(B) RISKS RELATED TO THE FINANCIAL SITUATION OF THE ISSUERS AND OF THE MEDIOBANCA GROUP

Liquidity Risk

Liquidity risk is defined as the risk of each Issuer not being able to meet its own payment obligations as and when they fall due, as a result of an inability to raise the necessary funds on the market (funding liquidity risk), or to difficulties in selling its own assets to meet them except by making a loss on them (market liquidity risk). Liquidity risk has different timing profiles, as follows: (i) the current or potential of the each Issuer being unable to manage its own liquidity needs effectively in the short-term (so called liquidity risk); and (ii) the risk of each Issuer not having stable sources of funding over the medium and long term, making it unable to meet its own financial obligations without an excessive increase in the cost of funding (so called funding risk).

The Issuers' liquidity may be affected by: (i) volatility on domestic and international markets; (ii) adverse changes in the general economic scenario; (iii) market situations, such as it being temporarily impossible to access the

market by issuing shares; and (iv) changes in the relevant Issuer's credit rating, i.e. its degree of earnings/financial reliability, which affects market liquidity risk as described above. All these circumstances could arise as a result of causes independent of the relevant Issuer, such as market turbulence, impacting negatively on its risk profile.

The Liquidity Coverage Ratio (“**LCR**”) as at 30 June 2022 was 159% (compared to 158% as at 30 June 2021), including the prudential estimate of “additional liquidity outflows for other products and services” in accordance with Article 23 of Commission Delegated Regulation (EU) 2015/61; i.e. well above the minimum requirement of 100% set by the regulators as of 1 January 2018. The Net Stable Funding Ratio (“**NSFR**”) as at 30 June 2022 stood at 115% (compared to 116% as at 30 June 2021); i.e. higher than the minimum requirement of 100% introduced starting from 2021.

The LCR and NSFR are liquidity indicators. The LCR serves to maintain a liquidity buffer that will enable the Issuers to survive for a period of thirty days in the event of exceptionally stressful circumstances, while the NSFR records structural liquidity, ensuring that assets and liabilities retain a sustainable structure in terms of maturities.

The Group's participation in TLTROs (i.e. operations whereby credit institutions in the Eurozone can receive finance for up to 3 years on advantageous terms, in order to improve credit market conditions and stimulate the real economy) with the European Central Bank (the “**ECB**”) at 30 June 2022 amounted to €8.4 billion (€7.4 billion at 30 June 2021). The interest rate offered on this instrument was made attractive during the Covid-19 pandemic to address the downside risks associated with price stability. However, since 23 November 2022, the rate has had to be recalibrated in view of the persistent inflation, to normalize monetary policy.

Sovereign exposure risk

Mediobanca is exposed to movements in government securities, in particular to Italian sovereign debt securities.

As at 30 June 2022, the aggregate exposure to sovereign states held by the Mediobanca Group amounted to €4.3 billion, of which €1.14 billion booked at fair value, and €3.29 billion at amortized cost, with €0.3 billion in securities held by other banks in the Mediobanca Group. At the same date, the aggregate exposure to Italian government securities was €3.79 billion, representing 25.6% of the Group's total financial assets and 4% of the total assets (unchanged versus end-June 2021). The average duration of the exposures was approximately four years. As at 30 June 2021, the same exposure reflected a book value of €3.87 billion (€2.09 billion recognized at fair value and €1.78 billion at amortized cost).

Tensions in sovereign debt securities, with reference in particular to any deterioration in the spread on Italian government securities relative to those of other European member states, and any combined actions by the leading rating agencies that would result in the rating for Italian sovereign debt being downgraded to below investment grade level, may impact negatively on the Mediobanca's portfolio, its capital ratios and liquidity position.

Risk related to court and arbitration proceedings

The risk deriving from court and arbitration proceedings for Mediobanca consists of a reputational risk, i.e. the damages that Mediobanca could incur if one or more of the rulings in the court and arbitration proceedings in

which Mediobanca is involved generates a negative perception of Mediobanca and/or the Group on the part of clients, counterparties, shareholders, investors or the supervisory authorities.

As at the date hereof, Mediobanca and its Group companies are not, or have not been, involved in proceedings initiated by the public authorities, legal disputes or arbitrations which could have or which have, in the recent past, had significant consequences for the Mediobanca's or the Group's financial position or profitability.

As at 30 June 2022, the main legal proceedings pending that involve Mediobanca include two claims for damages and thirteen tax disputes. It is believed that the provision for risks and charges (which as at 30 June 2022 amounted to €137.8 million), is sufficient to cover any charges relating to the cases that have been brought against Mediobanca and the other Group companies, and to cover other contingent liabilities (as at 30 June 2022 the provision included €114 million for litigation and other contingent liabilities).

(C) RISKS RELATED TO LEGAL AND REGULATORY SCENARIO

Changes in the Italian and European regulatory framework could adversely affect the Issuer's business

Mediobanca is subject to extensive regulation and supervision by the Bank of Italy, the *Commissione Nazionale per le Società e la Borsa* (the Italian securities market regulator or “**CONSOB**”) the European Central Bank and the European System of Central Banks. Mediobanca International is subject to extensive regulation and supervision by the CSSF, the European Central Bank and the European System of Central Banks.

The banking laws to which the Issuers are subject govern the activities in which banks and foundations may engage and are designed to maintain the safety and soundness of banks, and limit their exposure to risk. In addition, the Issuers must comply with financial services laws that govern their marketing and selling practices. The regulatory framework governing the international financial markets is currently being amended in response to the credit crisis, and new legislation and regulations are being introduced in Italy and the Grand Duchy of Luxembourg and could significantly alter the Issuers' capital requirements. In addition, any significant regulatory action against a member of the Mediobanca Group could lead to financial losses, as a result of regulatory fines, reprimands or litigations, and, in extreme scenarios, to the suspension of operations or even withdrawal of authorizations, thus having a material adverse effect on Mediobanca Group's business, results of operations and its financial condition, which would be reflected in the Mediobanca Group's consolidated results.

The supervisory authorities mentioned above govern various aspects of the Issuers, which may include, among other things, liquidity levels and capital adequacy, the prevention and combating of money laundering, privacy protection, ensuring transparency and fairness in customer relations and registration and reporting obligations. In order to operate in compliance with these regulations, the Issuers have in place specific procedures and internal policies. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect the Group's results of operations, business and financial condition. The above risks are compounded by the fact that, as at the date of this Base Prospectus, certain laws and regulations have only been approved and the relevant implementation procedures are still in the process of being developed.

Risks related to major regulatory changes

Mediobanca is subject to extensive and strict EU and Italian regulation, which concerns and comprises supervisory activity by the competent authorities (i.e. the ECB, Bank of Italy and Consob). Such regulations - and this also applies to the supervisory activity - are subject to ongoing revisions and changes in practice. The applicable regulations govern the sectors in which banks may operate, in order to safeguard their stability and solidity, limiting the exposure to risk. In particular, Mediobanca and the banking companies of the Group are required to comply with the capital adequacy requirements instituted by the EU regulations and by Italian law. Furthermore, as a listed issuer, Mediobanca is also required to comply with the regulations provided by Consob in this area on subjects such as, *inter alia*, anti-money-laundering, usury and protection of consumer rights.

Any changes to the regulations and/or the means by which they are interpreted and/or applied by the competent authorities, could result in additional charges and obligations to be fulfilled by Mediobanca, which could impact negatively on such Issuer's operating results and its earnings, capital and financial situation.

Starting from 1 January 2014, a part of the supervisory rules has been amended on the grounds of the directions deriving from the so-called Basel III agreements, mainly with the purpose to significantly strengthen the minimum capital requirements, the restraint of the leverage degree and the introduction of policies and quantitative rules for the mitigation of the liquidity risk of the banks.

As at the date of this Base Prospectus, banks must meet the own funds requirements provided by article 92 of the CRD IV Regulation, as amended by the CRR II (as both defined below): (i) the Common Equity Tier 1 Ratio must be equal to at least 4.5 per cent. of the total risk exposure amount of the bank; (ii) the Tier 1 Ratio must be equal to at least 6 per cent. of the total risk exposure amount of the bank; (iii) the Total Capital Ratio must be equal to at least 8 per cent. of the total risk exposure amount of the bank; and (iv) the Leverage Ratio must be equal to at least 3 per cent. of the Tier 1 Ratio divided by the total exposures amount of the bank. In addition to the minimum regulatory requirements, banks must meet the Combined Buffer Requirements (as defined below) provided by the CRD IV Directive (as defined below).

For a description of the CRD IV Package applicable to Mediobanca Group please see "*Regulatory Aspects – Basel III and CRD IV Package*".

As for the capital requirements, the prudential provisions in force provide for minimum capitalisation levels. In particular, the banks are required to have a Common Equity Tier 1 (CET 1) ratio at least equal to 7% of the risk-weighted assets, a Tier 1 ratio equal at least to 8.5% of the risk-weighted assets and a Total Capital ratio equal at least to 10.5% of said risk-weighted assets (such minimum levels include the so-called "capital conservation buffer", namely "a "buffer" of further mandatory capitalisation).

Mediobanca, as a bank of significant importance for the European financial system, is subject to direct supervision of the ECB. Following the SREP the ECB provides, on an annual basis, a final decision of the capital requirement that Mediobanca must comply with at consolidated level (the "**SREP Decision**").

For the years 2021 and 2022, Mediobanca received a SREP Decision respectively on 17 November 2020 and on 24 January 2022. On 24 January 2022, Mediobanca has received the following minimum requirements to comply with:

• Minimum requirement (CRR Article 92)	8.00%
— of which CET1	4.50%
— of which T1	6.00%
— of which Total capital	8.00%
• P2R (SREP Decision)	1.58%
— of which CET1	0.89%
— of which T1	1.19%
— of which Total capital	1.58%
• Capital conservation buffer (CRD IV)	2.50%
• Minimum total CET1 requirement	7.89%
• Minimum total Tier 1 requirement	9.69%
• Minimum total capital requirement	12.08%

On 30 June 2021, in respect of Mediobanca the CET 1 ratio was 16.31%, the T1 ratio 16.31%, and the total capital ratio 18.91%, while as of 30 June 2022 the same ratios were 15.67%, 15.67% and 17.62%, respectively. The CET 1 ratio reduction is attributable to the buy back plan ended during the previous financial year. In terms of actual figures, as at 30 June 2022, the CET1 and Tier 2 totalled €7,894.3 million and €980.1 million respectively; the CET1 ratio stood at 15.67% (versus 16.31% at 30 June 2021). The ratio fully loaded without applying the Danish Compromise, i.e. with the Assicurazioni Generali deducted in full, and the IFRS 9 also fully applied, would be 14.50% (15.08% as at 30 June 2021), while the total capital ratio would decrease from 18.91% to 17.62% (16.69% fully loaded). Furthermore, as at 30 June 2022, risk-weighted assets (“**RWA**”s)¹ totalled €50,378.0 million, higher than the €47,159.3 million reported the previous financial year, as a result of the new prudential treatment for the Assicurazioni Generali investment (which added €1.4 billion) plus higher loans in CIB (up €700 million),

¹ RWAs are calculated using the standard and internal ratings based (“**IRB**”) methods for credit risk; the standard method for market risk, and the basic method for operational risks.

Consumer Finance (up €900 million), and Private Banking (up €400 million). Any deterioration in the above prudential requisites could impact, even significantly, on the integrity and operating performance of Mediobanca.

For 2023, on 14 December 2022 Mediobanca received the final SREP decision according to which the P2R requirement is set at 1.68%. The activities performed in 2022 in connection with the SREP should in any case entail a small increase in the capital requirement for Mediobanca imposed by the ECB, in view of the future uncertainties, and of the fact that such requirement has not been modified in the last few years.

For a description of the Pillar 2 requirements applicable to Mediobanca Group please see “*Regulatory Aspects – Capital Requirements*” of this Base Prospectus.

It should be noted that, on 12 March 2020, the ECB, taking into account the economic effects of the coronavirus (COVID-19), announced certain measures aimed at ensuring that banks, under its direct supervision, are still able to provide credit support to the real economy.

Considering that the European banking sector acquired a significant amount of capital reserves (with the aim of enabling banks to face with stressful situations such as the COVID-19), the ECB allows banks to operate temporarily below the capital level defined by the "Pillar 2 Guidance (P2G)" and the "capital conservation buffer (CCB)". Furthermore, the ECB expects these temporary measures to be further improved by an appropriate revision of the countercyclical capital buffer (CCyB) by the competent national authorities.

On 10 February 2022 the ECB announced that it did not see it as necessary to allow banks to operate below the level of capital defined by their Pillar 2 Guidance beyond December 2022, nor to extend beyond March 2022 the supervisory measure that allow them to exclude central bank exposure from their leverage ratios. Therefore, banks are: (i) expected to operate above Pillar 2 Guidance from 1 January 2023; (ii) re-include central bank exposures in leverage ratio from 1 April 2022; and (iii) have ample headroom above capital and leverage ratio requirements.

Moreover, due to the COVID-19 outbreak, with the Recommendation of 27 March 2020, the ECB recommended that at least until 1 October 2020 no dividends are paid out and no irrevocable commitment to pay out dividends is undertaken by the credit institutions for the financial year 2019 and 2020 and that credit institutions refrain from share buy-backs aimed at remunerating shareholders. The ECB decided to extend the recommendation on dividends until 30 September 2021 with the Recommendation ECB/2020/62 that repeals Recommendation ECB 2020/19 of 27 March 2020 and Recommendation ECB 2020/35 of 27 July 2020. On 23 July 2021, the ECB decided not to extend dividend recommendation beyond September 2021, but published a new Recommendation ECB/2021/31. In particular, Recommendation ECB/2021/31 states that the ECB considered that the reduced economic uncertainty allows the supervisory assessment of the prudence of bank’s plans to distribute dividends and conduct share buybacks on an individual basis with a careful forward-looking assessment of capital plans in the context of the normal supervisory cycle.

As for the liquidity, the European rules envisage, inter alia, a short-term indicator (Liquidity Coverage Ratio or “**LCR**”), aimed at creating and maintaining a liquidity buffer able to allow the survival of the bank for a period of thirty days in case of serious market stress, and a structural liquidity indicator (Net Stable Funding Ratio or

“NSFR”) with a temporal horizon longer than a year, introduced to ensure that the assets and liabilities have a sustainable maturity structure.

The Mediobanca Group’s liquidity and long-term viability depends on many factors including its ability to successfully raise capital and secure appropriate financing. Should Mediobanca Group not be able to implement the approach to capital requirements it considers optimal in order to meet the capital requirements imposed by the CRD IV Package (as amended by the Banking Reform Package), it may be required to maintain levels of capital which could potentially impact its credit ratings, funding conditions and limit Mediobanca’s growth opportunities.

Both indicators of the Mediobanca Group are widely above the minimum limits provided by the abovementioned provisions of law.

Furthermore, the Banking Reform Package introduced the financial Leverage Ratio, which measures the coverage degree of Class 1 Capital compared to the total exposure of the Mediobanca Group. Such index is calculated by considering the assets and exposures out of the budget. The objective of the indicator is to contain the degree of indebtedness in the balance sheets of the banks. The ratio is subject to a minimum regulatory limit of 3%.

The Mediobanca Group’s leverage ratio, calculated without excluding exposures to central banks, on 30 June 2022 stood at 8.4% (9.1% as at 30 June 2021). The reduction since end-June 2021 is due to the increase in exposures due to the higher treasury assets.

Depending on the outcomes of the legislative process underway in Europe, Mediobanca might be compelled to adapt to changes in the regulations (and in their construction and/or implementation procedures adopted by the supervisory authorities), with potential adverse effects on its assets, liabilities and financial situation. In particular, investors should consider that supervisory authorities may impose further requirements and/or parameters for the purpose of calculating capital adequacy requirements or may adopt interpretation approaches of the legislation governing prudential fund requirements unfavourable to Mediobanca, with consequent inability of Mediobanca to comply with the requirements imposed and with a potential negative impact, even material, on the business and capital, economic and financial conditions.

In light of that, Mediobanca has in place specific procedures and internal policies - in accordance with the regulatory frameworks defined by domestic and European supervisory authorities and consistent with the regulatory framework being implemented at the European Union level - to monitor, among other things, liquidity levels and capital adequacy. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect Mediobanca’s results of operations, business and financial condition. In particular, as at the date of this Base Prospectus, the EU Banking Reform Package has been recently implemented in Italy and there is uncertainty as to its implementation and interpretation, and it is not yet clear what impact the changes introduced by the Banking Reform Package will have on Mediobanca’s operations. Moreover, as at the date of this Base Prospectus, the Bank of Italy’s authority to introduce a systemic risk buffer and borrower based measures has recently been introduced into the Circular No. 285 (as defined below) and there is uncertainty as to how (and if) the Italian regulator would exercise such authority. Therefore, it is not yet clear what impact these regulatory changes will have on Mediobanca’s operations. Finally, as at the date of

this Base Prospectus, the 2021 Reform Package (as defined below) has recently been proposed by the European Commission and there is uncertainty as to adoption and implementation, and it is not yet clear how and to what extent this legislative proposal may impact on Mediobanca's operations.

For a description of the Banking Reform Package applicable to Mediobanca Group please see "*Regulatory Aspects – Revision to the CRD IV Package*".

In this context, a few other relevant provisions are the implementation of Directives 2014/49/EU (*Deposit Guarantee Schemes Directive*) of 16 April 2014 and the adoption of the (EU) Regulation no. 806/2014 of the European Parliament and the Council of 15 July 2014 (*Single Resolution Mechanism Regulation*, – so-called "**SRMR**"), which may determine a significant impact on the economic and financial position of the Mediobanca and the Mediobanca Group, as such rules set the obligation to create specific funds with financial resources that shall be provided, starting from 2015, by means of contributions by the credit institutions.

Investors should also consider that it cannot be excluded that in the future Mediobanca may be required, in particular in light of external factors and unforeseeable events outside its control and/or after further requests by the supervisory authority, to implement capital enhancement interventions; there is also a risk that Mediobanca may not be able to achieve and/or maintain (both at individual and consolidated level) the minimum capital requirements provided for by the legislation in force from time to time or established from time to time by the supervisory authority in the times prescribed therein, with potential material negative impact on its business and capital, economic and financial condition.

In these circumstances, it cannot be excluded that Mediobanca may be subject to extraordinary actions and/or measures by competent authorities, which may include, inter alia, the application of the resolution tools as per the BRRD Decrees (as defined below). In particular, the impact of the resolution tools provided for by the BRRD Decrees on the rights of the Noteholders are further described in the section "*Regulatory Aspects*". In this respect, please see "*Regulatory Aspects - The Bank Recovery and Resolution Directive*" and see "*Regulatory Aspects – Revision to the BRRD framework*" of this Base Prospectus.

On 15 October 2013, the Council of the European Union adopted the Council Regulation (EU) No. 1024/2013 granting specific tasks to the ECB as per prudential supervision policies of credit institutions (the "**SSM Regulation**") in order to establish a single supervisory mechanism (the "**Single Supervisory Mechanism**" or "**SSM**"). From 4 November 2014, the SSM Regulation has given the ECB, in conjunction with the national regulatory authorities of the Eurozone and participating Member States, direct supervisory responsibility over "banks of significant importance" in the Eurozone.

In this respect, "banks of significant importance" include any Eurozone bank in relation to which (i) the total value of its assets exceeds €30 billion or – unless the total value of its assets is below €5 billion – the ratio of its total assets over the national gross domestic product exceeds 20%; (ii) is one of the three most significant credit institutions established in a Member State; (iii) has requested, or is a recipient of, direct assistance from the European Financial Stability Facility or the European Stability Mechanism; (iv) is considered by the ECB to be

of significant relevance where it has established banking subsidiaries in more than one participating Member State and its cross-border assets/liabilities represent a significant part of its total assets/liabilities.

Notwithstanding the fulfilment of the relevant criteria, the ECB, on its own initiative after consulting with each national competent authority or upon request by a national competent authority, may declare an institution significant to ensure the consistent application of high-quality supervisory standards. Mediobanca has been classified as a significant supervised entity within the meaning of Regulation (EU) No. 468/2014 of the European Central Bank of 16 April 2014 establishing the framework for co-operation within the Single Supervisory Mechanism between the European Central Bank and each national competent authority and with national designated authorities (the “**SSM Framework Regulation**”) and, as such, is subject to direct prudential supervision by the ECB in respect of the functions granted to ECB by the SSM Regulation and the SSM Framework Regulation.

For further details, please see “*Regulatory Aspects*”. In this respect, please see “*Regulatory Aspects – ECB Single Supervisory Mechanism*”.

Mediobanca undertakes to comply with the set of laws and regulations applicable to the Group. Failure to do so, or changes to the regulations and/or to the means of interpreting and/or applying them made by the competent national regulatory authorities could entail possible adverse impacts (including the possibility of legal proceedings being initiated against the Group) on the operating results and on the earnings, capital and financial situation of Mediobanca and the Group.

Risks related to changes in the regulations on non-performing loans

Mediobanca, in its capacity as Issuer, is bound to comply and align itself with changes in the regulation on non-performing exposures (“**NPEs**”), at both national and supranational levels. Despite undertaking to meet the deadlines for alignment and comply with the new obligations introduced, the ongoing changes in the regulations and/or ways in which they are interpreted and/or applied by the competent authorities, could give rise to new charges and obligations on the part of Mediobanca, with a potentially negative impact on such Issuer’s operating results and its earnings, capital and financial situation. In particular fresh regulatory capital may be absorbed, resulting in changes to the capital ratios.

The recently introduced banking reforms as well as other laws and regulations that may be adopted in the future could adversely affect the Issuer’s business, financial condition, results of operations and cash flow.

Risks related to changes in fiscal law

The Issuers are subject to risks associated with changes in tax law or in the interpretation of tax law, changes in tax rates and consequences arising from non-compliance with procedures required by tax authorities. Any legislative changes affecting the calculation of taxes could therefore have an impact on the Issuers’ financial condition, results of operations and cash flow.

With particular reference to Mediobanca, Mediobanca is required to pay Italian corporate income taxes (“**IRES**”) pursuant to Title II of Italian Presidential Decree no. 917 of 22 December 1986 (*i.e.* the Consolidated Income Tax Law, or “**TUIR**”) and the Italian regional business tax (“**IRAP**”) pursuant to Legislative Decree no. 446 of 15 December 1997, and the amount of taxes due and payable by Mediobanca may be affected by tax benefits from time to time available.

Mediobanca can benefit from the stimulus provisions introduced by way of article 1 of Italian Law Decree no. 201 of 6 December 2011, as amended and converted into Law no. 214 of 22 December 2011, concerning “economic-growth allowances” (*aiuto alla crescita economica*, or “**ACE**”) if all the conditions provided by the above-mentioned Law are met. The ACE rules allow for a deduction from net income for the purposes of IRES of an amount computed by applying a notional yield at a rate of 1.3% from 2019 onwards to the increase in net equity (the “**ACE Base**”). The ACE base is, for the first year of application of ACE (*i.e.* 2011), the amount of equity existing at close of that year less the amount of equity as of 31 December 2010 (excluding profits earned in 2010) and, for subsequent years, the base carried forward from the previous year as adjusted (increased and reduced) to reflect components affecting equity.

In accordance with article 3 of the Italian Ministerial Decree of 3 August 2017 revising the implementing provisions of the ACE legislation, if the amount of the notional yield (*i.e.* the ACE deduction) exceeds net income declared for a given tax year (the “**Excess ACE**”), such excess (i) may increase the amount deductible from income in subsequent tax years without time or amount limits, or (ii) may be converted into a tax credit calculated by applying the IRES tax rate, as per article 77 of the TUIR, to the Excess ACE amount and then utilised in five annual instalments of equal amount as an offset to IRAP up to the amount of tax due for the period.

From time to time, the Italian budget law may also include provisions that affect the deductibility of particular items that could result in an increase in the taxable income of the Issuer for IRES and/or IRAP purposes, either in general or for specific tax period(s).

The transposition of the Anti-Tax Avoidance Directives in Luxembourg law could have an impact on the tax position of Mediobanca International (including its performance) and on MBFL

As part of its anti-tax avoidance package, and to provide a framework for a harmonised implementation of a number of the BEPS conclusions across the EU, the EU Council adopted Council Directive (EU) 2016/1164 (“**ATAD 1**”) on 12 July 2016. The EU Council further adopted Council Directive (EU) 2017/952 (“**ATAD 2**”) and, together with ATAD 1, “**ATAD**”) on 29 May 2017, amending ATAD 1, to provide for minimum standards for counteracting hybrid mismatches involving EU member states and third countries.

In this respect, the Luxembourg law dated 21 December 2018 (the “**ATAD 1 Law**”) transposed the ATAD 1 into Luxembourg legislation. Amongst the measures contained in the ATAD 1 Law is an interest deductibility limitation rule.

The interest deduction limitation rule set out by ATAD 1 has been implemented in article 168bis of the

Luxembourg income tax law (“LITL”) effective as of 1 January 2019, which restrict, for a Luxembourg taxpayer, the deduction of net interest expenses qualifying as “exceeding borrowing costs” to the higher of (i) 30 per cent. of the taxpayer’s EBITDA or (ii) €3 million.

Exceeding borrowing costs are defined as the amount by which the deductible borrowing costs of a taxpayer exceeds the taxpayer’s taxable interest revenues and other economically equivalent taxable income of the taxpayer. Exceeding borrowing costs not deductible in a tax period can be carried forward indefinitely. The same applies to a taxpayer’s excess interest capacity which cannot be used in a given tax period (however, such excess interest capacity can only be carried forward for a maximum period of 5 years).

Financial undertakings, such as credit institutions, are excluded from the scope of the interest limitation rule, hence, considering that Mediobanca International is a credit institution within the meaning of the law dated 5 April 1993, it is not impacted by this interest limitation rule. That being said, MBFL may be impacted by the interest limitation rule.

EU Anti-Tax Avoidance Directives also contain rules relating to so-called hybrid mismatches. Luxembourg implemented the anti-hybrid mismatch rules under ATAD 2 in article 168ter of the LITL with effect as of 1 January 2020, except for the measures related to reverse hybrid mismatches which apply as from fiscal year 2022.

As per article 168ter of the LITL, a hybrid mismatch arises when a payment between entities located in different states results in a double deduction or a deduction without inclusion. In the event of a double deduction, the deriving hybrid mismatch should be adjusted by denying the deduction at the level of either (i) the payee or (ii) the payor (provided that the deduction has not already been denied at the level of the payee). In the event of a deduction without inclusion, the deriving hybrid mismatch shall be adjusted by means of either (i) the denial of the deduction at the level of the payor or (ii) the inclusion of the payment in the taxable income of the payee (provided that the deduction has not already been denied at the level of the payor).

A hybrid mismatch occurs only if it arises either (i) between "associated enterprises" or in the case of “acting together”, (ii) a taxpayer and an associated enterprise, (iii) head office and permanent establishment, (iv) two or more permanent establishments of the same entity or (v) in the case of a structured arrangement.

The impact of ATAD 2 depends on the tax treatment at the level of the relevant holder of Notes and may alter the tax position and hence the performance of Mediobanca International and MBFL.

2. Risks relating to the Notes

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme.

(A) GENERAL

The Notes may not be a suitable investment for all Investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) proceed with investment only after fully appreciating the risks inherent in the nature of the Notes;
- (ii) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (iii) evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behavior of any relevant indices and financial markets;
- (v) consider all of the risks of an investment in the Notes, including Notes with payments thereunder payable in one or more currencies, or where the currency for payments thereunder is different from the potential investor's currency; and
- (vi) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes;
- (vii) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

In addition, an investment in Share Linked Notes, Index Linked Notes, Fund Linked Notes, Credit Linked Notes, Inflation Linked Notes, Physical Delivery Notes, Commodity Linked Notes, FX Linked Notes, Interest Rate Linked Notes and Debt Linked Notes may entail significant risks not associated with investments in conventional securities such as debt or equity securities, including, but not limited to, the risks set out in "*Risks related to the structure of a particular issue of Notes*" set out below.

The Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios.

A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Risks related to the structure of a particular Issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common risks.

The Notes involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Purchasers should be prepared to sustain a partial or total loss of the purchase price of their Notes. This risk reflects the nature of a Note as an asset which, other factors held constant, tends to decline in value over time and which may become worthless on maturity. See "*Certain Factors Affecting the Value and*

Trading Price of Notes" below. Prospective purchasers of Notes should be experienced with respect to options and option transactions, should understand the risks of transactions involving the relevant Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Notes in light of their particular financial circumstances, the information set forth herein and the information regarding the relevant Notes and the particular share (or basket of shares), index (or basket of indices), fund (or basket of funds), reference entity (or reference entities), inflation rate, commodity (or basket of commodities), debt instrument (or basket of debt instruments), interest rate (or basket of interest rates), currency exchange rate or foreign exchange rate to which the value of the relevant Notes may relate, as specified in the applicable Final Terms (each an "**Underlying Reference**"). Each Issuer may also issue Notes linked to the credit of a specified entity (or entities) (each such entity "a **Reference Entity**" and, where the context admits, each an "**Underlying Reference**").

Notes linked to Underlying Reference(s) will represent an investment linked to the economic performance of the relevant Underlying Reference(s) and potential investors should note that the return (if any) on their investment in such Notes will depend upon the performance of such Underlying Reference(s). Notes linked to the difference in performance between two Underlying References (in case of Multiple Final Payout - Performance Differential Notes) will represent an investment linked to the difference between the economic performance of the relevant Underlying Reference(s) and potential investors should note that the return (if any) on their investment in such Notes will depend upon the relative performance of such Underlying References. Potential investors should also note that whilst the market value of such Notes is linked to such Underlying Reference(s) and will be influenced (positively or negatively) by such Underlying Reference(s), any change in the market value of such Notes may not be comparable to changes in the market value of the Underlying Reference(s). It is impossible to predict how the market value of the relevant Underlying Reference(s) will vary over time.

The exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements. Potential investors should be aware that under the terms of Underlying Reference linked Notes they are exposed to the performance of these hedging arrangements and the events that may affect these hedging arrangements and consequently the occurrence of any of these events may affect the value of the Notes.

The risk of the loss of some or all of the subscription or purchase price of a Note at maturity means that, in order to recover and realise a return upon his or her investment, an investor must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the Underlying Reference or credit risk of the Reference Entity ("**Entities**") which may be specified in the applicable Final Terms. Assuming all other factors are held constant, the lower the value of a Note and the shorter the remaining term to settlement, the greater the risk that Noteholders of such Notes will lose all or part of their investment.

Fluctuations in the price of the relevant share or value of the basket of shares will affect the value of Share Linked Notes. Fluctuations in the value of the relevant index will affect the value of Index Linked Notes. Fluctuations in the value of the relevant fund or the value of the basket of funds will affect the value of Fund Linked Notes. Fluctuations in the market price for the purchase of credit protection in relation to the relevant reference entity or basket of reference entities will affect the value of Credit Linked Notes. Fluctuations in the value of the relevant inflation rate will affect the value of Inflation Linked Notes. Fluctuations in the value of the relevant commodity or basket of commodities will affect the value of Commodity Linked Notes. Fluctuations in the rates of exchange

between the relevant currencies will affect the value of FX Linked Notes. Fluctuations in the value of the relevant debt instrument or basket of debt instruments will affect the value of Debt Linked Notes. Fluctuations in the value of the relevant interest rate or basket of interest rates will affect the value of Interest Rate Linked Notes. Purchasers of Notes risk losing their entire investment if the value of the relevant Reference Item does not move in the anticipated direction.

The risk of the loss of some or all of the purchase price of a Note upon maturity means that, in order to recover and realise a return upon his or her investment, a purchaser of a Note must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Underlying Reference. Assuming all other factors are held constant, the lower the value of a Note and the shorter its remaining term to maturity, the greater the risk that purchasers of such Note will lose all or part of their investment.

The historical performances of an Underlying Reference should not be viewed as an indication of the future performance of such Underlying Reference during the term of any Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risks entailed by an investment in any Notes and the suitability of such Notes in light of its particular circumstances.

Each Issuer may issue several issues of Notes relating to various Underlying References. However, no assurance can be given that the relevant Issuer will issue any Notes other than the Notes to which particular Final Terms relate. At any given time, the number of Notes outstanding may be substantial.

Notes provide opportunities for investment and pose risks to investors as a result of fluctuations in the value of the underlying investment. Notes on shares, interests in exchange traded instruments, debt instruments or fund shares or units or fund indices are priced primarily on the basis of the value of underlying securities whilst Notes on currencies and commodities are priced primarily on the basis of present and expected values of the reference currency (or basket of currencies) or commodity (or basket of commodities) specified in the applicable Final Terms.

If 'Structuring Fee Deduction' is specified to be 'Applicable' in the Final Terms the value of and return on the Notes will be reduced by a structuring fee. The structuring fee will accrue from the Issue Date or the scheduled trading day following the Issue Date until the relevant valuation date, therefore the longer the term of the Notes, the greater the reduction in the value of and return on the Notes by the structuring fee. Before purchasing a Note Investors should understand the effect of the structuring fee on the value of and return on the Note.

Potential loss of the Noteholder's investment in the Notes

Each Noteholder may receive a Final Redemption Amount and/or physical delivery of the Entitlement the aggregate value of which may be less than the value of the Noteholder's investment in the relevant Notes. In certain circumstances Noteholders may lose the entire value of their investment.

Possible Illiquidity of the Notes in the secondary market

It is very difficult to predict the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, list or ask for admission to trading of Notes on a stock exchange or a trading venue. If the Notes are not listed or admitted to trading on any stock exchange or trading venue, pricing information for the Notes may be more difficult to obtain and the liquidity of the Notes may be adversely affected. If the Notes are listed or admitted to trading on any stock exchange or trading venue, there can be no assurance that at a later date, the Notes will not be delisted or that trading on such stock exchange or trading venue will not be suspended. In the event of a delisting or suspension of listing or trading on a stock exchange or trading venue, the relevant Issuer will use its reasonable efforts to list or obtain the admission to trading of the Notes on another stock exchange or trading venue. Also, to the extent Notes of a particular issue are settled in part, the number of Notes of such issue outstanding will decrease, resulting in a diminished liquidity for the remaining Notes of such issue. A decrease in the liquidity of an issue of Notes may cause, in turn, an increase in the volatility associated with the price of such issue of Notes.

Each Issuer and any of its Affiliates may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private offer/treaty. Any Notes so purchased may be held or resold or surrendered for cancellation as further described herein. Each Issuer or any of its Affiliates may, but is not obliged to, be a market-maker for an issue of Notes. In those circumstances, the entity acting as market-maker will endeavour to maintain a secondary market throughout the life of the Notes, subject to normal market conditions and will submit bid and offer prices to the market. The spread between bid and offer prices may change during the life of the Notes. However, during certain periods, it may be difficult, impractical or impossible for the entity acting as market-maker to quote bid and offer prices, and during such periods, it may be difficult, impracticable or impossible to buy or sell these Notes. This may, for example, be due to adverse market conditions, volatile prices or large price fluctuations, a large marketplace being closed or restricted or experiencing technical problems such as an IT system failure or network disruption.

Even if the relevant Issuer or such other entity is a market-maker for an issue of Notes, the secondary market for such Notes may be limited.

Investors should note that if an entity is appointed as market-maker or liquidity provider with respect to the Notes in the secondary market, this may, in certain circumstances, affect the price of the Notes in the secondary market.

In addition, all or part of the Notes issued under the Programme may be subscribed upon issuance by the relevant Issuer itself or by its Affiliate(s) for resales thereafter on the basis of investors' demand. Accordingly, investors subscribing for Notes upon their issuance should be aware that there may not be a viable secondary market for the relevant Notes immediately. Even if a market does develop subsequently, it may not be very liquid.

Risk of leveraged exposure

Leverage involves the use of a number of financial techniques to increase the exposure to an Underlying Reference, and can therefore magnify both returns and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the Underlying Reference moves in the anticipated direction, it will conversely magnify losses when the Underlying Reference moves against expectations. If the

relevant Notes include leverage, potential holders of such Notes should note that these Notes will involve a higher level of risk, and that whenever there are losses such losses may be higher than those of a similar note which is not leveraged. Investors should therefore only invest in leveraged Notes if they fully understand the effects of leverage.

Absence of rights in respect of the Underlying Reference

The Notes do not represent a claim against any Underlying Reference (or any issuer, sponsor, manager or other connected person in respect of an Underlying Reference) and Noteholders will not have any right of recourse under the Notes to any such Underlying Reference (or any issuer, sponsor, manager or other connected person in respect of an Underlying Reference). The Notes are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an Underlying Reference and such entities have no obligation to take into account the consequences of their actions on any Noteholders.

Exposure to modification and disruption events

In case certain events, indicated in the Terms and Conditions and the relevant Final Terms, occurs with reference to the relevant Underlying Reference(s) or the Notes, the Calculation Agent and the Issuer have broad discretion to make certain determinations to account for such event(s) including to (i) make adjustments to the terms of the Notes and/or (ii) cause early redemption of the Notes, any of which determinations may have an adverse effect on the value of the Notes.

The investor should consider that the effects of coronavirus pandemic (such as the measures taken by governments and authorities in this respect) may cause the occurrence of the events indicated above and involve such adjustments to the terms of the Notes and/or early redemption of the Notes.

Unsecured Notes are unsecured obligations

Unsecured Notes are unsubordinated and unsecured obligations of the relevant Issuer and will rank *pari passu* with themselves. Each issue of Unsecured Notes issued by Mediobanca International and/or MBFL will be guaranteed by Mediobanca pursuant to the deed of guarantee executed by the Guarantor and dated 18 September 2023 (the "**Mediobanca International Deed of Guarantee**") and the deed of guarantee executed by the Guarantor and dated 18 September 2023 (the "**MBFL Deed of Guarantee**"). The obligations of Mediobanca under the Mediobanca International Deed of Guarantee and the MBFL Deed of Guarantee are unsubordinated and unsecured obligations of Mediobanca and will rank *pari passu* with all its other present and future unsubordinated and unsecured obligations, subject as may from time to time be mandatory under Italian law and subject to the application of the bail-in legislation applicable to the Guarantor.

Certain factors affecting the value and trading price of the Notes

The Final Redemption Amount (in the case of Cash Settled Notes) or the value of the Entitlement (the "**Physical Settlement Value**") (in the case of Physical Delivery Notes) at any time prior to expiration is typically expected to be less than the trading price of such Notes at that time. The difference between the trading price and the Final

Redemption Amount or the Physical Settlement Value, as the case may be, will reflect, among other things, a "time value" for the Notes. The "time value" of the Notes will depend partly upon the length of the period remaining to expiration and expectations concerning the value or level of the Underlying Reference(s). Notes offer hedging and investment diversification opportunities but also pose some additional risks with regard to interim value. The interim value of the Notes varies with the price level of the Underlying Reference(s), as well as by a number of other interrelated factors, including those specified herein.

Before selling Notes, Noteholders should carefully consider the factors set out below, which may cause the value and trading price of the Notes to fluctuate, either positively or negatively:

- (a) the trading price of the Notes;
- (b) the value and volatility of the Underlying Reference(s) as specified in the applicable Final Terms. Depending on the applicable payout or interest amounts, movements in the value and/or volatility of the Underlying Reference may cause the value of the Notes to either rise or fall;
- (c) the time remaining until the scheduled Maturity Date of the Notes. Depending on the applicable payout or interest amounts, the value of the Notes may fluctuate as the time remaining until the scheduled maturity date decreases;
- (d) in the case of Cash Settled Notes the probable range of Final Redemption Amounts;
- (e) any change(s) in interim interest rates and dividend yields, if applicable. Depending on the applicable payout or coupon or interest rates, movements in interest rates and/or dividends may cause the value of the Notes to either rise or fall;
- (f) any change(s) in currency exchange rates;
- (g) the depth of the market or liquidity of the Underlying Reference as specified in the applicable Final Terms; and
- (h) any related transaction costs.

Such factors may mean that the trading price of the Notes is below the Final Redemption Amount.

Modification

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the relevant Issuer and the Guarantor may, without the prior consent of the holders of the Notes correct (i) any manifest error in the Terms and Conditions of the Notes

and/or in the Final Terms, (ii) any error of a formal, minor or technical nature in the Terms and Conditions of the Notes and/or in the Final Terms or (iii) any inconsistency in the Terms and Conditions of the Notes and/or in the Final Terms between the Terms and Conditions of the Notes and/or the Final Terms and any other documents prepared in connection with the issue and/or offer of a Series of Notes (provided such correction is not materially prejudicial to the holders of the relevant Series of Notes). Any such correction shall be binding on the holders of the relevant Notes and the relevant Issuer and the Guarantor (if applicable) shall cause such correction to be notified to the holders of the Notes as soon as practicable thereafter pursuant to Base Condition 15 (*Agents, determinations, Meetings of Noteholders and modifications*).

Potential conflicts of interest

The relevant Issuer and/or any of its Affiliates may also engage in trading activities (including hedging activities) related to the asset or other basis of reference underlying any Notes and other instruments or derivative products based on or related to the asset or other basis of reference underlying any Note for their proprietary accounts or for other accounts under their management. The Issuer and/or any of its Affiliates may also issue other derivative instruments in respect of the asset or other basis of reference underlying Notes. The relevant Issuer and/or any of its Affiliates may also act as underwriter in connection with future offerings of shares or other securities related to an issue of Notes or may act as financial adviser to certain companies or companies whose shares are included in a basket of shares or in a commercial banking capacity for such companies. Such activities could present certain conflicts of interest, could influence the prices of such shares or other securities and could adversely affect the value of such Notes.

Under the Terms and Conditions of the Notes, the Calculation Agent may make certain determinations in respect of the Notes (including whether a Market Disruption Event, a Settlement Disruption Event or Credit Event (each, as defined in the Terms and Conditions) has occurred) which could affect the amount payable by the relevant Issuer on the Notes. In exercising its right to make such determinations, the Calculation Agent is obligated to carry out its duties and functions as Calculation Agent acting in good faith and in a commercially reasonable manner however, subject to always acting only within the parameters allowed by the terms and conditions of the Notes, it has no responsibility to take investors' interests into account. Where the relevant Issuer acts as Calculation Agent, potential conflicts of interest may exist between the Calculation Agent and the Noteholders, including with respect to those determinations that the Calculation Agent may make pursuant to the Notes that may influence the Final Redemption Amount payable, or the Entitlement deliverable (as the case may be), on the Maturity Date.

Investors should note that Notes issued under the Programme may be underwritten by Dealers (including Mediobanca) which receive in consideration underwriting commissions and selling concessions. The relevant Issuer may also offer and sell Notes directly to investors without the involvement of any Dealer. In addition, Mediobanca may act as market maker or specialist or perform other similar roles in connection with the Notes: potential conflicts of interest may exist between Mediobanca acting in such capacity on the one hand, and investors in the Notes on the other.

Investors should note too that Mediobanca itself is acting in a number of capacities in connection with the issuance of the Notes. In particular Mediobanca will act as, *inter alia*, the relevant Issuer, the Guarantor in respect of

Mediobanca International's and MBFL's obligations, the Dealer, the Calculation Agent, the Arranger and Italian Paying Agent.

Even if its respective rights and obligations in relation to the issuance of the Notes are not conflicting and are independent from one another, in performing any such obligations in these different capacities, Mediobanca may be in a situation of conflict of interests. Mediobanca will only have the duties and responsibilities expressly agreed to by such entity in the relevant capacity and will not, by virtue of its or any of its affiliates acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a duty of care other than as expressly provided in respect of each such capacity.

Any further conflict of interest, including conflicts between the relevant Issuer and any Dealers or distributors will be indicated in the relevant Final Terms.

In respect of ETI Linked Notes and Fund Linked Notes:

- (a) the relevant Issuer or one or more of its Affiliates may from time to time engage in business with the relevant ETI or Fund, as the case may be, or companies in which an ETI or Fund, as the case may be, invests, including among other things, extending loans to, or making investments in, or providing advisory services to them, including merger and acquisition advisory services, engaging in activities that may include prime brokerage business, financing transactions or entry into derivative transactions;
- (b) the ETI or Fund (each as defined below), as applicable, may pay a portion of its fees to the relevant Issuer or any of its Affiliates for the provision of such services;
- (c) in the course of this business, the relevant Issuer, the Guarantor (if any), the Calculation Agent and any of their respective Affiliates may acquire non-public information about an ETI or a Fund, as applicable, or any companies, funds or reference assets in which an ETI or a Fund invests and the relevant Issuer, the Guarantor (if any), the Calculation Agent or any of their respective Affiliates may publish research reports about them. This research may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding ETI Linked Notes or Fund Linked Notes, as applicable. Such activities could present certain conflicts of interest, could influence the prices of such shares, Fund Shares, ETI Interests or other securities and could adversely affect the value of such Notes;

Certain considerations regarding subscribing or purchasing Notes as hedges

Prospective investors intending to subscribe or purchase Notes to hedge against the market risk associated with investing in the Underlying Reference which may be specified in the applicable Final Terms should recognise the complexities of utilising Notes in this manner. For example, the value of the Notes may not exactly correlate with the value of the Underlying Reference which may be specified in the applicable Final Terms. Due to fluctuating supply and demand for the Notes, there is no assurance that their value will correlate with movements of the Underlying Reference which may be specified in the applicable Final Terms. For these reasons, among others, it

may not be possible to purchase or liquidate securities in a portfolio at the prices used to calculate the value of any relevant Underlying Reference.

The Issuer and/or any of its respective Affiliates or agents may from time to time hedge the relevant Issuer's obligations under the Notes (and under other instruments and OTC contracts issued by or entered into from time to time by the relevant Issuer and/or any of its respective Affiliates or agents relating to such securities) by taking positions, directly or indirectly, in the relevant Underlying Reference. Although the relevant Issuer has no reason to believe that such hedging activities will have a material impact on the price of any relevant Underlying Reference, there can be no assurance that such hedging activities will not adversely affect the value of the Notes.

The terms of the Notes contain no negative pledge, and the Issuer is not prohibited from incurring additional debt

There is no negative pledge in respect of the Notes and the Terms and Conditions of the Notes place no restrictions on the incurrence by the Issuer or the Guarantor (if applicable) of additional obligations that rank *pari passu* with, or senior to, the Notes. In addition, the Issuer or the Guarantor (if applicable) may pledge assets to secure other notes or debt instruments without granting an equivalent pledge or security interest and status to the Notes.

Bull and Bear Notes

Bull Notes and Bear Notes (together, the "**Bull and Bear Notes**" or "**Single Final Payout - Leverage Factor Notes**") are designed for very short-term trading or intraday trading and are not intended for buy-to-hold investing. The percentage change in value of the Notes over one day will be the Leverage Factor which is a constant factor for each Note multiplied by the daily performance of the relevant Underlying Reference measured as the percentage change of the reference price from one day to the next day adjusted by the applicable Financing Component (which includes a Fee, an Interest Margin and Hedging Costs and may be positive or negative depending on, amongst other things, prevailing interest rates). Bull Notes aim to produce a performance equal to the Leverage Factor (as specified in the applicable Final Terms) multiplied by the performance of the relevant Underlying Reference whereas Bear Notes aim to produce a performance equal to the Leverage Factor times the inverse performance of the relevant Underlying Reference. However, because the performance of the Notes over any period longer than one day will be derived from the compounded daily performance of the relevant Underlying Reference during that period, such Note's performance may differ significantly to the overall performance of the Underlying Reference over that same period. Accordingly, compared to a Note that measures change in value of the Underlying Reference between two dates, Bull and Bear Notes may have significantly different outcomes depending on the number and direction of changes in the daily value of the Underlying Reference over such period and the order in which such changes occur. Bull and Bear Notes are therefore described as "path-dependent" financial instruments. The potential for divergence between the Performance of the Bull and Bear Notes and the performance of the Underlying Reference over the same period of time will increase as such period becomes

longer and will be most marked in periods when the value of the Underlying Reference is volatile. Consequently, Bull or Bear Notes are only suitable for intra-day trading or very short investment periods.

If "Maturity Extension" is specified as applicable in the applicable Final Terms, the Issuer may elect to either postpone the Maturity Date of the Bull or Bear Notes. Unless a Noteholder exercises its option to request the Issuer to early settle the Notes, the risks of investing in Bull and Bear Notes described above may increase. If a Noteholder exercises its option to request the Issuer to early settle the Notes, such Noteholder may receive less than their original investment, as the Optional Settlement Amount will be calculated based on the performance of the Bull and Bear Notes, as described above, as of the Optional Settlement Valuation Date.

If "Reverse Split" is specified as applicable in the applicable Final Terms and a Reverse Split Event occurs, the Issuer may, at its option, elect that the Notes be consolidated and cancel the Notes held by Noteholders and, in lieu thereof, deliver to Noteholders a reduced number of Bull or Bear Notes of a new series. The new series of Notes issued by the Issuer will have identical terms to the original Bull or Bear Notes, save that the value of the Bull or Bear Notes will be consolidated to reflect the economic effect of reducing the number of Bull or Bear Notes in issue, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. If required, the Issuer will also pay to Noteholders a cash adjustment amount calculated by the Calculation Agent to reflect the economic effect of reducing the number of Bull or Bear Notes in issue, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Upon receiving notice of a reverse split, a Noteholder may exercise its option to request the Issuer to early settle the Notes, in which case, such Noteholder may receive less than their original investment, as the Optional Settlement Amount will be calculated based on the performance of the Bull and Bear Notes, as described above, as of the Optional Settlement Valuation Date.

There are no events of default under the Unsecured Notes

The Terms and Conditions of the Notes (other than Secured Notes) do not include events of default allowing for the acceleration of the Notes if certain events occur. Accordingly, if the Issuer or the Guarantor (if applicable) fail to meet any obligations under the Notes, Noteholders will not be able to accelerate the payment of amounts under the Notes. Upon a payment default, the sole remedy available to holders of such Notes for recovery of amounts owing in respect of any payment on such Notes will be the institution of proceedings to enforce such payment. Notwithstanding the foregoing, the Issuer or the Guarantor (if applicable) will not, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.

Limited exposure to Underlying Reference

The Notes may provide for the application to the relevant Underlying Reference of a component weight, in order to increase or decrease the percentage of each Underlying Reference used to determine the amounts payable or deliverable to investors. The component weight may be lower than 100 per cent.

In such case, the amounts payable or deliverable to investors will be reduced and, therefore, will contribute to the yield of the Notes only to such reduced extent. The performance of the relevant Underlying Reference(s) will, therefore, impact the yield of the Notes only to a limited extent.

If the applicable Final Terms provide that the exposure of the relevant Notes to one or more Underlying References is limited or capped at a certain level or amount, the relevant Notes will not benefit from any upside in the value of any such Underlying References beyond such limit or cap.

Expenses and taxation

A holder of Notes must pay all Expenses relating to such Notes. As used in the Conditions, Expenses means all taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, sale commissions, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising from the redemption of such Notes and/or the delivery or transfer of the Entitlement (as applicable) pursuant to the terms of such Notes as more fully set out in Base Condition 17 (*Expenses and Taxation*) of the Terms and Conditions of the Notes.

The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise or enforcement of any Note by any person and all payments made by the relevant Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted and no additional amount shall be payable to any relevant Noteholder in respect of any such tax, duty, withholding or other payment. The payment of all Expenses by the Noteholders is likely to adversely affect the overall return they achieve on their investment in the Notes.

Other taxation considerations

It is not possible to predict whether the taxation regime applicable to Notes on the date of purchase or subscription will be amended during the term of the Notes. If such amendments are made, the taxation regime applicable to the Notes may differ substantially from the taxation regime in existence on the date of purchase or subscription of the Notes and such amendments could materially adversely impact the value of any Notes affected by them.

Change of law

The Terms and Conditions are based on English law or Italian law, as the case may be, in effect as at the date of this Base Prospectus, except for the status provisions applicable to the Notes and the contractual recognition of bail-in powers provisions, and any non contractual obligations arising out of or in connection with such provisions, which shall be governed by, and construed in accordance with, Italian law (if the Notes are issued by Mediobanca) or Luxembourg law (if the Notes are issued by Mediobanca International or MBFL), as applicable. No assurance can be given as to the impact of any possible judicial decision or change to an administrative practice or change to English law or Italian and/or Luxembourg law, as applicable, after the date of this Base Prospectus and any such change could materially adversely impact the value of any Notes affected by it.

Procedures of clearing systems

Unless otherwise provided in the Final Terms, Notes issued under the Programme may be represented by one or more Global Notes and such Global Note will be deposited with a common depository for Euroclear and/or Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system provided in the Final Terms will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system. While the Notes are represented by one or more Global Notes the relevant Issuer will discharge its payment obligations under the Notes by making payments to the common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system for distribution to their account holders. A holder of a beneficial interest in a Global Notes must rely on the procedures of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes. Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system to appoint appropriate proxies.

Italian Dematerialised Notes issued under the Programme will be in dematerialised form and evidenced at any time through book entries pursuant to the relevant provisions of Italian legislative decree no. 58/1998, as amended and integrated by subsequent implementing provisions, and in accordance with CONSOB and Bank of Italy Joint Regulation dated 13 August 2018, as amended by Provision Consob and the Bank of Italy of 10 October 2022 and as amended and integrated by subsequent implementing provisions. In no circumstance would physical documents of title be issued in respect of the Italian Dematerialised Notes. While the Italian Dematerialised Notes are represented by book entries, investors will be able to trade their beneficial interests only through Euronext Securities Milan (“**Euronext Securities Milan**”, the commercial name of Monte Titoli S.p.A.) and the authorised financial intermediaries holding accounts on behalf of their customers with Euronext Securities Milan. As the Italian Dematerialised Notes are held in dematerialised form with Euronext Securities Milan, investors will have to rely on the procedures of Euronext Securities Milan and the financial intermediaries authorised to hold accounts therewith, for transfer, payment and communication with the relevant Issuer or Guarantor (if any).

If the applicable Final Terms specify that the Notes will be accepted for settlement in Euroclear UK & Ireland (formerly known as CRESTCo) (“**CREST**”) via the CREST Depository Interest mechanism, investors will hold indirect interests in Notes through CREST through the issuance of CREST Depository Interest (“**CDIs**”) issued, held, settled and transferred through CREST. CDIs are independent securities constituted under English law and transferred through CREST and will be issued by CREST Depository Limited (the “**CREST Depository**”) to investors (“**CDI Holders**”) pursuant to the global deed poll dated 25 June 2001 (as subsequently modified, supplemented and/or restated) (the “**CREST Deed Poll**”).

The rights of CDI Holders in respect of Notes are represented by the relevant entitlements against the CREST Depository which (through CREST International Nominees Limited or any other body appointed to act as nominee

on behalf of the CREST Depository (the "**CREST Nominee**") holds interests in such Notes. Accordingly, rights under Notes underlying CDIs cannot be enforced by CDI Holders except indirectly through the intermediary depositaries and custodians.

The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the relevant Issuer, including the CREST Deed Poll. Potential investors should note that the provisions of the CREST Deed Poll, the CREST Manual and the CREST Rules (each as defined in section "*Forms of the Notes*", under paragraph entitled "*Euroclear UK & Ireland Limited*" below) contain indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the CREST Depository. CDI Holders are bound by such provisions and may incur liabilities pursuant to or resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the amounts originally invested by them. As a result, the rights of and returns received by CDI Holders may differ from those of Holders of Notes which are not represented by CDIs.

In addition, CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service (as defined in section "*Forms of the Notes*", under paragraph entitled "*Euroclear UK & Ireland Limited*" below). These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of Notes through the CREST International Settlement Links Service.

Potential investors should note that none of the relevant Issuer, the Guarantor (if applicable), any Dealer or any Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

Termination of Notes in the event of illegality or impracticability

If the relevant Issuer determines that the performance of its obligations under the Notes or that any arrangements made to hedge the relevant Issuer's obligations under the Notes have become (i) illegal in whole or in part for any reason, or (ii) by reason of a force majeure event (such as an act of God, fire, flood, severe weather conditions, or a labour dispute or shortage) or an act of state occurring after the Issue Date (as specified in the applicable Final Terms), impossible or impracticable the relevant Issuer may settle the Notes.

If the relevant Issuer settles the Notes pursuant to an illegality then the relevant Issuer will, if and to the extent permitted by applicable law, pay an amount to each Noteholder in respect of each Note held by such holder, which amount shall be equal to the fair market value of a Note, notwithstanding such illegality less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the relevant Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

If the relevant Issuer settles the Notes by reason of a force majeure event or an act of state, then the relevant Issuer will, if and to the extent permitted by applicable law, pay an amount to each Noteholder in respect of each Note held by such holder, which amount shall be equal to the fair market value of a Note, taking into account the applicable force majeure event or act of state, as the case may be, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the relevant Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

In the cases described above, the amount paid by the Issuer to the Noteholders may be less than the subscription or purchase price of the Notes and may in certain circumstances be zero.

Post-issuance information

Save as set out in the applicable Final Terms, the relevant Issuer will not provide post-issuance information in relation to the Underlying Reference. In such an event, investors will not be entitled to obtain such information from the relevant Issuer.

The interest amount payable on the Notes or the amount payable or deliverable at maturity of the Notes may in certain circumstances be changed during the life of the Notes.

If Coupon Switch Election or Automatic Coupon Switch is specified in the applicable Final Terms, the interest rate payable may be switched from one rate or amount to another in the Issuer's discretion (in the case of Coupon Switch Election) or following the occurrence of an Automatic Coupon Switch Event (in the case of an Automatic Coupon Switch). If Payout Switch Election or Automatic Payout Switch is specified in the applicable Final Terms, the amount payable or deliverable on settlement may be switched from one amount payable or deliverable to another in the Issuer's discretion (in the case of Payout Switch Election) or following the occurrence of an Automatic Payout Switch Event (in the case of an Automatic Payout Switch). As a consequence of the exercise of a Coupon Switch Election or Payout Switch Election or the occurrence of an Automatic Coupon Switch Event or Automatic Payout Switch Event, the Underlying Reference may be changed. As the payout on such Notes may be switched during the life of the Notes investors may receive a return which differs from, and may be significantly less than, that which they expected to receive or they may receive no return.

Impossibility to know the amount of the Notes in circulation on the date of issue

The Notes may be issued and withheld by the relevant Issuer for the progressive sale on the market in accordance with investors' demand. In this context an investor who acquires the Notes does not know in the moment of subscription or purchase how much of the issued Notes effectively are publicly traded with the consequence that the amount in circulation could be meagre and may not guarantee successively adequate liquidity in the Notes.

Issue of subsequent tranche

In the event the relevant Issuer decides to issue further Notes having the same terms and conditions as already existing Notes (in all respects except for the issue price per Note indicated in the applicable Final Terms (the "**Issue Price**"), the Issue Date and/or the first payment of interest amount (if any)) and so that the further Notes shall be consolidated and form a single series with the original Notes, the greater amount of Notes in circulation could lead to greater liquidity in the secondary market with a consequent negative impact on the price of the relevant Notes.

Physical Delivery Requirements and Redemption Risk

Where "Physical Settlement according to Base Condition 12.1" is specified as applicable in the applicable Final Terms, in order to receive the Entitlement in respect of a Physical Delivery Note, the holder of such Note (acting through the relevant ESM Accountholder, in case of Italian Dematerialised Notes) must (1) deliver or send by authenticated swift message (confirmed in writing) to Euroclear or Clearstream, Luxembourg or any other relevant clearing system (as the case may be), with a copy to the relevant Issuer and the Fiscal Agent or the Italian Paying Agent (in case of Italian Dematerialised Notes) a duly completed Physical Delivery Confirmation Notice on or prior to the relevant time on the Maturity Date (in the case of a Physical Delivery Note) and (2) pay the relevant Expenses, together with any other amounts payable. In case of failure to do so the Issuer shall have no obligation to make delivery of the Entitlement in respect of such Note unless and until a duly completed Physical Delivery Confirmation Notice is delivered as provided in the terms and conditions. If the duly completed Physical Delivery Confirmation Notice is delivered after 10.00 a.m. (Brussels or Luxembourg time, as the case may be) on the Maturity Date, delivery of such Entitlement shall be made as soon as possible thereafter but not earlier than the Maturity Date. For the avoidance of doubt, the relevant holder of a Note shall not be entitled to any additional or further payment by reason of the delivery of the Entitlement in respect of such Note occurring after the Maturity Date as a result of such Physical Delivery Confirmation Notice being delivered after 10.00 a.m. (Brussels or Luxembourg time, as the case may be) on the Maturity Date.

In connection with the exercise of Physical Delivery Notes, unless otherwise indicated in the applicable Final Terms, the Calculation Agent may determine that a Settlement Disruption Event or, if applicable, a Failure to Deliver due to Illiquidity is subsisting. Any such determination may affect the value of the Notes and/or may delay settlement and/or lead to cash settlement rather than physical settlement in respect of the Notes.

In relation to Physical Delivery Notes, under the Mediobanca International Deed of Guarantee and the MBFL Deed of Guarantee, the Guarantor has the right at all times to elect not to deliver or procure delivery of the Entitlement to the holders of Physical Delivery Notes, but in lieu thereof to pay an amount in cash equal to the Guaranteed Final Redemption Amount specified in the applicable Final Terms or determined by the Calculation Agent in accordance with the Terms and Conditions. Such cash payment will constitute a complete discharge of the Guarantor's obligations in relation to such Physical Delivery Notes.

The Barrier Level, Bonus Level and/or Cap Level may not be known until after the Issue Date

In certain circumstances in respect of SFP Payouts, the Barrier Level, Bonus Level and/or Cap Level may not be known at the issue date of the Notes. In these circumstances, the Final Terms will specify that the Barrier Level,

Bonus Level and/or Cap Level, as applicable, will be the product of a specified percentage and the Closing Level, Closing Price, Italian Notes Reference Price, Relevant Price or Settlement Price, as applicable, of the Underlying Reference on the Strike Date (rounded upwards or downwards as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner). Following the Strike Date, the Issuer will give notice of the actual Barrier Level, Bonus Level and/or Cap Level, as applicable, applicable to the Notes. Prospective investors should review the Final Terms together with the information contained in the notice in order to ascertain the Barrier Level, Bonus Level and/or Cap Level which will apply to the Notes.

Risks relating to automatic early redemption of the Notes

In the case of Notes that include an Automatic Early Redemption feature, the longer the time remaining until the scheduled maturity date of the Notes, the higher the probability that an Automatic Early Redemption Event will occur.

In the event that the relevant level, value or price of the Underlying Reference approaches the level that triggers the Automatic Early Redemption Event, the Noteholder may not be able to sell the Notes in the secondary market before the occurrence of the Automatic Early Redemption Event (see also "*Possible illiquidity of the Notes in the secondary market*" above). If the Underlying Reference is listed on a different exchange to that on which the Notes are listed, the Automatic Early Redemption Event may occur outside the normal trading hours of the exchange on which the Notes are listed. In this case, the Noteholder may not have an opportunity to sell the Notes in the secondary market before the Automatic Early Redemption Event occurs.

Risk of loss following automatic early redemption of the Notes

In the case of Notes that include an Automatic Early Redemption feature, if the relevant level, value or price of the Underlying Reference(s) reaches the level that triggers the Automatic Early Redemption Event, the product will automatically be settled before the scheduled maturity date. Depending on the applicable payout, the Noteholder may lose some or all of their investment in the Notes.

Gap risk

Noteholders will be exposed to the gap risk associated with the relevant level, value or price of the Underlying Reference(s), whereby the relevant level, value or price of one or more Underlying Reference may change suddenly and significantly during the trading day or at the opening of the market. Such change may be positive or negative.

The price of the Notes may include a premium, which includes the cost to the Issuer or its Affiliates of unwinding its hedging positions in relation to the Notes on early redemption of the Notes. The calculation of the premium charged to Noteholders is based on the gap risk associated with the relevant level, value or price of the Underlying Reference(s). The Noteholder will not receive a refund of this premium if an Automatic Early Redemption Event occurs.

Reform of EURIBOR and other interest rate index and equity, commodity and foreign exchange rate indices

The Notes may be linked to a "benchmark" as defined under the Benchmark Regulation. The Benchmarks Regulation, *inter alia*: (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as the Issuer) of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

The scope of the Benchmarks Regulation is wide and, in addition to applying to so-called "critical benchmark" indices, could also potentially apply to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices (including "proprietary" indices or strategies) which are referenced in listed financial instruments (including listed Notes), financial contracts and investment funds. In this respect, any changes to a "benchmark" due to the Benchmark Regulation could, *inter alia*: (i) discourage market participants from continuing to administer or contribute to such "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark"; or (iii) lead to the disappearance of the "benchmark".

In such events, depending on the particular "benchmarks" and the applicable terms of the Notes, the Notes could be delisted (if listed), adjusted, redeemed or otherwise impacted and their volatility may be affected.

In addition, the application of the fallback methods to be applied in the event that a "benchmark" to which any Notes is linked has been discontinued following the adoption of a decision to withdraw the authorization or registration as set out in Article 35 of the Benchmark Regulation may expose investors to certain risks connected with the adjustment to the interest or payout calculation as provided for respectively in Condition 7(m) (*Benchmark Rate Replacement*) and Interest Rate Linked Note Condition 9 (*Benchmark Rate Replacement*) and/or may generally produce potential negative consequences for the holders of any Notes linked to such "benchmark".

The Euro Interbank Offered Rate ("**EURIBOR**") and other indices which are deemed critical "benchmarks" are subject to recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such critical "benchmarks" to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to a "benchmark".

Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No. 596/2014 (the "**EU Benchmarks Regulation**") applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU where used to determine the amount payable under or the value or performance of certain financial instruments for which a request for admission to trading on a trading venue has been made, or which are traded on a trading venue (EU regulated market, EU multilateral trading facility ("**MTF**"), EU organised trading facility ("**OTF**")) or via a systematic internaliser or to measure the performance of certain investment funds with the purpose of tracking the return or defining the asset allocation or computing the performance fees.

The Benchmark Regulation (EU) No. 2016/1011 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the “**UK Benchmarks Regulation**”) applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the UK. Similarly to EU Benchmark Regulation, the UK Benchmarks Regulation prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to or referencing a benchmark rate or index, deemed to be a “benchmark”, in particular, if the methodology or other terms of the “benchmark” are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant “benchmark”.

More broadly, any of the international, national or other reforms or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmarks" and complying with any such regulations or requirements.

Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any such Notes.

The Conditions of the Notes provide that, if the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Rate Event (as defined in the Conditions) has occurred, the Issuer shall use reasonable endeavours to appoint an Independent Adviser for the purposes of determining a Successor Rate or an Alternative Benchmark Rate (as further described in Base Condition 7(m) (*Benchmark Rate Replacement*) and Interest Rate Linked Note Condition 9 (*Benchmark Rate Replacement*)) and, if applicable, an Adjustment Spread. If the Issuer is unable to appoint an Independent Adviser or if the Independent Adviser and the Issuer cannot agree upon, or cannot select, the Successor Rate or Alternative Benchmark Rate, the Issuer may determine the replacement rate, provided that if the Issuer is unable or unwilling to determine the Successor Rate or Alternative Benchmark Rate, the further fallbacks described in the Conditions shall apply. In certain circumstances, including but not limited to where the Issuer is unable or unwilling to determine an Alternative Benchmark Rate and Alternative Relevant Screen Page, the ultimate fallback for the purposes of calculation of interest amount for a particular Interest Period or the value of the Underlying Reference Rate may result in the rate of interest of the last preceding Interest Period or the value of the Underlying Reference Rate of the last preceding Underlying Interest Determination Date being used. This may result in effective application of a fixed rate of interest for Notes initially designated to be floating rate notes. In addition, due to the uncertainty concerning the availability of Successor Rates and Alternative Reference Rates and the involvement of an Independent Adviser, the relevant fallback provisions may not operate as intended at the relevant time.

The use of a Successor Rate or an Alternative Benchmark Rate may result in interest amount payments and other payments that are substantially lower than or that do not otherwise correlate over time with the payments that

could have been made on the Notes if the relevant benchmark remained available in its current form. Furthermore, if the Issuer is unable to appoint an Independent Adviser or if the Issuer fails to agree a Successor Rate or an Alternative Benchmark Rate or adjustment spread, if applicable with the Independent Adviser, the Issuer may have to exercise its discretion to determine (or to elect not to determine) an Alternative Benchmark Rate or adjustment spread, if applicable in a situation in which it is presented with a conflict of interest. In addition, while any Adjustment Spread may be expected to be designed to eliminate or minimise any potential transfer of value between counterparties, the application of the Adjustment Spread to the Notes may not do so and may result in the Notes performing differently (which may include payment of a lower interest rate) than they would do if the Interest Rate were to continue to apply in its current form. Any such consequences could have a material adverse effect on the value of and return on any such Notes. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant reference rate could affect the ability of the Issuer to meet its obligations under the Notes or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Notes. Investors should consider these matters when making their investment decision with respect to the relevant Notes.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation or any of the international or national and the possible application of the benchmark replacement provisions of the Notes, investigations and licensing issues in making any investment decision with respect to the Notes linked to a “benchmark” since the rate of interest will be changed in ways which may be adverse to holders of such Notes, without any requirement that the consent of such holders be obtained.

Administrator/Benchmark Event

If specified as an Optional Additional Disruption Event in the applicable Final Terms, the occurrence of an Administrator/Benchmark Event may lead to early settlement or adjustment of the Notes, which may include selecting one or more successor benchmarks and making related adjustments to the Notes, including, if applicable to reflect increased costs. An Administrator/Benchmark Event may arise if any of the following circumstances occurs or will occur: (1) a benchmark is materially changed or permanently cancelled, or (2) (i) the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, (ii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected or (iii) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn.

The market continues to develop in relation to risk-free rates (including overnight rates) as reference rates for Notes paying a floating interest rate or linked to an Underlying Interest Rate.

The use of risk-free rates - including those such as the Sterling Overnight Index Average (“**SONIA**”), the Secured Overnight Financing Rate (“**SOFR**”), the euro short-term rate (“**€STR**”) and the daily Swiss Average Rate Overnight (“**SARON**”), as reference rates for securities continues to develop. This relates not only to the substance of the calculation and the development and adoption of market infrastructure for the issuance and trading of securities referencing such rates, but also how widely such rates and methodologies might be adopted.

The market or a significant part thereof may adopt an application of risk-free rates that differs significantly from that set out in the Conditions and used in relation to Notes that reference risk-free rates issued under this Programme. The Issuers may in the future also issue Notes referencing SONIA, SOFR, €STR or SARON that differ materially in terms of interest determination when compared with any previous Notes issued by it under this Programme. The development of risk-free rates for the eurobond/securities markets could result in reduced liquidity or increased volatility, or could otherwise affect the market price of any Notes that reference a risk-free rate issued under this Programme from time to time.

In addition, the manner of adoption or application of risk-free rates in the securities markets may differ materially compared with the application and adoption of risk-free rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of such reference rates in the securities, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes referencing such risk-free rates.

In particular, investors should be aware that several different methodologies have been used in risk-free rate securities issued to date. International Working Groups have identified all the alternative reference rates (ARRs) as well as various TERM rates (eg. €STR TERM, SONIA TERM, SOFR TERM and TORF) for both LIBOR and EURIBOR. If the relevant risk-free rates do not prove to be widely used in securities like the Notes, the trading price of such Notes linked to such risk-free rates may be lower than those of Notes referencing indices that are more widely used.

Investors should consider these matters when making their investment decision with respect to any Notes which reference SONIA, SOFR, €STR, SARON or any related indices.

Risk-free rates may differ from other inter-bank offered rates in a number of material respects and have a limited history

Risk-free rates may differ from other inter-bank offered rates in a number of material respects. These include (without limitation) being backwards-looking, in most cases, calculated on a compounded or weighted average basis, risk-free, overnight rates and, in the case of SOFR, secured, whereas such interbank offered rates are generally expressed on the basis of a forward-looking term, are unsecured and include a risk-element based on interbank lending. As such, investors should be aware that risk-free rates may behave materially differently to interbank offered rates as interest reference rates for the Notes. Furthermore, SOFR is a secured rate that represents overnight secured funding transactions, and therefore will perform differently over time to an unsecured rate. For example, since publication of SOFR began on 3 April 2018, daily changes in SOFR have, on occasion, been more volatile than daily changes in comparable benchmarks or other market rates.

Risk-free rates offered as alternatives to interbank offered rates also have a limited history. For that reason, future performance of such rates may be difficult to predict based on their limited historical performance. The level of such rates during the term of the Notes may bear little or no relation to historical levels. Prior observed patterns, if any, in the behaviour of market variables and their relation to such rates such as correlations, may change in the

future. Investors should not rely on historical performance data as an indicator of the future performance of such risk-free rates nor should they rely on any hypothetical data.

Furthermore, interest amount on Notes which reference a backwards-looking risk-free rate is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Notes which reference such risk-free rates reliably to estimate the amount of interest which will be payable on such Notes, and some investors may be unable or unwilling to trade such Notes without changes to their IT systems, both of which could adversely impact the liquidity of such Notes. Further, in contrast to Notes linked to interbank offered rates, if Notes are early settled on a date which is not an Interest Payment Date, if the relevant Notes provide for the payment of interest up to such early redemption date, the final Interest Rate payable in respect of such Notes shall be determined by reference to a shortened period ending immediately prior to the date on which the Notes are scheduled for maturity.

The administrator of SONIA, SOFR, €STR or SARON or any related indices may make changes that could change the value of SONIA, SOFR, €STR or SARON any related index, or discontinue SONIA, SOFR, €STR or SARON or any related index

The Bank of England, the Federal Reserve, Bank of New York, SIX Swiss Exchange AG or the European Central Bank (or their successors) as administrators of SONIA, SOFR, SARON or €STR, respectively, may make methodological or other changes that could change the value of these risk-free rates and/or indices, including changes related to the method by which such risk-free rate is calculated, eligibility criteria applicable to the transactions used to calculate SONIA, SOFR, SARON or €STR, or timing related to the publication of SONIA, SOFR, SARON or €STR or any related indices. In addition, the administrator may alter, discontinue or suspend calculation or dissemination of SONIA, SOFR, SARON or €STR or any related index (in which case a fallback method of determining the interest rate on the Notes will apply). The administrator has no obligation to consider the interests of Noteholders when calculating, adjusting, converting, revising or discontinuing any such risk-free rate.

Single FI Inflation Notes are capital protected. The return on the Notes depends on the performance of the Underlying Reference(s).

(C) PRODUCT SPECIFIC RISK FACTORS

Certain considerations associated with Index Linked Notes

General

An investment in Index Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of Index Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of the underlying index/indices. Such underlying index may be a well known and widely published index or an index which may not be widely published or available.

Factors affecting the performance of Indices may adversely affect the value of the Notes. Indices are comprised of a synthetic portfolio of shares, bonds, currency exchange rates, commodities, property or other assets, and as such, the performance of an Index is dependent upon the performance of components of such index, which may include interest rates, currency developments, political factors, market factors such as the general trends in capital markets or broad based indices and (in the case of shares) company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. If an Index does not perform as expected, this will materially and adversely affect the value of Index Linked Notes. In addition the performance of an Index may also be reduced for fees received by the different entities performing activities in connection with such Index (e.g. advisory, reallocation and structuring fees) which may negate any positive performance of the Index and, if the Index performs negatively, increase a Noteholders' loss of investment.

Index Linked Notes pay interest amount(s) calculated by reference to the value of the underlying index/indices.

For the avoidance of doubt, the relevant Issuer and/or its Affiliates may not be able to trade on and hedge its obligations in respect of the index under the Notes notwithstanding the calculation or publication of the level of such index. In the event that any relevant date for valuation is a Disrupted Day for such index, that valuation date shall be the first succeeding day that is not a Disrupted Day and on which the Issuer or relevant affiliate is able to trade on and hedge its obligations in respect of such index, subject to a specified maximum days of disruption, as more fully set out in the Conditions. Where this occurs on (i) the Strike Date for valuation, the Calculation Agent will not be able to determine the initial or strike level for the index or (ii) the final date for valuation, the Calculation Agent will not determine the final level for the index until such time as the disruption is no longer subsisting, or the specified maximum days of disruption has elapsed, whichever is sooner. Investors should be aware that any delay to the determination of the final level of the index may result in a delay in the payment of the Final Redemption Amount.

Returns on the Notes do not reflect a direct investment in underlying shares or other assets comprising the Index

The return payable on Notes that reference indices may not reflect the return a potential investor would realise if it actually owned the relevant assets comprising the components of the Index or owned a different form of interest in the relevant Index. For example, if the components of the Indices are shares, holders of Notes will not receive any dividends paid or distributions made on those shares and will not participate in the return on those dividends or distributions unless the relevant Index takes such dividends into account for purposes of calculating the relevant level. Similarly, holders of Notes will not have any voting rights in the underlying shares or any other assets which may comprise the components of the relevant Index. Accordingly, holders of Notes that reference Indices as Underlying Reference may receive a lower payment upon settlement of such Notes than such holder of Notes would have received if it had invested in the components of the Index directly or other comparable instruments linked to the Index.

A change in the composition or discontinuance of an Index could adversely affect the market value of the Notes

The sponsor of any Index can add, delete or substitute the components of such Index or make other methodological changes that could change the level of one or more components. The changing of components of any Index may affect the level of such Index as a newly added component may perform significantly worse or better than the component it replaces, which in turn may affect the payments made by the relevant Issuer to the holders of the Index Linked Notes. The sponsor of any such Index may also alter, discontinue or suspend calculation or dissemination of such Index. The sponsor of an Index will have no involvement in the offer and sale of the Index Linked Notes and will have no obligation to any holder of such Notes. Accordingly, the sponsor of an Index may take any actions in respect of such Index without regard to the interests of the holder of the Notes, and any of these actions could adversely affect the market value of the Index Linked Notes.

Certain considerations associated with Share Linked Notes

General

An investment in Share Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of Share Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of the share(s), GDRs and/or ADRs and/or the physical delivery of a given number of share(s), GDRs and/or ADRs. Accordingly, an investment in Share Linked Notes may bear similar market risks to a direct equity investment and investors should take advice accordingly. Share Linked Notes pay interest amount(s) calculated by reference to the value of the underlying share(s), GDRs and/or ADRs.

In the case of Share Linked Notes, no issuer of the underlying shares will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Notes, and none of the Issuer, the Guarantor (if applicable) or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of shares contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the share, GDRs and/or ADRs will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of shares could affect the trading price of the share, GDRs and/or ADRs and therefore the trading price of the Notes.

Except as provided in the Conditions, Noteholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant shares to which such Notes relate.

The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors and company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. These factors are not within the relevant Issuer's control and may result in a decline in the value of the Notes.

Lack of rights in respect of Shares

Share Linked Notes do not represent a claim against or an investment in any issuer of the relevant share(s) and investors will not have any right of recourse under the Share Linked Notes to any such company or the shares. Share Linked Notes are not in any way sponsored, endorsed or promoted by any issuer of the relevant share(s) and such companies have no obligation to take into account the consequences of their actions for any holders. Accordingly, the issuer of a share may take any actions in respect of such share without regard to the interests of the investors in the Share Linked Notes, and any of these actions could adversely affect the market value of the Share Linked Notes.

Physical delivery of Shares

Where the Notes linked to Shares include the are Physical Delivery, the Issuer will settle such Share Linked Notes at their maturity by delivering Shares to the investor and the investors will receive such Shares rather than a monetary amount upon maturity. Noteholders will, therefore, be exposed to the issuer of such Shares and the risks associated with such Shares. The investor should not assume that he or she will be able to sell such Shares for a

specific price after the settlement of the Notes, and in particular not for the subscription or purchase price of the Share Linked Notes. Under certain circumstances the Shares may only have a very low value or may, in fact, be worthless. Noteholders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such Shares.

Certain considerations associated with ETI Linked Notes

An investment in ETI Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of ETI Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of the interests in exchange traded instruments or a basket of interests in exchange traded instruments and/or the physical delivery of a given number of interests in exchange traded instruments. Accordingly, an investment in ETI Linked Notes may bear similar market risks to a direct exchange traded instrument investment, and investors should take advice accordingly. ETI Linked Notes pay interest amount(s) calculated by reference to the value of the interests in exchange traded instruments or the basket of interests in exchange traded instruments.

Whilst interests in exchange traded instruments are traded on an exchange and are therefore valued in a similar manner as a share traded on an exchange, certain provisions related to ETI Linked Notes are similar to the provisions related to funds and Fund Linked Notes.

In the case of ETI Linked Notes, no exchange traded instrument will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Notes, and none of the Issuer, the Guarantor (if applicable) or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such exchange traded instrument contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the interests in the exchange traded instrument will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an exchange traded instrument could affect the trading price of interests in the exchange traded instruments and therefore the trading price of the Notes. ETI Linked Notes do not provide Noteholders with any participation rights in the underlying ETI(s) and, except in certain circumstances in the case of Physical Delivery Notes, do not entitle holders of ETI Linked Notes to any ownership interest or rights in such ETI(s).

Except as provided in the Conditions, Noteholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant exchange traded instruments to which such Notes relate.

Certain considerations associated with Debt Linked Notes

An investment in Debt Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of Debt Linked Notes, Noteholders will receive an amount (if any)

determined by reference to the price or yield of the underlying debt instrument(s) (as specified in the applicable Final Terms) and/or the physical delivery of a given number of debt instrument(s). Accordingly, an investment in Debt Linked Notes may bear similar market risks to a direct debt instrument investment, and investors should take advice accordingly. Debt Linked Notes pay interest amount(s) calculated by reference to the price or yield of the underlying debt instrument(s) (as specified in the applicable Final Terms).

Certain considerations associated with Commodity Linked Notes

General

An investment in Commodity Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of Commodity Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of the commodity, commodity index, commodities and/or commodity indices. Accordingly, an investment in Commodity Linked Notes may bear similar market risks to a direct commodity investment, and investors should take advice accordingly. Commodity Linked Notes pay interest amount(s) calculated by reference to the value of the underlying commodity, commodity index, commodities and/or commodity indices.

Where the Notes are linked to a commodity index, such commodity index may be a well known and widely available commodity index (such as the S&P GSCI®) or a commodity index which may be less well known in which case information (including past performance) may be less readily available. The commodity index may be comprised of futures contracts, mono-indices, or other commodity indices. Pursuant to the operational rules of the relevant commodity index, the commodity index is scheduled to be calculated on a periodic basis (for example on each weekday). In the event that one of the levels, values or prices of a component included in the commodity index is not available for any reason on a relevant day of calculation including, without limitation, (a) where it is a not a business day in respect of that commodity index component or (b) that commodity index component is subject to a market disruption event, then the calculation agent of the commodity index may, but is not obliged to, calculate the level of the commodity index for the relevant day by taking a value for the affected index component on the first day following the end of a specified maximum days of disruption based on the price at which it is able to sell or otherwise realise any hedge position. Such an occurrence may potentially result in a delay in the publication of the commodity index and the level of the commodity index may be affected.

The relevant Issuer and/or its Affiliates may not be able to hedge its obligations in respect of the commodity index under the Notes notwithstanding the calculation and publication of the level of the commodity index. In the event that a Market Disruption Event is occurring on any relevant date for valuation, that valuation date will be postponed until the first succeeding day that is not a Commodity Disrupted Day, subject to a specified maximum days of disruption, as more fully set out in the Conditions. Where this occurs on (i) the Initial Pricing Date or Strike Date for valuation, the Calculation Agent will be unable to determine the initial or strike level for the commodity index and (ii) on the final date for valuation, the Calculation Agent will be unable to determine the final level for the commodity index, until either the Market Disruption Event has ceased or the specified maximum days of disruption have elapsed, whichever is sooner. Investors should be aware that any delay to the determination of the final level of the commodity index may result in a delay in the payment of the Final Redemption Amount.

Factors affecting the performance of Commodities may adversely affect the value of the relevant Commodity Linked Notes; Commodity prices may be more volatile than other asset classes.

The prices of commodities may be volatile and may fluctuate substantially if, for example, natural disasters or catastrophes, such as hurricanes, fires, or earthquakes, affect the supply or production of such commodities. Commodity prices also fluctuate due to general macro-economic forces and general market movements. The price of commodities may also fluctuate substantially if conflict or war affects the supply or production of such commodities. If any amount payable in respect of a Note is linked to the price of a commodity, any change in the price of such commodity may result in the reduction of the amount of such payment in respect of a Note. The reduction in the amount payable on the settlement of the Note may result, in some cases, in a Noteholder receiving a smaller sum on settlement of the Note than the amount originally invested in such Commodity Linked Note.

Commodities may reference physical commodities or commodity contracts, and certain commodity contracts may be traded on unregulated or "under-regulated" exchanges

Commodities comprise both (i) "physical" commodities, which need to be stored and transported, and which are generally traded at a "spot" price, and (ii) commodity contracts, which are agreements either to (a) buy or sell a set amount of an underlying physical commodity at a predetermined price and delivery period (which may be referred to as a delivery month), or to (b) make and receive a cash payment based on changes in the price of the underlying physical commodity.

Commodity contracts may be traded on regulated specialised futures exchanges (such as futures contracts). Commodity contracts may also be traded directly between market participants "over-the-counter" on trading facilities that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. Accordingly, trading in such "over-the-counter" contracts may not be subject to the same provisions as, and the protections afforded to, contracts traded on regulated specialised futures exchanges, and there may therefore be additional risks related to the liquidity and price histories of the relevant contracts and any Notes which reference any such commodity contracts may have reduced liquidity or greater price volatility or be subject to more extensive market disruptions.

In the case of a direct investment in commodity futures contracts, the invested capital may be applied in whole or in part by way of collateral in respect of the future claims of the respective counterparties under the commodity futures contracts. Such capital will generally bear interest, and the interest yield will increase the return of the investor making such direct investment. However, holders of Notes linked to the price of commodity futures contracts do not participate in such interest yields from the hypothetical fully collateralised investment in commodity futures contracts.

Certain Additional Considerations Associated with Commodity Linked Notes valued by reference to Futures Contracts or Debt Linked Notes, Index Linked Notes or Currency Linked Notes where Futures Price Valuation is specified as applicable.

Financial futures contracts are standardised futures transactions that are linked to financial instruments (e.g. stocks, bonds, indices, interest rates and foreign currencies). Commodity futures contracts are standardised futures transactions that are linked to commodities (e.g. mineral commodities, agricultural products and precious metals). A futures transaction constitutes the contractual obligation to buy or sell a certain amount or number of the respective underlying at a fixed price and at a predetermined future point in time. Futures contracts are traded on futures exchanges and standardised for this purpose with respect to their contract size, the nature and quality of the underlying as well as delivery places and dates, if any. Generally, there is a strong correlation between the price development of an underlying financial instrument or commodity (each or “**underlying**”) on the spot market and the corresponding futures exchange. However, the price of a futures contract will generally be traded at a premium on, or discount from, the spot price of the underlying. This discrepancy is due to such factors as (i) the need to adjust the spot price due to related expenses (e.g. in the case of commodities, warehousing, transport and insurance costs) and (ii) different methods being used to evaluate general factors affecting the spot and the futures markets. In addition, and depending on the underlying, there can be significant differences in the liquidity of the spot and the futures markets.

Investment in futures contracts involves certain other risks, including potential illiquidity. A holder of a futures position may find that such position becomes illiquid because certain exchanges limit fluctuations in such futures contract prices pursuant to “daily limits”. Once the price of a particular futures contract has increased or decreased by an amount equal to the daily limit, contracts can neither be bought nor sold unless holders are willing to trade at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. For example, futures contract prices in various underlyings occasionally exceed the daily limit for several days with little or no trading. Such losses could have an adverse effect on the return of Notes linked to the affected futures contracts. Any illiquidity disruption or force majeure event (such as an act of God, fire, flood, severe weather conditions, act of governmental authority or a labour dispute or shortage) is likely to have an adverse effect on the value of or trading in the underlying or futures contracts on such underlying and adversely affect the value of the Notes. In addition, and depending on the commodity, there can be significant differences in the liquidity of the spot and the futures markets. Accordingly, Commodity Linked Notes which are linked to commodity futures contracts may provide a different return from Commodity Linked Notes linked to the relevant physical commodity.

Where the Notes are linked to the exchange price of a futures contract, knowledge of the market of the underlying to which the futures contract is linked as well as of the functioning and evaluation factors of futures contracts is necessary to make a valid assessment of the risks associated with the purchase of these Notes.

In the case of Debt Linked Notes, Index Linked Notes or Currency Linked Notes where Futures Price Valuation is applicable, the Notes are exposed to a futures or options contract relating to a synthetic debt instrument (in the case of Debt Linked Notes), an index (in the case of Index Linked Notes) or a rate of exchange (in the case of Currency Linked Notes) and bear similar market risks to a direct investment in such futures or options contract.

Certain additional considerations associated with Rolling Futures Contract Notes

Futures contracts have a predetermined expiration date. Holding a futures contract until expiration will result in delivery of the physical underlying or the requirement to make or receive a cash settlement amount. Rolling Futures Contract Notes are valued by reference to futures contracts that have a delivery or expiry month that do not correspond with the term of the Notes. Consequently the futures contracts are "rolled" which means that the futures contract that is nearing expiration (the "**near-dated futures contracts**") is sold before it expires and a futures contract that has an expiration date further in the future (the "**longer-dated futures contracts**") is purchased ("**Rolling**"). In order to maintain an ongoing exposure to such underlyings Rolling of the applicable futures contracts is applied.

An investment in futures contracts where the future is a commodity may increase or decrease through Rolling. Where the price of a near-dated futures contract is greater than the price of the longer-dated futures contract (the underlying is said to be in "**backwardation**"), then Rolling from the former to the latter will result in greater exposure to the longer-dated futures contract. Therefore, any loss or gain on the new positions will be greater than if an investor had synthetically held the same number of underlying contracts as before the Rolling. Conversely, where the price of the near-dated futures contract is lower than the price of the longer-dated futures contract (the underlying is said to be in "**contango**") then Rolling will result in less exposure to the longer-dated futures contract. Therefore, any gain or loss on the new positions will be less than if an investor had synthetically held the same number of underlying contracts as before the Rolling.

Depending on whether the Notes are synthetically "long" or "short" the relevant futures contract, where a futures contract is in contango, this is expected to (though may not) have a negative (in the case of a "long" position) or positive (in the case of a "short" position) effect over time on the value of the Notes. Where a futures contract is in backwardation this is expected to (though may not) have a positive (in the case of a "long" position) or negative (in the case of a "short" position) effect over time on the value of the Notes. Where an underlying contract is in contango, then the price of the longer-dated underlying contract will be expected to (but may not) decrease over time as it nears expiry. In such event, Rolling is expected to have a negative effect (in the case of a "long" position) or positive (in the case of a "short" position) on an investment in the underlying contract. Where an underlying contract is in backwardation, then the price of the longer-dated underlying contract is expected to (but may not) increase over time as it nears expiry. In such event, Rolling is expected to have a positive (in the case of a "long" position) or negative (in the case of a "short" position) effect on an investment in the underlying contract.

If, on any Futures Rollover Date (as defined below), a Market Disruption Event (as defined in Commodity Linked Condition 2), a Commodity Index Adjustment Event (as defined in Commodity Linked Notes Condition 4) or a Non-Commencement or Discontinuance of an Exchange-traded Contract (as defined in Index Linked Notes 9, Debt Linked Notes Condition 6 or Currency Linked Notes Condition 5), as applicable, occurs and it is impossible or materially impracticable for the Calculation Agent to select a futures contract and/or at such time hedge the relevant Issuer's obligations in respect of the Notes then:

- (i) in the case of an Index Linked Note, Debt Linked Note or Currency Linked Note that is a Rolling Futures Contract Note:

- (a) unless Delayed Settlement on Occurrence of Non-Commencement or Discontinuance of an Exchange-traded Contract or (in the case of Index Linked Notes), Highest Value, Market Value or Monetisation Option, is specified as being applicable in the applicable Final Terms, the relevant Issuer may settle the Notes by giving notice to Noteholders in accordance with Condition 16 (*Notices*). If the Notes are so settled the relevant Issuer will pay an amount to each Noteholder in respect of each Note, being settled at an amount equal to the fair market value of such Note, taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the relevant Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Condition 16 (*Notices*); or
- (b) if Delayed Settlement on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the relevant Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements and on the Maturity Date shall settle each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Maturity Date at a rate equal to the Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (as specified in the applicable Final Terms); or
- (c) in the case of Index Linked Notes, if Highest Value is specified as being applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 16 (*Notices*), settle all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated as the greater of the fair market value of such Note (notwithstanding any illegality (if applicable) and taking into account any Non-Commencement or Discontinuance of an Exchange-traded Contract) and the Protected Amount specified in the applicable Final Terms, provided that, (x) no costs shall be deducted from such amount and (y) such amount shall include the reimbursement by the Issuer, *pro rata* (calculated from the early maturity date notified to the Noteholders until the scheduled Maturity Date of the Notes of any costs (including but not limited to any structuring costs) paid by Noteholders to the Issuer in the Issue Price of the Notes, such amount to be paid to the Noteholders on the date notified to the Noteholders in the notice of early settlement;
- (d) in the case of Index Linked Notes, if Market Value is specified as being applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Condition 16

(*Notices*), settle all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated as the fair market value of a Note (notwithstanding the illegality (if applicable) and taking into account any Non-Commencement or Discontinuance of an Exchange-traded Contract) calculated (x) without taking account of any costs and no costs shall be deducted from such amount, and (y) including the reimbursement by the Issuer, *pro rata* (calculated from the early maturity date notified to the Noteholders until the scheduled Maturity Date of the Notes), of any costs (including but not limited to any structuring costs) paid by Noteholders to the Issuer in the Issue Price of the Notes, such an amount to be paid to the Noteholders on the date notified in the notice of early settlement;

(e) in the case of Index Linked Notes, if Monetisation Option is specified as being applicable in the applicable Final Terms the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), settle all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated as:

- (I) the Monetisation Amount (as defined below) (including the reimbursement by the Issuer, *pro rata* (calculated from the early maturity date notified to the Noteholders until the scheduled Maturity Date of the Notes), of any costs (including but not limited to any structuring costs) paid by Noteholders to the Issuer in the Issue Price of the Notes), such amount to be paid by the Issuer (notwithstanding the notice of early settlement) on the Maturity Date; or
- (II) if the Noteholder duly elects to receive the fair market value, as provided below, the fair market value of such Note, such amount to be paid by the Issuer on the date fixed for early settlement, as notified to the Noteholders.

Where:

"**Monetisation Amount**" means, in respect of a Note, an amount equal to the greater of the Protected Amount specified in the applicable Final Terms and the amount calculated by the Calculation Agent as follows:

$$(S + D) \times (1 + r)^n$$

"**S**" is the present value of the Protected Amount of such Note on the date on which the event triggering early settlement occurs;

"**D**" is the market value of the Derivative Component on the date on which the event triggering early settlement occurs;

"**r**" is a hypothetical annual interest rate that would be applied on an equivalent hypothetical debt instrument issued by the Issuer (or the Guarantor, as applicable) with the same time to redemption

as the remaining time to settlement on the Notes from the date fixed for early settlement until the scheduled maturity date of the Notes;

"**n**" is the time remaining until the scheduled maturity date of the Notes, expressed as a number of years; and

"**Derivative Component**" means the option component or embedded derivative in respect of the Note or the interest amount due under the Note in order to enable the Issuer to issue the Note at the issue price and on their applicable terms. The value of the Derivative Component will be determined by the Calculation Agent, taking into account a number of factors, including, but not limited to:

- (A) market prices or values for the underlying reference asset(s) or basis (bases) and other relevant economic variables (such as interest rates; dividend rates; financing costs; the value, price or level of any relevant underlying reference asset(s) or basis (bases) and any futures or options relating to any of them; the volatility of any relevant underlying reference asset(s) or basis (bases); and exchange rates (if applicable));
 - (B) the time remaining until the scheduled maturity date of the Notes;
 - (C) internal pricing models; and
 - (D) prices at which other market participants might bid for the Derivative Component.
- (ii) in the case of a Commodity Linked Note that is a Rolling Futures Contract Note, the relevant Issuer may take such actions as described in Commodity Linked Notes Condition 3 (*Consequences of a Market Disruption Event and Disruption Fallbacks*) and Commodity Linked Notes Condition 4 (*Adjustments to a Commodity Index*), as applicable (see "*Market Disruption Events relating to Commodity Linked Notes*" and "*Adjustment Events relating to Commodity Index Linked Notes*" below).

Rollover ("**Rollover**") will be effected on the relevant day specified in the applicable Final Terms or the date selected by the Calculation Agent acting in good faith and in a commercially reasonable manner within the Futures Rollover Period specified in the applicable Final Terms (the "**Futures Rollover Date**") within a certain time frame shortly before the expiration date of the current futures contract. Consequently on any Futures Rollover Date, the relevant Issuer will liquidate its positions assumed through the corresponding hedging arrangements in relation to the existing futures contract whose expiration is imminent and will assume corresponding positions in relation to a new futures contract having identical terms but with a different maturity selected by it acting in good faith and in a commercially reasonable manner.

At each Rollover there may be expenses incurred in replacing the futures contract which may have an adverse effect on the return on the Notes.

Prospective investors should be aware that in respect of Rolling Futures Contract Notes, the price difference between the futures involved in each Rollover may have a negative effect on the value of the Notes and in the

long term be higher than the positive performance of the underlying and result in a total loss of the investment in the Notes. Rolling Futures Contract Notes may not be suitable for investors who intend to invest medium to long term.

Certain Considerations Associated with Inflation Linked Notes

An investment in Inflation Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of Inflation Index Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of the underlying inflation index/indices. Inflation Linked Notes pay interest amount(s) calculated by reference to the value of the underlying inflation index/indices.

Certain considerations associated with Currency Linked Notes

An investment in Currency Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of Currency Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of the currency/currencies and/or the physical delivery of a given amount of a currency or currencies. Accordingly, an investment in Currency Linked Notes may bear similar market risks to a direct currency investment, and investors should take advice accordingly. Currency Linked Notes pay interest amount(s) calculated by reference to the value of the underlying currency/currencies.

Fluctuations in exchange rates of the relevant currency (or basket of currencies) will affect the value of Currency Notes. The performance of foreign exchange rates is dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to international and domestic political factors, economic factors (including inflation rates in the countries concerned, interest rate differences between the respective countries), economic forecasts, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Measures taken by governments and central banks include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a Settlement Currency that would affect exchange rates and the availability of a Settlement Currency which would affect return on the Currency Linked Notes or ability of the relevant Issuer to make delivery in the Settlement Currency.

Furthermore, investors who intend to convert gains or losses from the exercise, settlement or sale of Currency Notes into their home currency may be affected by fluctuations in exchange rates between their home currency and the relevant currency (or basket of currencies). Currency values may be affected by complex political and economic factors, including governmental action to fix or support the value of a currency (or basket of currencies), regardless of other market forces. Investors in Currency Linked Notes risk losing their entire investment if exchange rates of the relevant currency (or basket of currencies) do not move in the anticipated direction.

If additional warrants, securities or options relating to particular currencies or particular currency indices are subsequently issued, the supply of warrants and options relating to such currencies or currency indices, as

applicable, in the market will increase, which could cause the price at which the Notes and such other warrants, securities and options trade in the secondary market to decline significantly.

Currency Linked Notes linked to emerging market currencies may experience greater volatility and less certainty as to the future levels of such emerging market currencies or their rate of exchange as against other currencies. See also "*Certain Considerations Associated with Notes linked to emerging markets*".

Certain considerations associated with Dual Currency Notes

An investment in Notes in relation to which Dual Currency Notes is specified as being applicable in the Final Terms (such Notes being "**Dual Currency Notes**") will entail significant risks not associated with an investment in a conventional debt security. Fluctuations in exchange rates will affect the value of Dual Currency Notes. Currency values related to the exchange rates may be affected by complex political and economic factors, including governmental action to fix or support the value of an exchange rate, regardless of other market forces. Investors in Dual Currency Notes risk losing their entire investment if the relevant exchange rates do not move in the anticipated direction.

Certain considerations associated with Fund Linked Notes

An investment in Fund Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of Fund Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of the fund shares and/or the physical delivery of a given number of fund shares or units. Accordingly, an investment in Fund Linked Notes may bear similar market risks to a direct fund investment, and investors should take advice accordingly. Fund Linked Notes pay interest amount(s) calculated by reference to the value of the underlying fund shares or units. The price of units or shares in a fund may be affected by the performance of the fund service providers, and in particular the investment adviser.

No Fund Service Provider will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Fund Linked Notes, and none of the Issuer, the Guarantor (if applicable) or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of fund shares or units contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the fund shares or units will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of fund shares or units could affect the trading price of the fund shares or units and therefore the trading price of the Notes. Fund Linked Notes do not provide Noteholders with any participation rights in the underlying Fund(s) and except in certain circumstances in the case of Physical Delivery Notes, do not entitle holders of Fund Linked Notes to any ownership interest or rights in such Fund(s).

Except as provided in the Conditions, Noteholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant fund shares or units to which such Notes relate.

Certain considerations associated with Futures Linked Notes

An investment in Futures Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of Futures Linked Notes, Noteholders will receive an amount (if any) determined by reference to the value of the futures contract or basket of futures contracts. Accordingly, an investment in Futures Linked Notes may bear similar market risks to a direct futures contract investment, and investors should take advice accordingly. Futures Linked Notes pay interest amount(s) calculated by reference to the value of the underlying futures contract or basket of futures contracts.

Additional risk factors for Credit Linked Notes

General

The Issuers may issue Notes ("**Credit Linked Notes**") where the amount payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more Reference Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities. Credit Linked Notes are Notes in respect of which the relevant Issuer has effectively bought protection on one or more Reference Entities from the Noteholders and payments on such Notes and/or Note such Issuer's obligation is to deliver certain specified assets, will depend on the occurrence of a Credit Event with respect to such Reference Entities.

The price of such Notes may be volatile and will be affected by, amongst other things, the time remaining to the maturity date and the creditworthiness of the Reference Entities, which in turn may be affected by the economic, financial and political events in one or more jurisdictions. In purchasing Credit Linked Notes, investors assume credit exposure to both the specified Reference Entity or Reference Entities and the Issuer (and the Guarantor, if applicable) of the Credit Linked Notes. The credit risk to investors may further be increased if the specified Reference Entity or Reference Entities are concentrated in the same industry sector or geographic area as the Issuer (or the Guarantor, if applicable).

Where the Notes provide for physical delivery, to the extent this is allowed under the applicable laws and regulations in force from time to time, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified maturity date or (b) assets which the relevant Issuer and/or any Affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such Affiliate to hedge such Issuer's obligations in respect of the Notes. Any such determination may delay settlement in respect of the Notes and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Notes and, as a result, the amount payable on settlement. Prospective investors should review the Conditions and the applicable Final Terms to ascertain whether and how such provisions should apply to the Notes.

The relevant Issuer's obligations in respect of Credit Linked Notes are irrespective of the existence or amount of the relevant Issuer's and/or any Affiliates' credit exposure to a Reference Entity, and the relevant Issuer and/or any Affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

The holders of Credit Linked Notes will be exposed to the credit risk of one or more Reference Entities, which exposure shall be to the full extent of their investment in such Credit Linked Notes. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Noteholders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Credit Linked Note is unlikely to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity.

A subscription or purchase of Credit Linked Notes does not constitute an investment in, or short selling, any obligations of the Reference Entity/ies, or of any interest in any such obligations. Noteholders of the Credit Linked Notes will have rights solely against the relevant Issuer of the Credit Linked Notes and will not have any rights against any Reference Entity. In particular, Noteholders will not have: (a) the right to vote or give or withhold from giving any consent in relation to any obligation of any Reference Entity; (b) the right to receive any coupons, fees or other distributions which may be paid by any Reference Entity to holders of the any obligations of any Reference Entity; or (c) the right to receive any information from any Reference Entity. Accordingly, an investment in the Credit Linked Notes is not equivalent to an investment in, or short selling of, any obligation of a Reference Entity relating to such Credit Linked Notes.

Noteholders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls.

A Credit Event may occur prior to the Trade Date

Noteholders of Credit Linked Notes may suffer a loss of some or all of the settlement amount of the Notes in respect of one or more Credit Events that occur prior to the Trade Date or the Issue Date, if the Credit Event Backstop Date is specified as a date falling prior to such date. Accordingly, the Noteholder of Credit Linked Notes will be exposed to the risk of the occurrence of any Credit Event after the applicable Credit Event Backstop Date even if it occurs prior to the Issue Date, which may be several weeks after the Trade Date. If the Reference Entity suffers a Credit Event prior to the Issue Date (or if the Credit Event Backstop Date is specified as a date falling on or after the Issue Date, on or after such date), and a Credit Event Notice, and a Notice of Publicly Available Information (if applicable) are properly delivered, which may occur on or shortly after the Issue Date of the Notes, such Notes will be subject to exercise, at or shortly after the Issue Date. No interest will be paid on such Notes. Neither the Calculation Agent or the relevant Issuer nor any of their respective Affiliates has any responsibility to inform any Noteholder, or avoid or mitigate the effects of a Credit Event that has taken place prior to the Trade Date or the Issue Date.

Increased credit risks associated with First-to-Default and Nth-to-Default Credit Linked Notes

Where the Notes are First-to-Default Credit Linked Notes, the Notes will be subject to settlement in full as described above upon the occurrence of the first Credit Event in relation to any of the Reference Entities. The credit risk to Noteholders may therefore be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Where the Notes are Nth-to-Default Credit Linked Notes, the Notes will be subject to settlement in full as described above upon the occurrence of a Credit Event in relation to the nth Reference Entity. The credit risk to Noteholders may therefore be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Additional credit risks associated with Basket Credit Linked Notes

Where the Notes are Basket Credit Linked Notes and a Distribution End Date is specified in the Final Terms, the Final Terms shall specify whether "Distribution Period Settlement", "Settlement at Maturity" or "Distribution Period Event Determination Date Disapplication" applies. If "Distribution Period Settlement" applies and an Event Determination Date occurs on or prior to the Distribution End Date, Noteholders of such Credit Linked Notes will suffer a loss of interest and the Notes will be settled, in part, early.

Noteholders increased risks associated with Tranched Credit Linked Notes

Tranched Credit Linked Notes create leveraged exposure to the credit risk of the Reference Entities as the implicit portfolio size or size of the aggregate notional amount of the Reference Portfolio is significantly larger than the aggregate notional amount of the Credit Linked Notes. Investors can lose a significant part or all of their investment even if a Credit Event occurs in respect of only one or a few of the Reference Entities comprising the Reference Portfolio. The value of the Tranched Credit Linked Notes may be more volatile and credit losses in respect of the Tranched Credit Linked Notes may be greater than would be the case in the absence of such leverage. The value of the Tranched Credit Linked Notes may also be adversely affected by changes in the relative value of different tranches of credit risk on the Reference Portfolio. Such relative value changes may occur as a result of, for example, changes in assumptions by market participants to model the credit risk of the Reference Portfolio, correlation between the Reference Entities, as well as changes in the supply of and demand for credit protection in relation to each such tranche are exposed to risk on Reference Entities.

Where Cash Settlement or Auction Settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a settlement of the Notes in a reduced settlement amount or at zero, and, (if applicable) in a reduction of the amount on which interest is calculated. Where Physical Settlement applies, the occurrence of a Credit Event may result in the settlement of the Notes based on the valuation (or by delivery) of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value which is substantially less than their par amount.

Issuer and Calculation Agent will act in their own interests

Each of the Issuers and the Calculation Agent will exercise its rights under the terms of the Credit Linked Notes, including in particular the right to designate a Credit Event and the right to select obligations of the affected Reference Entity for valuation or in respect of the Notes, delivery, in its own interests and those of its Affiliates, and not in the interests of investors in the Notes. The exercise of such rights in such manner, for example by the selection of the eligible obligations of the Reference Entity having the lowest possible market value for valuation, may result in an increased credit loss for holders of the Credit Linked Notes. The exercise of such discretion by the Issuer or Calculation Agent could adversely affect (i) the value of the amount in cash, if any, which will be paid in respect of any Notes on the applicable maturity date, if any, or (ii) the market value of the portfolio of obligations the relevant Issuer will Deliver.

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent shall (in the absence of manifest error) be final and binding on the Noteholders. In performing its duties pursuant to the Notes and making any determinations expressed to be made by it, for example, as to substitute Reference Obligations or Successors, the Calculation Agent shall act in its sole and absolute discretion and is under no obligation to act in the interests of the Noteholders, nor will it be liable to account for any profit or other benefit which may accrue to it as a result of such determinations. The Calculation Agent is not bound to follow, or act in accordance with, any determination of the relevant Credit Derivatives Determinations Committee.

Actions of Reference Entities may affect the value of the Credit Linked Notes

Actions of Reference Entities (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of the Credit Linked Notes. Noteholders of the Credit Linked Notes should be aware that the Reference Entities to which the value of the Notes is exposed, and the terms of such exposure, may change over the term of the Notes.

Suspension of Obligations will suspend payment of principal and interest

In certain circumstances, pending a resolution of a Credit Derivatives Determination Committee, all of the obligations of the relevant Issuer under each Credit Linked Note (including any obligation to deliver any notices, pay any settlement amount) shall, be and remain suspended until ISDA publicly announces that the relevant Credit Derivatives Determination Committee has resolved the matter in question or not to determine such matters. The Calculation Agent will provide notice of such suspension as soon as reasonably practicable; however, any failure or delay by the Calculation Agent in providing such notice will not affect the validity or effect of such suspension. No interest shall accrue on any payments which are suspended in accordance with the above.

Use of Auction Settlement may adversely affect returns to Noteholders

Where the Credit Linked Notes are settled following the occurrence of a Credit Event by reference to an auction sponsored by ISDA, the relevant Issuer or its Affiliates may act as a participating bidder in any such auction and, in such capacity, may take certain actions which may influence the Auction Final Price including (without

limitation) submitting bids, offers and physical settlement requests with respect to the obligations of the Reference Entity. If the relevant Issuer or its Affiliates participate in an Auction, then they will do so without regard to the interests of Noteholders, and such participation may have a material adverse effect on the outcome of the relevant Auction and/or on the Credit Linked Notes. Noteholders will have no right to submit bids and/or offers in an Auction.

The Auction Final Price determined pursuant to an auction may be greater than the market value that would otherwise have been determined in respect of the specified Reference Entity or its obligations. In particular, the Auction process may be affected by technical factors or operational errors which would not otherwise apply or may be the subject of actual or attempted manipulation. Auctions may be conducted by ISDA or by a relevant third party. Neither the Calculation Agent, the relevant Issuer nor any of their respective Affiliates has any responsibility for verifying that any auction price is reflective of current market values, for establishing any auction methodology or for verifying that any auction has been conducted in accordance with its rules. The relevant Issuer will have no responsibility to dispute any determination of an Auction Final Price or to verify that any Auction has been conducted in accordance with its rules.

Following an M(M)R Restructuring Credit Event in relation to which ISDA sponsors multiple concurrent auctions, but where there is no relevant auction relating to credit derivative transactions with a maturity corresponding to the Credit Linked Notes, if the Calculation Agent exercises the right of the buyer or, as the case may be, seller of credit risk protection under the Credit Linked Notes to elect that the Auction Final Price is determined by reference to an alternative Auction, the Auction Final Price so determined may be lower than the amount which would have been determined based on quotations sought from third party dealers, thereby reducing the amount payable to Noteholders.

Use of Cash Settlement may adversely affect returns to Noteholders

If the Notes are cash settled, then, following the occurrence of a Credit Event, the Calculation Agent will be required to seek quotations in respect of selected obligations of the affected Reference Entity. Quotations obtained will be "bid-side" - that is, they will be reduced to take account of a bid-offer spread charged by the relevant dealer. Such quotations may not be available, or the level of such quotations may be substantially reduced or may vary substantially as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Reference Entity (for example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly different from the value of the relevant obligation which would be determined by reference to (for example) the present value of related cashflows. Quotations will be deemed to be zero in the event that no such quotations are available.

"Cheapest-to-Deliver" risk

Since the Issuer, as buyer of protection in respect of the Notes has discretion to choose the portfolio of obligations and/or assets to be valued or delivered following a Credit Event in respect of a Reference Entity, it is likely that the portfolio of obligations and/or assets selected will be obligations of the Reference Entity and/or assets with

the lowest market value that are permitted to be selected pursuant to the terms of the Notes. This could result in a lower recovery value and hence greater losses for investors in the Notes.

Cash settlement (whether by reference to an auction or a dealer poll) may be less advantageous than physical delivery of assets

Payments on the Credit Linked Notes following the occurrence of an Event Determination Date may be in cash and will reflect the value of relevant obligations of the affected Reference Entity at a given date. Such payments may be less than the recovery which would ultimately be realised by a holder of debt obligations of the affected Reference Entity, whether by means of enforcement of rights following a default or receipt of distributions following an insolvency or otherwise.

Asset Package Delivery risks

The 2014 Definitions introduced the concept of asset package delivery. In certain circumstances where (a) "Financial Reference Entity Terms" and "Governmental Intervention" applies in respect of a Reference Entity and (i) there is a Governmental Intervention Credit Event; or (ii) a Restructuring Credit Event in respect of the Reference Obligation where such Restructuring does not constitute a Governmental Intervention or (b) a Restructuring Credit Event in respect of a Sovereign, then a related asset package resulting from a prior deliverable obligation (where "Financial Reference Entity Terms" apply) or package observable bond (where the Reference Entity is a sovereign) may also be deliverable. The asset package would be treated as having the same outstanding principal as the corresponding prior deliverable obligation or package observable bond.

If the resulting asset package is deemed to be zero where there are no resulting assets, the related credit loss will be 100 per cent. notwithstanding the recovery value on any other obligations of the Reference Entity.

The risk factors "*Use of Auction Settlement may adversely affect returns to Noteholders*" and "*Use of Cash Settlement may adversely affect returns to the Noteholders*" above would apply to any asset or asset package.

If an asset in the asset package is a non-transferable instrument or non-financial instrument, the value of such asset will be the market value determined by reference to a specialist valuation or in accordance with methodology determined by the Credit Derivatives Determinations Committees. See "*Conflicts of Interest - Credit Derivatives Determinations Committees*" and "*Risks associated with Credit Derivatives Determinations Committees*" for risk factors relating to valuation in accordance with CDDC methodology.

Increased risks where "Zero Recovery" or a specified Final Price is applicable

Where "Zero Recovery" is applicable, if a Credit Event occurs in respect of a Reference Entity, investors will automatically lose an amount in principal or notional amount of the Credit Linked Note equal to the portion of the Credit Linked Note which is allocated to the credit risk of the affected Reference Entity. Investors should note that, in such circumstances, the Auction Final Price, Weighted Average Final Price or Final Price (which would otherwise apply in the absence of "Zero Recovery") or the recovery on any investments in bonds or other instruments issued by such Reference Entity will be higher (and may be significantly higher) than the zero

recovery value ascribed to such Reference Entity under the Notes. Likewise, if the Final Price is specified in the Final Terms in relation to Credit Linked Notes, such fixed Final Price may be lower (and may be significantly lower) than the recovery which an investor in bonds or instruments issued by such Reference Entity would receive. Furthermore, both where "Zero Recovery" or a specified Final Price is applicable, the market value of the Credit Linked Notes may not reflect the market value of a credit default swap on the Reference Entity or any other products linked to or issued by the Reference Entity which may be significantly higher.

The Issuer and Calculation Agent are not obliged to disclose information on Reference Entities

The relevant Issuer and the Calculation Agent are not obliged to disclose to holders of the Notes any information which they may have at the Issue Date or receive thereafter in relation to any Reference Entity.

The value of the Credit Linked Notes may be adversely affected by Illiquidity or Cessation of Indices

In determining the value of the Credit Linked Notes, dealers may take into account the level of a related credit index in addition to or as an alternative to other sources of pricing data. If any relevant index ceases to be liquid, or ceases to be published in its entirety, then the value of the Notes may be adversely affected.

Historical performance may not predict future performance

Individual Reference Entities may not perform as indicated by the historical performance of similar entities and no assurance can be given with respect to the future performance of any Reference Entities. Historical default statistics may not capture events that would constitute Credit Events for the purposes of the Credit Linked Notes.

Limited provision of information about the Reference Entities

Investors should conduct their own investigation and analysis with respect to the creditworthiness of Reference Entities and the likelihood of the occurrence of a Succession Event or Credit Event.

Reference Entities may not be subject to regular reporting requirements under securities laws. The Reference Entities may report information in accordance with different disclosure and accounting standards. Consequently, the information available for such Reference Entities may be different from, and in some cases less than, the information available for entities that are subject to the reporting requirements under the United Kingdom securities laws. None of the Issuers or the Calculation Agent or any of their respective Affiliates make any representation as to the accuracy or completeness of any information available with respect to the Reference Entities.

None of the Issuers or the Calculation Agent or any of their respective Affiliates will have any obligation to keep investors informed as to any matters with respect to the Reference Entities or any of their obligations, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Credit Event or a Succession Event with respect to the Reference Entities.

Prospective investors should note that in certain circumstances, there may be no requirement for the relevant Issuer to give information which is generally publicly available in relation to the occurrence of a Credit Event. If

a Credit Event occurs in respect of an Obligation of a Reference Entity which is not public, Noteholders of the Credit Linked Notes may not be able to verify the occurrence of such Credit Event.

Risks associated with Credit Derivatives Determinations Committees

The institutions of the Credit Derivatives Determinations Committee owe no duty to the Noteholders and have the ability to make determinations that may materially affect the Noteholders, such as the occurrence of a Credit Event or a Succession Event. A Credit Derivatives Determinations Committee may be able to make determinations without action or knowledge of the Noteholders.

Noteholders may have no role in the composition of any Credit Derivatives Determinations Committee. Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on a Credit Derivatives Determinations Committee and the Noteholders may have no role in establishing such criteria. In addition, the composition of a Credit Derivatives Determinations Committee will change from time to time in accordance with the Rules, as the term of an institution may expire or an institution may be required to be replaced. The Noteholders may have no control over the process for selecting institutions to participate on a Credit Derivatives Determinations Committee and, to the extent provided for in the Notes, will be subject to the determinations made by such selected institutions in accordance with the Rules.

Noteholders may have no recourse against either the institutions serving on a Credit Derivatives Determinations Committee or the external reviewers. Institutions serving on a Credit Derivatives Determinations Committee and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on a Credit Derivatives Determinations Committee do not owe any duty to the Noteholders and the Noteholders will be prevented from pursuing claims with respect to actions taken by such institutions under the Rules.

Noteholders should also be aware that institutions serving on a Credit Derivatives Determinations Committee have no duty to research or verify the veracity of information on which a specific determination is based. In addition, a Credit Derivatives Determinations Committee is not obligated to follow previous determinations and, therefore, could reach a conflicting determination on a similar set of facts. If the relevant Issuer or the Calculation Agent or any of their respective Affiliates serve as a member of a Credit Derivatives Determinations Committee at any time, then they will act without regard to the interests of the Noteholders.

Noteholders are responsible for obtaining information relating to deliberations of a Credit Derivatives Determinations Committee. Notices of questions referred to the Credit Derivatives Determinations Committee, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the relevant Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Noteholders of such information (other than as expressly provided in respect of the Notes). Failure by the Noteholders to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under the Notes and Noteholders are solely responsible for obtaining any such information.

Investors should read the Credit Derivatives Determinations Committees Rules as amended from time to time as set out on the ISDA Credit Derivatives Determinations Committees website, <https://www.cdsdeterminationscommittees.org/dc-rules/> and reach their own views prior to making any investment decisions. Investors should however note that the Rules may subsequently be amended from time to time without the consent or input of the Noteholders and the powers of the Credit Derivatives Determinations Committee may be expanded or modified as a result.

Multiple Auctions following Restructuring Credit Event

Where multiple concurrent Auctions are held following a Restructuring Credit Event, the relevant Issuer may be entitled to select a particular Auction for the purposes of settlement of the Credit Linked Notes. The relevant Issuer will make such election acting in its own interests and not in the interests of the Noteholders.

The Calculation Agent may modify the terms of the Credit Linked Notes

The Calculation Agent may, following its determination that there has been a change in the prevailing market standard terms or market trading conventions that affects any hedging transaction, modify the terms of the Credit Linked Notes to the extent reasonably necessary to ensure consistency with the prevailing market standard terms or market trading conventions, without the consent of Noteholders or prior notice to Noteholders. The Calculation Agent is not obliged to make any such modifications. If the Calculation Agent modifies the terms of the Credit Linked Notes, it will do so without regard to the interests of the holders of the Credit Linked Notes and any such modification may be prejudicial to the interests of the holder of the Credit Linked Notes.

The Calculation Agent may modify the terms of the Notes

The Calculation Agent may, following its determination that there has been a change in the prevailing market standard terms or market trading conventions that affects any hedging transaction, modify the terms of the Notes to the extent reasonably necessary to ensure consistency with the prevailing market standard terms or market trading conventions, without the consent of Noteholders or prior notice to Noteholders. The Calculation Agent is not obliged to make any such modifications. If the Calculation Agent modifies the terms of the Notes, it will do so without regard to the interests of the holders of the Notes and any such modification may be prejudicial to the interests of the holder of the Notes.

Certain considerations associated with Hybrid Notes

An investment in Hybrid Notes will entail significant risks not associated with an investment in a conventional debt security. On settlement of Hybrid Notes, Noteholders will receive an amount (if any) determined by reference to the value of a number of different Underlying References. Hybrid Notes pay interest amount(s) calculated by reference to the value of a number of different Underlying References.

(D) RISKS RELATING TO SECURED NOTES

Factors which are material for the purpose of assessing the risks associated with the Mortgaged Property

Collateral

If the Notes are Secured Notes in order to secure its obligations under a Series of Notes, MBFL will grant to the Security Trustee on behalf of the Noteholders security over the Collateral Assets or its rights in respect of the Collateral Assets. Where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms then the Counterparty may be obliged under the Transfer Agreement, Credit Support Document and/or any Additional Charged Agreement to transfer the relevant Collateral Assets to MBFL from time to time. The purpose of the Charged Agreements may also be to allow MBFL to perform its scheduled obligations under the Secured Notes, all as described more fully in the applicable Final Terms. Where Collateral Arrangements Only is specified as applying the Final Terms it will be the responsibility of MBFL or, failing MBFL, the Guarantor to provide the relevant Charged Assets and MBFL may have certain obligations or rights to adjust the Collateral Assets from time to time.

Shortfall on Realisation of Mortgaged Property

If the Notes are Secured Notes the security provided for a Series of Notes is limited to the Mortgaged Property in respect of such Series. The proceeds of realisation of the Mortgaged Property may be less than the sums due to the Noteholders in respect of such Series. In the event that a Shortfall exists, MBFL or, failing MBFL, the Guarantor shall remain liable for the Shortfall pursuant to the terms of the Guarantee. Any Shortfall will constitute an unsecured claim by the Noteholders against MBFL or, if MBFL fails to make payment of such amount, the Guarantor. Investors should be aware that they are therefore exposed to the creditworthiness of MBFL and the Guarantor. In the event of the insolvency of MBFL and the Guarantor, investors may lose all or a substantial portion of their investment.

Adjustment of Collateral Assets

Where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms then pursuant to the terms of the relevant Charged Agreement(s) and if so specified in the applicable Final Terms, MBFL and the Counterparty may transfer amounts of cash or securities to each other by way of credit support from time to time. Such amounts when held by MBFL will comprise part of the Collateral Assets. Investors should review carefully such provisions to understand the effect of these on the Notes. One possible approach is that the Counterparty may calculate the fair market value of the Secured Notes and the fair market value of Collateral Assets (taking into account all factors which the Counterparty deems relevant), and provided that no account shall be taken of the financial condition of (i) MBFL which shall be presumed to be able to perform fully its respective obligations under the Secured Notes or (ii) the Guarantor which shall be presumed to be able to perform fully its obligations under the Guarantee, and on such periodic basis as set out in the applicable Final Terms and the relevant Charged Agreement(s). In the event that on the date of valuation there is a mismatch between the fair market value of the Collateral Assets and the fair market value of the Secured Notes, the Counterparty shall deliver Collateral Assets and, as applicable, MBFL shall redeliver Collateral Assets to the Counterparty pursuant to the Credit Support Document, if applicable. If, prior to a valuation date, the fair market value of the Secured Notes increases, or the fair market value of the Collateral Assets decreases, investors will be exposed to the mismatch

between the fair market value of the Secured Notes and the fair market value of the Collateral Assets until the next valuation date.

Where Collateral Arrangements Only is specified as applying in the Final Terms the terms of the Secured Notes may provide that the Collateral Assets may be adjusted in accordance with the terms of Secured Notes Condition 5 (*Adjustment of Collateral Assets*). Such adjustment will be as specified in the applicable Final Terms and may be in whole or in part and may be for cash or other assets. Such adjustment may involve MBFL topping up, removing, maintaining and/or substituting Collateral Assets and this may diminish or have an adverse effect on the value of the Collateral Assets in some circumstances.

The following considerations apply principally where Collateral Arrangements Only is specified as applying the Final Terms. However it is possible that similar features may be specified where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms:

- The relevant adjustment rights of MBFL in respect of the Collateral Assets where applicable will be specified in the Final Terms. In the case where MBFL has the right but not the obligation to top up the Collateral Assets Noteholders should be aware that no assurance expressed or implied can be given that in any circumstances MBFL will exercise its right to provide any additional Collateral Assets. As a result Collateral Assets may be limited to the Initial Collateral Assets at all times.
- Where specified in the Final Terms MBFL may have the right to remove excess Collateral Assets at any time to the extent that they are not then required to meet the relevant coverage requirement specified in the Final Terms. However, in this case investors should note that MBFL may be under no obligation to return the Collateral Assets at any time following the removal. It is possible that the relevant coverage requirement in respect of the Collateral Assets will not be met. As a result the Collateral Assets will be less than if MBFL had not exercised such right.
- In certain cases MBFL may have the right to substitute Collateral Assets and this may either be with the requirement that the value of the Collateral Asset is immediately following the substitution remains at least equal to their value immediately prior to the substitution or it may be by reference to the requirement that the relevant coverage requirement for the Collateral Assets continues to be met immediately following the substitution. Where MBFL exercises any substitution right this may have a detrimental effect on the available Collateral Assets and their quality which may be disadvantageous to Noteholders. Any such substitution right may be exercised any number of times.

Investors should note that MBFL will only have an obligation to maintain the Collateral Assets where this is so specified in the Final Terms. In this case the maintenance obligation may be by reference to the nominal value of Collateral Assets or otherwise the value of the Collateral Assets determined as specified in the terms and conditions and the Final Terms. Investors should review carefully these provisions in order to understand clearly the way in which these may operate and their effect on the value of the Secured Notes. In the event that under Condition 5 (*Adjustment of Collateral Assets*), MBFL or under the Credit Support Document (if applicable) the Counterparty is required to deliver additional Collateral Assets, MBFL and/or the Counterparty shall do so as

soon as practicable following the relevant valuation date. There may be a delay between the valuation date and the date on which MBFL and/or the Counterparty is able to deliver such additional Collateral Assets and investors will be exposed to the mismatch between the fair market value of the Secured Notes and the value of the Collateral Assets during such period.

Potential Conflicts of Interest between the Investors and the Counterparty

This section applies where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms. Various potential and actual conflicts of interest may arise between the interests of the Noteholders and the Counterparty, which is likely to be an affiliate of MBFL. Neither the Counterparty nor its affiliates is required to resolve such conflicts of interest in favour of the Noteholders and may pursue actions and take such steps that it deems necessary or appropriate to protect its interests without regard to the consequences for the Noteholders. In particular, the interests of the Counterparty may be adverse to those of the Noteholders. The terms of the Transfer Agreement and, if applicable, the Credit Support Document require the Counterparty to make certain determinations and exercise certain discretions (including as to the value of the Secured Notes and the Collateral Assets) and it may make such determinations and exercise such discretions without any regard for the interests of the Noteholders.

Collateral Management

In respect of certain Series of Secured Notes MBFL and, where applicable, the Counterparty may each appoint one or more agents to perform custodial and administrative functions relating to their obligations under the Secured Notes, the Transfer Agreement, the Collateral Assets or the Credit Support Document, as applicable. Such delegation shall not relieve MBFL or the Counterparty, where applicable, of their obligations under the Secured Notes, the relevant Transfer Agreement, the Collateral Assets or Credit Support Document, as applicable, and MBFL or the Counterparty shall be liable for the acts and omissions of their agents. In addition, a failure by any agent to perform its duties and obligations with respect to the Collateral Assets, or the occurrence of any adverse event in relation to any of those entities, may adversely affect the availability of the Collateral Assets, and consequently adversely affect the realisation of the Mortgaged Property.

Possible mandatory redemption or cancellation following termination of the Transfer Agreement or Credit Support Document

Where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms then if the Transfer Agreement or, if applicable, Credit Support Document is terminated in accordance with its terms prior to its stated date of termination, MBFL may, if such right is specified in the Final Terms, redeem or cancel, as applicable, the Secured Notes in whole but not in part by payment of the Early Redemption Amount together with any accrued interest. Following such redemption or cancellation an investor generally may not be able to reinvest the redemption or cancellation proceeds in a comparable security with an effective return as high as the return on the relevant Secured Notes. If the Transfer Agreement or Credit Support Document, as applicable, is terminated as a result of an event of default, the Security will, if so specified in the Final Terms, become enforceable.

Fluctuations in the value of the Mortgaged Property

The Collateral Assets may be subject to fluctuations in value. Investors should note that the Collateral Assets may suffer a negative performance between the time at which the Security becomes enforceable and the realisation of the Mortgaged Property. In extraordinary circumstances, the Mortgaged Property available at the time at which the Security becomes enforceable could completely lose its value by the time of realisation.

Substitution of the Collateral Assets at the option of the Counterparty and Counterparty control

This section applies where Charged Agreement/Collateral Arrangements is specified as applying in the Final Terms. Pursuant to the terms of the Transfer Agreement or the Credit Support Document, as applicable, the Counterparty may substitute existing Collateral Assets for Eligible Collateral. The Counterparty is not required to obtain the consent of MBFL or the Security Trustee prior to such substitution. The Counterparty may substitute the Collateral Assets any number of times over the term of the Notes.

Where Charged Agreement/Collateral Arrangements is specified as applying in the Final Terms, pursuant to the terms of the Transfer Agreement or the Credit Support Document, as applicable, Collateral Assets will be (a) delivered to MBFL, (b) returned to the Counterparty, or (c) substituted, and in each case the selection of such Collateral Assets will be at the direction of the Counterparty.

Lack of diversification of the Mortgaged Property

Investors should note that it is possible the Collateral Assets will have low diversification; in other words, the Collateral Assets may be limited to one or few assets. Such low diversification increases the risk that the proceeds of realisation of the Mortgaged Property may be less than the sums due to the Noteholders under the Secured Notes.

Application of Proceeds

This section applies where Charged Agreement/Collateral Arrangements is specified as applying in the Final Terms. Investors should note that in relation to a Series of Notes and in respect of the net proceeds of realisation of, or enforcement with respect to, the Mortgaged Property, if "Counterparty Priority Basis" is specified in the applicable Final Terms, the claims of the Counterparty to such proceeds will be senior to and therefore rank ahead of the claims of the Noteholders.

Risk of a delay in the realisation of the Mortgaged Property in the event of the insolvency of MBFL

In the event of the insolvency of MBFL, the realisation of the Mortgaged Property may be delayed either by the insolvency administrator appointed in relation to MBFL or by measures ordered by the competent court. Such delay could adversely affect the position of the Noteholders in the event of depreciation of the value of the Mortgaged Property during such delay.

Risks arising on an insolvency of the Counterparty in relation to a Credit Support Document

This section applies where Charged Agreement/Collateral Arrangements is specified as applying in the Final Terms. In the event that MBFL enters into a Transfer Agreement and, if applicable, a Credit Support Document with the Counterparty in respect of a Series of Secured Notes, the Counterparty will transfer Collateral Assets to MBFL. In the event that a liquidator or administrator were to be appointed in respect of the business and property of the Counterparty, no assurance can be given that the effect of the such transfers will be to remove the Collateral Assets from the property of the Counterparty available to a liquidator or administrator of the Counterparty for distribution to the general creditors of the Counterparty.

It is possible that a liquidator or administrator appointed in relation to the business and property of the Counterparty may commence proceedings to challenge the validity and effectiveness of the Transfer Agreement and, if applicable, the Credit Support Document for the purpose of including the Collateral Assets in the property and estate of the Counterparty. If insolvency proceedings were commenced in respect of the Counterparty, and in particular against MBFL in relation to the Transfer Agreement and, if applicable, the Credit Support Document, delays in realising the Mortgaged Property, possible reductions in the realisation amount of the Mortgaged Property and limitations on the exercise of remedies in relation to the enforcement of the Security could occur.

SFTR (Article 15) Title Transfer Collateral Arrangements Risk Disclosure

In respect of any Series of Secured Notes, MBFL may have entered into, or may enter into, one or more "title transfer collateral arrangements" (as defined in Article 2(1) of Directive 2002/47/EC under EU SFTR (as defined below) and regulation 3 of the Financial Collateral Arrangements (No.2) Regulations 2003 under UK SFTR (as defined below)) (each such arrangement, a "**Title Transfer Arrangement**") with a Counterparty in respect of such Series of Secured Notes. The Title Transfer Arrangement may take the form of a credit support annex to an ISDA Master Agreement (which may constitute a Transfer Agreement including a Credit Support Annex), a global master repurchase agreement as published by the International Capital Market Association and Securities Industry and Financial Markets Association (which may constitute a Transfer Agreement) or another form that provides for collateralisation on a title transfer basis.

Under (i) Article 15 of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 (as amended from time to time) ("**EU SFTR**") and (ii) Article 15 of EU SFTR as it forms part of "retained EU law", as defined in the EUWA ("**UK SFTR**", and together with EU SFTR, "**SFTR**"), the transferee of securities under any Title Transfer Arrangement is required to inform the transferor of such securities of the general risks and consequences that may be involved in entering into a Title Transfer Arrangement. Such risks are detailed below and are also relevant for Noteholders even though they will not be party directly to any Title Transfer Arrangement, particularly in circumstances where MBFL is a transferor of securities under a Title Transfer Arrangement.

In the section below, the person that transfers securities under a Title Transfer Arrangement is referred to as the "**Transferor**", the person to whom such securities are transferred is referred to as the "**Transferee**" and the

Collateral Assets for a Series of Secured Notes will be the notes which may be transferred under a Title Transfer Arrangement.

Loss of proprietary rights in Collateral Assets

The rights, including any proprietary rights that a Transferor has in Collateral Assets transferred to a Transferee will be replaced (subject to any security granted by the Transferee) by an unsecured contractual claim for delivery of equivalent Collateral Assets, subject to the terms of the Title Transfer Arrangement. If the Transferee becomes insolvent or defaults under the Title Transfer Arrangement, the Transferor's claim for delivery of equivalent Collateral Assets will not be secured and will be subject to the terms of the Title Transfer Arrangement and applicable law. Consequently, the Transferor may not receive such equivalent Collateral Assets (although the Transferor's exposure may be reduced to the extent that its liabilities to the Transferee under such Title Transfer Arrangement and/or other liabilities it has to the Transferee under any other Title Transfer Arrangement or other agreement can be netted or set-off against the obligation of the Transferee to deliver equivalent Collateral Assets to the Transferor).

Where MBFL is the Transferor, upon transfer of the Collateral Assets, such securities will cease to form part of the Mortgaged Property so Noteholders will no longer have the benefit of security over such securities. In the event of the Counterparty (as Transferee) becoming insolvent or otherwise defaulting, the Mortgaged Property will not include equivalent Collateral Assets which MBFL might otherwise have been expecting to receive. In these circumstances, Noteholders should be aware that the net proceeds of enforcement and/or realisation, as applicable, of the Mortgaged Property may be insufficient to cover amounts that would otherwise be due under the relevant Series of Secured Notes and consequently the Noteholders are exposed to the credit risk of the Counterparty (as Transferee).

Where the Counterparty is the Transferor, upon transfer of the Collateral Assets, MBFL's obligations to transfer equivalent Collateral Assets in respect of the Title Transfer Arrangement, amongst other things, will be secured by the Mortgaged Property in respect of the relevant Series of Secured Notes. The Counterparty will not have any proprietary rights in the Collateral Assets transferred to MBFL. If MBFL defaults under the Title Transfer Arrangement, although the Counterparty's claim for delivery of equivalent Collateral Assets will benefit from security granted by MBFL, the Counterparty's claim for delivery of equivalent Collateral Assets may, as a result of the applicable payment waterfall, be subordinated to prior ranking claims of certain other parties in respect of the Mortgaged Property. Consequently, the Transferor may not receive the equivalent Collateral Assets (although the Transferor's exposure may be reduced to the extent that its liabilities to the Transferee under such Title Transfer Arrangement and/or other liabilities it has to the Transferee under any other Title Transfer Arrangement or other agreement can be netted or set-off against an obligation on the Transferee to deliver equivalent Collateral Assets to the Transferor).

Stay of proceedings following resolution process

In the event that a resolution process (i.e. the process by which the authorities can intervene to manage the failure of a firm in an orderly fashion) is commenced by a resolution authority under any relevant resolution regime in

relation to the Transferee, then (i) any rights that the Transferor may have to take any action against the Transferee, such as to terminate the Title Transfer Arrangement, may be subject to a stay by the relevant resolution authority and (ii) the Transferor's claim for delivery of equivalent Collateral Assets may be reduced (in part or in full) or converted into equity or (iii) a transfer of assets or liabilities may result in the Transferor's claim against the Transferee being transferred to different entities, although the Transferor may be protected to the extent that the exercise of resolution powers is restricted by the availability of set-off or netting rights.

Where MBFL is the Transferor, this means that MBFL may not be able to immediately enforce its rights against the Counterparty and its rights may be altered by operation of law or contract. Noteholders will be exposed to the risk of such delay and alteration of rights against the Counterparty.

Loss of voting rights in respect of Collateral Assets

The Transferor in respect of any Collateral Assets will not be entitled to exercise, or direct the Transferee to exercise (subject to the terms of the Security Trust Deed in the event that the Counterparty is the Transferor) any voting, consent or similar rights attached to the Collateral Assets.

Noteholders should be aware that where the Transferor is MBFL, the Noteholders will not have any right under the Security Trust Deed to direct MBFL to exercise any voting, consent or similar rights attached to the Collateral Assets.

No information provided in respect of Collateral Assets

The Transferee will have title to any Collateral Assets and may or may not continue to hold such Collateral Assets and as such it will have no obligation to inform the Transferor of any corporate events or actions in relation to any Collateral Assets.

Where MBFL is the Transferor, this means that no assurance can be given to Noteholders that they will be informed of events affecting any Collateral Assets.

Illiquid Collateral Assets

The Collateral Assets may comprise assets which are not admitted to any public trading market and may therefore be illiquid and not readily realisable.

Further issues

Further fungible Secured Notes may be issued by MBFL that issued the Original Secured Notes in certain circumstances. The additional Collateral Assets which MBFL must provide for such further Secured Notes relative to the aggregate nominal amount of the further Secured Notes may be such as to affect the value of the original security provided for the Secured Notes.

Commingling of Collateral Assets and rights of set-off of the Custodian and Account Bank

Prospective investors' attention is drawn to the limited circumstances permitted by the Secured Notes Conditions, the Transfer Agreement or the Credit Support Document, as applicable, whereby the Collateral Assets held by the relevant Custodian are not segregated from the designated investments of the relevant Custodian: for instance in the case of cash or in certain circumstances in the case of registrable securities. In such circumstances, in the event of the relevant Custodian's insolvency, MBFL's assets, or rights against any Counterparty or to such assets may not be as well protected from claims made on behalf of the general creditors of the relevant Custodian.

In addition, prospective investors should note that pursuant to the Custody Agreement and/or the Account Bank Agreement, in relation to Series of Secured Notes, the Custodian and/or the Account Bank may have rights of set-off with respect to the cash accounts held by relating to such Series. As a result, they may set-off between (i) any balances from any such cash account showing a credit balance and (ii) any such cash account showing a debit balance. Such set-off may be recorded in the books of the Custodian and/or the Account Bank as a transfer from one such cash account to another. As a result, the amount which will be available to holders of the relevant Series upon enforcement of the security in relation to a Series of Secured Notes may be less than if such set-off had not occurred and as a result, the proceeds of realisation of the Mortgaged Property may be less than the sums due to the Noteholders in respect of such Series (prospective investors' attention is accordingly drawn to the risk factor entitled "*Shortfall on Realisation of Mortgaged Property*" above).

Security Trustee Indemnity

The Security Trustee shall not be bound to enforce the security in relation to a Series of Secured Notes unless (i) directed to do so by the Instructing Creditor and (ii) it is indemnified and/or secured and/or prefunded to its satisfaction.

Capacity of BNP Paribas and its affiliates

BNP Paribas and its affiliates (the **BNPP Parties**) may act in a number of capacities in connection with any issue of Secured Notes, including as Fiscal Agent or Security Trustee, Liquidation Agent, a Collateral Asset administration agent, Paying Agent and/or Custodian. The BNPP Parties acting in such capacities in connection with such transactions shall have only the duties and responsibilities expressly agreed to by such entities in the relevant capacity and shall not, by virtue of acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a standard of care other than as expressly provided with respect to each such capacity. The BNPP Parties are part of a global investment banking and securities firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and high-net-worth individuals. As such, they actively make markets in and trade financial instruments for their own account and for the accounts of customers in the ordinary course of their business. The BNPP Parties in their various capacities in connection with the contemplated transactions may enter into business dealings, from which they may derive revenues and profits in addition to any fees, without any duty to account therefor. Each of the BNPP Parties will act in its own commercial interest in its various capacities without regard to whether its interests conflict with those of the holders of the Secured Notes or any other party.

The BNPP Parties do not disclose specific trading positions or their hedging strategies, including whether they are in long or short positions in any Secured Notes or obligations referred to in this Base Prospectus except where

required in accordance with the applicable law. Nonetheless, in the ordinary course of business, BNPP Parties and employees or customers of the BNPP Parties may actively trade in and/or otherwise hold long or short positions in the Secured Notes or enter into similar transactions referencing the Secured Notes or the obligors thereof for their own accounts and for the accounts of their customers. If a BNPP Party becomes an owner of any of the Secured Notes, through market-making activity or otherwise, any actions that it takes in its capacity as owner, including voting, providing consents or otherwise will not necessarily be aligned with the interests of other owners of the Secured Notes. To the extent a BNPP Party makes a market in the Secured Notes (which it is under no obligation to do), it would expect to receive income from the spreads between its bid and offer prices for the Secured Notes. In connection with any such activity, it will have no obligation to take, refrain from taking or cease taking any action with respect to these transactions and activities based on the potential effect on an investor in the Secured Notes. The price at which a BNPP Party may be willing to purchase Secured Notes, if it makes a market, will depend on market conditions and other relevant factors and may be significantly lower than the issue price for the Secured Notes and significantly lower than the price at which it may be willing to sell the Secured Notes.

(E) ADDITIONAL FACTORS RELATING TO CERTAIN UNDERLYING REFERENCES

Certain considerations associated with Notes linked to ETIs

ETI Linked Notes linked to one or more interest in exchange traded instruments reflect the performance of such interest in exchange traded instruments.

An exchange traded instrument may invest in and trade in a variety of investments and financial instruments using sophisticated investment techniques for hedging and non-hedging purposes. Such financial instruments and investment techniques may include, but are not limited to, the use of leverage, short sales of notes, derivative transactions, such as swaps, stock options, index options, futures contracts and options on futures, lending of notes to certain financial institutions, entry into repurchase and reverse repurchase agreements for notes and the investment in foreign notes and foreign currencies.

The amount payable on ETI Linked Notes will be dependent on the performance of the relevant ETI(s) underlying the ETI Linked Notes, which may be linked to the reported NAV per ETI Interest, the trading price available on an exchange for the relevant ETI Interest and/or the actual redemption proceeds the Hedge Provider or a hypothetical investor in the relevant ETI(s) would receive. The amount payable on the ETI Linked Notes may be less and in certain circumstances may be significantly less than the return from a direct investment in the relevant ETI(s) and may be zero.

Unlike Funds, exchange traded instruments are not actively managed. The value of an interest in an exchange traded instrument will decline, more or less, in line with the decline of any notes or the value of any index underlying or linked to the relevant exchange traded instrument. Exchange traded instruments involve risks similar to those of investing in any equity notes traded on an exchange, such as market fluctuations caused by, amongst other things, economic and political developments, changes in interest rates and perceived trends in prices of

notes. Where the relevant exchange traded instrument is linked to a particular index, the return on such exchange traded instrument may not match the return of the particular index.

Potential investors in ETI Linked Notes should be aware that none of the relevant Issuer, the Guarantor (if any) or the Calculation Agent have any control over investments made by the relevant exchange traded instrument(s) and in no way guarantee the performance of an exchange traded instrument or the amount payable to holders of ETI Linked Notes.

In hedging the relevant Issuer's obligations under the ETI Linked Notes, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the relevant exchange traded instrument(s), replicating the performance of the relevant exchange traded instrument(s) or holding any of the assets underlying the relevant exchange traded instrument(s). The Hedge Provider may perform any number of different hedging practices with respect to ETI Linked Notes.

Investing directly or indirectly in interests in exchange traded instruments is generally considered to be risky. If the exchange traded instrument does not perform sufficiently well, the value of the Notes will fall, and may in certain circumstances be zero.

Prospective investors should review carefully the prospectus, information memorandum and/or offering circular (if any) issued by any relevant exchange traded instrument before purchasing any ETI Linked Notes. None of the relevant Issuer, the Guarantor (if any), the Calculation Agent or any of their respective Affiliates make any representation as to the creditworthiness of any relevant exchange traded instrument or any such exchange traded instrument's administrative, custodian, investment manager or adviser.

Certain considerations associated with Notes linked to Funds

Where an Issuer issues Fund Linked Notes linked to one or more Funds, the relevant Notes reflect the performance of such fund(s).

Investors in Fund Linked Notes should understand that:

- (i) there are market risks associated with an actual investment in the underlying Fund(s), and while the Fund Linked Notes do not create an actual interest in the underlying Fund(s), the return on the Fund Linked Notes generally involves the same associated risks as an actual investment in the underlying Fund(s). The Issuer has not purported and does not purport to be a source of information concerning the market risks associated with such underlying Fund or Fund interests;
- (ii) third parties, not related to the relevant Issuer or the Guarantor, may subscribe for and redeem underlying fund interests. These investments may affect the performance and volatility of such Fund's net asset value and so subsequently affect, from time to time, the return on the Fund Linked Notes;
- (iii) the relevant Issuer has no control over the underlying Fund(s) or the performance of such Fund(s) and any

performance of the underlying Fund(s) necessary for the Fund Linked Notes to yield a specified return is not assured. Potential investors in the Fund Linked Notes should understand that the performance of the underlying Fund(s) may, depending on the terms of the Fund Linked Notes, strongly affect the value of payments on the Fund Linked Notes;

- (iv) the value of units in the underlying Fund(s) and the income from it may fluctuate significantly. The Issuer makes no representation or warranty about, or guarantee of, the performance of an underlying Fund;
- (v) the relevant Issuer has not provided and will not provide during the term of the Fund Linked Notes prospective investors with any information or advice with respect to the performance of an underlying Fund. The Issuer may have acquired, or during the term of the Fund Linked Notes may acquire, non-public information with respect to an underlying Fund, which will not be provided to the Noteholders;
- (vi) the Funds may follow a wide range of investment strategies, invest in assets in a number of different countries and invest in assets denominated in a number of different currencies. The returns to the Noteholders may, therefore, be materially affected by, among other things, market trends, exchange rate fluctuations and political and economic developments in the relevant countries. This may lead to substantial volatility in the net asset value of the Funds;
- (vii) the funds may have investment strategies and guidelines that are very broad. They may also be free to engage in additional or alternative strategies without reference to any other person including the relevant Issuer, the Guarantor and the investor;
- (viii) Funds may trade and invest in a broad range of investments and financial instruments using sophisticated investment techniques for hedging and non-hedging purposes such as debt and equity securities, commodities and foreign exchange and may enter into derivative transactions, including, without limitation, futures, swaps and options. Such financial instruments and investment techniques may also include, but are not limited to, the use of leverage, short sales of securities, transactions that involve the lending and borrowing of securities to financial institutions, investment in sub-investment grade or non-readily realizable investments, uncovered options transactions, options and futures transactions and foreign exchange transactions and the use of concentrated portfolios, the entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies. While these investment strategies and financial instruments provide the investment manager and/or adviser of a Fund the flexibility to implement a range of strategies in an attempt to generate positive returns for the Fund, they also create the risk of significant losses and, in certain circumstances, may magnify adverse market developments and losses that may adversely affect the value of the Fund and therefore the return on the Fund Linked Notes. Potential investors should be aware that none of the relevant Issuer, the Guarantor (if any) or the Calculation Agent have any control over investments made by a Fund and therefore in no way guarantee the performance of a Fund and therefore the amount due to Noteholders on redemption of the Fund Linked Notes;

- (ix) Funds may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of Funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities;
- (x) the amount payable on Fund Linked Notes will be dependent on the performance of the relevant Fund(s) underlying the Fund Linked Notes, which may be linked to the reported NAV per Fund Share and/or the actual redemption proceeds the Hedge Provider or a hypothetical investor in the relevant Fund(s) would receive. The amount payable on the Fund Linked Notes may be less than the amount payable from a direct investment in the relevant Fund(s);
- (xi) in certain circumstances, a Fund may continue reporting a NAV per Fund Share, but the Hedge Provider or a hypothetical investor may not be able to realise their investment in the relevant Fund(s) at such reported NAV per Fund Share. In such a case, the return on the Fund Linked Notes may be less and in certain circumstances may be significantly less than the reported performance of the relevant Fund(s) and may be zero;
- (xii) a Fund may be established as part of a master-feeder fund structure. Generally, a master-feeder fund structure involves the incorporation of a "master" fund company into which separate and distinct "feeder" funds invest. Active management of any investment strategy is, generally, performed at the master fund level. In instances where the Fund(s) underlying the relevant Fund Linked Notes are "feeder" funds, the Extraordinary Fund Events (see "*Other Events relating to Fund Linked Notes*" below) extend to include the "master" fund and its service providers. In conducting their own due diligence of the relevant Fund(s), prospective investors should pay particular attention to whether the relevant Fund(s) are established as part of a master-feeder fund structure;
- (xiii) In hedging the relevant Issuer's obligations under the Fund Linked Notes, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the relevant Fund(s), replicating the performance of the relevant Fund(s) or holding any of the assets underlying the relevant Fund(s). The Hedge Provider may perform any number of different hedging practices with respect to Fund Linked Notes;
- (xiv) the Funds may often rely on a few individuals to determine their investment strategies and to make investment decision. The loss of such individuals could jeopardise the performance of the Funds;
- (xv) the funds may be engaged in a high level of trading with commensurately high brokerage and transaction costs, as well as costs associated with leverage, such as interest payments and margin maintenance. Such costs will adversely affect the net asset value of the Funds and so may adversely affect the return on the Fund Linked Notes;

- (xvi) the Funds will be exposed to credit risks against brokers and other counterparties with which they deal in implementing their investment strategies;
- (xvii) where underlying Funds invest in unlisted shares and certain other assets, risks associated with reduced liquidity and lack of objective valuations will arise. Additionally, the underlying Funds may invest in emerging markets. This involves risks attributable to nationalisations, expropriation or taxation, currency devaluation, foreign exchange control, political, social or diplomatic instability or governmental restrictions. The capital markets in such countries have substantially less volume, and are generally less liquid and more volatile, than those in more developed markets. Disclosure and regulatory requirements could be less stringent than in other markets, with a low level of monitoring and limited and uneven enforcements of existing regulations;
- (xviii) an underlying Fund may have no or a limited history, with no proven track record in achieving their stated investment objectives;
- (xix) some or all of the underlying Funds may be wholly unregulated investment vehicles and may trade in futures, options, forward exchange contracts and other derivative instruments, which may represent significant investment risks. In addition, underlying funds may acquire leveraged trading positions, including through the use of borrowing, and may engage in short selling. As a result of leverage, relatively small adverse price movements may result in substantial losses; and
- (xx) an underlying Fund itself may be subject to fees and charges on its investments which shall be borne by such Fund and incorporated in the value of interests in it.

Risk from composition and changes to a fund

The management company of a Fund can, without regard to the interests of the investors in the Fund Linked Notes, add, delete or substitute any funds by reference to which the value of a fund is calculated or make other methodological changes that could change the investment profile of a fund. The management company may also determine to discontinue a Fund. If a Fund is discontinued, it may be replaced by other assets and/or the Fund Linked Notes may be settled early.

In the event that a Fund is materially modified or permanently cancelled or the management company fails to calculate or announce the NAV per Fund Share, the Calculation Agent will either make such adjustments to any variable, calculation methodology, valuation, settlement, payment terms or any other terms and conditions of the Fund Linked Notes as the Calculation Agent determines appropriate to account for the effect on the Fund Linked Notes of such events, or may settle the Fund Linked Notes early. Any of these decisions or determinations may adversely impact the value of the Fund Linked Notes.

Funds may be subject to transfer restrictions and illiquidity

Funds and the assets thereof may be subject to transfer restrictions arising by way of applicable securities laws or otherwise. Such restrictions may mean that investors are not entitled to acquire interests in the Funds directly.

Holders of units or shares (however described) in a Fund may have the right to transfer or withdraw their investment in the Fund only at certain times and upon completion of certain documentary formalities and such rights may be subject to suspension or alteration. These circumstances may affect the NAV per Fund Share of the relevant Funds. Potential investors should familiarise themselves with the features of the Funds in this regard.

Events which affect the value of a Fund will affect the value of Fund Linked Notes

The occurrence of any of the following events could materially and adversely affect the value of shares or units in a Fund, and have a consequent material and adverse effect on the value of Fund Linked Notes:

- *Valuation:* The valuation of Funds is generally controlled by the management company of the Fund. Valuations are performed in accordance the terms and conditions governing the Fund. Such valuations may be based upon the unaudited financial records of the Fund and any accounts pertaining thereto. Such valuations may be preliminary calculations of the net asset values of the Fund and accounts. The Fund may hold a significant number of investments which are illiquid or otherwise not actively traded and in respect of which reliable net asset values may be difficult to obtain. In consequence, the management company may vary certain quotations for such investments held by the fund in order to reflect its judgement as to the fair value thereof.

Therefore, valuations may be subject to subsequent adjustment upward or downward. Uncertainties as to the valuation of fund assets and/or accounts may have an adverse effect on the net asset value of the Fund where such judgements regarding valuations prove to be incorrect.

- *Trading charges:* The performance of a Fund will be affected by the charges incurred thereby relating to the investments of such Fund. The Fund may engage in short-term trading which may result in increased turnover and associated higher than normal brokerage commissions and other expenses.
- *Legal and regulatory changes:* Future changes to applicable law or regulation may be adverse to a Fund.
- *Performance risk:* No assurance can be given relating to the present or future performance of a Fund. The performance of a Fund is dependent on the performance of the management company thereof. Certain management companies may utilise analytical models upon which investment decisions are based. No assurance can be given that these persons will succeed in meeting the investment objectives of the Fund, that any analytical model used thereby will prove to be correct or that any assessments of the short-term or long-term prospects, volatility and correlation of the types of investments in which the Funds have invested or will invest will prove accurate.
- *Effect of exchange rates and exchange controls:* The NAV per Fund Share could be adversely affected not only by hedging costs and changes in exchange rates, but also by local exchange control regulations and other limitations, including currency exchange limitations and political and economic developments in the relevant countries.
- *Market risks:* The markets in which a Fund invests may prove to be highly volatile from time to time as a

result of, for example, sudden changes in government policies on taxation and currency repatriation or changes in legislation relating to the value of foreign ownership in companies, and this may affect the net asset value at which a fund may liquidate positions to meet repurchase requests or other funding requirements.

- *Hedging risks:* A Fund may in certain cases employ various hedging techniques to reduce the risk of investment positions. A substantial risk remains, nonetheless, that such techniques will not always be available and when available, will not always be effective in limiting losses. A fund may take substantial unhedged positions.
- *Interest rate risks:* The values of securities held by a Fund (or by any underlying fund) tend to be sensitive to interest rate fluctuations and unexpected fluctuations in interest rates could cause the corresponding NAV per Fund Share to move in directions which were not initially anticipated. To the extent that interest rate assumptions underlie the hedge ratios implemented in hedging a particular position, fluctuations in interest rates could invalidate those underlying assumptions and expose a Fund to losses.
- *Suspension of trading:* A securities exchange typically has the right to suspend or limit trading in any instrument traded on that exchange. A suspension could render it impossible for a Fund to liquidate positions and thereby expose a Fund to losses.
- *Dependence on key individuals:* The success of a Fund is dependent on the expertise of its managers. The loss of one or more individuals could have a material adverse effect on the ability of a fund manager to direct a Fund's portfolio, resulting in losses for a Fund and a decline in the value of a Fund. Indeed, certain fund managers may have only one principal, without whom the relevant fund manager could not continue to operate.
- *Experience of fund managers:* Certain Funds may be managed by investment managers who have managed funds for a relatively short period of time. The previous experience of such investment managers is typically in trading proprietary accounts of financial institutions or managing unhedged accounts of institutional asset managers or other investment firms. As such investment managers do not have direct experience in managing Funds, including experience with financial, legal or regulatory considerations unique to fund management, and there is generally less information available on which to base an opinion of such managers' investment and management expertise, investments with such investment managers may be subject to greater risk and uncertainty than investments with more experienced fund managers.
- *Risk of fraud:* There is a risk that a fund manager could divert or abscond with the assets, fail to follow agreed-upon investment strategies, provide false reports of operations or engage in other misconduct.
- *Performance compensation payable to fund managers:* The performance-based compensation paid to a fund manager is typically calculated on a basis that includes unrealised appreciation and may consequently be greater than if such compensation were based solely on realised gains. Each Fund generally calculates its own performance compensation based on its individual performance, irrespective of increases in the

overall value of the Fund. Furthermore, when the Fund is rebalanced and an unprofitable underlying asset is removed, the loss carried forward by such Fund's trading is eliminated for purposes of calculating subsequent performance compensation due to the fund manager of any replacement underlying asset. Thus, there may be substantial incentive compensation due to the relevant fund manager even during a period when the portfolio of assets is incurring significant losses.

- *Risks of leverage:* A Fund may borrow subject to applicable restrictions provided by laws and typically utilise various lines of credit and other forms of leverage. In addition, certain of a Fund's investment strategies (primarily those utilising derivative instruments) may involve indirect forms of leverage. While leverage presents opportunities for increasing a Fund's total return, it increases the potential risk of loss as well. Any event which adversely affects the value of an investment by a fund is magnified to the extent that such investment is leveraged. Leverage can have a similar effect on issuers in which a Fund invests. The use of leverage by a Fund could result in substantial losses which would be greater than if leverage had not been used. A Fund's assets may be further leveraged or hedged by the use of derivatives. In addition, investments of a Fund may include investments in partnerships and other pooled investment vehicles, which themselves employ leverage to a significant extent. Such investments are subject to the same leverage risks as described above and a Fund could lose its entire investment. As a general matter, the banks and dealers that provide financing to a Fund can apply essentially discretionary margin, haircut, financing and security and collateral valuation policies. Changes by banks and dealers in these policies may result in large margin calls, loss of financing and forced liquidations of positions at disadvantageous net asset values.
- *Investment criteria:* It may be difficult to specify precisely or comprehensively the strategies of a Fund. As a result, it may not sometimes be clear whether or not a Fund fulfils the investment criteria set out in its offering document.
- *Risks of equity investments:* The investment orientation of a Fund may be based to a significant extent on equity investments. Investment in equity securities to aggressively seek capital appreciation is speculative and is generally perceived to encompass greater risks than those involved in connection with an investment in debt securities of comparable issuers.
- *Risks of fixed income investments:* A Fund may invest in fixed income securities and, therefore, may be exposed to the risk of default by the issuers of such securities. Such default may result in delays in payment, or non-payment of interest or principal when due. Furthermore, the net asset value of fixed income securities may also fluctuate with changes in prevailing interest rates and/or in the creditworthiness of the issuer, and these fluctuations may result in a loss of capital by a Fund.
- *Risks of collective investment schemes:* Some Funds may invest in other collective investment schemes. Investment in schemes of this type may afford the investor less transparency in respect of the ultimate assets of the scheme.

- *Large transactions:* Large subscriptions and redemptions may result in the liquidation or dilution of Fund assets that may affect the NAV per Fund Share of such Fund.
- *Emerging markets:* A Fund may invest in securities of governments of, or companies domiciled in, less-developed or emerging markets. See "*Certain considerations associated with Notes linked to emerging markets*". Custody arrangements in such countries may also present enhanced risk.
- *Risks of repos:* A Fund may use repurchase agreements. Under a repurchase agreement, a security is sold to a buyer and at the same time the seller of the security agrees to buy back the security at a later date at a higher net asset value. In the event of a bankruptcy or other default of the transferor of securities in a repurchase agreement, a Fund could experience delays in liquidating the underlying securities and losses, including possible declines in the value of the collateral during the period while it seeks to enforce its rights thereto; possible subnormal levels of income and lack of access to income during this period and the expenses of enforcing its rights. In the case of a default by the transferee of securities in a repurchase agreement, the management company bears the risk that the transferee may not deliver the securities when required.
- *Risks of currency speculation:* A Fund may engage in exchange rate speculation. Foreign exchange rates have been highly volatile in recent years. The combination of volatility and leverage gives rise to the possibility of large profit but also carries a high risk of loss. In addition, there is counterparty credit risk since foreign exchange trading is done on a principal to principal basis.
- *Risks of commodity futures:* Commodity futures prices can be highly volatile. As a result of the low margin deposits normally required in futures trading, an extremely high degree of leverage is typical of a futures trading account. As a result, a relatively small price movement in a futures contract may result in substantial losses to the investor. Like other leveraged investments, a futures transaction may result in losses in excess of the amount invested.
- *Risks of derivative instruments:* A Fund may use derivative instruments, such as collateralised debt obligations, stripped mortgage-backed securities, options and swaps. There are uncertainties as to how the derivatives market will perform during periods of unusual price volatility or instability, market illiquidity or credit distress. Substantial risks are also involved in borrowing and lending against such instruments. The prices of these instruments are volatile, market movements are difficult to predict and financing sources and related interest rates are subject to rapid change. One or more markets may move against the positions held by a Fund, thereby causing substantial losses. Most of these instruments are not traded on exchanges but rather through an informal network of banks and dealers. These banks and dealers have no obligation to make markets in these instruments and may apply essentially discretionary margin and credit requirements (and thus, in effect, force a Fund to close out its relevant positions). In addition, such instruments carry the additional risk of failure to perform by the counterparty to the transaction. Government policies, especially those of the U.S. Federal Reserve Board and non-U.S. central banks, have profound effects on interest and exchange rates which, in turn, affect prices of derivative instruments. Many other unforeseeable events, including actions by various government agencies and domestic and

international political events, may cause sharp market fluctuations.

- *Risks of short selling:* A Fund may sell securities short. Short selling exposes a fund to theoretically unlimited risk due to the lack of an upper limit on the price to which a security may rise. Short selling involves the sale of borrowed stock. If a stock loan is called, the short seller may be forced to repurchase the stock at a loss. In addition, some traders may attempt to profit by forcing short sellers to incur a loss. Traders may make large purchases of a stock that has been sold short. The large purchases are intended to drive up the stock price, and cause the short sellers to incur losses. By doing this, the traders hope the short sellers will limit their losses by repurchasing the stock and force the stock price even higher.
- *Risks of arbitrage:* The use of arbitrage strategies by a Fund in no respect should be taken to imply that such strategies are without risk. Substantial losses may be incurred on “hedge” or “arbitrage” positions, and illiquidity and default on one side of a position may effectively result in the position being transformed into an outright speculation. Every arbitrage strategy involves exposure to some second order risk of the market, such as the implied volatility in convertible bonds or warrants, the yield spread between similar term government bonds or the net asset value spread between different classes of stock for the same underlying firm. Further, there are few examples of “pure” arbitrage funds. Most Funds also employ limited directional strategies which expose them to market risk.
- *Credit risk:* Many of the markets in which a fund effects its transactions are “over-the-counter” or “inter-dealer” markets. The participants in these markets are typically not subject to credit evaluation and regulatory oversight as are members of “exchange based” markets. To the extent that a Fund invests in swaps, derivatives or synthetic instruments, or other over-the-counter transactions in these markets, such Fund may take a credit risk with regard to parties with which it trades and also may bear the risk of settlement default. These risks may differ materially from those involved in exchange-traded transactions, which generally are characterised by clearing organisation guarantees, daily marking-to-market and settlement, and segregation and minimum capital requirements applicable to intermediaries. Transactions entered into directly between two counterparties generally do not benefit from these protections, which in turn may subject a Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract or because of a credit or liquidity problem. Such “counterparty risk” is increased for contracts with longer maturities when events may intervene to prevent settlement. The ability of a Fund to transact business with any one or any number of counterparties, the lack of any independent evaluation of the counterparties or their financial capabilities, and the absence of a regulated market to facilitate settlement, may increase the potential for losses.
- *Risks relating to controlling stakes:* A Fund may take controlling stakes in companies. The exercise of control over a company imposes additional risks of liability for environmental damage, product defects, failure to supervise and other types of related liability.

As the shares of certain funds may only be redeemable on certain dates, there is a risk of delays or defaults in payment

The shares of a Fund may only be redeemable on certain redemption dates, subject to the prescribed notice period in respect of such Fund. This gives rise to a time delay between the execution of an order for redemption and payment of the proceeds on such redemption. If the Fund becomes insolvent following the date on which a redemption order would have to be notionally placed or the Calculation Agent determines that the relevant Fund would fail to pay to any shareholder in cash the full redemption proceeds owing to them if they redeemed their shares on the relevant date, an adjustment may be made by the Calculation Agent when calculating the return on the Notes to the NAV per Fund Share of the relevant Fund, thereby reducing the return on the Notes.

The market price of Fund Linked Notes may be volatile and may depend on the time remaining to the maturity date and the volatility of the price of fund share(s) or unit(s). The price of fund share(s) or unit(s) may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units in the fund or funds may be traded.

For all the above reasons, investing directly or indirectly in Funds is generally considered to be risky. If the underlying Fund does not perform sufficiently well, the value of the Security will fall, and may in certain circumstances be zero.

Certain considerations associated with Notes linked to emerging markets

Each Issuer may issue Notes where the amount payable on settlement or the interest payable is linked to Underlying References which consist of (i) securities, funds or indices comprising securities of issuers that are located in, or subject to regulation in, emerging or developing countries, or (ii) securities which are denominated in the currency of, or are traded in, emerging or developing countries or (iii) currencies of emerging or developing countries. Prospective investors should note that additional risks may be associated with investment in such Notes, including risks associated with political and economic uncertainty, adverse governmental policies, restrictions on foreign investment and currency convertibility, currency exchange rate fluctuations, possible lower levels of disclosure and regulation, and uncertainties as to the status, interpretation and application of laws including, but not limited to, those relating to expropriation, nationalisation and confiscation. Notes traded in emerging or developing countries tend to be less liquid and the prices of such securities more volatile. In addition, settlement of trades in some such markets may be slower and more subject to failure than in markets in developed countries.

Increased custodian costs as well as administrative difficulties (such as the applicability of the laws of the jurisdictions of emerging or developing countries to custodians in such jurisdictions in various circumstances, including bankruptcy, ability to recover lost assets, expropriation, nationalisation and record access) may also arise from the maintenance of assets in such emerging or developing countries.

Prospective purchasers of the Notes should also be aware that the probability of the occurrence of a Hedging Disruption Event (or other Adjustment Event under the relevant legal terms as set out further in the Base Conditions) and consequently loss of investment or profit by an investor may be higher for certain developing or emerging markets. Prospective investors are expected to conduct their own enquiries and be satisfied that there are additional risks associated with investments linked to the performance of underlying assets located in these markets.

Exchange control risks

Potential investors should be aware that there is the risk that authorities with jurisdiction over the Settlement Currency (as specified in the applicable Final Terms and/or the currency in which the Underlying Reference is denominated, such as government and monetary authorities, may impose or modify (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or transfer of funds in and out of the country. It is impossible to predict whether the value of one such currency relative to another will rise or fall during the term of the Notes.

(F) ADDITIONAL FACTORS RELATING TO DISRUPTION AND ADJUSTMENTS

If an Additional Disruption Event occurs, or any Optional Additional Disruption Event specified in the applicable Final Terms occurs (other than in respect of a Failure to Deliver due to Illiquidity), the Notes may be subject to adjustment (including, in the case of Share Linked Notes linked to a Basket of Shares, adjustments to the Basket of Shares), early settlement or the amount payable on scheduled settlement may be different from the amount expected to be paid at scheduled settlement.

The Additional Disruption Events relate to changes in law (including changes in tax or regulatory capital requirements) and hedging disruptions in respect of any hedging transactions relating to the Notes (both as more fully set out in the Conditions).

If a Failure to Deliver due to Illiquidity occurs:

- (A) subject as provided in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Maturity Date; and
- (B) in respect of any Affected Relevant Assets, in lieu of physical settlement, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security, by payment to the relevant Noteholders of the Failure to Deliver Settlement Price on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with the relevant Conditions. Payment of the Failure to Deliver Settlement Price will be made in such manner as shall be notified to the Noteholders.

Consequently the occurrence of an Additional Disruption Event and/or an Optional Additional Disruption Event may have an adverse effect on the value or liquidity of the Notes.

Market Disruption Events or failure to open of an exchange

If an issue of Notes includes provisions dealing with the occurrence of a Market Disruption Event or failure to open of an exchange on a date for valuation of an Underlying Reference and the Calculation Agent determines that a Market Disruption Event or failure to open of an exchange has occurred or exists on such valuation date, any consequential postponement of the valuation date, or any alternative provisions for valuation provided in any Notes may have an adverse effect on the value and liquidity of such Notes.

The occurrence of such a Market Disruption Event or failure to open of an exchange in relation to any Underlying Reference comprising a basket may also have such an adverse effect on Notes related to such basket. In addition, any such consequential postponement may result in the postponement of the relevant Maturity Date.

Adjustment events relating to Index Linked Notes

In the case of Index Linked Notes, if a relevant Index is (i) not calculated and announced by the Index Sponsor in respect of the Index but is calculated and announced by a successor sponsor or successor entity, as the case may be, acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then, in each case, that index will be deemed to be the Index.

The occurrence of an Index Modification, an Index Cancellation or an Index Disruption (each being an "**Index Adjustment Event**") may lead to (i) changes in the calculation of the relevant value or price (if the Calculation Agent determines such Index Adjustment Event has a material effect on the Notes), (ii) early settlement of the Notes or (iii) the amount payable on scheduled settlement of the Notes being different from the amount expected to be paid at scheduled settlement.

Any such adjustment may have an adverse effect on the value and liquidity of such Notes.

Potential Adjustment Events relating to Share Linked Notes

In the case of Share Linked Notes, following the declaration by the Basket Company or Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, acting in good faith and in a commercially reasonable manner, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so, will make the corresponding adjustment, if any, to any terms of the Notes as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share). Such adjustment may have an adverse effect on the value and liquidity of the affected Share Linked Notes.

Extraordinary Events relating to Share Linked Notes

In the case of Share Linked Notes the occurrence of an Extraordinary Event (as defined in the Share Linked Notes Conditions) in relation to a Share, may lead to:

- (A) adjustments to any of the terms of the Notes (including, in the case of Share Linked Notes linked to a Basket of Shares, adjustments to and/or substitution of constituent shares of the Basket of Shares);
- (B) early settlement in whole or, in the case of Share Linked Notes relating to a Basket of Shares, in part or the amount payable on scheduled settlement being different from the amount expected to be paid at scheduled settlement;

- (C) the Calculation Agent making an adjustment to any terms of the Notes which corresponds to any adjustment to the settlement terms of options on the Shares traded on such exchanges(s) or quotation system(s) as the Issuer in its sole discretion shall select (the "**Option Exchange**") or, if options on the Shares are not traded on the Options Exchange, the Calculation Agent making such adjustment, if any, to any terms of the Notes as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary Event that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded.

Following such settlement, an investor generally would not be able to reinvest the relevant proceeds at an effective interest rate as high as the effective return on the relevant Notes being settlement and may only be able to do so at a significantly lower rate, and potential investors should consider reinvestment risk in light of other investments available at that time. Consequently the occurrence of an Extraordinary Event in relation to a Share may have an adverse effect on the value or liquidity of the Notes.

Potential Adjustment Events relating to ETI Linked Notes

In the case of ETI Linked Notes, following the declaration by the relevant exchange traded instruments or any person appointed to provide services directly or indirectly in respect of such exchange traded instrument, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, acting in good faith and in a commercially reasonable manner, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the ETI Interests and, if so, will make the corresponding adjustment, if any, to any terms of the Notes as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant ETI Interest).

Any such adjustment may have an adverse effect on the value and liquidity of such Notes.

Extraordinary Events relating to ETI Linked Notes

In the case of ETI Linked Notes if certain events ("**Extraordinary ETI Events**") including events relating to Global Events, Litigation/Fraudulent Activity Events, Change in Related Parties/Key Persons Events, Modification Events, Net Asset Value/Investment/AUM Level Events, Tax/Law/Accounting/Regulatory Events, Hedging/Impracticality/Increased Costs Events and Miscellaneous Events in the determination of the Calculation Agent (acting in good faith and in a commercially reasonable manner) occur, the relevant Issuer may acting in good faith and in a commercially reasonable manner adjust the terms of the Notes to reflect such event, substitute the relevant ETI Interests or redeem the Notes.

Consequently the occurrence of an Extraordinary ETI Event may have an adverse effect on the value or liquidity of the Notes.

The Issuer will exercise its rights under the ETI Linked Notes Conditions, including in particular the action it takes on the occurrence of an Extraordinary Fund Event, acting in good faith. Subject to all regulatory obligations, none of the Issuer, the Guarantor (if any) or the Calculation Agent owes any duty or responsibility to any of the holders of the ETI Linked Notes. The exercise of such rights in such manner may result in an increased loss in performance of the ETI Linked Notes than if the Issuer had taken different action.

Market Disruption Events relating to Commodity Linked Notes

If a Market Disruption Event occurs or is continuing on a date for valuation then:

- (A) the Calculation Agent will determine if such event has a material effect on the Notes and, if so, will calculate the relevant Interest Amount and/or Final Redemption Amount and/or make another relevant calculation using, in lieu of a published price or level for the relevant Commodity or Commodity Index, the Commodity Fallback Value;
- (B) the Calculation Agent may substitute the relevant affected Commodity or Index Component with a Commodity or Index Component selected by it in accordance with the criteria set out in the Commodity Linked Note Conditions and will make such adjustment, if any, to any terms of the Notes as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate; or
- (C) the Issuer will redeem the Notes.

Consequently the occurrence of a Market Disruption Event in relation to a Commodity, Commodity Index or Index Component may have an adverse effect on the value or liquidity of the Notes.

Adjustment Events relating to Commodity Index Linked Notes

In the case of a Notes linked to a Commodity Index, if a relevant Commodity Index is (i) not calculated and announced by the Index Sponsor in respect of the Commodity Index but is calculated and announced by a successor sponsor or successor entity, as the case may be, acceptable to the Calculation Agent, or (ii) replaced by a successor Commodity Index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then, in each case, that Commodity Index will be deemed to be the Commodity Index. The occurrence of a Commodity Index Modification, Commodity Index Cancellation or Commodity Index Disruption (each being a "**Commodity Index Adjustment Event**") may lead to:

- (A) the Calculation Agent determining the Relevant Price using, in lieu of a published level, the Commodity Fallback Value (if the Calculation Agent determines such Commodity Index Adjustment Event has a material effect on the Notes); or
- (B) early settlement of the Notes.

Any such adjustment may have an adverse effect on the value and liquidity of such Notes.

Other events relating to Fund Linked Notes

In the case of Fund Linked Notes, if certain events ("**Extraordinary Fund Events**") including events relating to Global Events, Litigation/Fraudulent Activity Events, Fund Service Provider/Key Person Events, Modification Events, NAV per Fund Share/AUM Level Events, Reporting Events, Tax/Law/Accounting/Regulatory Events, Hedging/Impracticality/Increased Costs Events, Dealing Events and Miscellaneous Events in the determination of the Calculation Agent (acting in good faith and in a commercially reasonable manner) occur, the Issuer may, acting in good faith and in a commercially reasonable manner, adjust the terms of the Notes to reflect such event, substitute the relevant Fund Shares or redeem the Notes.

Consequently the occurrence of an Extraordinary Fund Event may have an adverse effect on the value or liquidity of the Notes.

In addition, in the event that redemption proceeds in respect of the underlying Fund Shares are not received by the Hedge Provider on or prior to the scheduled date for settlement, the relevant maturity date may be postponed for a period of up to two calendar years (or such other period as may be specified in the applicable Final Terms) and no additional amount shall be payable as a result of such delay.

The Issuer will exercise its rights under the Fund Linked Notes Conditions, including in particular the action it takes on the occurrence of an Extraordinary Fund Event, acting in good faith. Subject to all regulatory obligations, none of the Issuer, the Guarantor (if any) or the Calculation Agent owes any duty or responsibility to any of the Noteholders of the Fund Linked Notes. The exercise of such rights in such manner may result in an increased loss in performance of the Fund Linked Notes than if the Issuer had taken different action.

Settlement Disruption Events

In the case of Physical Delivery Notes, if a Settlement Disruption Event occurs or exists on the Delivery Date, settlement will be postponed until the next Settlement Business Day in respect of which there is no Settlement Disruption Event. The relevant Issuer in these circumstances also has the right to pay the Settlement Disruption Amount in lieu of delivering the Entitlement. As further described below, the Settlement Disruption Amount may be less than the fair market value of the Entitlement.

The occurrence of a FX Settlement Disruption Event may lead to postponement or payment in an alternative currency

If "FX Settlement Disruption" applies to the Notes, and the Calculation Agent determines on the second Business Day prior to the relevant due date for payment (the "**FX Disrupted Payment Date**") that a FX Settlement Disruption Event has occurred and is continuing, investors should be aware that payments under the relevant Notes may (i) occur at a different time than expected and that no additional interest amount will be payable in respect of any delay in payment of any amount under the relevant Notes and (ii) be made in USD (the "**FX Settlement Disruption Currency**"). In certain circumstances, the rate of exchange used to convert the Specified Currency and/or Settlement Currency into the FX Settlement Disruption Currency, may not be the market rate of

exchange for such currencies, and in some cases, may be determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

Option to vary Settlement

If so indicated in the Final Terms, the Issuer may, elect to vary the settlement of the Notes, by (i) in the case of cash settled notes, delivering or procuring delivery of the Entitlement instead of making payment of the Final Redemption Amount to the relevant Noteholders or (ii) in the case of physical delivery notes, making payment of the Final Redemption Amount to the relevant Noteholders instead of delivering or procuring delivery of the Entitlement.

Option to Substitute Assets or to Pay the Alternate Cash Amount

The Issuer may if the Calculation Agent determines (acting in good faith and in a commercially reasonable manner) that the Relevant Asset or Relevant Assets, as the case may be, comprise assets which are not freely tradable, elect either (i) to substitute a Substitute Asset or Substitute Assets, as the case may be, for the Relevant Asset or Relevant Assets or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant holders, but in lieu thereof to make payment to the relevant holders on the Maturity Date of the Alternate Cash Amount.

(G) NOTES SUBJECT TO REDEMPTION AT THE OPTION OF THE ISSUER, OTHER EARLY REDEMPTION (INCLUDING AUTOMATIC EARLY REDEMPTION) AND CONSEQUENCES OF EARLY REDEMPTION

An optional, other early redemption feature (including an Automatic Early Redemption feature) is likely to limit the market value of the Notes. In the case of Notes having an optional redemption feature, during any period when the relevant Issuer may elect to settle the relevant Notes, the market value of those Notes generally will not rise substantially above the price at which they can be settled. This also may be true prior to any redemption period. In addition, the Final Terms may provide that the relevant Notes shall be settled early in specified circumstances, such as the occurrence of an Additional Disruption Event, an Optional Additional Disruption Event and/or an Automatic Early Redemption Event. Following an optional or early redemption (including an Automatic Early Redemption), a Noteholder generally would not be able to reinvest the redemption proceeds (if any) at an effective interest rate as high as the interest rate on the relevant Notes being settled, and may only be able to do so at a significantly lower rate. As a consequence the Noteholder may lose some or all of their investment. Potential investors should consider reinvestment risk in light of other investments available at that time. In addition, in the case of Notes with an Automatic Early Redemption feature, the value of the Notes and the amount that Noteholders receive upon an Automatic Early Redemption may not correlate with the value of the Underlying Reference, which may trigger such Automatic Early Redemption.

(H) INTEREST AMOUNTS

Application of multipliers in respect of the determination of the Interest Rate

To the extent that Rate Multiplier or Reference Rate Multiplier applies in respect of the determination of the Interest Rate for Notes which pay interest at a floating rate, investors should be aware that any fluctuation of the underlying floating rate will be amplified by such multiplier. Where the Rate Multiplier or Reference Rate Multiplier is less than 1, this may adversely affect the return on the Notes which pay interest at a floating rate.

Maximum/Minimum Interest Rate

Potential investors should also consider that where the underlying interest rate does not rise above the level of the Minimum Interest Rate, comparable investments in notes which pay interest based on a fixed rate which is higher than the Minimum Interest Rate are likely to be more attractive to potential investors than an investment in the Notes. Under those conditions, investors in the Notes might find it difficult to sell their Notes on the secondary market (if any) or might only be able to realise the Notes at a price which may be substantially lower than the notional amount. To the extent a Maximum Interest Rate applies, investors should be aware that the Interest Rate is capped at such Maximum Interest Rate level. Consequently, investors may not participate in any increase of market interest rates, which may also negatively affect the market value of the Notes.

Interest Barrier Event

Potential investors should also consider that where the Notes provide for the application of a Interest Barrier Event, upon the occurrence of such event the Notes will cease to bear interest. In such cases, investors will receive the Interest Amount on the immediately following Interest Payment Date and, thereafter, there will be no further Interest Payment Dates and no further Interest Amount will be payable. In the event that the relevant Final Terms specify that the Interest Barrier Event is applicable and "No Interest for Interest Period" is applicable and a Interest Barrier Event occurs, no Interest Amount will be payable on the next following Interest Payment Date.

Interest linked to an Underlying Reference

Interest payable on Linked Interest Notes may be determined by reference to an Underlying Reference or combinations of a number of different Underlying References. Potential investors should be aware that:

- (A) the market price of such Notes may be volatile;
- (B) they may receive no interest;
- (C) payment of interest may occur at a different time or in a different currency than expected;
- (D) an Underlying Reference may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (E) if an Underlying Reference is applied to Notes in conjunction with a weighting greater than one or contains some other leverage factor, the effect of changes in the Underlying Reference on interest payable will be magnified;

- (F) the timing of changes in an Underlying Reference may affect the actual yield to investors, even if the average level is consistent with their expectations (in general, the earlier the change in the Underlying Reference, the greater the effect on yield); and
- (G) interest may only be payable and/or calculated in respect of certain specified days and/or periods on or during which the Underlying Reference or its value equals, exceeds and/or is less than certain specified thresholds.
- (I) ***NOTES ISSUED WITH A SPECIFIC USE OF PROCEEDS AND GREEN, SOCIAL AND SUSTAINABILITY BONDS MAY NOT BE A SUITABLE INVESTMENT FOR ALL INVESTORS SEEKING EXPOSURE TO GREEN ASSETS OR SOCIAL ASSETS OR SUSTAINABLE ASSETS***

The net proceeds of the issue of each Tranche of Notes will be used for the general corporate purposes of the relevant Issuer. If, in respect of any particular issue, there is a particular identified use of the proceeds, this will be specified in the applicable Final Terms, including in case an amount equivalent to the net proceeds of the issue of each Tranche of Notes will be used for the purposes of projects that promote climate-friendly and other environmental purposes and/or that promote access to labour market and accomplishment of general interest initiatives and/or to finance or refinance a combination of both green and social projects (typically known as “sustainability bonds”). Where it does so, the relevant Final Terms may describe the Notes as “green bonds” (“**Green Bonds**”), “social bonds” (“**Social Bonds**”) or “sustainability bonds” (“**Sustainability Bonds**”), in each case issued in accordance with the principles set out by the International Capital Market Association (“**ICMA**”) (respectively, the “**Green Bond Principles**” or “**GBP**”, the “**Social Bond Principles**” or “**SBP**”) and the “**Sustainability Bond Guidelines**” or “**SBG**”) and/or as further specified in the “*Mediobanca Green and Sustainable Bond Framework*” published in the Mediobanca’s website at <https://www.mediobanca.com/en/investor-relations/financing-rating/green-social-and-sustainability-bond-framework.html>.

In such a case, prospective investors should have regard to the information in those Final Terms regarding such use of proceeds and must:

- (i) determine for themselves the relevance of such information for the purpose of any investment in such Notes;
- (ii) assess the suitability of that investment in light of their own circumstances; and
- (iii) make any other investigation they deem necessary.

In particular, no assurance is given by the Issuers or the Dealers that the use of such proceeds for the funding of any green, social or sustainability project, as the case may be, will satisfy, either in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws, articles of association or other governing rules or investment portfolio mandates.

In addition, it should be noted that the definition (legal, regulatory or otherwise) of, and market consensus for a particular project to be defined as, a “green”, “social” or “sustainable” or equivalently labelled project is still under development. As a result, there is currently no clearly defined definition (legal, regulatory or otherwise), nor market consensus as to what constitutes, a “green”, “sustainability”, “social” or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as “green”, “sustainability”, “social” or such other equivalent label, nor can any assurance be given that such a clear definition or consensus will develop over time. A basis for the determination of the definitions of, *inter alia*, “green” has been established in the EU with the publication in the Official Journal of the EU on 22 June 2020 of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 (the “**Sustainable Finance Taxonomy Regulation**”) on the establishment of a framework to facilitate sustainable investment (the “**EU Sustainable Finance Taxonomy**”). On 21 April 2021, the European Commission adopted the EU Taxonomy Climate Delegated Act, introducing the first set of technical screening criteria to define which activities contribute substantially to two of the environmental objectives under the EU Sustainable Finance Taxonomy: climate change adaptation and climate change mitigation (the “**Taxonomy Climate Delegated Act**”). The Taxonomy Climate Delegated Act applies since 1 January 2022. In addition, on 9 March 2022 the European Commission adopted the EU Taxonomy Complementary Climate Delegated Act covering certain nuclear and gas activities, which is expected to apply from 1 January 2023. Furthermore, on 6 April 2022, the European Commission adopted the Regulatory Technical Standards (RTS) to Regulation (EU) 2019/2088 (the “**Sustainable Finance Disclosure Regulation**”) which is expected to apply from 1 January 2023. Any further delegated act that is adopted by the European Commission in implementation of the Sustainable Finance Taxonomy Regulation or the Sustainable Finance Disclosure Regulation may furthermore evolve over time with changes to the scope of activities and other amendments to reflect technological progress, resulting in regular review to the relating screening criteria.

Furthermore, in connection with any Notes that are stated to be Green Bonds, Social Bonds or Sustainability Bonds, it should be noted that the Issuer may request a sustainability rating agency or sustainability consulting firm to issue a second-party opinion confirming that the relevant green, low carbon, social and/or sustainable projects, as the case may be, have been defined in accordance with the broad categorisation of eligibility for green, social and sustainable projects set out in the GBP, the SBP and the SBG and/or a second-party opinion regarding the suitability of the Notes as an investment in connection with certain environmental, sustainability or social projects (any such second-party opinion, a “**Second-party Opinion**”). A Second-party Opinion may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed above and other factors that may affect the value of the Notes or the projects financed or refinanced toward an amount corresponding to the net proceeds of the relevant issue of Green Bonds, Social Bonds and Sustainability Bonds. A Second-party Opinion would not constitute a recommendation to buy, sell or hold the relevant Green Bonds or Social Bonds or Sustainability Bonds and would only be current as of the date it is released. In addition, a withdrawal of the Second-party Opinion may affect the value of such Green Bonds, Social Bonds and Sustainability Bonds and/or have consequences for certain investors with portfolio mandates to invest in green or social or sustainable assets. Prospective investors must determine for themselves the relevance of any such opinion, report or certification and/or the information contained therein and/or the provider of such opinion, report or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions, reports and certifications are not subject to any specific regulatory or other regime or oversight.

In the event that any Green Bonds, Social Bonds or Sustainability Bonds are listed or admitted to trading on any dedicated “green”, “environmental”, “sustainability”, “social” or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuers, the Dealers or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green Bonds, Social Bonds or Sustainability Bonds. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuers, the Dealers or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

While it is the intention of the Issuer to apply the proceeds of any Social Bonds, Green Bonds or Sustainability Bonds in, or substantially in, the manner described in the relevant Final Terms, there can be no assurance that any related green, low carbon, social or sustainable projects, as the case may be, will be capable of being implemented in, or substantially in, such manner and/or in accordance with any timing schedule, and, accordingly, neither can it be guaranteed that the proceeds of the Social Bonds, Green Bonds or Sustainability Bonds will be totally or partially disbursed for such projects. Nor can there be any assurance that such green, low carbon, social or sustainable projects will be completed within any specified period or at all or with the results or outcome as originally expected or anticipated by the Issuer.

Any such event or failure to apply the proceeds of the issue of the Notes for any green, social or sustainable projects will not (i) give rise to any claim of a Noteholder against the Issuers; (ii) constitute an Event of Default under the relevant Notes; (iii) lead to an obligation of the Issuers to redeem such Notes or be a relevant factor for the Issuers in determining whether or not to exercise any optional redemption rights in respect of any Notes; (iv) affect the qualification of such Notes as *strumenti di debito chirografario di secondo livello*, Tier II Capital or as eligible liabilities instruments (as applicable); (v) have any impact on the status of the Notes as indicated in Condition 2 (*Status of Notes and Guarantee*) of the Base Terms and Conditions of the Notes or (vi) prevent the applicability of the Bail-in Power. For the avoidance of doubt, neither the proceeds of any Green Bonds, Social Bonds or Sustainability Bonds nor any amount equal to such proceeds will be segregated by the Issuer from its capital and other assets and payments of principal and interest (as the case may be) on the relevant Green Bonds, Social Bonds or Sustainability Bonds shall not depend on the performance of the relevant project nor have any preferred right against such assets.

Green Bonds, Social Bonds or Sustainability Bonds, as any other Bonds, will be fully subject to the application of CRR eligibility criteria and BRRD requirements for own funds and eligible liabilities instruments and, as such, proceeds from Green Bonds, Social Bonds or Sustainability Bonds qualifying as own funds or eligible liabilities should cover all losses in the balance sheet of the Issuer regardless of their “green”, “social” or “sustainable” or such other equivalent label.

Any failure to apply the proceeds of the issue of the Notes for any green, social or sustainable projects may have a material adverse effect on the value of the Notes and/or result in adverse consequences for, amongst others, investors with portfolio mandates to invest in securities to be used for a particular purpose.

(J) RISKS RELATED TO THE MARKET GENERALLY

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk that may be relevant in connection with an investment in Notes:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt notes. Illiquidity may have a severely adverse effect on the market value of Notes.

The Issuer has no obligation to purchase the Notes from the Noteholders. However, should the Issuer decide to purchase the Notes, the secondary market pricing that the Issuer may provide on the Notes may reflect the unwinding cost of the hedging portfolio (if any) and/or the loss of profit (*lucro cessante*) related to such hedging portfolio.

Specific Buy Back Provisions

If Specific Buy Back Provisions is specified as being applicable to the Notes in the relevant Final Terms, investors should be aware that Mediobanca, Mediobanca International and/or MBFL, have issued the Notes also for the purpose of entering into, from time to time, in certain Underlying Transactions. In this respect, the value of the Notes shall reflect and shall be calculated on the basis of the Market Value of such Underlying Transactions. The composition of the Underlying Transaction will be made available to the investors in accordance with the method of publication indicated in the relevant Final Terms.

The Underlying Transactions will be selected from time to time by the relevant Issuer in its reasonable discretion with maturities and notional that can be larger, respectively, than the Maturity Date and Notional Amount of the relevant Notes, and the relevant composition is subject to change during the life of the Notes. Any changes in the composition of the Underlying Transactions (including any possible funding arrangement and/or coupon swap) could adversely affect the Market Value of the Underlying Transactions and, therefore, the value of the Notes.

The Market Value of the Underlying Transactions, as determined by the relevant Issuer, acting in its capacity as Calculation Agent, in a fair and commercially reasonable manner and with reference to the market, could adversely affect the repurchase price, if any, of the Notes. Therefore in the event that an investor requests the

Issuer to repurchase the Notes held by it prior to their maturity, and the Issuer accepts such repurchase, the price of the Notes (Buy Back Price) will be a price that reflects the Market Value of such Underlying Transactions.

The Specific Buy Back Provisions shall not affect the right of the investors to receive timely payments of principal and interest and performance of any non-cash delivery obligations on the Notes. As consideration of the Issuer entering into the Underlying Transactions in relation to the Notes, the Issuer will pay an Extra Yield on the Notes.

The Specific Buy Back Provisions shall apply only to Notes issued by the relevant Issuer, where Mediobanca and/or Mediobanca International act as Dealers and where the Notional Amount of the Notes is equal to, at least, Euro 100,000 (or its equivalent amount if issued in a different currency).

Exchange rate risks and exchange controls

The Issuer will pay principal and interest, if any, on the Notes in the Relevant Currency or, if Dual Currency Notes are specified as being applicable in the Final Terms, the Issuer will pay principal and/or interest on the Notes in a currency different to the Relevant Currency (the "**Payment Currency**"). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Relevant Currency and/or, as applicable, the Payment Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Relevant Currency and/or, as applicable, the Payment Currency, or revaluation of the Investor's Currency or due to the official redenomination of the Relevant Currency and/or, as applicable, the Payment Currency and/or Investor's Currency) and the risk that authorities with jurisdiction over Relevant Currency and/or the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Relevant Currency and/or, as applicable, the Payment Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency equivalent value of the principal payable on the Notes and (iii) the Investor's Currency equivalent market value of the Notes. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest, principal or other amount than expected, or no interest or principal or other amount.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold notes and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Each prospective investor

should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Certain specific information may not be known at the beginning of an offer period

The relevant Final Terms may provide that certain specific information relating to the Notes (such as certain amounts, levels, percentages, prices, rates or values (as applicable) used to determine or calculate amounts payable or assets deliverable in respect of the Notes) may not be fixed or determined until the end of the offer period. In such case, the Final Terms will specify in place of the relevant amounts, levels, percentages, prices, rates or values (as applicable), an indicative range of amounts, levels, percentages, prices, rates or values (as applicable).

The actual amount, level, percentage, price, rate or value, applicable to the Notes will be determined by the Issuer from within the range and will be made public prior to the Issue Date. The actual rate, level or percentage, as applicable, will be determined in accordance with market conditions by the Issuer in good faith and in a commercially reasonable manner.

Prospective investors will be required to make their investment decision based on the indicative range rather than the actual amounts, levels, percentages, prices, rates or values (as applicable), which will only be fixed after the investment decision is made but will apply to the Notes once issued.

Where an indicative range is specified in the Final Terms in respect of amounts, levels, percentages, prices, rates or values (as applicable), prospective investors should, assume that the actual amounts, levels, percentages, prices, rates or values (as applicable) fixed or determined at the end of the offer period may have a negative impact on the amounts payable or assets deliverable in respect of the Notes and consequently, have an adverse impact on the return on the Notes (when compared with other amounts, levels, percentages, prices, rates or values (as applicable) within any indicative range). Prospective investors should therefore make their decision to invest in the Notes on that basis.

Potential conflicts of interest relating to distributors or other entities involved in the offer or listing of the Notes

Potential conflicts of interest may arise in connection with the Notes, as any distributors or other entities involved in the offer and/or the listing of the Notes as indicated in the applicable Final Terms, will act pursuant to a mandate granted by the Issuer and can receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

Impact of implicit fees on the Issue/Offer Price

Investors should note that implicit fees (*e.g.* placement fees, direction fees, structuring fees) may be a component of the Issue/Offer Price of Notes, but such fees will not be taken into account for the purposes of determining the price of the relevant Notes in the secondary market.

The Issuer will specify in the relevant Final Terms the type and amount of any implicit fees which are applicable from time to time.

Investors should also take into consideration that if Notes are sold on the secondary market immediately following the offer period relating to such Notes, the implicit fees included in the Issue/Offer Price on initial subscription for such Notes will be deducted from the price at which such Notes may be sold in the secondary market.

Certain considerations associated with public offers of Notes

If Notes are distributed by means of a public offer, under certain circumstances indicated in the relevant Final Terms, the relevant Issuer and/or other entities specified in the Final Terms may have the right to withdraw or revoke the offer, which in such circumstances will be deemed to be null and void according to the terms indicated in the relevant Final Terms. Unless otherwise provided in the applicable Final Terms, the relevant Issuer and/or other entities specified in the Final Terms may also terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the applicable Final Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached.

In such circumstances, the early closing of the offer may have an impact on the aggregate number of Notes issued and, therefore, may have an adverse effect on the liquidity of the Notes. Furthermore, in such circumstances, investors who have already paid or delivered subscription monies for the relevant Notes will be entitled to reimbursement of such amounts, but will not receive any interest that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Notes. In addition, under certain circumstances, the relevant Issuer and/or other entities specified in the Final Terms will have the right to extend the offer period and/or to postpone the originally designated issue date, and related payment dates.

The relevant Final Terms may also provide that the effectiveness of the offer of Notes is conditional upon admission to trading on the relevant multilateral trading facility indicated in the relevant Final Terms, occurring by the Issue Date. In such case, in the event that admission to trading of the Notes does not take place by the Issue Date for whatever reason, the Issuer may withdraw the offer, the offer will be deemed to be null and void and the relevant Notes will not be issued. As a consequence, the potential investor will not receive any Notes, any subscription rights the potential investor has for the Notes will be cancelled and they will not be entitled to any compensation therefor.

The issue price and/or offer price of the Notes may include subscription fees, placement fees, direction fees, structuring fees and/or other additional costs. Any such fees and/or costs may not be taken into account for the purposes of determining the price of such Notes on the secondary market and could result in a difference between the original issue price and/or offer price, the theoretical value of the Notes, and/or the actual bid/offer price quoted by any intermediary in the secondary market. Any such difference may have an adverse effect on the value of the Notes, where any such fees and/or costs may be deducted from the price at which such Notes can be sold by the initial investor in the secondary market.

Listing of Notes

In respect of Notes which are (in accordance with the applicable Final Terms) to be listed on a stock exchange, market or quotation system, the Issuer shall use all reasonable endeavours to maintain such listing, provided that if it becomes impracticable or unduly burdensome or unduly onerous to maintain such listing, then the Issuer may apply to de-list the relevant Notes, although in this case it will use all reasonable endeavours to obtain and maintain (as soon as reasonably practicable after the relevant de-listing) an alternative admission to listing, trading and/or quotation by a stock exchange, market or quotation system within or outside the European Union, as it may decide.

If such an alternative admission is not available or is, in the opinion of the Issuer, impracticable or unduly burdensome, an alternative admission will not be obtained and the liquidity of the secondary market of the Notes could be affected.

Risk related to inflation

The repayment of the nominal amount of the Notes at maturity does not protect investors from the risk of inflation, i.e. it does not guarantee that the purchasing power of the invested capital will not be affected by the increase in the general price level of consumer products. Consequently, the real return of the Notes, which is the adjusted return taking into account the inflation rate measured during the life of the Notes themselves, could be negative.

Combination or “layering” of multiple risk factors may significantly increase risk of loss

Although the various risks discussed in this Base Prospectus are generally described separately, prospective investors in the Notes should consider the potential effects of the interplay of multiple risk factors. Where more than one significant risk factor is present, the risk of loss to an investor may be significantly increased. There are many other circumstances in which layering of multiple risks with respect to the Issuers and /or the Guarantor and/or the Notes may magnify the effect of those risks.

SUPPLEMENTS AND FURTHER PROSPECTUSES

The Issuers will update this Base Prospectus by preparing a replacement prospectus, setting out the changes in the operations and financial conditions of the Issuers, at least every year after the date of this Base Prospectus and each subsequent Base Prospectus.

The Issuers have given an undertaking to the Dealers that if at any time during the duration of the Programme there is a significant new factor, material mistake or inaccuracy relating to the information contained in this Base Prospectus which is capable of affecting the assessment of the Notes, they shall prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent offering of the Notes and shall supply to each Dealer a number of copies of such supplement as a Dealer may reasonably request.

In addition, the Issuers and the Guarantor may agree with any Dealer to issue Notes in a form not contemplated in the section of this Base Prospectus entitled "*Form of Final Terms*". To the extent that the information relating to that Tranche of Notes constitutes a significant new factor in relation to the information contained in this Base Prospectus, a separate prospectus specific to such Tranche (a "**Drawdown Prospectus**") will be made available and will contain such information. Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the relevant Issuer and (if applicable) the Guarantor and the relevant Notes or (2) pursuant to Article 6.3 of the Prospectus Regulation, by a registration document containing the necessary information relating to the relevant Issuer and (if applicable) the Guarantor, a securities note containing the necessary information relating to the relevant Notes and, if necessary, a summary note. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, references in this Base Prospectus to information specified or identified in the Final Terms shall (unless the context requires otherwise) be read and construed as information specified or identified in the relevant Drawdown Prospectus.

DESCRIPTION OF THE SECURITY AND COLLATERAL ASSETS

Notes may be either Secured Notes or Unsecured Notes as specified in the applicable Final Terms. If the Notes are Secured Notes, MBFL will grant to the Security Trustee the following security to secure its obligations under the Secured Notes and any Charged Agreement(s) in each case, save to the extent the relevant asset or right is charged under an Additional Charging Document:

- (i) a first fixed charge and a first ranking assignment by way of security of all of the MBFL's rights, title and/or interests (the **Issuer's Rights**) in, to and under the Collateral Assets; and
- (ii) a first ranking assignment by way of security of all of the Issuer's Rights under each Charged Agreement and each Additional Charged Agreement in respect of such Notes.

The Initial Collateral Assets and the Eligible Collateral (where applicable) will be specified in the applicable Final Terms and may comprise any of loans, cash, debt securities listed on a regulated market, equity securities listed on a regulated market and/or shares, units or other interests in a UCITS fund, or other assets.

Where the Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms, the Charged Agreement(s) in respect of each Series of Secured Notes will be a swap agreement, repurchase agreement or sale and purchase agreement entered into between MBFL and the Counterparty and, if applicable, a Credit Support Document, each as described below. The purpose of the swap agreement, repurchase agreement or sale and purchase agreement (referred to as the Transfer Agreement) may be to allow MBFL to perform its scheduled obligations under the Secured Notes, all as described more fully in the applicable Final Terms. If so specified in the applicable Final Terms MBFL and the Counterparty may enter into a Credit Support Document under which MBFL and/or the Counterparty will collateralise its obligations in respect of the Transfer Agreement. In respect of certain Series of Secured Notes MBFL and the Counterparty may each appoint one or more agents to perform certain custodial and administrative functions relating to their obligations under the Transfer Agreement or the Credit Support Document, or the Collateral Assets as applicable. If applicable an Additional Charged Agreement may be specified in the Final Terms.

Adjustment of Collateral Assets

The terms of the Secured Notes may provide that the Collateral Assets may be adjusted in accordance with the terms of Secured Notes Condition 5 (*Adjustment of Collateral Assets*). Such adjustment will be as specified in the applicable Final Terms and may be in whole or in part and may be for cash or other assets. Such adjustment may involve MBFL topping up, removing, maintaining and/or substituting Collateral Assets and this may diminish or have an adverse effect on the value of the Collateral Assets in some circumstances.

In respect of certain Series of Secured Notes MBFL may appoint one or more agents to perform certain custodial and administrative functions relating to the Collateral Assets.

The Collateral Assets in respect of the Secured Notes will comprise one or more of the following assets:

Loans

Loan(s) to one or more borrowers.

Cash

Cash in a stipulated currency and amount.

Debt securities

Debt securities listed on a regulated market.

Equity securities

Equity securities listed on a regulated market.

Shares, units or interests in a UCITS Fund

Shares, units or interests in a UCITS Fund.

FORMS OF THE NOTES

Temporary or Permanent Global Note

Unless otherwise provided in the relevant Final Terms, each Tranche of Notes will initially be in the form of either a temporary global note (a "**Temporary Global Note**"), without Coupons, or a permanent global note (a "**Permanent Global Note**"), without Coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "**Global Note**") which is not intended to be issued in a new global note form (a "**Classic Global Note**" or "**CGN**"), as specified in the relevant Final Terms, will be deposited on or around the Issue Date of the relevant Tranche of the Notes with a depository or a common depository for Euroclear Bank S.A./N.V. ("**Euroclear**") and/or Clearstream Banking S.A. ("**Clearstream Luxembourg**" or "**CBL**") and/or any other relevant clearing system and/or deposited directly with Euronext Securities Milan ("**Euronext Securities Milan**", the commercial name of Monte Titoli S.p.A.) and/or any other centralised custodian appointed by the Issuers (together, the "**Centralised Custodian**") and each Global Note which is intended to be issued in new global note form (a "**New Global Note**" or "**NGN**"), as specified in the relevant Final Terms, will be (i) deposited on or around the Issue Date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream Luxembourg, and (ii) the relevant Final Terms will indicate that the Global Note is intended to be held in a manner which would allow Eurosystem eligibility. Depositing a Global Note with a common safekeeper does not necessarily mean that the relevant Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue, or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

The relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specifies the form of Notes as being "*Temporary Global Note exchangeable for a Permanent Global Note*", then the Notes will initially be in the form of a Temporary Global Note without Coupons or Receipts (as defined herein), interests in which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without Coupons, not earlier than 40 days after the Issue Date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the relevant Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any

subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (a) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and
- (b) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership,

within seven days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership, *provided, however*, that in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form ("**Definitive Notes**"):

- (a) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (b) at any time, if so specified in the relevant Final Terms; or
- (c) if the relevant Final Terms specifies "*in the limited circumstances described in the Permanent Global Note*", then if Euroclear or Clearstream Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business.

Where interests in the Permanent Global Note are to be exchanged for Definitive Notes in the circumstances described in (i) and (ii) above, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form. As an exception to the above rule, where the Permanent Global Note may only be exchanged in the limited circumstances described in (iii) above, Notes may be issued in denominations which represent the aggregate of a minimum denomination of Euro 100,000, plus integral multiples of Euro 1,000, provided that such denominations are not less than Euro 100,000 nor more than Euro 199,000. For the avoidance of doubt, each holder of Notes of such denominations will, upon exchange for Definitive Notes, receive Definitive Notes in an amount equal to its entitlement to the principal amount represented by the Permanent Global Note. However, a Noteholder who holds an aggregate principal amount of less than the minimum denomination may not receive a Definitive Note and would need to purchase a principal amount of Notes such that its holding is an integral multiple of the minimum denomination.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons, Talons and Receipts attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "*Temporary Global Note exchangeable for Definitive Notes*" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules nor the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note, without Coupons, interests in which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the Issue Date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being "*Temporary Global Note exchangeable for Definitive Notes*" and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note, without Coupons or Receipts, interests in which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the Issue Date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Where the Temporary Global Note is to be exchanged for Definitive Notes, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons, Talons and Receipts (as defined herein) attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "*Permanent Global Note exchangeable for Definitive Notes*", then the Notes will initially be in the form of a Permanent Global Note, without Coupons or Receipts, interests in which will be exchangeable in whole, but not in part, for Definitive Notes:

- (a) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (b) at any time, if so specified in the relevant Final Terms; or
- (c) if the relevant Final Terms specifies "*in the limited circumstances described in the Permanent Global Note*", then if (a) Euroclear or Clearstream Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business.

Where interests in the Permanent Global Note are to be exchanged for Definitive Notes in the circumstances described in (i) and (ii) above, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form. As an

exception to the above rule, where the Permanent Global Note may only be exchanged in the limited circumstances described in (iii) above, Notes may be issued in denominations which represent the aggregate of a minimum denomination of Euro 100,000, plus integral multiples of Euro 1,000, provided that such denominations are not less than Euro 100,000 nor more than Euro 199,000. For the avoidance of doubt, each holder of Notes of such denominations will, upon exchange for Definitive Notes, receive Definitive Notes in an amount equal to its entitlement to the principal amount represented by the Permanent Global Notes. However, a Noteholder who holds an aggregate principal amount of less than the minimum denomination may not receive a Definitive Note and would need to purchase a principal amount of Notes such that its holding is an integral multiple of the minimum denomination.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons, Talons and Receipts attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange. Where the Notes are listed on the Euronext Dublin and its rules so require, the Issuer will give notice of the exchange of the Permanent Global Note for Definitive Notes pursuant to Base Condition 16 (*Notices*) of the Base Terms and Conditions of the Notes.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the base terms and conditions set out under "*Base Terms and Conditions of the Notes*" in Part 1 of Chapter 2, as completed by any additional Specific Terms and Conditions set out in Chapters 3 to 12 below and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "*Provisions relating to the Notes while in Global Form*" below.

Legend concerning United States persons

In the case of any Tranche of Notes having a maturity of more than 365 days, the Notes in permanent global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

The sections referred to in such legend provide that a United States person who holds a Note, Coupon, Talon or Receipt will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note, Coupon, Talon or Receipt and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

Book-entry form

If the relevant Final Terms specifies the form of the Notes as being "*Book-entry form*", then the Notes will not be represented by paper certificates and the transfer and exchange of Notes will take place exclusively through an electronic book-entry system managed by Euronext Securities Milan ("**Euronext Securities Milan**", the commercial name of Monte Titoli S.p.A.) or any other Centralised Custodian appointed by the Issuers. Accordingly, all Notes shall be deposited by their owners with an intermediary participant in the relevant Centralised Custodian. The intermediary will in turn deposit the Notes with the Centralised Custodian.

To transfer an interest in the Notes, the transferor and the transferee are required to give instructions to their respective intermediaries. If the transferee is a client of the transferor's intermediary, the intermediary will simply transfer the Notes from the Transferor's account to the account of the transferee. If, however, the transferee is a client of another intermediary, the transferor's intermediary will instruct the centralised clearing system to transfer the Notes to the account of the transferee's intermediary, which will then register the Notes on the transferee's account.

Each intermediary maintains a custody account for each of its clients. This account sets out the financial instruments of each client and the records of all transfers, interest payments, charges or other encumbrances on such instruments. The account holder or any other eligible party may submit a request to the intermediary for the issue of a certified account statement.

In such circumstances, it will not be possible for a Noteholder to obtain physical delivery of Notes certificates representing the Notes.

Euroclear UK & Ireland Limited

CREST Dematerialised Notes

If the relevant Final Terms specifies the form of the Notes as being "CREST Dematerialised Notes", the Notes will be issued and held in uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof from time to time (the "**Uncertificated Securities Regulations**"), and as such are dematerialised securities and not constituted by any physical document of title. CREST Dematerialised Notes are participating securities for the purposes of the Uncertificated Securities Regulations. Title to the CREST Dematerialised Notes is recorded on the relevant operator register of eligible debt securities. The Operator is Euroclear UK & Ireland Limited.

The Euroclear Registrar on behalf of the relevant Issuer will maintain a record of uncertificated eligible debt securities (the "**Record**") in relation to the CREST Dematerialised Notes and will procure that the Record is regularly updated to reflect the Operator register of eligible debt securities in accordance with the rules of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of CREST Dematerialised Notes shall be treated by the relevant Issuer, the Guarantor, the Euroclear Registrar and any other person as the holder of such number of CREST Dematerialised Notes for all purposes (and the expressions "**Holder**" and "**Holder of Notes**" and related expressions in the context of CREST

Dematerialised Notes shall be construed accordingly), and (ii) none of the Issuers, the Guarantor, the Euroclear Registrar and any other person shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the Euroclear Registrar maintains are in accordance with particulars entered in the Operator register of eligible debt securities relating to the CREST Dematerialised Notes.

CREST Depository Interests

If the applicable Final Terms specify that the Notes will be accepted for settlement in CREST via the CREST Depository Interest mechanism, indirect interests in Notes will be accepted for settlement through CREST. Following their delivery into a clearing system, interests in the relevant Notes may be delivered, held and settled in CREST by means of the creation of CDIs representing the interests in the relevant Notes. The CDIs will be issued by the CREST Depository to CDI Holders and will be governed by English Law.

The CDIs will represent indirect interests in the interest of the CREST Nominee in the relevant Notes. Pursuant to the documents setting out the legal relationship of CREST with its users and participants (the "**CREST Manual**"), Notes held in global form by a common depository may be settled through CREST and the CREST Depository will issue CDIs. The CDIs will be independent securities, constituted under English law, which may be held and transferred through CREST.

Interests in the relevant Notes will be credited to the CREST Nominee's account with Euroclear and the CREST Nominee will hold such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants.

Each CDI will be treated by the CREST Depository as if it were a relevant Security for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to CDI Holders any interest or other amounts received by it as holder of the relevant Notes on trust for such CDI Holder. CDI Holders will also be able to receive from the CREST Depository notices of meetings of Holders of the relevant Notes and other relevant notices issued by the relevant Issuer or the Guarantor (if applicable).

The CDIs will have the same ISIN as the ISIN of the relevant Notes and if listed do not require a separate listing. Prospective subscribers for Notes represented by CDIs are referred to Chapter 8 of the CREST International Manual (as defined below) which contains the form of the CREST Global Deed Poll (the "**CREST Deed Poll**") to be entered into by the CREST Depository. The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg, the relevant Issuer and the Guarantor (if applicable), including the CREST Deed Poll. These rights may be different from those of Holders of Notes which are not represented by CDIs.

CDIs will be delivered, held and settled in CREST, by means of the CREST International Settlement Links Service (the "**CREST International Settlement Links Service**"). The settlement of the CDIs by means of the CREST International Settlement Links Service has the following consequences for CDI Holders:

- (a) CDI Holders will not be the legal owners of the relevant Notes. The CDIs are separate legal instruments from such Notes and represent an indirect interest in such Notes;
- (b) the relevant Notes themselves (as distinct from the CDIs representing indirect interests in such Notes) will be held in an account with a custodian. The custodian will hold the relevant Notes through a clearing system;
- (c) rights under the relevant Notes cannot be enforced by CDI Holders except indirectly through the intermediary depositories and custodians described above;
- (d) the CDIs issued to CDI Holders will be constituted and issued pursuant to the CREST Deed Poll. CDI Holders will be bound by all provisions of the CREST Deed Poll and by all provisions of, or prescribed pursuant to, the CREST International Manual dated 8 December 2020, as amended, modified, varied or supplemented from time to time (the "CREST International Manual") and the CREST Rules dated 15 January 2021, as amended, modified, varied or supplemented from time to time (the "CREST Rules") (which, in each case, form part of the CREST Manual) and CDI Holders must comply in full with all obligations imposed on them by such provisions;
- (e) potential investors should note that the provisions of the CREST Deed Poll, the CREST International Manual and the CREST Rules contain indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the relevant Issuer and the Guarantor (if applicable) and the CREST Depository;
- (f) CDI Holders may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them. The attention of potential investors is drawn to the terms of the CREST Deed Poll, the CREST International Manual and the CREST Rules, copies of which are available from CREST at 33 Cannon Street, London EC4M 5SB or by calling +44 (0) 20 7849 0000 or from the CREST website at www.euroclear.com/site/public/EUI;
- (g) potential investors should note CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the CDIs through the CREST International Settlement Links Service;
- (h) potential investors should note that none of the relevant Issuer, the Guarantor (if applicable), any Manager, any Security Agent or any Registrar will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

Notes issued under the Programme are issued in series (each a "**Series**") and each Series may comprise one or more tranches (each a "**Tranche**") of Notes. The terms and conditions applicable to any particular Tranche of Notes are these Conditions, as completed by the relevant Final Terms (the "**Final Terms**"). In the event of any inconsistency between these Conditions and the relevant Final Terms, the relevant Final Terms shall prevail. All subsequent references in these Conditions to "**Notes**" are to the Notes which are the subject of the relevant Final Terms. Copies of the relevant Final Terms are available during normal business hours at the specified office of the Fiscal Agent, or the Euroclear Registrar (in case of CREST Dematerialised Notes), the initial specified office of which is set out below, save that if the Notes are unlisted, the applicable Final Terms will only be obtainable by a Noteholder and such Noteholder must produce evidence satisfactory to the relevant Fiscal Agent or the Euroclear Registrar (in case of CREST Dematerialised Notes), as to identity. Without prejudice to the generality of the preceding sentence and notwithstanding anything contained in these Conditions or the applicable Final Terms, so long as the CREST Dematerialised Notes are participating securities, (A) the Operator register of eligible debt securities relating to the CREST Dematerialised Notes shall be maintained at all times outside the United Kingdom, (B) the CREST Dematerialised Notes may be issued in uncertificated form in accordance with and subject as provided in the Uncertificated Securities Regulations, and (C) for the avoidance of doubt, the Conditions and the applicable Final Terms in relation to any CREST Dematerialised Note shall remain applicable notwithstanding that they are not endorsed on any certificate for such CREST Dematerialised Note.

4. PHYSICAL DELIVERY PROVISIONS

4.1. Settlement Disruption

If, on the Maturity Date, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the applicable Final Terms is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on any Delivery Date then such Delivery Date for such Notes shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that the relevant Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the relevant Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the

originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the relevant Issuer may elect in its sole discretion to satisfy and discharge its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Settlement Disruption Amount (as defined below) up to the 5th Business Day following the date that notice of such election is given to the Noteholders in accordance with Base Condition 16 (*Notices*). Payment of the Settlement Disruption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Base Condition 16 (*Notices*) that a Settlement Disruption Event has occurred provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Settlement Disruption Event. No Noteholder shall be entitled to any payment in respect of the relevant Note in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the relevant Issuer or the Guarantor, if any.

For the purposes hereof:

"Settlement Disruption Amount" in respect of any relevant Note shall be the fair market value of such Note (disregarding, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the relevant Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the relevant Issuer acting in good faith and in a commercially reasonable manner (or, whereas provided above some Relevant Assets have been delivered and a *pro rata* portion thereof has been paid, such *pro rata* portion); and

"Settlement Disruption Event" means, in the opinion of the Calculation Agent, or, if the provision of Base Condition 2.2 (*Status of Guarantee*) applies, the Guarantor, an event beyond the control of the relevant Issuer or, if the provision of Base Condition 2.2 (*Status of Guarantee*) applies, the Guarantor, as a result of which the relevant Issuer or the Guarantor cannot make delivery of the Relevant Asset(s) using the method specified in the applicable Final Terms.

4.2. *Failure to Deliver due to Illiquidity*

"Failure to Deliver due to Illiquidity", if specified as applicable in the applicable Final Terms, will be an Optional Additional Disruption Event, as described in Base Condition 13.1 (*Definitions*).

4.3. *Issuer's Option to vary Settlement*

If the applicable Final Terms indicate that the relevant Issuer has an option to vary settlement in respect of the Notes the relevant Issuer may, at its sole and unfettered discretion in respect of each such Note, elect not to pay the relevant Noteholders the Final Redemption Amount or not to deliver or procure delivery of the Entitlement to the relevant Noteholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders, as the case may be. Notification of such election will be given to Noteholders in accordance with Base Condition 16 (*Notices*).

If specified in the applicable Final Terms, the Issuer shall, in respect of each Note, in lieu of delivering or procuring the delivery of the Entitlement to the relevant Noteholders, make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders.

4.4. *Intervening Period*

For such period of time after the Maturity Date as the Issuer or any person other than the relevant Noteholder shall continue to be the legal owner of the securities or obligations comprising the Entitlement (the "**Intervening Period**"), neither the relevant Issuer, the Guarantor nor any other person shall (i) be under any obligation to deliver or procure delivery to any Noteholder or any subsequent beneficial owner any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in respect of such securities or obligations, or (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such securities or obligations during the Intervening Period or (iii) be under any liability to the relevant Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being the legal owner of such securities or obligations.

4.5. *Issuer's Option to Substitute Assets or to pay the Alternate Cash Amount*

Unless Issuer's Option to Substitute is specified as not applicable in the applicable Final Terms, notwithstanding any provision of these Conditions to the contrary, the Issuer may, in respect of such Notes, if the Calculation Agent determines (acting in good faith and in a commercially reasonable manner) that the Relevant Asset or Relevant Assets, as the case may be, comprise(s) shares or interests in ETIs which are not freely tradable, elect either (a) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an equivalent value (as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner) of such other shares or interests in ETIs which the Calculation Agent determines, acting in good faith and in a commercially reasonable manner, are freely tradable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be) or (b) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant Noteholders, but in lieu thereof to make payment to the relevant Noteholders on the Maturity Date of an amount equal to the fair market value of the Entitlement on the Redemption Valuation Date as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner by reference to such sources as it considers appropriate (the "**Alternate Cash Amount**"). Notification of any such election will be given to Noteholders in accordance with Base Condition 16 (*Notices*).

For the purposes hereof, a "**freely tradable**" share or interest in an ETI shall mean (i) with respect to the United States, a share or interest in an ETI, as the case may be, which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such share or interest in an ETI, as the case may be, and not purchased from an Affiliate of the issuer of such share or interest in an ETI, as the case may be, or which otherwise meets the requirements of a freely tradable share or interest in an ETI, as the case may be, for purposes of the Securities Act, in each case, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner or (ii) with respect to any other jurisdiction, a share or interest in an ETI, as the case may be, not subject to any legal restrictions on transfer in such jurisdiction.

4.6. *Index Linked Notes, Currency Linked Notes, Commodity Linked Notes, Inflation Linked Notes, Futures*

Linked Notes and Interest Rate Linked Notes shall not be Physical Delivery Notes.

4.7. *FX Settlement Disruption Event*

If (a) FX Settlement Disruption Event Determination is specified as applicable in the applicable Final Terms and the Calculation Agent determines that the FX Settlement Disruption Event is not attributable to the relevant Issuer, but substantially alters the economics of the Notes compared to the economics as of the Issue Date and the Settlement Currency specified in the applicable Final Terms is a Relevant Currency or (b) if FX Settlement Disruption Event Determination is not specified as applicable in the applicable Final Terms and the Settlement Currency specified in the applicable Final Terms is a Relevant Currency, "FX Settlement Disruption" will apply, and:

- (i) If on the second Business Day prior to the Disrupted Settlement Date, the Calculation Agent (acting in good faith and in a commercially reasonable manner) determines that a FX Settlement Disruption Event has occurred and is subsisting, the relevant Issuer shall give notice (a "**FX Settlement Disruption Notice**") to the Noteholders in accordance with Base Condition 16 (*Notices*) as soon as reasonably practicable thereafter and, in any event, prior to the due date for payment of the relevant Disrupted Amount as the case may be.
- (ii) Following the occurrence of a FX Settlement Disruption Event:
 - A. the date for payment of the relevant Disrupted Amount will be postponed to (a) the second Business Day following the date on which the Calculation Agent determines that a FX Settlement Disruption Event is no longer subsisting or if earlier (b) the date falling thirty calendar days following the Maturity Date or other scheduled date for payment, as applicable, of the relevant Disrupted Amount (the "**FX Settlement Disruption Cut-off Date**") which, for the avoidance of doubt, may be later than the scheduled Maturity Date; and
 - B. (i) in the case of A(a) above, the relevant Issuer will pay or cause to be paid the relevant Disrupted Amount, less (unless FX Settlement Disruption Expenses are indicated as not applicable in the relevant Final Terms) FX Settlement Disruption Expenses (if any), in the Settlement Currency or (ii) in the case of A(b) above, in lieu of paying the relevant Disrupted Amount in the Settlement Currency, the Issuer will, subject to sub-paragraph (iii) below, convert the relevant Disrupted Amount into the FX Settlement Disruption Currency (using the FX Settlement Disruption Exchange Rate determined by the Calculation Agent for the relevant Disrupted Settlement Date) and will pay or cause to be paid the relevant Disrupted Amount, less (unless FX Settlement Disruption Expenses are indicated as not applicable in the relevant Final Terms) FX Settlement Disruption Expenses (if any), in the FX Settlement Disruption Currency on the FX Settlement Disruption Cut-off Date;
- (iii) If sub-paragraph (ii) A(b) applies, the Calculation Agent will determine the FX Settlement Disruption Exchange Rate acting in good faith and in a commercially reasonable manner in accordance with the following procedures:
 - A. the FX Settlement Disruption Exchange Rate shall be the arithmetic mean (rounded, if necessary, to four decimal places (with 0.00005 being rounded upwards) as determined by or on behalf of the

Calculation Agent of the bid and offer Settlement Currency/FX Settlement Disruption Currency exchange rates provided by two or more leading dealers on a foreign exchange market (as selected by the Calculation Agent) on such day; or

- B. if fewer than two leading dealers provide the Calculation Agent with bid and offer Settlement Currency/FX Settlement Disruption Currency exchange rates on such day, the Calculation Agent shall determine the FX Settlement Disruption Exchange Rate acting in good faith and in a commercially reasonable manner.

(iv) For the avoidance of doubt:

- A. No Interest Period will be adjusted as a result of the postponement of any interest pursuant to this Base Condition 4.7; and
- B. No additional interest will be paid in respect of any postponement of the relevant due date for payment.

(v) For the avoidance of doubt, nothing contained in this Base Condition 4.7 shall prevent the Issuer from determining that an Additional Disruption Event and/or Optional Additional Disruption Event has occurred, in which case, the provisions of Base Condition 13 (*Additional Disruption Events and Optional Additional Disruption Events*) shall prevail in the event of any conflict between this Base Condition 4.7 and Base Condition 13 (*Additional Disruption Events and Optional Additional Disruption Events*).

(vi) For these purposes:

4.8. *General*

None of the relevant Issuer, the Guarantor, the Paying Agents and the Calculation Agent shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Notes.

The subscription or purchase of Notes does not confer on any holder of such Notes any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

In making any election, modification, determination or adjustment, the Issuer or the Calculation Agent, as applicable, will act in good faith and in a commercially reasonable manner, to preserve or restore the economics of the agreed terms, as far as reasonably practicable. Any such election, modification, determination or adjustment shall not create a significant imbalance between the rights and obligations of the Issuer compared to the Noteholders, to the detriment of the Noteholders.

If "Essential Trigger" is specified as applicable in the applicable Final Terms, the Issuer or the Calculation Agent, as the case may be, may only modify or adjust the terms of the Notes (other than modifications or adjustments that do not relate to essential characteristics of the Notes) or exercise its discretion to redeem the Notes prior to their scheduled Maturity Date, as described in the Conditions, following an event or circumstance (or combination of events or circumstances) that (a) is not attributable to the Issuer that significantly alters the economics of the Notes compared to the economics as of the Issue Date, or (b) constitutes a *force majeure*.

For the purpose of this Base Condition 4.8, "**essential characteristics**" of the Notes means characteristics of the Notes that are considered essential to the Noteholders generally, including without limitation the yield (coupon structure), the Underlying Reference, the principal protected amount (if any), the identity of the Issuer and of the Guarantor and the scheduled Maturity Date.

The Issuer shall be under no obligation to register or procure the registration of any Noteholder or any other person as the registered holder in respect of any securities or obligations comprised in any Entitlement in the register of, as the case may be, *inter alia*, (i) members of the relevant Share Company as defined in Share Linked Note Condition 1 (*Definitions*) or Fund (if any) or (ii) bondholders of the relevant obligor.

5. ILLEGALITY AND FORCE MAJEURE

If the relevant Issuer determines that the performance of its obligations under the Notes or that any arrangements made to hedge the relevant Issuer's obligations under the Notes have become (i) illegal in whole or in part for any reason, or (ii) by reason of a *force majeure* event (such as an act of God, fire, flood, severe weather conditions, or a labour dispute or shortage) or an act of state occurring after the Issue Date, impossible or impracticable, then the relevant Issuer may early redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*).

Should any one or more of the provisions or part of any provision contained in these Conditions be or become invalid, the validity of the remaining provisions or part of such provision shall not in any way be affected thereby.

If the relevant Issuer early redeems the Notes pursuant to an illegality then the relevant Issuer will, if and to the extent permitted by applicable law, pay an amount to each Noteholder in respect of each Note held by such holder, which amount shall be equal to the fair market value of a Note, notwithstanding such illegality less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the relevant Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payment will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*).

If the relevant Issuer early redeems the Notes by reason of a *force majeure* event or an act of state, then the relevant Issuer will, if and to the extent permitted by applicable law, pay an amount to each Noteholder in respect of each Note held by such holder, which amount shall be equal to the fair market value of a Note, taking into account the applicable *force majeure* event or act of state, as the case may be, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the relevant Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payment will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*).

6. PURCHASES AND CANCELLATION

6.1 Purchases and cancellation

The Issuer may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private treaty. Any Notes so purchased may be held or resold or surrendered for cancellation, provided that and, in the case of a purchase or cancellation of Notes that are CREST Dematerialised Notes, such notes must be transferred to the Euroclear Registrar for cancellation.

6.2 *Specific Buy Back Provisions*

If Specific Buy Back Provisions are specified as applicable in the applicable Final Terms, upon the holder of any Note giving to the Issuer not less than 5 Business Days' notice in accordance with Base Condition 16 (*Notices*) (which notice shall be irrevocable) to early redeem the Note before its scheduled maturity, the Issuer may, at its sole option, upon the expiry of such notice, redeem in whole or in part such Note paying an amount that can be less than par and that is linked to the Market Value of the Underlying Transactions at that moment, together, if appropriate, with any accrued but unpaid interest. As specified above, the Issuer has the right, in its sole option, to reject the early redemption request and, in particular, if the Issuer never replies to the notice, the Issuer is deemed to have rejected the early redemption request.

If the Specific Buy Back Provisions are specified as being applicable to the Notes in the relevant Final Terms, prior to the Maturity Date the value of the Notes shall reflect and shall be calculated on the basis of the Market Value of the Underlying Transactions. Each of the Issuers may, from time to time, calculate the price of the Notes on the basis of the Market Value of such Underlying Transactions and, without prejudice to its obligation to pay any amounts due and to perform any non-cash delivery obligations relating to the Notes, in the event that an investor requests the relevant Issuer to repurchase the Notes held by it prior to their maturity, and that Issuer accepts such repurchase, the price of the Notes ("**Buy Back Price**") will be determined taking into consideration the Market Value of such Underlying Transactions.

The Specific Buy Back Provisions shall apply only to (i) Notes issued by Mediobanca and/or Mediobanca International and/or MBFL and where Mediobanca and/or Mediobanca International act as Dealers, and (ii) where the Nominal Amount of the Notes is equal to at least Euro 100,000 or its equivalent amount in the Specified Currency.

In addition, if the Specific Buy Back Provisions is specified as being applicable to the Notes in the relevant Final Terms, the Issuer shall pay an additional Interest (the "**Extra-Yield**") on the Notes. More information on the composition of such Interest (*unbundling*) may be published by each of the Issuers from time to time together with the composition of the Underlying Transactions as described below.

For the purpose of this Base Condition 6.2:

"Index-Components Arbitrage" means:

Long (Short): Credit Index + Short (Long): CDS Components

where:

"Credit Index" means any of the Markit credit default swaps indices, with maturities and notionals potentially longer and/or higher, respectively, than the Maturity Date and Nominal Amount of the relevant Notes, and any successor and/or replacement index thereof, including, for the avoidance of doubt, the Markit iTraxx® and Markit CDX™ indices, as selected by Mediobanca and/or Mediobanca International, acting in their capacity as Calculation Agent with respect to the Notes and in their sole and absolute discretion. Credit Index may also be a portfolio of credit default swap tranches summing up to a full capital structure, *i.e.* summing up to any Markit credit default swap index.

"CDS Components" means a basket of single-name credit default swap transactions having similar notional, maturity, coupons and reference entity as the components of the Credit Index. The composition of the Underlying Transaction (including any possible funding arrangement and/or coupon swap) shall be published from time to time by Mediobanca or Mediobanca International on their website www.mediobanca.com or www.mediobancainst.lu, as the case may be, or on the website of Euronext Dublin or on the website of the Luxembourg Stock Exchange or on any other means of publication, as specified in the relevant Final Terms.

(ii) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Interest Rate for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms), or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

- (C) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Modified Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day unless it would thereby fall into the previous calendar month, in which event such Interest Payment Date shall be brought forward to the immediately following Business Day.

(iii) Determination of Interest Rate

The Calculation Agent will, on or as soon as practicable after each date on which the Interest Rate is to be determined (the "**Interest Determination Date**"), determine the Interest Rate (subject to any Minimum Interest Rate or Maximum Interest Rate specified in the applicable Final Terms) for the relevant Interest Period. The Calculation Agent will notify the Paying Agent of the Interest Rate for the relevant Interest Period as soon as practicable after calculating the same.

- (7) in connection with the Index Method, references in the ISDA Definitions to: (A) numbers, financial centres or other items specified in the Confirmation shall be deemed to be references to the numbers, financial centres or other items specified for such purpose in the relevant Final Terms; (B) “Business Day in the financial centres, if any, specified for such purpose in the Confirmation” shall be deemed to be references to Business Day; (C) “Calculation Period” shall be deemed to be references

to the relevant Interest Period; (D) “Floating Rate Day Count Fraction” shall be deemed to be references to Day Count Fraction; (E) “Period End Date” shall be deemed to be references to the relevant Interest Payment Date; (F) “Termination Date” shall be deemed to be references to the final Interest Payment Date; and (G) “Effective Date” shall be deemed to be references to, and the Interest Commencement Date;

- (8) Delayed Payment is applicable if specified in the relevant Final Terms and the relevant delay is the number of Business Days specified in respect of Delayed Payment in the relevant Final Terms;
- (9) Section 8.3 (*Linear Interpolation*) of the ISDA Definitions is deemed to be deleted unless “ISDA Definitions Linear Interpolation” is specified as applicable in the relevant Final Terms; and
- (10) Section 4.14 (*Calculation Agent*) shall not apply.

For the purposes of this Base Condition 7(d), “**Floating Rate**”, “**Calculation Agent**”, “**Swap Transaction**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**”, “**Overnight Floating Rate Option**”, “**Overnight Compounding Method**”, “**Compounding with Lookback**”, “**Lookback**”, “**Applicable Business Days**”, “**Compounding with Observation Period Shift**”, “**Set-in-Advance**”, “**Observation Period Shift**”, “**Observation Period Shift Business Days**”, “**Observation Period Shift Additional Business Days**”, “**Compounding with Lockout**”, “**Lockout**”, “**Lockout Period Business Days**”, “**Daily Capped Rate**”, “**Daily Floored Rate**”, “**Averaging with Lookback**”, “**Averaging with Observation Period Shift**”, “**Averaging with Lockout**”, “**Index Method**”, “**Index Floating Rate Option**”, “**Compounded Index Method**”, “**All-in Compounded Index Method**” “**Compounded Index Method with Observation Shift**”, and “**Delayed Payment**” have the meanings given to those terms in the ISDA Definitions.

- (ii) Screen Rate Determination for Reference Rates other than SONIA, SOFR, €STR or SARON

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which an Interest Rate or Rate is to be determined, such Interest Rate or Rate, as the case may be, for each Interest Period will, subject to Base Condition 7(m) (*Benchmark Rate Replacement*), and subject as provided below, be either:

- a) the offered quotation; or
- b) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at the Relevant Determination Time indicated in the applicable Final Terms (which will be 11.00 a.m., Brussels time, in the case of EURIBOR) on

the relevant Interest Determination Date plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent.

If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of subparagraph (ii)(a), no offered quotation appears on the Relevant Screen Page or, in the case of subparagraph (ii)(b), fewer than three offered quotations appear on the Relevant Screen Page, in each case as at the Relevant Determination Time, the Issuer shall request (in the case of a determination of EURIBOR) the principal Euro-zone office of each of four major banks in the Eurozone inter-bank market, in each case selected by the Issuer or as specified in the applicable Final Terms, to provide the Calculation Agent with its offered quotation (expressed as a percentage per annum) for the Reference Rate at approximately the Relevant Determination Time on the relevant Interest Determination Date

For the purpose of this Base Condition 7(d)(ii), "**Interest Determination Date**", "**Margin**", "**Reference Rate**", "**Relevant Screen Page**" and "**Relevant Determination Time**" shall have the same meanings given to those in the applicable Final Terms.

(iii) Screen Rate Determination for Reference Rate being SONIA

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Interest Rate is to be determined and SONIA is specified as the Reference Rate in the applicable Final Terms, the Interest Rate or Rate for each Interest Period will, subject as provided below, be Compounded Daily SONIA plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this Base Condition 7(d)(iii):

"**Compounded Daily SONIA**", with respect to an Interest Period, will be calculated by the Calculation Agent on each Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{t=1}^{d_o} \left(1 + \frac{SONIA_{t-pLBD} \times n_t}{365} \right) - 1 \right] \times \frac{365}{d}$$

"**d**" means the number of calendar days in:

TERMS AND CONDITIONS OF THE NOTES

- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

“**d_o**” means the number of London Banking Days in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

“**i**” means a series of whole numbers from one to “**d_o**”, each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

to, and including, the last London Banking Day in such period;

“**Interest Determination Date**” means, in respect of any Interest Period, the date falling p London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling p London Banking Days prior to such earlier date, if any, on which the Notes are due and payable).

“**London Banking Day**” or “**LBD**” means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

“**n_i**” for any London Banking Day “**i**”, in the relevant Interest Period or Observation Period (as applicable) is the number of calendar days from, and including, such London Banking Day “**i**” up to, but excluding, the following London Banking Day;

“**Observation Period**” means, in respect of an Interest Period, the period from, and including, the date falling “p” London Banking Days prior to the first day of such Interest Period (and the first Interest Period shall begin on and include the Interest Commencement Date) and ending on, but excluding, the date which is p London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling p London Banking Days prior to such earlier date, if any, on which the Notes become due and payable);

“p” for any Interest Period or Observation Period (as applicable), means the number of London Banking Days specified as the “Lag Period” or the “Observation Shift Period” (as applicable) in the relevant Final Terms;

“**SONIA Reference Rate**” means, in respect of any London Banking Day, a reference rate equal to the daily Sterling Overnight Index Average (“**SONIA**”) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or if the Relevant Screen Page is unavailable, as otherwise is published by such authorised distributors) on the London Banking Day immediately following such London Banking Day; and

“**SONIA_i**” means the SONIA Reference Rate for:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the London Banking Day falling “p” London Banking Days prior to the relevant London Banking Day “i”; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms; the relevant London Banking Day “i”;

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA Reference Rate in respect of any London Banking Day. The SONIA Reference Rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA Reference Rate for the previous London Banking Day but without compounding.

If, in respect of any London Banking Day in the relevant Interest Period or Observation Period (as applicable), the Calculation Agent determines that the SONIA Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall, subject to subject to Base Condition 7(m) (*Benchmark Rate Replacement*), be:

- (A) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on the relevant London Banking Day; plus (B) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five London Banking Days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
- (B) if the Bank Rate is not published by the Bank of England at close of business on the relevant London Banking Day, the SONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA Reference Rate was

published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to Base Condition 7(m) (*Benchmark Rate Replacement*), if the Interest Rate or Rate cannot be determined in accordance with the foregoing provisions of this Base Condition 7(d)(iii), the Interest Rate or Rate shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Interest Rate which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

(iv) Screen Rate Determination for Reference Rate being SOFR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Interest Rate or Rate is to be determined and SOFR is specified as the Reference Rate in the applicable Final Terms, the Interest Rate or Rate for each Interest Period will, subject as provided below, be the Benchmark plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Interest Determination Date.

For the purposes of this Base Condition 7(d)(iv):

“**Benchmark**” means Compounded SOFR, which is a compounded average of daily SOFR, as determined for each Interest Period in accordance with the specific formula and other provisions set out in this Base Condition 7(d)(iv).

Daily SOFR rates will not be published in respect of any day that is not a U.S. Government Securities Business Day, such as a Saturday, Sunday or holiday. For this reason, in determining Compounded SOFR in accordance with the specific formula and other provisions set forth herein, the daily SOFR rate for any U.S. Government Securities Business Day that immediately precedes one or more days that are not U.S. Government Securities Business Days will be multiplied by the number of calendar days from and including such U.S. Government Securities Business Day to, but excluding, the following U.S. Government Securities Business Day.

“**Business Day**” means any weekday that is a U.S. Government Securities Business Day and is not a legal holiday in New York and each (if any) Business Day Centre(s) and is not a date on which banking institutions in those cities are authorised or required by law or regulation to be closed;

“**Compounded SOFR**” with respect to any Interest Period, means the rate of return of a daily compound interest investment computed in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

“**d**” is the number of calendar days in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period,

to and including the last US Government Securities Business Day in such period;

“**Interest Determination Date**” means, in respect of any Interest Period, the date falling “**p**” U.S. Government Securities Business Days prior to the Interest Payment Date for such Interest Period (or the date falling “**p**” U.S. Government Securities Business Days prior to such earlier date, if any, on which the Securities are due and payable);

TERMS AND CONDITIONS OF THE NOTES

If the Issuer determines on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the then-current Benchmark, the Issuer shall use the fallback provisions formally recommended by the Relevant Governmental Body with reference to the Benchmark. If such recommendation is not available, the following provisions should apply.

The Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Notes in respect of all determinations on such date and for all determinations on all subsequent dates. In connection with the implementation of a Benchmark Replacement, the Issuer will have the right to make Benchmark Replacement Conforming Changes from time to time, without any requirement for the consent or approval of the Noteholders.

Any determination, decision or election that may be made by the Issuer pursuant to this section, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection:

- (i) will be conclusive and binding absent manifest error;
- (ii) will be made in the sole discretion of the Issuer; and
- (iii) notwithstanding anything to the contrary in the documentation relating to the Notes, shall become effective without consent from the holders of the Notes or any other party.

“**Benchmark**” means, initially, Compounded SOFR, as such term is defined above; provided that if the Issuer determines on or prior to the Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to Compounded SOFR (or the published daily SOFR used in the calculation thereof) or the then-current Benchmark, then “**Benchmark**” shall mean the applicable Benchmark Replacement.

“**Benchmark Replacement**” means the first alternative set forth in the order below that can be determined by the Issuer as of the Benchmark Replacement Date:

- (i) the sum of: (A) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark and (B) the Benchmark Replacement Adjustment;
- (ii) the sum of: (A) the ISDA Fallback Rate and (B) the Benchmark Replacement Adjustment;
or
- (iii) the sum of: (A) the alternate rate of interest that has been selected by the Issuer as the replacement for the then-current Benchmark giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar-

denominated floating rate notes at such time and (B) the Benchmark Replacement Adjustment;

"Benchmark Replacement Adjustment" means the first alternative set forth in the order below that can be determined by the issuer or its designee as of the Benchmark Replacement Date:

- (i) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (ii) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, the ISDA Fallback Adjustment; or
- (iii) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Issuer giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate notes at such time;

"Benchmark Replacement Conforming Changes" means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) that the Issuer decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Issuer decides that adoption of any portion of such market practice is not administratively feasible or if the Issuer determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Issuer determines is reasonably necessary);

"Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (i) in the case of clause (i) or (ii) of the definition of "Benchmark Transition Event", the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark (or such component); or
- (ii) in the case of clause (iii) of the definition of "Benchmark Transition Event", the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event that gives rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination;

“**Benchmark Transition Event**” means the occurrence of one or more of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (i) a public statement or publication of information by or on behalf of the administrator of the Benchmark (or such component) announcing that such administrator has ceased or will cease to provide the Benchmark (or such component), permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or
- (ii) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark (or such component), the central bank for the currency of the Benchmark (or such component), an insolvency official with jurisdiction over the administrator for the Benchmark (or such component), a resolution authority with jurisdiction over the administrator for the Benchmark (or such component) or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark (or such component) has ceased or will cease to provide the Benchmark (or such component) permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or
- (iii) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative;

“**ISDA Fallback Adjustment**” means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark;

“**ISDA Fallback Rate**” means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment;

“**Reference Time**” with respect to any determination of the Benchmark means (i) if the Benchmark is Compounded SOFR, the SOFR Determination Time, and (ii) if the Benchmark is not Compounded SOFR, the time determined by the Issuer after giving effect to the Benchmark Replacement Conforming Changes;

“**Relevant Governmental Body**” means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto; and

“**Unadjusted Benchmark Replacement**” means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

TERMS AND CONDITIONS OF THE NOTES

Any Benchmark Replacement, Benchmark Replacement Adjustment and the specific terms of any Benchmark Replacement Conforming Changes, determined under this Base Condition 7(d)(iv) will be notified promptly by the Issuer to the Fiscal Agent or the Euroclear Registrar (in the case of CREST Dematerialised Notes), the Calculation Agent, the Paying Agents and, in accordance with Base Condition 16 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date on which such changes take effect.

No later than notifying the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), of the same, the Issuer shall deliver to the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), a certificate signed by two authorised signatories of the Issuer:

- (A) confirming (x) that a Benchmark Transition Event has occurred, (y) the relevant Benchmark Replacement and, (z) where applicable, any Benchmark Replacement Adjustment and/or the specific terms of any relevant Benchmark Replacement Conforming Changes, in each case as determined in accordance with the provisions of this Base Condition 7(d)(iv); and

If the Interest Rate or Rate cannot be determined in accordance with the foregoing provisions of this Base Condition 7(d)(iv), the Interest Rate or Rate shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

- (v) Screen Rate Determination for Reference Rate being €STR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Interest Rate or Rate is to be determined and €STR is specified as the Reference Rate in the applicable Final Terms, the Interest Rate or Rate for each Interest Period will, subject as provided below, be Compounded Daily €STR plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Interest Determination Date.

For the purposes of this Base Condition 7(d)(v):

“Compounded Daily €STR” means, with respect to any Interest Period, the rate of return of a daily compound interest investment (with the daily euro short-term rate as reference rate for the

calculation of interest) as calculated by the Calculation Agent as at the relevant Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded if necessary to the nearest fifth decimal place, with 0.000005 being rounded upwards):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{€STR}_i \times n_i}{D} \right) - 1 \right] \times \frac{D}{d}$$

where:

“**€STR_i**” means the €STR reference rate for:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the TARGET Day falling “p” TARGET Days prior to the relevant TARGET Day “i”; or

“*p*” for any latest Interest Period or Observation Period (as applicable), means the number of TARGET Days specified as the “Lag Period” or the “Observation Shift Period” (as applicable) in the relevant Final Terms.

Subject to Base Condition 7(m) (*Benchmark Rate Replacement*), if, where any Interest Rate or Rate is to be calculated pursuant to this Base Condition 7(d)(v), in respect of any TARGET Day in respect of which an applicable €STR reference rate is required to be determined, such €STR reference rate is not made available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, then the €STR reference rate in respect of such TARGET Day shall be the €STR reference rate for the first preceding TARGET Day in respect of which €STR reference rate was published by the European Central Bank on its website, as determined by the Calculation Agent.

Subject to Base Condition 7(m) (*Benchmark Rate Replacement*), if the Interest Rate or Rate cannot be determined in accordance with the foregoing provisions of this Base Condition 7(d)(iv), the Interest Rate or Rate shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Interest Rate which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled

For the purposes of this Base Condition 7(d)(vi):

“**Compounded Daily SARON**”, with respect to an Interest Period, will be calculated by the Calculation Agent on each Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SARON_{i-\text{pSIXBD}} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

For the avoidance of doubt, the formula for the calculation of Compounded Daily SARON only compounds the SARON Reference Rate in respect of any SIX Business Day. The SARON Reference

Rate applied to a day that is a non- SIX Business Day will be taken by applying the SARON Reference Rate for the previous SIX Business Day but without compounding.

If, in respect of any SIX Business Day in the relevant Interest Period or Observation Period (as applicable), the Calculation Agent determines that the SARON Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SARON Reference Rate shall, subject to subject to Base Condition 7(m) (*Benchmark Rate Replacement*), be the SARON Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding SIX Business Day on which the SARON Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to Base Condition 7(m) (*Benchmark Rate Replacement*), if the Interest Rate or Rate cannot be determined in accordance with the foregoing provisions of this Base Condition 7(d)(vi), the Interest Rate or Rate shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Interest Rate which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

(vii) Screen Rate Determination for Reference Rate being CMS Rate

Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which an Interest Rate or Rate is to be determined, and CMS is specified as the Reference Rate in the applicable Final Terms, such Interest Rate or Rate, for each Interest Period will, subject to Base Condition 7(m) (*Benchmark Rate Replacement*) below and subject as provided below, be the CMS Rate multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any), all as determined by the Calculation Agent and provided that the Interest Rate or Rate may not be less than zero.

If the Relevant Screen Page is not available, the Issuer shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately the Relevant Determination Time on the Interest Determination Date in question. If at least three of the CMS Reference Banks provide the Calculation Agent with such quotation, the CMS Rate for such Interest Period shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

If on any Interest Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate

"**Relevant Swap Rate**" means:

- (1) where the Relevant Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions) with a designated maturity determined by the Calculation Agent by reference to standard market practice and/or the ISDA Definitions; and

The Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. In case all the conditions are met, the product will be fully invested in the underlying asset, and the final payoff is a delta one with the underlying performance.

that ends at the Valuation Time in respect of the Related Exchange; or (C) an Early Closure, in each case in respect of such futures or options contracts.

In the case of a Multi-Exchange Index, for the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of such Index shall be based on a comparison of (x) the portion of the level of such Index attributable to that Component Security to (y) the overall level of such Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data"; and

The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Base Condition 16 (*Notices*) of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been the Strike Date, an Averaging Date, an Observation Date, the Automatic Early Redemption Valuation Date or a Valuation Date, as the case may be.

3. Adjustments to an Index

3.1 Successor Index Sponsor Calculates and Reports an Index

If a relevant Index is (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent, or (b) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the Index.

3.2 Modification and Cessation of Calculation of an Index

If (a) on or prior to the Strike Date, the last Averaging Date, the last Observation Date or the last Valuation Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Index Modification**"), or

permanently cancels a relevant Index and no Successor Index exists (an "**Index Cancellation**"), or (b) on the Strike Date, an Averaging Date, an Observation Date or a Valuation Date, the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Index (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**"), then:

- (i) the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant value, level or price using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Strike Date, that Valuation Date, that Observation Date or that Averaging Date, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that Index Adjustment Event; or
- (ii) the Calculation Agent may replace the relevant Index with a new similar index, multiplied, if need be by a linking coefficient to ensure continuity in the condition of the underlying of the Notes; or
- (iii) unless Delayed Redemption on Occurrence of Index Adjustment Event, Highest Value, Market Value or Monetisation Option are specified as being applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Note Condition 16 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note, being redeemed at an amount equal to the fair market value of such Note, as the case may be, taking into account the Index Adjustment Event, less, except in the case of Italian Listed Notes or if unless Unwind Costs are specified as not applicable in the applicable Final Terms, as applicable, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*); or
- (iv) if Delayed Redemption on Occurrence of Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Index Adjustment Event less, except in the case of Italian Listed Notes or if unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Index Adjustment Amount**") as soon as practicable following the occurrence of the Index Adjustment Event (the "**Calculated Index Adjustment Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Index Adjustment Amount plus interest accrued from and including the Calculated Index Adjustment Amount Determination Date to but excluding the Maturity Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable

Final Terms and if greater, the Protected Amount (as specified in the applicable Final Terms);
or

- (v) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Note and pay to each Noteholder an amount in respect of each Note, held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(a);
- (vi) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(b);
- (vii) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(c); or
- (viii) if the Calculation Agent determines that such Index Adjustment Event constitutes a force majeure, and if Index Linked Note Condition 3.2(c)(vi) is specified in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder, which amount shall be equal to the fair market value of a Note, taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early redeem the Notes at their fair market value) and no such costs shall be deducted), such amount to be paid to the Noteholders on the date notified to the Noteholders in the notice of early redemption.

Notwithstanding the foregoing, the Calculation Agent will adjust any relevant terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes.

4. Notice

The Calculation Agent shall, as soon as practicable, notify the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), of any determination made by it pursuant to paragraph 3.2 above and the action proposed to be taken in relation thereto and such the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), shall make available for inspection by Noteholders copies of any such determinations.

5. Correction of Index

If the level of the Index published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant Index Sponsor or (if applicable) the relevant Successor Index Sponsor, (a) in respect of a Composite Index, no later than five Business Days following the date of the original publication, or (b) in respect of an Index which is not a Composite Index, within the number of days equal to the Index Correction Period of the original publication, the level to be used shall be the level of the Index as so corrected, except that any corrections published after the day which is three Business Days prior to a due date for payment under the Notes calculated by reference to the level of the Index will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

6. Futures Price Valuation

If "Futures Price Valuation" is specified as applicable in relation to an Index in the applicable Final Terms, in respect of such Index, the following provisions shall apply to these Index Linked Note Conditions:

"First Traded Price" means, in relation to each Cash Settled Note and subject to the provisions of this Annex 2 (*Additional Terms and Conditions for Index Linked Notes*):

- (a) in the case of Index Linked Notes relating to a Basket of Indices and in respect of each Index comprising the Basket of Indices, an amount (which shall be deemed to be a monetary value in the Index Currency) equal to the Actual First Traded Price of the relevant Current Exchange-traded Contract in respect of such Index as determined by the Calculation Agent on the relevant Settlement Price Date, multiplied by the relevant Weighting; and
- (b) in the case of Index Linked Notes relating to a single Index, an amount (which shall be deemed to be a monetary value in the Index Currency) equal to the Actual First Traded Price of the relevant Current Exchange-traded Contract in respect of the Index as determined by the Calculation Agent on the relevant Settlement Price Date.

"Settlement Price" means, in relation to each Note, and subject to the provisions of this Annex 2 (*Additional Terms and Conditions for Index Linked Notes*):

- (a) in the case of Index Linked Notes relating to a Basket of Indices and in respect of each Index comprising the Basket of Indices, an amount (which shall be deemed to be a monetary value in the Index Currency) equal to the Official Settlement Price of the relevant Current Exchange-traded Contract in respect of such Index as determined by the Calculation Agent on (i) if Averaging is not specified in the applicable Final Terms, the relevant Settlement Price Date or (ii) if Averaging is specified in the applicable Final Terms, an Averaging Date and, in either case, multiplied by the relevant Weighting; and

- (b) in the case of Index Linked Notes relating to a single Index, an amount (which shall be deemed to be a monetary value in the Index Currency) equal to the Official Settlement Price of the relevant Current Exchange-traded Contract in respect of the Index as determined by the Calculation Agent on (i) if Averaging is not specified in the applicable Final Terms, the relevant Settlement Price Date or (ii) if Averaging is specified in the applicable Final Terms, an Averaging Date.

For the purposes of determining whether a day is a Scheduled Trading Day where Futures Price Valuation applies in relation to any Index or (in the case of a Basket of Indices) any constituent Index any reference to such Index or constituent Index in the definition of Scheduled Trading Day will be deemed not to apply and instead a Scheduled Trading Day must be a day on which the Official Settlement Price or, if First Traded Price Applicable is specified in the applicable Final Terms, the Actual First Traded Price, as applicable, is scheduled to be published by the relevant Futures or Options Exchange in relation to each such Index to which Futures Price Valuation applies.

Where Futures Price Valuation applies in relation to any Index or (in the case of a Basket of Indices) any constituent Index, an Exchange Business Day must be a day on which the relevant Futures or Options Exchange in relation to each such Index is open for trading during their regular trading session(s), notwithstanding any such Futures or Options Exchange closing prior to its scheduled weekday closing time on such Exchange Business Day, without regard to after hours or any other trading outside of the regular trading session hours.

The Disrupted Day provisions in the Base Conditions and/or these Index Linked Note Conditions will not apply in relation to any Index or (in the case of a Basket of Indices, any Index comprising the Basket of Indices) in respect of which Futures Price Valuation applies, unless (other than in the case Single Final Payout - Leverage Factor Notes) there is a Non-Commencement or Discontinuance of an Exchange-traded Contract, in which case the Disrupted Day provisions will apply to the relevant Index or constituent Index.

For these purposes:

"Actual First Traded Price" means the price at which the relevant Exchange-traded Contract is first traded on the relevant Futures or Options Exchange or its clearing house after 5:29:59 p.m. (Central European Time) (or any other time or timezone specified in the Final Terms) as appearing first on the list of prices for such time published on the Relevant Futures or Options Exchange Website (as specified in the applicable Final Terms) or the Relevant FTP Screen Page (as specified in the applicable Final Terms), as applicable, or, if such Relevant Futures or Options Exchange Website or Relevant FTP Screen Page is not available, such replacement website or page as the Calculation Agent shall select or, subject to Index Linked Note Condition 5.4 (*Non-Commencement or Discontinuance of an Exchange-traded Contract*), if the Relevant Futures or Options Exchange Website or Relevant FTP Screen Page is not available and the Calculation Agent determines that no replacement website or page exists or no such price is published after such time, the price determined by the Calculation Agent acting in good faith and in a commercially reasonable manner by reference to such sources as it considers appropriate.

"Current Exchange-traded Contract" means (a) if the Notes are not Rolling Futures Contract Notes, the Exchange-traded Contract and (b) if the Notes are Rolling Futures Contract Notes, the futures contract determined pursuant to Index Linked Note Condition 5.2 (*Rolling Futures Contract Notes*) below.

"Exchange-traded Contract" means, in relation to an Index, the futures or options contract(s) specified as such for the Index in the applicable Final Terms, in each case, identified by reference to (a) the Index to which it relates, (b) the Futures or Options Exchange on which each such contract is traded and (c)(i) if the Notes are not Rolling Futures Contract Notes, the delivery or expiry month of such contract or (ii) if the Notes are Rolling Futures Contract Notes, the specified period of each such contract and the Futures Rollover Date.

"Futures or Options Exchange" means, in respect of an Index, the relevant exchange specified in the description of the Exchange-traded Contract for such Index in the applicable Final Terms.

"Futures Rollover Date" means either:

- (a) the date specified as such in the applicable Final Terms; or
- (b) the date selected by the Calculation Agent acting in good faith and a commercially reasonable manner within the period ("**Futures Rollover Period**") specified in the applicable Final Terms.

"Non-Commencement or Discontinuance of an Exchange-traded Contract" means there is no Official Settlement Price or, if First Traded Price Applicable is specified in the applicable Final Terms, the Actual First Traded Price, as applicable, as a result of the fact that trading in the Exchange-traded Contract never commences or is permanently discontinued at any time on or prior to Valuation Date, Observation Date, Averaging Date or other date for valuation or observation or other relevant date, as the case may be, of the relevant Index.

"Official Settlement Price" means the official settlement price (howsoever described under the rules of the relevant Futures or Options Exchange or its clearing house) of the relevant Exchange-traded Contract published by the relevant Futures or Options Exchange or its clearing house and as determined by the Calculation Agent.

"Protected Amount" means the amount, if any, specified as such in the applicable Final Terms;

7. **Rolling Futures Contract Notes**

If the applicable Final Terms specify that the Notes are "Rolling Futures Contract Notes", the Notes will be valued by reference to futures contracts relating to the Index that have delivery or expiry months that do not correspond with the term of the Notes. In such case, on or prior to the Issue Date, the Calculation Agent will select an Exchange-traded Contract and for each following day until the Futures Rollover Date such futures contract will be the Current Exchange-traded Contract. On each Futures Rollover Date the Calculation Agent will select another Exchange-traded Contract and such contract shall be the Current

ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INDEX LINKED NOTES

Exchange-traded Contract until the next occurring Futures Rollover Date. Notwithstanding the provisions of 9.3 (*Adjustments to an Exchange-traded Contract*) or 9.4 (*Non-Commencement or Discontinuance of an Exchange-traded Contract*) if on a Futures Rollover Date a Non-Commencement or Discontinuance of an Exchange-traded Contract occurs and it is impossible or materially impracticable for the Calculation Agent to select an Exchange-traded Contract and/or, unless Related Hedging is specified as not applicable in the applicable Final Terms, at such time hedge the Issuer's obligations in respect of the Notes then:

unless Delayed Redemption on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract, Highest Value, Market Value or Monetisation Option are specified as being applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note, being redeemed at an amount equal to the fair market value of such Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*);

if Delayed Redemption on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the occurrence of the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Maturity Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms); or

if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(a);

if Market Value is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes

and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(b); or

if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(c); or

if the Calculation Agent determines that such Non-Commencement or Discontinuance of an Exchange-traded Contract constitutes a *force majeure*, and if Index Linked Note Condition 9.2(vi) is specified in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder, which amount shall be equal to the fair market value of a Note taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early settle the Notes at their fair market value) and no such costs shall be deducted), such amount to be paid to the Noteholders on the date notified to the Noteholders in the notice of early redemption.

8. Adjustments to an Exchange-traded Contract

Without duplication of Index Linked Note Condition 3 (*Adjustments to an Index*) or Index Linked Note Condition 4 (*Correction of Index*) (which shall govern in the event of a conflict), in the event that the terms of an Exchange-traded Contract are changed or modified by the Futures or Options Exchange, the Calculation Agent shall make the appropriate adjustment, if any, to any of the Conditions and/or the applicable Final Terms to account for such change or modification.

9. Non-Commencement or Discontinuance of an Exchange-traded Contract

Where there is a Non-Commencement or Discontinuance of an Exchange-traded Contract, the Official Settlement Price or Actual First Traded Price, as applicable, for any Valuation Date, Observation Date, Averaging Date or any other relevant date for valuation or observation, as the case may be, of the relevant Index shall be deemed to be the level of the relevant Index at the close of the regular trading session on the relevant Exchange or, in the case of a Composite Index, the time at which the official closing level of the Index is calculated and published by the Index Sponsor, in each case on the Valuation Date, Observation Date, Averaging Date or other relevant date.

10. Correction of the Official Settlement Price or Actual First Traded Price

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Notes, if the Official Settlement Price or Actual First Traded Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant Futures or Options Exchange, (a) in respect of a Composite Index, no later than five Business Days following the

ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INDEX LINKED NOTES

date of the original publication, or (b) in respect of an Index which is not a Composite Index, within the number of days equal to the Index Correction Period of the original publication, the Official Settlement Price or Actual First Traded Price, as applicable, to be used shall be the Official Settlement Price or Actual First Traded Price, as applicable, as so corrected. Corrections published after the day which is three Business Days prior to a due date for payment under the Notes will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

- the relevant Exchange announces that pursuant to the rules of such Exchange, the relevant ETI Interests cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason and are not immediately re-listed, re-traded or re-quoted on (i) where the Exchange is located in the United States, any of the New York Stock Exchange, the American Stock Exchange or the NASDAQ National Market System (or their respective successors) or otherwise (ii) a comparable exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in a member state of the European Union).

All of the events listed in this ETI Linked Note Condition 4 (Extraordinary ETI Events) will constitute an Extraordinary ETI Event, unless SC/FM ETI Events is specified as applicable in the applicable Final Terms, in which case, the events described in ETI Linked Note Conditions 4.17, 4.18, 4.19(iv), 4.19(v), 4.20, 4.21, 4.22, 4.23, 4.24 and 4.27 will not constitute an Extraordinary ETI Event.

5. **Determination of Extraordinary ETI Events**

The Calculation Agent will determine if an Extraordinary ETI Event has occurred acting in good faith and in a commercially reasonable manner. Where the occurrence of an event or set of circumstances is capable of triggering more than one Extraordinary ETI Event or both an Extraordinary ETI Event and a Market Disruption Event, the Issuer may determine which Extraordinary ETI Event is to be triggered or whether such event or set of circumstances shall be an Extraordinary ETI Event or Market Disruption Event.

In considering whether the occurrence of an event or set of circumstances triggers an Extraordinary ETI Event, the Calculation Agent may have regard to the combined effect, from the Trade Date, of any event or set of circumstances, as the case may be, if such event or set of circumstances occurs more than once.

6. **Consequences of an Extraordinary ETI Event**

If the Calculation Agent determines that an Extraordinary ETI Event has occurred, the Calculation Agent shall give notice (an "**Extraordinary ETI Event Notice**") to the Noteholders in accordance with Base Condition 16 (*Notices*) (which notice shall be irrevocable), of the occurrence of such Extraordinary ETI Event (the date on which an Extraordinary ETI Event Notice is given, an "**Extraordinary ETI Event Notification Date**") as soon as reasonably practicable following the determination of an Extraordinary ETI Event. The Extraordinary ETI Event Notice shall set out, if determined at that time, the action that it has determined to take in respect of the Extraordinary ETI Event pursuant to ETI Linked Note Condition 6.2 below. Where the action that the Issuer has determined to take is not, for whatever reason, set out in the Extraordinary ETI Event Notice, the action that the Issuer has determined to take shall be set out in a subsequent notice given to Noteholders in accordance with Base Condition 16 (*Notices*) as soon as reasonably practicable after the Extraordinary ETI Event Notification Date.

Neither the Issuer nor the Calculation Agent shall be responsible for any loss, underperformance or opportunity cost suffered or incurred by any Noteholder or any other person in connection with the Notes

ANNEX 4 – ADDITIONAL TERMS AND CONDITIONS FOR ETI LINKED NOTES

as a result of any delay in notifying Noteholders of the occurrence on Extraordinary ETI Event, howsoever arising. If the Calculation Agent gives an Extraordinary ETI Event Notice, the Issuer shall have no obligation to make any payment or delivery in respect of the Notes until the Issuer has determined the action to take pursuant to ETI Linked Note Condition 6.2 below.

Following the occurrence of an Extraordinary ETI Event, the Issuer may take the action described below in (a), (b) or (c).

(a) **Adjustment**

If the Issuer determines that the action taken in respect of the Extraordinary ETI Event is to be "**Adjustment**", then it may:

require the Calculation Agent to determine, acting in good faith and in a commercially reasonable manner, the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to account for the relevant Extraordinary ETI Event and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the ETI Interests or to the Notes and a change in the Weighting of any remaining ETI Interest(s) not affected by an Extraordinary ETI Event. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant Extraordinary ETI Event made by any options exchange to options on the ETI Interests traded on that options exchange; or

following such adjustment to the settlement terms of options on the ETI Interests traded on such exchange(s) or quotation system(s) as the Issuer shall select (the "**Options Exchange**"), require the Calculation Agent to make a corresponding adjustment to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the ETI Interests are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary ETI Event, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded.

(b) **Substitution**

ANNEX 4 – ADDITIONAL TERMS AND CONDITIONS FOR ETI LINKED NOTES

If the Issuer determines that the action to be taken in respect of the Extraordinary ETI Event is to be "**Substitution**", the Calculation Agent shall on or after the relevant Extraordinary ETI Event Effective Date, substitute each ETI Interest (each, an "**Affected ETI Interest**") of each ETI (each, an "**Affected ETI**") which is affected by such Extraordinary ETI Event with an ETI Interest selected by it in accordance with the criteria for ETI Interest selection set out below (each, a "**Substitute ETI Interest**") and the Substitute ETI Interest will be deemed to be an "**ETI Interest**" and the relevant issuer of such Substitute ETI Interest, an "**ETI**" for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, provided that in the event that any amount payable under the Notes was to be determined by reference to the Initial Price of the Affected ETI Interest, the Initial Price of each Substitute ETI Interest will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

where:

"**A**" is the Settlement Price of the relevant Substitute ETI Interest on the relevant Exchange on the Substitution Valuation Date;

"**B**" is the Initial Price of the relevant Affected ETI Interest; and

"**C**" is the Settlement Price of the relevant Affected ETI Interest on the relevant Exchange on the Substitution Valuation Date.

"**Substitution Valuation Date**" is the date selected as such by the Calculation Agent acting in good faith and in a commercially reasonable manner and specified in the notice referred to below.

Such substitution and the relevant adjustment to the ETI Basket will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") acting in good faith and in a commercially reasonable manner and specified in the notice referred to below which may, but need not, be the relevant Extraordinary ETI Event Effective Date.

The Weighting of each Substitute ETI Interest will be equal to the Weighting of the relevant Affected ETI Interest.

In order to be selected as a Substitute ETI Interest, the relevant share/unit/interest must satisfy the following criteria, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner:

where the relevant Extraordinary ETI Event is a Merger Event or a Tender Offer (a) in the case of ETI Linked Notes related to a single ETI, and (b) in the case of ETI Linked Notes related to an ETI Basket, the relevant share/unit/interest shall be an ordinary share/unit/interest of the entity or person that in the case of a Merger Event is the continuing entity in respect of the Merger Event or in the case of a Tender Offer is the entity making the Tender Offer provided that (i) the relevant share/unit/interest is not already included in the ETI Basket and (ii) it is or as of the relevant Extraordinary ETI Event Effective Date is promptly scheduled to be, (x) publicly quoted, traded or listed on an exchange or quotation system located in the same country as the relevant Exchange (or, where the relevant Exchange is within the European Union, in any member state of the European Union) and (y) not subject to any currency exchange controls, trading restrictions or other trading limitations; or

(a) where the relevant Extraordinary ETI Event is a Merger Event or a Tender Offer and a share/unit/interest would otherwise satisfy the criteria set out in paragraph (i) above, but such share/unit/interest is (in the case of an ETI Linked Note related to an ETI Basket), already included in the ETI Basket, or (b) where the Extraordinary ETI Event is not a Merger Event or a Tender Offer, an alternative exchange traded instrument which, in the determination of the Calculation Agent, has similar characteristics to the relevant ETI, including but not limited to, a comparable listing (which, for the avoidance of doubt, shall not be restricted to a listing on the exchange or quotation system in the same geographic region), investment objectives, investment restrictions and investment processes, underlying asset pools and whose related parties (such as, but not limited to, trustee, general partner, sponsor, advisor, manager, operating company, custodian, prime broker and depository) are acceptable to the Calculation Agent;

(c) **Termination**

If the Issuer determines that the action to be taken in respect of the Extraordinary ETI Event is to be "**Termination**", on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), (which such notice may be included in the Extraordinary ETI Event Notice in respect of the relevant Extraordinary ETI Event and will specify the Termination Date), all but not some only of the outstanding ETI Linked Notes shall be redeemed by payment of the Termination Amount on the Termination Date. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*).

(d) **General**

In determining to take a particular action as a result of an Extraordinary ETI Event, the Issuer is under no duty to consider the interests of Noteholders or any other person. In making any determination as to which action to take following the occurrence of an Extraordinary ETI Event, neither the Issuer nor the Calculation Agent shall be responsible for any loss (including any liability in respect of loss of interest), underperformance or opportunity cost suffered or incurred by Noteholders or any other person in connection with the Notes as a result thereof, howsoever arising including as a result of any delay in making any payment or delivery in respect of the Notes.

7. Correction of ETI Interest Price

With the exception of any corrections published after the day which is three Exchange Business Days prior to the due date for any payment or delivery under the Notes, if the price of the relevant ETI Interest published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant price source within the number of days equal to the ETI Interest Correction Period of the original publication, the price to be used shall be the price of the relevant ETI Interest as so corrected. Corrections published after the day which is three Exchange Business Days prior to a due date for payment or delivery under the Notes will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

8. Calculations and Determinations

To the extent permitted by any applicable law, the Calculation Agent and/or the Issuer, as applicable, will make the calculations and determinations as described in the ETI Linked Note Conditions in such a manner as the Calculation Agent and/or the Issuer, as the case may be, determines to be appropriate, acting in good faith and in a commercially reasonable manner, having regard in each case to the criteria stipulated in the ETI Linked Note Conditions, the hedging arrangements in respect of the Notes and the nature of the relevant ETI and related ETI Interests.

Notwithstanding the foregoing, the Calculation Agent will adjust any relevant terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes.

"Illiquidity" means, in respect of ETI Linked Notes relating to a Basket of ETI Interests, that, in the determination of the Calculation Agent, during any period of five consecutive Scheduled Trading Days, notwithstanding the occurrence of a Disrupted Day, falling after the Issue Date (the **"Relevant Period"**), (a) the difference between the bid prices and the ask prices in respect of an ETI Interest during the Relevant Period is greater than 1 per cent. (based on an arithmetic mean average over the Relevant Period), and/or (b) the arithmetic mean average purchase price or the arithmetic mean average selling price, determined by the Calculation Agent from the order book of the relevant ETI Interest on the relevant Exchange during the Relevant Period, in relation to the purchase or sale of ETI Interests with a value equal to or greater than EUR 10,000.00, is greater than MID plus 1 per cent. (in relation to a purchase of ETI Interests) or lower than the MID minus 1 per cent. (in relation to a sale of ETI Interests). For these purposes, **"MID"** means an amount equal to (i) the sum of the bid price and the ask price, in each case for the relevant ETI Interest at the relevant time, (ii) divided by two.

"Insolvency" means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting the ETI (a) all the ETI Interests of such ETI are required to be transferred to a trustee, liquidator or other similar official or (b) holders of the ETI Interests of such ETI become legally prohibited from transferring such ETI Interests.

"Listing Change" means, in respect of any relevant ETI Interests, that such ETI Interests cease (or will cease) to be listed, traded or publicly quoted on the listing compartment or the relevant market of the Exchange on which such ETI Interests were listed, traded or publicly quoted on the Issue Date of the relevant Notes, for any reason (other than a Merger Event or Tender Offer).

"Listing Suspension" means, in respect of any relevant ETI Interests, that the listing of such ETI Interests on the Exchange has been suspended.

"Merger Event" means, in respect of any relevant ETI Interests, any:

- reclassification or change of such ETI Interests that results in a transfer of or an irrevocable commitment to transfer all of such ETI Interests outstanding to another entity or person,
- consolidation, amalgamation, merger or binding share exchange of the ETI, as the case may be, with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such ETI is the continuing entity and which does not result in a reclassification or change of all of such ETI Interests outstanding),
- takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding ETI Interests of such ETI that results in a transfer of or an irrevocable commitment to transfer all such ETI Interests (other than such ETI Interests owned or controlled by such other entity or person), or
- consolidation, amalgamation, merger or binding share exchange of the ETI or its subsidiaries with or into another entity in which such ETI is the continuing entity and which does not result in a reclassification or change of all such ETI Interests outstanding but results in the outstanding ETI Interests (other than ETI Interests owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding ETI Interests immediately following such event,

in each case if the relevant Extraordinary Event Effective Date is on or before (i) in the case of Cash Settled Notes, the last occurring Valuation Date or where Averaging is specified in the applicable Final Terms, the final Averaging Date in respect of the relevant Note or (ii) in the case of Physical Delivery Notes, the Maturity Date.

"Nationalisation" means that all the ETI Interests or all or substantially all the assets of the ETI are nationalised, expropriated or are otherwise transferred to any governmental agency, authority, entity or instrumentality thereof.

"Tender Offer" means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 50 per cent. and less than 100 per cent. of the outstanding voting shares of the ETI, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

13.1 **Consequences of an Extraordinary Event**

If an Extraordinary Event occurs in relation to an ETI Interest, the Issuer may take any of the relevant actions described in (a), (c) or (d) (in the case of Notes relating to either a single ETI Interest or a Basket of ETI Interests), or (b) or (e) below (in the case of Notes relating to a Basket of ETI Interests) as it deems appropriate:

require the Calculation Agent to determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the

Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Conditions and/or the applicable Final Terms to account for the relevant Extraordinary Event and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the ETI Interests or to the Notes. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant Extraordinary Event made by any options exchange to options on the ETI Interests traded on that options exchange. In addition, in relation to a Basket of ETI Interests, the Calculation Agent may adjust the Basket of ETI Interests in accordance with the provisions of subparagraph (e) below;

in the case of ETI Linked Notes relating to a Basket of ETI Interests, redeem in part by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed in part the portion (the "**Redeemed Amount**") of each Note, representing the affected ETI Interest(s) shall be redeemed and the Issuer will:

if Highest Value is specified as applicable in the applicable Final Terms, pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(a);

if Market Value is specified as applicable in the applicable Final Terms, pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(b); or

if the Calculation Agent determines that such Extraordinary Event constitutes a force majeure, and if ETI Linked Note Condition 12.2(b)(iii) is specified in the applicable Final Terms, the Issuer will pay to each Noteholder an amount in respect of each Note held by such Noteholder, which amount shall be equal to the fair market value of a Note, taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early redeem in part the Notes at their fair market value) and no such costs shall be deducted), such amount to be paid to the Noteholders on the date notified to the Noteholders in the notice of partial redemption; or

otherwise, pay to each Noteholder in respect of each Note held by him an amount equal to the fair market value of the Redeemed Amount taking into account the relevant Extraordinary Event, less, unless if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner; and

require the Calculation Agent to determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Conditions and/or the applicable Final Terms to account for such redemption in part.

ANNEX 4 – ADDITIONAL TERMS AND CONDITIONS FOR ETI LINKED NOTES

For the avoidance of doubt the remaining part of each Note after such redemption and adjustment shall remain outstanding with full force and effect. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*);

- (a) (i) unless Delayed Redemption on Occurrence of an Extraordinary Event, Highest Value, Market Value or Monetisation Option are specified as being applicable in the applicable Final Terms, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes at the amount equal to the fair market value of such Note taking into account the relevant Extraordinary Event, less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*); or
- (ii) if Delayed Redemption on Occurrence of an Extraordinary Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of such Note, taking into account the relevant Extraordinary Event, less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Extraordinary Event Amount**") as soon as practicable following the occurrence of the relevant Extraordinary Event (the "**Calculated Extraordinary Event Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Extraordinary Event Amount plus interest accrued from and including the Calculated Extraordinary Event Amount Determination Date to but excluding the Maturity Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms); or
- (iii) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(a); or
- (iv) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in

ANNEX 4 – ADDITIONAL TERMS AND CONDITIONS FOR ETI LINKED NOTES

respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(b); or

- (v) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(c); or
 - (vi) if the Calculation Agent determines that such Extraordinary Event constitutes a force majeure, and if ETI Linked Note Condition 12.2(c)(vi) is specified in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder, which amount shall be equal to the fair market value of a Note, taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early redeem the Notes at their fair market value) and no such costs shall be deducted), such amount to be paid to the Noteholders on the date notified to the Noteholders in the notice of early redemption.
- (b) following such adjustment to the settlement terms of options on the ETI Interests traded on such exchange(s) or quotation system(s) as the Issuer shall select (the "**Options Exchange**"), require the Calculation Agent to make a corresponding adjustment to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of Conditions and/or the applicable Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the ETI Interests are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary Event, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or
- (c) on or after the relevant Extraordinary Event Effective Date, the Calculation Agent may adjust the Basket of ETI Interests to include an ETI Interest selected by it in accordance with the criteria for ETI Interest selection set out below (each, a "**Substitute ETI Interest**") for each ETI Interest (each, an "**Affected ETI Interest**") of each ETI (each, an "**Affected ETI**") which is affected by such Extraordinary Event and the Substitute ETI Interest will be deemed to be an "ETI Interest" and the relevant issuer of such Substitute ETI Interest, an "ETI" for the purposes of the Notes,

ANNEX 4 – ADDITIONAL TERMS AND CONDITIONS FOR ETI LINKED NOTES

and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in each case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of these Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, provided that in the event that any amount payable under the Notes was to be determined by reference to the Initial Price of the Affected ETI Interest, the Initial Price of each Substitute ETI Interest will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

where:

"A" is the official closing price of the relevant Substitute ETI Interest on the relevant Exchange on the Substitution Date;

"B" is the Initial Price of the relevant Affected ETI Interest; and

"C" is the official closing price of the relevant Affected ETI Interest on the relevant Exchange on the Substitution Date.

Such substitution and the relevant adjustment to the Basket of ETI Interests will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") acting in good faith and in a commercially reasonable manner and specified in the notice referred to below which may, but need not, be the relevant Extraordinary Event Effective Date.

The Weighting of each Substitute ETI Interest will be equal to the Weighting of the relevant Affected ETI Interest.

In order to be selected as a Substitute ETI Interest, the relevant share/unit/interest must satisfy the following criteria, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner:

- (i) where the relevant Extraordinary Event is a Merger Event or a Tender Offer, the relevant share/unit/interest shall be an ordinary share/unit/interest of the entity or person (other than the Affected ETI Interest) that in the case of a Merger Event is the continuing entity in respect of the Merger Event or in the case of a Tender Offer is the entity making the Tender Offer provided that (a) the relevant share/unit/interest is not already included in the Basket of ETI Interests and (b) it is or as of the relevant Extraordinary Event Effective Date is promptly scheduled to be, (x) publicly quoted, traded or listed on an exchange or quotation system located in the same country as the relevant Exchange (or, where the relevant Exchange is within the European Union, in any member state of the European Union) and (y) not subject to any currency exchange controls, trading restrictions or other trading limitations; or

- (ii) where the relevant Extraordinary Event is a Merger Event or a Tender Offer and a share/unit/interest would otherwise satisfy the criteria set out in paragraph (i) above, but such share/unit/interest is already included in the Basket of ETI Interests, or (b) where the Extraordinary Event is not a Merger Event or a Tender Offer, an alternative exchange traded instrument which, in the determination of the Calculation Agent, has similar characteristics to the relevant ETI, including but not limited to, a comparable listing (which, for the avoidance of doubt, shall not be restricted to a listing on the exchange or quotation system in the same geographic region), investment objectives, investment restrictions and investment processes, underlying asset pools and whose related parties (such as, but not limited to, trustee, general partner, sponsor, advisor, manager, operating company, custodian, prime broker and depository) are acceptable to the Calculation Agent.

If the Calculation Agent determines that more than one Extraordinary Event occurs in respect of ETI, which are not connected and have different consequences pursuant to this ETI Linked Note Condition 12.2, the Calculation Agent will determine which such Extraordinary Event and related consequences shall apply acting in good faith and in a commercially reasonable manner.

Upon the occurrence of an Extraordinary Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer thereof as soon as practicable, and the Issuer shall give notice as soon as practicable to the Noteholders in accordance with Base Condition 16 (*Notices*) stating the occurrence of the Extraordinary Event, giving details thereof and the action proposed to be taken in relation thereto.

14. Correction of ETI Interest Price (ETI Shares)

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Notes, if the price of the relevant ETI Interest published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant Exchange within the number of days equal to the ETI Interest Correction Period of the original publication, the price to be used shall be the price of the relevant ETI Interest as so corrected. Corrections published after the day which is three Business Days prior to a due date for payment under the Notes will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

15. Calculations and Determinations (ETI Shares)

To the extent permitted by any applicable law, the Calculation Agent and/or the Issuer, as applicable, will make the calculations and determinations as described in the ETI Linked Note Conditions in such a manner as the Calculation Agent and/or the Issuer, as the case may be, determines to be appropriate acting in good faith and in a commercially reasonable manner having regard in each case to the criteria stipulated in the ETI Linked Note Conditions, the hedging arrangements in respect of the Notes and the nature of the relevant ETI and related ETI Interests.

ANNEX 5

ADDITIONAL TERMS AND CONDITIONS FOR DEBT LINKED NOTES

If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Notes specified in the applicable Final Terms as Debt Linked Notes shall comprise the terms and conditions of Notes (the "**Base Conditions**") and the additional Terms and Conditions for Debt Linked Notes set out below (the "**Debt Linked Note Conditions**"), in each case together with any other additional terms and conditions specified in the applicable Final Terms and subject to completion in the applicable Final Terms. In the event of any inconsistency between (i) the Base Conditions and (ii) the Debt Linked Note Conditions, the Debt Linked Note Conditions shall prevail.

1. Settlement Price

"**Settlement Price**" means, unless otherwise stated in the applicable Final Terms, in relation to each Cash Settled Note and subject as referred to in "Averaging Date" or "Valuation Date":

- (a) in the case of Debt Linked Notes relating to a basket of Debt Instruments, an amount equal to the sum of the values calculated for each Debt Instrument as (x) the Reference Price for such Debt Instrument appearing on the Relevant Screen Page at the Valuation Time as determined by or on behalf of the Calculation Agent on (a) if Averaging is not specified in the applicable Final Terms, the Valuation Date or (b) if Averaging is specified in the applicable Final Terms, an Averaging Date, or if such price is not available, the arithmetic mean of the Reference Prices for such Debt Instrument at the Valuation Time on such Averaging Date or the Valuation Date, as the case may be, as received by it from two or more market-makers (as selected by the Calculation Agent) in such Debt Instrument, such prices to be expressed as a percentage of the nominal amount of such Debt Instrument (y) multiplied by the product of the nominal amount of such Debt Instrument and the relevant Weighting; and
- (b) in the case of Debt Linked Notes relating to a single Debt Instrument, an amount equal to (x) the Reference Price for such Debt Instrument appearing on the Relevant Screen Page at the Valuation Time as determined by or on behalf of the Calculation Agent on (a) if Averaging is not specified in the applicable Final Terms, the Valuation Date or (b) if Averaging is specified in the applicable Final Terms, an Averaging Date, or if such price is not available, the arithmetic mean of the Reference Prices for such Debt Instrument at the Valuation Time on such Averaging Date or the Valuation Date, as the case may be, as received by it from two or more market-makers (as selected by the Calculation Agent) in such Debt Instrument, such prices to be expressed as a percentage of the nominal amount of the Debt Instrument (y) multiplied by the nominal amount of such Debt Instrument.

2. Exchange Business Day

"**Exchange Business Day**" means a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the Exchange Business Day Centre(s) specified in the applicable Final Terms.

3. Market Disruption

"**Market Disruption Event**" shall mean, in respect of a Debt Instrument, the suspension of or limitation imposed on trading either on any exchange on which such Debt Instrument is traded or on any exchange on which options contracts or futures contracts with respect to such Debt Instrument are traded if, in the determination of the Calculation Agent, such suspension or limitation is material.

The Issuer shall give notice as soon as practicable to the Noteholders in accordance with Base Condition 16 (*Notices*) that a Market Disruption Event has occurred.

4. Correction of Debt Instrument Price

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Notes, if the price of the relevant Debt Instrument published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes, is subsequently corrected and the correction published by the relevant exchange within the number of days equal to the Debt Instrument Correction Period of the original publication, the price to be used shall be the price of the relevant Debt Instrument as so corrected. Corrections published after the day which is three Exchange Business Days prior to a due date for payment under the Notes will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

5. Redemption or Cancellation of a Debt Instrument

Notwithstanding Base Condition 13 (*Additional Disruption Events And Optional Additional Disruption Events*), if on or prior to the last Averaging Date or the last Valuation Date, any Debt Instrument is redeemed (including any early redemption) or cancelled by the relevant Debt Instrument Issuer (a "**Debt Instrument Redemption Event**"), then:

unless Delayed Redemption on Occurrence of Debt Instrument Redemption Event is specified as being applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note, being redeemed at an amount equal to the fair market value of such Note taking into account the Debt Instrument Redemption Event, less, except in case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*); or

if Delayed Redemption on Occurrence of Debt Instrument Redemption Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Debt Instrument Redemption Event less, except in case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the

Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Index Adjustment Amount**") as soon as practicable following the occurrence of the Debt Instrument Redemption Event (the "**Calculated Index Adjustment Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Index Adjustment Amount plus interest accrued from and including the Calculated Index Adjustment Amount Determination Date to but excluding the Maturity Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, at the Protected Amount (specified in the applicable Final Terms).

The Calculation Agent shall, as soon as practicable, notify the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), of any determination made by it pursuant to this Debt Linked Note Condition 5 and the action proposed to be taken in relation thereto and the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), shall make available for inspection by Noteholders copies of any such determinations.

6. **Futures Price Valuation**

If "Futures Price Valuation" is specified as applicable in the applicable Final Terms the following provisions shall apply to these Debt Linked Note Conditions:

"**Settlement Price**" means an amount equal to the Daily Settlement Price of the relevant Current Exchange-traded Contract as determined by the Calculation Agent on (i) if Averaging is not specified in the applicable Final Terms, the Valuation Date or (ii) if Averaging is specified in the applicable Final Terms, an Averaging Date.

For the purposes of determining whether a day is a Scheduled Trading Day where Futures Price Valuation applies, "Scheduled Trading Day" will be deemed to mean a day on which the Daily Settlement Price of the relevant Current Exchange-traded Contract is scheduled to be published by the relevant Futures or Options Exchange.

If Futures Price Valuation applies the Disrupted Day provisions in the Base Conditions and/or these Debt Linked Note Conditions will not apply in relation to any Current Exchange-traded Contract.

For these purposes:

"**Current Exchange-traded Contract**" means (a) if the Notes are not Rolling Futures Contract Notes, the Exchange-traded Contract and (b) if the Notes are Rolling Futures Contract Notes, the futures contract determined pursuant to Debt Linked Note Condition 7 (*Rolling Futures Contract Notes*) below.

"**Daily Settlement Price**" means the daily settlement price (howsoever described under the rules of the relevant Futures or Options Exchange or its clearing house) of the relevant Exchange-traded Contract

published by the relevant Futures or Options Exchange or its clearing house and as determined by the Calculation Agent.

"Exchange-traded Contract" means the futures or options contract(s) specified as such in the applicable Final Terms, in each case, identified by reference to (a) the Synthetic Debt Instrument to which it relates, (b) the Futures or Options Exchange on which each such contract is traded and (c)(i) if the Notes are not Rolling Futures Contract Notes, the delivery or expiry month of such contract or (ii) if the Notes are Rolling Futures Contract Notes, the specified period of each such contract and the Futures Rollover Date.

"Futures or Options Exchange" means the relevant exchange specified in the description of the Exchange-traded Contract in the applicable Final Terms or any successor to such exchange.

"Futures Rollover Date" means either:

- (a) the date specified as such in the applicable Final Terms; or
- (b) the date selected by the Calculation Agent acting in good faith and in a commercially reasonable manner within the period ("**Futures Rollover Period**") specified in the applicable Final Terms.

"Non-Commencement or Discontinuance of an Exchange-traded Contract" means there is no Daily Settlement Price as a result of the fact that trading in the Exchange-traded Contract never commences or is permanently discontinued at any time on or prior to the Valuation Date, Averaging Date or other date for valuation or observation or other relevant date, as the case may be, of the relevant Current Exchange-traded Contract.

"Synthetic Debt Instrument" means the synthetic debt instrument to which an Exchange-traded Contract relates, as described in the applicable Final Terms.

Debt Linked Note Condition 3 (*Market Disruption*), Debt Linked Note Condition 4 (*Correction of Debt Instrument Price*) and Debt Linked Note Condition 5 (*Redemption or Cancellation of a Debt Instrument*) will not apply if Futures Price Valuation applies.

If Futures Price Valuation applies, references in the Base Conditions, Formulas Conditions to a "Debt Instrument" or "Debt Instruments" are deemed to be references to a Current Exchange-traded Contract or "Current Exchange-traded Contracts", as applicable.

7. **Rolling Futures Contract Notes**

If the applicable Final Terms specify that the Notes are "Rolling Futures Contract Notes", the Notes will be valued by reference to futures contracts relating to the Synthetic Debt Instrument that have delivery or expiry months that do not correspond with the term of the Notes. In such case, on or prior to the Issue Date, the Calculation Agent will select an Exchange-traded Contract and for each following day until the Futures Rollover Date such futures contract will be the Current Exchange-traded Contract. On each Futures Rollover Date the Calculation Agent will select another Exchange-traded Contract and such

contract shall be the Current Exchange-traded Contract until the next occurring Futures Rollover Date. Notwithstanding the provisions of Debt Linked Note Condition 8 (*Adjustments to an Exchange-traded Contract*) or Debt Linked Note Condition 9 (*Non-Commencement or Discontinuance of an Exchange-traded Contract*) if on a Futures Rollover Date a Non-Commencement or Discontinuance of an Exchange-traded Contract occurs and it is impossible or materially impracticable for the Calculation Agent to select an Exchange-traded Contract and/or at such time hedge the Issuer's obligations in respect of the Notes then:

- (a) unless Delayed Redemption on Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note, being redeemed equal to the fair market value of such Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*); or
- (b) if Delayed Redemption on Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the occurrence of the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Redemption Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Maturity Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms).

8. Adjustments to an Exchange-traded Contract

In the event that the terms of an Exchange-traded Contract are changed or modified by the Futures or Options Exchange, the Calculation Agent shall make the appropriate adjustment, if any, to any of the Conditions and/or the applicable Final Terms to account for such change or modification.

9. Non-Commencement or Discontinuance of an Exchange-traded Contract

Where there is a Non-Commencement or Discontinuance of an Exchange-traded Contract, the Issuer may take the action described in (a) below or require the Calculation Agent to take the action described in (b) below:

- (a)
- (i) unless Delayed Redemption on Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note, being redeemed equal to the fair market value of such Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, except in case of Italian Listed Notes Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*); or
- (ii) if Delayed Redemption on Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, except in case of Italian Listed Notes Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "Calculated Contract Adjustment Amount") as soon as practicable following the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "Calculated Contract Adjustment Amount Determination Date") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Maturity Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, at the Protected Amount (as specified in the applicable Final Terms); or
- (b) (i) replace the relevant Exchange-traded Contract affected by the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "Affected Exchange-traded Contract") with a substitute Exchange-traded Contract (the "Substitute Exchange-traded Contract"), as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, has similar contract specifications to those of the Affected Exchange-traded Contract and (ii) make such adjustments to adjust such terms of the Notes as it determines acting in good faith and in a commercially reasonable manner to be appropriate to preserve the economic

position of the Noteholders prior to such replacement. Such replacement will be deemed to be effective as of the date selected by the Calculation Agent, acting in good faith and in a commercially reasonable manner, and specified in the notice referred to below. The Substitute Exchange-traded Contract will be deemed to be an "Exchange-traded Contract" for the purposes of the Notes.

Such substitution will be notified to the Noteholders as soon as practicable after the Substitution Date in accordance with Base Condition 16 (*Notices*); or

- (c)
- (i) unless Highest Value, Market Value or Monetisation Option are specified in the applicable Final Terms, the Issuer shall redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of such Note less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*);

and no such costs shall be deducted), such amount to be paid to the Noteholders on the date notified to the Noteholders in the notice of early redemption.

- (d) in the case of a Commodity that is an EU Allowance, the Calculation Agent may determine, acting in good faith and in a commercially reasonable manner, the appropriate adjustment(s), if any, to be made to the EU Allowance, the Commodity Reference Price and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to take account of the Market Disruption Event and determine the effective date of such adjustment.

4. Adjustments to a Commodity Index

4.1 Successor Index Sponsor Calculates and Reports a Commodity Index

If a relevant Commodity Index is (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent, or (b) replaced by a successor commodity index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then in each case that commodity index (the "**Successor Commodity Index**") will be deemed to be the Commodity Index.

4.2 Modification and Cessation of Calculation of a Commodity Index

If (a) on or prior to the last Averaging Date, the last Observation Date, the Final Interest Pricing Date or the Final Pricing Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Commodity Index or in any other way materially modifies that Commodity Index (other than a modification prescribed in that formula or method to maintain the Commodity Index in the event of changes in constituent contracts or commodities and other routine events) (a "**Commodity Index Modification**"), or permanently cancels a relevant Commodity Index and no Successor Commodity Index exists (a "**Commodity Index Cancellation**"), or (b) on any Averaging Date, Observation Date, Interest Pricing Date or other Pricing Date, the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Commodity Index (a "**Commodity Index Disruption**" and, together with a Commodity Index Modification and a Commodity Index Cancellation, each a "**Commodity Index Adjustment Event**"), then:

- (i) the Calculation Agent shall determine if such Commodity Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the Relevant Price using, in lieu of a published level for that Commodity Index, the Commodity Fallback Value; or
- (ii) (A) unless Highest Value, Market Value or Monetisation Option are specified as applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed, the Issuer will pay an amount to each Noteholder in respect of each Note, being redeemed at an amount equal to the fair market value of a Note taking into account

ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR COMMODITY LINKED NOTES

the Commodity Index Adjustment Event, less, except in the case of Italian Listed Notes Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*);

- (B) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Note Condition 11(a);
- (C) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Note Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(b); or
- (D) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(c); or
- (E) if the Calculation Agent determines that such Commodity Index Adjustment Event constitutes a *force majeure*, and if Commodity Linked Note Condition 4(b)(v) is specified in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder, which amount shall be equal to the fair market value of a Note taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early redeem the Notes at their fair market value) and no such costs shall be deducted), such amount to be paid to the Noteholders on the date notified to the Noteholders in the notice of early redemption.

Notwithstanding the foregoing, the Calculation Agent will adjust any relevant terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes.

5. Correction of Commodity Reference Price

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Notes, if the Commodity Reference Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction published by the relevant Exchange or any other person responsible for the publication or announcement of the Commodity Reference Price within 30 calendar days of the original publication, the price to be used shall be the price of the relevant Commodity as so corrected. Corrections published after the day which is three Business Days prior to a due date for payment under the Notes will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

6. **Rolling Futures Contract Notes**

If the applicable Final Terms specify that the Notes are "Rolling Futures Contract Notes", the Commodity Reference Price in respect of the Notes will be valued by reference to rolling futures contracts each of which have delivery months that do not correspond with the term of the Notes. In such case, on or prior to the Issue Date, the Calculation Agent will select the relevant Futures Contract and for each following day until the Futures Rollover Date such futures contract will be the Futures Contract for the purposes of the Commodity Reference Price. On each Futures Rollover Date, the Calculation Agent will select another Futures Contract and such contract shall be the Futures Contract for the purposes of the Commodity Reference Price until the next occurring Futures Rollover Date. If on a Futures Rollover Date a Market Disruption Event or a Commodity Index Adjustment Event occurs and it is impossible or materially impracticable for the Calculation Agent to select a Futures Contract and/or at such time hedge the Issuer's obligations in respect of the Notes then the provisions of Commodity Linked Note Condition 3 (*Consequence of a Market Disruption Event and Disruption Fallbacks*) and Commodity Linked Note Condition 4 (*Adjustments to a Commodity Index*), as applicable, shall apply to the Notes.

7. **EU Emissions Allowances**

If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged);

"Related Bond" means the bond specified as such in the relevant Final Terms. If the Related Bond specified in the applicable Final Terms is "Fallback Bond", then for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. - (a) if Related Bond is specified as applicable in the relevant Final Terms, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the corresponding index level determined under the terms and conditions of the Related Bond; or
- (b) if (i) Related Bond is specified as not applicable in the relevant Final Terms, or (ii) the Calculation Agent is not able to determine a Substitute Inflation Index Level under (a) above, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

If the Relevant Level is published or announced at any time on or after the relevant Cut-Off Date specified in the applicable Final Terms, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Inflation Linked Note Condition 2 will be the definitive level for that Reference Month.

3. **Successor Inflation Index**

If the Calculation Agent determines that the level of an Inflation Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index and/or the Index Sponsor cancels the Inflation Index, then the Calculation Agent shall determine a successor index (a "**Successor Inflation Index**") (in lieu of any previously applicable Index) for the purposes of the Notes as follows:

- (a) if Related Bond is specified as applicable in the relevant Final Terms, the Calculation Agent shall determine a "Successor Inflation Index" by reference to the corresponding successor index determined under the terms and conditions of the Related Bond;
- (b) if (i) Related Bond is specified as not applicable in the applicable Final Terms or (ii) a Related Bond Redemption Event has occurred and Fallback Bond is specified as not applicable in the applicable Final Terms, the Index Sponsor announces that it will no longer publish or announce the Inflation Index but that it will be superseded by a replacement Inflation Index specified by the Index Sponsor, and the Calculation Agent determines that such replacement Inflation Index is calculated using the same or a substantially similar formula or method of calculation as used in the calculation of the Inflation Index, such replacement index shall be designated a "Successor Inflation Index";
- (c) if no Successor Inflation Index has been deemed under (a) or (b) the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be; if between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index"; if three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index"; if fewer than three responses are received by the Cut-Off Date or if each of the responses received state different indices the Calculation Agent will determine an appropriate alternative index, and such index will be deemed a "Successor Inflation Index"; or
- (d) if the Calculation Agent determines that there is no appropriate alternative index there will be deemed to be no Successor Index and an Index Cancellation will be deemed to have occurred.

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Inflation Index shall be deemed to replace the Index for the purposes of the Inflation Linked Notes. Notice of the determination of a Successor Inflation Index, the effective date of the Successor Inflation Index or the occurrence of an Index Cancellation will be given to Noteholders of the Inflation Linked Notes by the Issuer in accordance with Base Condition 16 (*Notices*).

4. Adjustments

4.1 Successor Inflation Index

If a Successor Inflation Index is determined in accordance with Inflation Linked Note Condition 3 (*Successor Inflation Index*) above, the Calculation Agent may make any adjustment or adjustments (without limitation) to the Final Redemption Amount payable under the Notes (if any) and/or any other relevant term of the Notes as the Calculation Agent deems necessary acting in good faith and in a commercially reasonable manner. The Issuer shall give notice to the Noteholders of any such adjustment in accordance with Base Condition 16 (*Notices*).

If the Calculation Agent determines a Substitute Inflation Index Level in accordance with Inflation Linked Note Condition 2 (*Delay in Publication*) above, the Calculation Agent may make any adjustment or adjustments (without limitation) to (a) the Substitute Inflation Index Level determined in accordance with Inflation Linked Note Condition 2 (*Delay in Publication*) above and/or (b) the Interest Amount and/or Final Redemption Amount payable under the Notes (if any) and/or any other relevant term of the Notes, in each case, as the Calculation Agent deems necessary acting in good faith and in a commercially reasonable manner, provided that if Inflation Index Level Adjustment is specified as applicable in the applicable Final Terms, the Calculation Agent will only be permitted to make any such adjustment in accordance with this Inflation Linked Note Condition 4.2 if the Calculation Agent determines that the delay in publication was not attributable to the Issuer, but substantially, alters the economics of the Notes compared to the economics as of the Issue Date. The Issuer shall give notice to the Noteholders of any such adjustment in accordance with Base Condition 16 (*Notices*).

4.3 Index Level Adjustment Correction

- (a) The first publication or announcement of the Relevant Level (disregarding estimates) by the Index Sponsor for any Reference Month shall be final and conclusive and, subject to Inflation Linked Note Condition 4.6 (*Index Modification*) below, later revisions to the level for such Reference Month will not be used in any calculations, save that in respect of the EUR-All Items-Revised Consumer Price Index, the ESP National-Revised Consumer Price Index (CPI) and the ESP-Harmonised-Revised Consumer Price Index HCPI, revisions to the Relevant Level which are published or announced up to and including the day that is two Business Days prior to any relevant Valuation Date will be valid and the revised Relevant Level for the relevant Reference Month will be deemed to be the final and conclusive Relevant Level for such Reference Month. The Issuer shall give notice to the Noteholders of any valid revision in accordance with Base Condition 16 (*Notices*).
- (b) If, within 30 days of publication or at any time prior to a Valuation Date in respect of which a Relevant Level will be used in any calculation or determination in respect of such Valuation Date, the Calculation Agent determines that the Index Sponsor has corrected the Relevant Level to correct a manifest error, the Calculation Agent may make any adjustment to any relevant Interest Amount and/or the Final

ANNEX 7 – ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

Redemption Amount payable under the Notes (if any) and/or any other relevant term of the Notes as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction. The Issuer shall give notice to the Noteholders of any such adjustment and/or amount in accordance with Base Condition 16 (*Notices*).

- (c) If a Relevant Level is published or announced at any time after the Cut-Off Date in respect of a Valuation Date in respect of which a Substitute Inflation Index Level was determined, the Calculation Agent may either (i) determine that such Relevant Level shall not be used in any calculation or determination under the Inflation Linked Notes and that the Substitute Inflation Index Level shall be deemed to be the definitive Relevant Level for the relevant Reference Month, or (ii) to make any adjustment to any relevant Interest Amount and/or the Final Redemption Amount payable under the Notes (if any) and/or any other relevant term of the Notes as it deems appropriate as a result of the announcement or publication of the Relevant Level and/or determine the amount (if any) that is payable as a result of such publication or announcement. The Issuer shall give notice to the Noteholders of any determination in respect of (i) or (ii), together with any adjustment or amount in respect thereof, in accordance with Base Condition 16 (*Notices*).
- (d) Notwithstanding the foregoing, if Inflation Index Level Adjustment is specified as applicable in the applicable Final Terms, the Calculation Agent will only be permitted to make any such adjustment in accordance with this Inflation Linked Note Condition 4.3 if the Calculation Agent determines that the delay in publication was not attributable to the Issuer, but substantially, alters the economics of the Notes compared to the economics as of the Issue Date

4.4 **Currency**

If the Calculation Agent determines that any event occurs affecting the Specified Currency or Settlement Currency, as applicable, (whether relating to its convertibility into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer), the Calculation Agent may make such adjustment or adjustments to the Final Redemption Amount and/or any Interest Amount and/or any other relevant term of the Notes as the Calculation Agent deems necessary acting in good faith and in a commercially reasonable manner, provided that if Currency Adjustment is specified as applicable in the applicable Final Terms, the Calculation Agent will only be permitted to make any such adjustment if the Calculation Agent determines that the event affecting the Specified Currency or the Settlement Currency was not attributable to the Issuer, but substantially alters the economics of the Notes compared to the economics as of the Issue Date. The Issuer shall give notice to the Noteholders of any such adjustment in accordance with Base Condition 16 (*Notices*).

4.5 **Rebasing**

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the Relevant

Level from the date of such rebasing; provided, however, that the Calculation Agent may make (a) if Related Bond is specified as applicable in the relevant Final Terms, any adjustments as are made pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as before the rebasing, and/or (b) if Related Bond is specified as not applicable in the relevant Final Terms or a Related Bond Redemption Event has occurred, the Calculation Agent may make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased, and in each case the Calculation Agent may make any adjustment(s) to any relevant Interest Amount and/or the Final Redemption Amount payable under the Notes (if any) and/or any other term of the Notes as the Calculation Agent may deem necessary acting in good faith and in a commercially reasonable manner. If the Calculation Agent determines that neither (a) nor (b) above would produce a commercially reasonable result, the Issuer may redeem each Note on a date notified by the Issuer to Noteholders in accordance with Base Condition 16 (*Notices*), in which event the Issuer will pay to each Noteholder in respect of each such Note, an amount equal to the fair market value of a Note, as determined by the Calculation Agent as at the date of redemption taking into account the rebasing, less, unless or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer of unwinding or amending any related underlying hedging arrangements. Notice of any adjustment, redemption of the Notes or determination pursuant to this paragraph shall be given to Noteholders in accordance with Base Condition 16 (*Notices*).

- (b) If the Calculation Agent determines that an Index Modification has occurred at any time after the Cut-Off Date in respect of any Valuation Date, the Calculation Agent may determine either to ignore such Index Modification for the purposes of any calculation or determination made by the Calculation Agent with respect to such Valuation Date, in which case the relevant Index Modification will be deemed to have occurred with respect to the immediately succeeding Interest Payment Date and/or Maturity Date, as the case may be, such that the provisions of paragraph (a) above will apply, or, notwithstanding that the Index

Modification has occurred following the Cut-Off Date, to make any adjustments as the Calculation Agent deems fit in accordance with paragraph (a) above.

4.7 **Index Cancellation**

If the Calculation Agent determines that an Index Cancellation has occurred, the Issuer may: elect for the Calculation Agent to calculate the relevant Interest Amount and/or relevant level using, in lieu of a published level for that Inflation Index, the level for that Inflation Index, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Inflation Index last in effect prior to cancellation;

- (i) unless Highest Value, Market Value or Monetisation Option are specified as applicable in the applicable Final Terms, redeem all but not some only of the Notes on the date notified by the Issuer to Noteholders in accordance with Base Condition 16 (*Notices*) in which event the Issuer will pay to each Noteholder in respect of such Note held by him an amount equal to fair market value of a Note as determined by the Calculation Agent as at the date of redemption taking into account the Index Cancellation, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer of unwinding or amending any related underlying hedging arrangements, payment being made in such manner as shall be notified to Noteholders in accordance with Base Condition 16 (*Notices*);
- (ii) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(a);

3. **Consequences of a Disruption Event**

ANNEX 8 – ADDITIONAL TERMS AND CONDITIONS FOR CURRENCY LINKED NOTES

Upon a Disruption Event occurring or continuing on any Settlement Price Date (or, if different, the day on which prices for that date would, in the ordinary course, be published by the Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply the applicable Disruption Fallback in determining the consequences of the Disruption Event.

The Calculation Agent shall take the relevant actions specified in either (a), (b) or (c) below.

- (a) if a Settlement Price Date is a Disrupted Day, the Calculation Agent will determine that the relevant Settlement Price Date, as the case may be, shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day (in the case of any Settlement Price Date) or Valid Date (in the case of an Averaging Date or Strike Day) unless each of the number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the originally scheduled Settlement Price Date is a Disrupted Day in which case the Calculation Agent may determine that the last such consecutive Scheduled Trading Day shall be deemed to be the Settlement Price Date (irrespective of whether that last consecutive Scheduled Trading Day is already a Settlement Price Date) and may determine the Settlement Price by using commercially reasonable efforts to determine a level for the Alternative Currency as of the Valuation Time on the last such consecutive Scheduled Trading Day taking into consideration all available information that in good faith it deems relevant; or
- (b) (i) if any Settlement Price Date is a Disrupted Day but is not the Redemption Valuation Date, and unless any of Delayed Redemption on Occurrence of a Disruption Event Highest Value, Market Value or Monetisation Option are specified as applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). - (ii) if any Settlement Price Date is a Disrupted Day but is not the Redemption Valuation Date, and if Delayed Redemption on Occurrence of a Disruption Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note, taking into account the Disruption Event, less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its affiliates of unwinding any underlying related hedging arrangements

(the "**Calculated Currency Disruption Amount**") as soon as practicable following the occurrence of the Disruption Event (the "**Calculated Currency Disruption Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Currency Disruption Amount plus interest accrued from and including the Calculated Currency Disruption Amount Determination Date to but excluding the Maturity Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount (specified in the applicable Final Terms);

- (iii) if any Settlement Price Date is a Disrupted Day but is not the Redemption Valuation Date, and if Highest Value is specified in the applicable Final Terms, the Issuer will, on giving notice to Holders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Holder an amount in respect of each Note held by such Holder calculated and paid on such date determined, in accordance with Base Condition 11(a);
 - (iv) if any Settlement Price Date is a Disrupted Day but is not the Redemption Valuation Date, and if Market Value is specified in the applicable Final Terms, the Issuer will, on giving notice to Holders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Holder an amount in respect of each Note held by such Holder calculated and paid on such date determined, in accordance with Base Condition 11(b); or
 - (v) if any Settlement Price Date is a Disrupted Day but is not the Redemption Valuation Date, and if Monetisation Option is specified in the applicable Final Terms, the Issuer will, on giving notice to Holders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Holder an amount in respect of each Note held by such Holder calculated and paid on such date determined, in accordance with Base Condition 11(c); or
 - (vi) if any Settlement Price Date is a Disrupted Day but is not the Redemption Valuation Date, and if the Calculation Agent determines that such Disruption Event constitutes a force majeure, and if Currency Linked Note Condition 3(b)(vi) is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Holders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Holder an amount in respect of each Note held by such Holder, which amount shall be equal to the fair market value of a Note, taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early redeem the Notes at their fair market value) and no such costs shall be deducted), such amount to be paid to the Holders on the date notified to the Holders in the notice of early redemption;
- (c) unless Disruption Event Postponement is specified as not applicable in the applicable Final Terms, notwithstanding any provisions in the Conditions to the contrary, postpone any payment date related

to such Settlement Price Date (or, if different, the day on which prices for that date would, in the ordinary course, be provided or announced by the Price Source), as the case may be (including the Maturity Date) until the Business Day following the date on which a Disruption Event is no longer subsisting and no interest or other amount shall be paid by the Issuer in respect of such postponement.

4. Settlement Price

"**Settlement Price**" means, in respect of an Alternative Currency and a Settlement Price Date, and subject to Currency Linked Note Condition 3 (*Consequences of a Disruption Event*) above, an amount equal to the spot rate of exchange appearing on the Relevant Screen Page at the Valuation Time on such Settlement Price Date, for the exchange of such Alternative Currency into the Base Currency (expressed as the number of units (or part units) of the Alternative Currency for which one unit of the Base Currency can be exchanged) or, if such rate is not available, the arithmetic mean (rounded, if necessary, to four decimal places (with 0.00005 being rounded upwards)) as determined by or on behalf of the Calculation Agent of the bid and offer Alternative Currency/Base Currency exchange rates (expressed as aforesaid) at the Valuation Time on the relevant Settlement Price Date, of two or more leading dealers (as selected by the Calculation Agent) on a foreign exchange market (as selected by the Calculation Agent), Provided That if the relevant rate of exchange is derived from two or more rates of exchange, the Settlement Price shall be calculated by the Calculation Agent as provided above acting in good faith and in a commercially reasonable manner on the basis of each such rate of exchange.

5. Futures Price Valuation

If "Futures Price Valuation" is specified as applicable in the applicable Final Terms, the following provisions shall apply to these Currency Linked Note Conditions:

"**Settlement Price**" means in relation to each Note an amount equal to the Daily Settlement Price for the relevant Current Exchange-traded Contract, as determined by the Calculation Agent on (i) if Averaging is not specified in the applicable Final Terms, the Valuation Date (as defined in Currency Linked Note Condition 1) or (ii) if Averaging is specified in the applicable Final Terms, an Averaging Date (as defined in Currency Linked Note Condition 1). If, in the determination of the Calculation Agent, no such price can be determined, other than as a consequence of the occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract, an amount determined by the Calculation Agent acting in good faith and in a commercially reasonable manner as the Daily Settlement Price on such date, having regard to the then prevailing market conditions, the last reported Daily Settlement Price and such other factors as the Calculation Agent determines relevant.

For the purpose of determining whether a day is a Scheduled Trading Day where Futures Price Valuation applies, "Scheduled Trading Day" will be deemed to mean a day on which the Daily Settlement Price of the relevant Current Exchange-traded Contract is scheduled to be published by the relevant Futures or Options Exchange.

ANNEX 8 – ADDITIONAL TERMS AND CONDITIONS FOR CURRENCY LINKED NOTES

If Futures Price Valuation applies, the Disrupted Day provisions in the Base Conditions and/or these Currency Linked Note Conditions will not apply in relation to any Current Exchange-traded Contract.

For these purposes:

"Current Exchange-traded Contract" means (a) if the Notes are not Rolling Futures Contract Notes, the Exchange-traded Contract and (b) if the Notes are Rolling Futures Contract Notes, the futures contract determined pursuant to Currency Linked Note Condition 6 (*Rolling Futures Contract Notes*) below.

"Daily Settlement Price" means the daily settlement price (howsoever described under the rules of the relevant Futures or Options Exchange or its clearing house) of the relevant Exchange-traded Contract published by the relevant Futures or Options Exchange or its clearing house, as determined by the Calculation Agent.

"Daily Settlement Price Correction Period" means the period specified as such in the applicable Final Terms or, if none, one Settlement Cycle.

"Exchange-traded Contract" means the futures or options contract(s) specified as such in the applicable Final Terms, in each case, identified by reference to (a) the Alternative Currency and Base Currency (the **"Currency Pair"**) to which it relates, (b) the ISIN or any other unique identifier of such contract, (c) the Futures or Options Exchange on which each such contract is traded and (d) (i) if the Notes are not Rolling Futures Contract Notes, the expiry month of such contract or (ii) if the Notes are Rolling Futures Contract Notes, the specified period of each such contract and the Futures Rollover Date.

"Exchange Business Day" means any day on which the relevant Futures or Options Exchange is open for trading during its respective regular trading session(s).

"Futures or Options Exchange" means the relevant exchange specified in the description of the Exchange-traded Contract in the applicable Final Terms or any successor to such exchange.

"Futures Rollover Date" means either:

- (b) the date selected by the Calculation Agent acting in good faith and in a commercially reasonable manner within the period (the **"Futures Rollover Period"**) specified in the applicable Final Terms.

"Non-Commencement or Discontinuance of an Exchange-traded Contract" means there is no Daily Settlement Price as a result of the fact that trading in the Exchange-traded Contract never commences or is permanently discontinued at any time on or prior to the Valuation Date, Averaging Date or other date for valuation or observation or other relevant date, as the case may be, of the relevant Current Exchange-traded Contract.

"Protected Amount" means the amount specified as such in the applicable Final Terms.

"**Settlement Cycle**" means, in respect of an Exchange-traded Contract, the period of Exchange Business Days following a trade in such Exchange-traded Contract on the relevant Futures or Options Exchange in which settlement will customarily occur according to the rules of such Futures or Options Exchange.

If Futures Price Valuation applies, references to "Alternative Currency" in the definition of "Underlying Reference" in the Base Conditions, Formulas Conditions (except for the definition of "Underlying Reference" for the purposes of the Fixed Income Payouts and Fixed Income Interest Rates) is deemed to be a reference to a "Current Exchange-traded Contract".

6. **Rolling Futures Contract Notes**

If the applicable Final Terms specify that the Notes are "Rolling Futures Contract Notes", the Notes will be valued by reference to futures contracts relating to the Currency Pair that have expiry months that do not correspond with the term of the Notes. In such case, on or prior to the Issue Date, the Calculation Agent will select an Exchange-traded Contract and for each following day until the Futures Rollover Date such futures contract will be the Current Exchange-traded Contract. On each Futures Rollover Date the Calculation Agent will select another Exchange-trade Contract and such contract will be the Current Exchange-traded Contract until the next occurring Futures Rollover Date. Notwithstanding the provisions of Currency Linked Note Condition 7 (*Adjustments to an Exchange-traded Contract*) or Currency Linked Note Condition 8 (*Non-Commencement or Discontinuance of an Exchange-traded Contract*) if on a Futures Rollover Date a Non-Commencement or Discontinuance of an Exchange-traded Contract occurs and it is impossible or materially impracticable for the Calculation Agent to select an Exchange-traded Contract and/or at such time hedge the Issuer's obligations in respect of the Notes then:

- (a) unless Delayed Redemption on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note, being redeemed equal to the fair market value of such Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*); or
- (b) if Delayed Redemption on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying

related hedging arrangements (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the occurrence of the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Redemption Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Redemption Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount.

7. Adjustments to an Exchange-traded Contract

In the event that the terms of an Exchange-traded Contract are changed or modified by the Futures or Options Exchange, the Calculation Agent will make the appropriate adjustment, if any, to any of the Conditions and/or the applicable Final Terms to account for such change or modification.

8. Non-Commencement or Discontinuance of an Exchange-traded Contract

Where there is a Non-Commencement or Discontinuance of an Exchange-traded Contract, the Issuer may take the action described in (a) below or require the Calculation Agent to take the action described in (b) below:

- (i) unless Delayed Redemption on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note, being redeemed equal to the fair market value of such Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*); or
- (ii) if Delayed Redemption on Occurrence of a Non-Commencement or Discontinuance of an Exchange-traded Contract is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Non-Commencement or Discontinuance of an Exchange-traded Contract less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Redemption Date shall redeem each Note at an

amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Redemption Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount; or

(i) replace the relevant Exchange-traded Contract affected by the Non-Commencement or Discontinuance of an Exchange-traded Contract (the "**Affected Exchange-traded Contract**") with a substitute Exchange-traded Contract (the "**Substitute Exchange-traded Contract**") which, in the determination of the Calculation Agent acting in good faith and in a commercially reasonable manner, has similar contract specifications to those of the Affected Exchange-traded Contract and (ii) make such adjustments to adjust the terms of the Notes as it determines acting in good faith and in a commercially reasonable manner to be appropriate to preserve the economic position of the Noteholders prior to such replacement. Such replacement will be deemed to be effective as of the date selected by the Calculation Agent, acting in good faith and in a commercially reasonable manner, and specified in the notice referred to below. The Substitute Exchange-traded Contract will be deemed to be an "**Exchange-traded Contract**" for the purposes of the Notes.

Notwithstanding the foregoing, in the case of Italian Listed Notes the Calculation Agent will adjust any relevant terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes.

The Calculation Agent shall, as soon as practicable, notify the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), of any determination made by it pursuant to this Currency Linked Note Condition 8 and the action proposed to be taken in relation thereto and the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), shall make available for inspection by Noteholders copies of any such determinations.

9. Correction of the Daily Settlement Price

With the exception of any corrections published after the day which is three Business Days prior to the due date for any payment under the Notes, if the Daily Settlement Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant Futures or Options Exchange, within the number of days equal to the Daily Settlement Price Correction Period of the original publication, the Daily Settlement Price to be used shall be the Daily Settlement Price as so corrected. Corrections published after the day which is three Business Days prior to a due date for payment under the Notes will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

All of the events listed in this Fund Linked Note Condition 2 (*Extraordinary Fund Events*) will constitute an Extraordinary Fund Event, unless SC/FM Fund Events is specified as applicable in the applicable Final Terms, in which case the events described in Fund Linked Note Conditions 2.13, 2.17, 2.26, 2.27 (iv), 2.27 (v), 2.28, 2.29, 2.30, 2.31, 2.32 and 2.34(iii) will not constitute an Extraordinary Fund Event.

3. Determination of Extraordinary Fund Events

The Calculation Agent will determine if an Extraordinary Fund Event has occurred acting in good faith and in a commercially reasonable manner. Where the occurrence of an event or set of circumstances is capable of triggering more than one Extraordinary Fund Event, the Issuer may determine which Extraordinary Fund Event is to be triggered.

In considering whether the occurrence of an event or set of circumstances triggers an Extraordinary Fund Event, the Calculation Agent may have regard to the combined effect, from the Trade Date, of any event or set of circumstances, as the case may be, if such event or set of circumstances occurs more than once.

4. Consequences of an Extraordinary Fund Event

- 4.1 If the Calculation Agent determines that an Extraordinary Fund Event has occurred, the Calculation Agent shall give notice (an "**Extraordinary Fund Event Notice**") to the Noteholders in accordance with Base Condition 16 (*Notices*) (which notice shall be irrevocable), of the occurrence of such Extraordinary Fund Event (the date on which an Extraordinary Fund Event Notice is given, an "**Extraordinary Fund Event Notification Date**") as soon as reasonably practicable following the determination of an Extraordinary Fund Event. The Extraordinary Fund Event Notice shall set out, if determined at that time, the action that the Issuer has determined to take in respect of the Extraordinary Fund Event pursuant to Fund Linked Note Condition 4.2 (in the case of a Fund that is not a Fund Index Component) or Fund Linked Note Condition 4.3 (in the case of a Fund that is a Fund Index Component) below. Where the action that the Issuer has determined to take is not, for whatever reason, set out in the Extraordinary Fund Event Notice, the action that the Issuer has determined to take shall be set out in a subsequent notice given to Noteholders in accordance with Base Condition 16 (*Notices*) as soon as reasonably practicable after the Extraordinary Fund Event Notification Date.

Neither the Issuer nor the Calculation Agent shall be responsible for any loss, underperformance or opportunity cost suffered or incurred by any Noteholder or any other person in connection with the Notes as a result of any delay in notifying Noteholders of the occurrence of an Extraordinary Fund Event, howsoever arising. If the Calculation Agent gives an Extraordinary Fund Event Notice, the Issuer shall have no obligation to make any payment or delivery in respect of the Notes until the Issuer has determined

the action that it has determined to take pursuant to Fund Linked Note Condition 4.2 or Fund Linked Note Condition 4.3, as the case may be.

4.2 In the case of a Fund that is not a Fund Index Component, following the occurrence of an Extraordinary Fund Event, the Issuer may take the action described below in 4.2(a), (b) or (c) provided that, if the Calculation Agent determines that an Extraordinary Fund Event has occurred or is continuing on the Delayed Payment Cut-off Date in accordance with the provisions of Fund Linked Note Condition 5 (*Redemption Date/Automatic Early Redemption Date/ Termination Date Extension*) below, the Issuer shall determine that the action to be taken in respect of the Extraordinary Fund Event is "**Termination**".

(a) Adjustment

If the Issuer determines that the action to be taken in respect of the Extraordinary Fund Event is to be "**Adjustment**", then the Calculation Agent may determine, acting in good faith and in a commercially reasonable manner, the appropriate adjustment(s), if any, to be made to any one or more Fund, Fund Share and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to take account of the Extraordinary Fund Event and determine the effective date of such adjustment.

(b) Substitution

If the Issuer determines that the action in respect of the Extraordinary Fund Event is to be "**Substitution**", the Calculation Agent shall:

- (i) determine the weighted average price at which a Hypothetical Investor can redeem the Fund Shares in the relevant Fund (the "**Affected Fund**") in such number as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner as soon as it is reasonably practicable following the Extraordinary Fund Event;
- (ii) for a period of not longer than 14 calendar days following the date on which a Hypothetical Investor would have received proceeds from a redemption order in full submitted by the Hedge Provider as soon as practicable following the occurrence of an Extraordinary Fund Event, use reasonable efforts to substitute the Fund Shares with shares, units or other similar interests in an alternative fund which, in the determination of the Calculation Agent, acting in good faith and in a commercially reasonable manner, has similar characteristics to the Affected Fund, including but not limited to, comparable investment objectives, investment restrictions and investment processes and has service providers acceptable to the Calculation Agent;
- (iii) if no alternative fund can be determined pursuant to the preceding sub-paragraph (ii) above, use reasonable efforts to substitute the Fund with an index (or a fund tracking such index) selected by the Calculation Agent acting in good faith and in a commercially reasonable manner; and
- (iv) following any substitution in accordance with sub-paragraph (ii) or (iii) above, the Issuer may require the Calculation Agent make such determinations and/or adjustments to these Terms and

ANNEX 9 – ADDITIONAL TERMS AND CONDITIONS FOR FUND LINKED NOTES

Conditions and/or the Final Terms as it determines to be appropriate to take account of such Substitution.

(c) Termination

If the Issuer determines that the action to be taken in respect of the Extraordinary Fund Event is to be "**Termination**", on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*) (which such notice may be included in the Extraordinary Fund Event Notice in respect of the relevant Extraordinary Fund Event and will specify the Termination Date), all but not some only of the outstanding Notes shall be redeemed by payment of the Termination Amount on the Termination Date, payment being made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*).

4.3 In the case of a Fund that is a Fund Index Component, following the occurrence of an Extraordinary Fund Event, the Issuer may take the action described below in 4.3(a), (b) or (c):

- (a) if the Extraordinary Fund Event occurs or is subsisting on a Settlement Price Date, require the Calculation Agent to determine the relevant index level and the Settlement Price for such date using the NAV per Fund Share for each Fund Index Component comprising the relevant Fund Index in accordance with (A) and (B) below in accordance with the formula for and method of calculating the index level on the date on which the Extraordinary Fund Event occurs;
- (A) with respect to each Fund Index Component which is not affected by an Extraordinary Fund Event, the index level will be calculated using the NAV per Fund Share of such Fund Index Component on the relevant Settlement Price Date; and
- (B) with respect to each Fund Index Component which is affected by an Extraordinary Fund Event (each an "**Affected Fund Index Component**"), the index level will be calculated using the NAV per Fund Share of such Fund Index Component on the first Fund Business Day following the relevant Settlement Price Date on which no Extraordinary Fund Event occurs or is subsisting with respect to the Affected Fund Index Component, unless an Extraordinary Fund Event in respect of the Affected Fund Index Component is occurring for the number of consecutive Fund Business Days equal to the Maximum Days of Disruption immediately following the relevant Settlement Price Date. In that case the last such consecutive Fund Business Day shall be deemed to be the Settlement Price Date for the Affected Fund Index Component, notwithstanding the Extraordinary Fund Event and the Calculation Agent will determine the price of the Affected Fund Index Component based upon the price at which a Hypothetical Investor can sell or otherwise realise any hedge positions in respect of an Affected Fund Index Component during the period of five Fund Business Days following such Settlement Price Date;
- (b) require the Calculation Agent to use reasonable efforts to substitute the Fund Index that includes the Affected Fund Index Component (the "**Affected Fund Index**") with an alternative fund index

which, in the determination of the Calculation Agent (acting in good faith and in a commercially reasonable manner) measures the same (or a substantially similar) market or economic reality as the Affected Fund Index, including, but not limited to, the method of calculation; or

- (c) on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*) (which such notice may be included in the Extraordinary Fund Event Notice in respect of the relevant Extraordinary Fund Event), redeem all but not some only of the outstanding Notes by payment of the Termination Amount on the date determined as set out in the definition of Termination Amount, payment being made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*).

4.4 General

In determining to take a particular action as a result of an Extraordinary Fund Event, the Issuer is under no duty to consider the interests of Noteholders or any other person. In making any determination as to which action to take following the occurrence of an Extraordinary Fund Event, neither the Issuer nor the Calculation Agent shall be responsible for any loss (including any liability in respect of loss of interest), underperformance or opportunity cost suffered or incurred by Noteholders or any other person in connection with the Notes as a result thereof, howsoever arising including as a result of any delay in making any payment or delivery in respect of the Notes.

5. **Interest Payment Date/Maturity Date/Automatic Early Redemption Date/Termination Date Extension**

In the case of Cash Settled Notes, if on the date falling two Business Days prior to the originally designated Maturity Date or Automatic Early Redemption Date the Hedge Provider has not, after having placed one or more redemption orders in respect of its holding of Fund Shares in accordance with the terms of the relevant Fund Documents, received redemption proceeds in full in respect of such Fund Shares (the "**Redemption Proceeds**"), the Calculation Agent may postpone the Maturity Date or Automatic Early Redemption Date and notify the Noteholders thereof in accordance with Base Condition 16 (*Notices*).

As soon as practicable following receipt by the Hedge Provider of the Redemption Proceeds the Calculation Agent shall give notice to Noteholders in accordance with Base Condition 16 (*Notices*) (such notice the "**Delayed Payment Notice**") and redeem the Notes on the date falling not more than five Business Days following the receipt of the Delayed Payment Notice (such date, the "**Postponed Redemption Date**") by payment to each Noteholder of the Final Redemption Amount, the Automatic Early Redemption Amount, as the case may be, provided that, if the Hedge Provider does not receive the Redemption Proceeds within the period ending on (and including) the Delayed Payment Cut-off Date, the Calculation Agent shall determine that an Extraordinary Fund Event has occurred and is continuing on the Delayed Payment Cut-off Date and shall notify Noteholders thereof in accordance with the

procedures set out in Fund Linked Note Condition 4 above, and in accordance with Base Condition 16 (*Notices*) and the provisions of Fund Linked Note Condition 4.2(c) shall apply.

In the case of interest bearing Notes, if on the date falling two Business Days prior to an Interest Payment Date, as applicable, the Hedge Provider has not, after having placed one or more redemption orders in respect of its holding of Fund Shares in accordance with the terms of the relevant Fund Documents, received redemption proceeds in full in respect of such Fund Shares (the "**Redemption Proceeds**"), the Calculation Agent may notify the Noteholders in accordance with Base Condition 16 (*Notices*) that such Interest Payment Date has been postponed. As soon as practicable following receipt by the Hedge Provider of the Redemption Proceeds the Calculation Agent shall give notice to Noteholders in accordance with Base Condition 16 (*Notices*) (such notice the "**Delayed Payment Notice**") and the Issuer shall pay the Interest Amount in respect of the Interest Period ending on or immediately preceding the Interest Payment Date on the date falling not more than five Business Days following the receipt of the Delayed Payment Notice (such date, the "**Postponed Payment Date**") and no additional amount shall be payable in respect of such delay, provided that, if the Hedge Provider does not receive the Redemption Proceeds within the period ending on (and including) the Delayed Payment Cut-off Date, the Calculation Agent shall determine that an Extraordinary Fund Event has occurred and is continuing on the Delayed Payment Cut-off Date and shall notify Noteholders thereof in accordance with the procedures set out in Fund Linked Note Condition 4 above (*Consequences of an Extraordinary Fund Event*), and in accordance with Base Condition 16 (*Notices*) and the provisions of Fund Linked Note Condition 4.2(c) shall apply.

6. Fund Index Adjustment Event

If (a) on or prior to any Settlement Price Date, the relevant Fund Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Fund Index or in any other way materially modifies that Fund Index (other than a modification prescribed in that formula or method to maintain the Fund Index in the event of changes in the Fund Index Components and other routine events) (a "**Fund Index Modification**"), or permanently cancels a relevant Fund Index and no successor Fund Index exists (a "**Fund Index Cancellation**"), or (b) on any Settlement Price Date, the Fund Index Sponsor or (if applicable) the successor Fund Index Sponsor fails to calculate and announce a relevant Fund Index (a "**Fund Index Disruption**" and, together with a Fund Index Modification and a Fund Index Cancellation, each a "**Fund Index Adjustment Event**"), then:

- (a) the Calculation Agent shall determine if such Fund Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant value, level or price using, in lieu of a published level for that Fund Index, the level for that Fund Index as at the Valuation Time on such Settlement Price Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Fund Index last in effect prior to the change, failure or cancellation, but using only those Fund Index Components that comprised that Fund Index immediately prior to that Fund Index Adjustment Event; or
- (b) the Calculation Agent may use commercially reasonable efforts to select a successor fund index which in its opinion, acting in good faith and in a commercially reasonable manner measures the same (or a substantially similar) market or economic reality as the original Fund Index and, upon selection of such

- fund index, the Calculation Agent shall promptly notify the Noteholders in accordance with Base Condition 16 (*Notices*) and such fund index will be deemed to be the "Fund Index" for the purpose of the Notes and the Calculation Agent will make such adjustment, if any, to one or more of the terms of the Notes as it (acting in good faith and in a commercially reasonable manner) determines appropriate; or
- (c) the Calculation Agent may determine acting in good faith and in a commercially reasonable manner such other appropriate adjustments, if any, to be made to the terms of the Notes to account for the Fund Index Adjustment Event and determine the effective date of those adjustments; or
- (A) unless Highest Value, Market Value, Monetisation Option or Delayed Redemption on Fund Index Adjustment Event are specified as being applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note being redeemed equal to the fair market value of such Note taking into account the Fund Index Adjustment Event, less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment will be made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*); or
- (B) if Delayed Redemption on Fund Index Adjustment Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Fund Index Adjustment Event less, except in the case of Italian Listed Notes or if Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Fund Index Adjustment Amount**") as soon as practicable following the occurrence of the Fund Index Adjustment Event (the "**Calculated Fund Index Adjustment Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Fund Index Adjustment Amount plus interest accrued from and including the Calculated Fund Index Adjustment Amount Determination Date to but excluding the Maturity Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount; or
- (C) if Highest Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*) redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(a); or
- (D) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some

ANNEX 9 – ADDITIONAL TERMS AND CONDITIONS FOR FUND LINKED NOTES

only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(b); or

- (E) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*) redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(c); or
- (F) if the Calculation Agent determines that such Fund Index Adjustment Event constitutes a force majeure, and if Fund Linked Note Condition 6(iv)(F) is specified in the applicable Final Terms, the Issuer will on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*) redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder, which amount shall be equal to the fair market value of a Note, taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early redeem the Notes at their fair market value) and no such costs shall be deducted), such amount to be paid to the Noteholders on the date notified to the Noteholders in the notice of early redemption; or
- (G) in the case of a Fund Index Modification which occurs on the last Valuation Date, last Averaging Date or last Observation Date only, the Calculation Agent may elect to calculate the level of the Fund Index, using in lieu of the published level for the Fund Index as of the Valuation Date, Averaging Date or Observation Date, as the case may be, the level of the Fund Index as of that date determined by the Calculation Agent in accordance with the formula for and method of calculating the Fund Index last in effect prior to the Fund Index Modification but using only those Fund Index Components that comprised the Fund Index prior to the Fund Index Modification.

If an Extraordinary Euro Fund Event occurs in relation to a Euro Fund, the Issuer may take any of the relevant action(s) described in (a), (b) or (c) below as it deems appropriate:

- (i) require the Calculation Agent to determine acting in good faith and in a commercially reasonable manner the appropriate adjustment, if any, to be made to any of the terms of these Terms and Conditions and/or the applicable Final Terms to account for the relevant Extraordinary Euro Fund Event and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to account for changes to the Gross Rate of Return, the Provisional Minimum Rate or to the Notes;

ANNEX 9 – ADDITIONAL TERMS AND CONDITIONS FOR FUND LINKED NOTES

- (ii) unless Delayed Redemption on Extraordinary Euro Fund Event is specified as being applicable in the applicable Final Terms, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Notes being redeemed equal to the fair market value of such Note taking into account the Extraordinary Euro Fund Event, less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Noteholders in accordance with Base Condition 16 (*Notices*); or
- (iii) if Delayed Redemption on Extraordinary Euro Fund Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note taking into account the Extraordinary Euro Fund Event less, unless Unwind Costs are specified as not applicable in the applicable Final Terms, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Extraordinary Euro Fund Event Amount**") as soon as practicable following the occurrence of the Extraordinary Euro Fund Event (the "**Calculated Extraordinary Euro Fund Event Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Extraordinary Euro Fund Event Amount plus interest accrued from and including the Calculated Extraordinary Euro Fund Event Amount Determination Date to but excluding the Maturity Date at a rate equal to the Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Protected Amount; or
- (iv) on or after the relevant Extraordinary Euro Fund Effective Date, the Calculation Agent may substitute the Euro Fund affected by an Extraordinary Euro Fund Event (the "Affected Euro Fund") with an alternative insurance or investment policy or capitalisation contract backed by euro-denominated assets in accordance with the criteria set out below (the "**Substitute Euro Fund**") and the Substitute Euro Fund will be deemed to be the Euro Fund and the relevant insurance company offering the insurance or investment policy or capitalisation contract, the Insurance Company, for the purposes of the Notes. The Calculation Agent will make such adjustment, if any, to any of the terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate.

Such substitution and the relevant adjustment (if any) will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") acting in good faith and in a commercially reasonable manner and specified in the notice referred to below which may, but need not be, the relevant Extraordinary Euro Fund Event Effective Date.

ANNEX 9 – ADDITIONAL TERMS AND CONDITIONS FOR FUND LINKED NOTES

In order to be selected as a Substitute Euro Fund, the relevant insurance or investment policy or capitalisation contract must be an insurance or investment policy or capitalisation contract backed by euro-denominated assets which, in the determination of the Calculation Agent, has similar characteristics to the Affected Euro Fund, including but not limited to, a comparable gross rate of return, a comparable provisional minimum rate of return, offered by an insurance company with a comparable portfolio of general assets and offered on similar contractual terms acceptable to the Calculation Agent. For the avoidance of doubt, the Substitute Euro Fund may, but need not, be offered by the same Insurance Company as the Affected Euro Fund.

If the Calculation Agent determines that more than one Extraordinary Euro Fund Event has occurred in respect of a Euro Fund, which are not connected and have different consequences pursuant to this Fund Linked Note Condition 10, the Calculation Agent will determine which such Extraordinary Euro Fund Event and related consequences shall apply acting in good faith and in a commercially reasonable manner.

Upon the occurrence of an Extraordinary Euro Fund Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer thereof as soon as practicable, and the Issuer shall give notice as soon as practicable to the Noteholders in accordance with Base Condition 16 (*Notices*) stating the occurrence of the Extraordinary Euro Fund Event, giving details thereof and the action proposed to be taken in relation thereto.

- (v) if Market Value is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(b); or
- (vi) if Monetisation Option is specified as applicable in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder calculated and paid on such date determined, in accordance with Base Condition 11(c); or
- (vii) if the Calculation Agent determines that such Futures Adjustment Event constitutes a force majeure, and if Futures Linked Note Condition 3.1(b)(vi) is specified in the applicable Final Terms, the Issuer will, on giving notice to Noteholders in accordance with Base Condition 16 (*Notices*), redeem all but not some only of the Notes and pay to each Noteholder an amount in respect of each Note held by such Noteholder, which amount shall be equal to the fair market value of a Note taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early redeem the Notes at their fair market value) and no such costs shall be deducted), such amount to be paid to the Noteholders on the date notified to the Noteholders in the notice of early redemption.

6. Correction of Futures Price

ANNEX 10 – ADDITIONAL TERMS AND CONDITIONS FOR FUTURES LINKED NOTES

With the exception of any corrections published after the day which is three Exchange Business Days prior to the due date for any payment under the Notes, if the price of the relevant Future(s) published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes, is subsequently corrected and the correction published by the relevant Exchange within the number of days equal to the Futures Correction Period of the original publication, the price to be used shall be the price of the relevant Future(s) as so corrected. 3. Screen Rate determination for Underlying Reference Rates other than SONIA, SOFR, €STR, SARON and CMS

Subject to the provisions of Interest Rate Linked Note Condition 9 below, if Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will be determined by the Calculation Agent as follows:

- (A) if the Underlying Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Underlying Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Underlying Interest Determination Date;
- (B) in any other case, the Calculation Agent will determine the arithmetic mean of the Underlying Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Underlying Interest Determination Date;
- (C) if, in the case of (A) above, such rate does not appear on that page or, in the case of (B) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will determine the Underlying Reference Rate as the rate it determines would have prevailed but for such non-availability or other event acting in good faith and using its reasonable judgment.

4. Screen Rate determination for Underlying Reference Rate being CMS

Subject to the provisions of Interest Rate Linked Note Condition 9 below, where Screen Rate Determination is specified in the applicable Final Terms as the manner in which a Underlying Interest Rate is to be determined, and CMS is specified as the Underlying Reference Rate in the applicable Final

ANNEX 11 – ADDITIONAL TERMS AND CONDITIONS FOR INTEREST RATE LINKED NOTES

Terms such Underlying Interest Rate, will subject as provided below, be the CMS Rate multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Underlying Margin (if any), all as determined by the Calculation Agent and provided that the Underlying Reference Rate may not be less than zero.

If the Relevant Screen Page is not available, the Issuer shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately the Relevant Time on the Underlying Interest Determination Date in question. If at least three of the CMS Reference Banks provide the Calculation Agent with such quotation, the CMS Rate for such Underlying Interest Determination Date shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

If on any Underlying Interest Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

For the purpose of this Interest Rate Linked Note Condition 4:

"CMS Rate" shall mean the applicable swap rate for swap transactions in the Relevant Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as at the Reference Time on the Underlying Interest Determination Date in question, all as determined by the Calculation Agent.

"Designated Maturity", "Interest Determination Date(s)", "Margin", "Rate Multiplier", "Relevant Currency", "Relevant Screen Page" and "Relevant Time" shall have the meanings given to those terms in the applicable Final Terms.

"Relevant Swap Rate" means:

- (1) where the Relevant Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to

the Designated Maturity commencing on the first day of the relevant period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions) with a designated maturity determined by the Calculation Agent by reference to standard market practice and/or the ISDA Definitions; and

- (2) where the Relevant Currency is any other currency or if the Final Terms specify otherwise, the mid-market swap rate as determined in accordance with the applicable Final Terms.

"**Representative Amount**" means any amount that is representative for a single transaction in the relevant market at the relevant time.

5. Screen Rate determination for Underlying Reference Rate being SONIA

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Reference Rate is to be determined and SONIA is specified as the Underlying Reference Rate in the applicable Final Terms, the Underlying Reference Rate will, subject as provided below, be Compounded Daily SONIA plus or minus (as specified in the applicable Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this Interest Rate Linked Note Condition 5:

"**Compounded Daily SONIA**", will be calculated by the Calculation Agent on each Underlying Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SONIA_{t-pLBD \times n_i}}{365} \right) - 1 \right] \times \frac{365}{d}$$

"**d**" means the number of calendar days in the relevant Observation Period;

"**d₀**" means the number of London Banking Days in the relevant Observation Period;

"**i**" means a series of whole numbers from one to "**d₀**", each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in the relevant Observation Period to, and including, the last London Banking Day in such period;

"**London Banking Day**" or "**LBD**" means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

ANNEX 11 – ADDITIONAL TERMS AND CONDITIONS FOR INTEREST RATE LINKED NOTES

“**n_i**” for any London Banking Day “**i**”, in the relevant Observation Period (as applicable) is the number of calendar days from, and including, such London Banking Day “**i**” up to, but excluding, the following London Banking Day;

“**Observation Period**” means, the period(s) indicated as such in the applicable Final Terms;

“**p**” for any Observation Period (as applicable), means the number of London Banking Days specified as the “**Observation Shift Period**” in the relevant Final Terms;

“**SONIA Reference Rate**” means, in respect of any London Banking Day, a reference rate equal to the daily Sterling Overnight Index Average (“**SONIA**”) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or if the Relevant Screen Page is unavailable, as otherwise is published by such authorised distributors) on the London Banking Day immediately following such London Banking Day; and

“**SONIA_i**” means the SONIA Reference Rate for the relevant London Banking Day “**i**”;

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA Reference Rate in respect of any London Banking Day. The SONIA Reference Rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA Reference Rate for the previous London Banking Day but without compounding.

If, in respect of any London Banking Day in the relevant Observation Period (as applicable), the Calculation Agent determines that the SONIA Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall, subject to subject to Interest Rate Linked Note Condition 9 (*Benchmark Rate Replacement*), be:

- (A) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on the relevant London Banking Day; plus (B) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five London Banking Days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
- (B) if the Bank Rate is not published by the Bank of England at close of business on the relevant London Banking Day, the SONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to Interest Rate Linked Note Condition 9 (*Benchmark Rate Replacement*), if the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Interest Rate Linked Note Condition 5, the Underlying Reference Rate shall be (A) that determined as at the last

preceding Underlying Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Underlying Interest Determination Date from that which applied to the last preceding Underlying Interest Determination Date, the Margin relating to the relevant Underlying Interest Determination Date, in place of the Margin relating to that last preceding Underlying Interest Determination Date) or (B) if there is no such preceding Underlying Interest Determination Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

6. Screen Rate determination for Underlying Reference Rate being SOFR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Reference Rate is to be determined and SOFR is specified as the Underlying Reference Rate in the applicable Final Terms, the Underlying Reference Rate will, subject as provided below, be the Compounded SOFR plus or minus (as specified in the applicable Final Terms) the Margin, all as determined by the Calculation Agent on each Underlying Interest Determination Date.

For the purposes of this Interest Rate Linked Note Condition 6:

“**Benchmark**” means Compounded SOFR, which is a compounded average of daily SOFR, as determined with reference to for each Interest Period in accordance with the specific formula and other provisions set out in this Interest Rate Linked Note Condition 6.

Daily SOFR rates will not be published in respect of any day that is not a U.S. Government Securities Business Day, such as a Saturday, Sunday or holiday. For this reason, in determining Compounded SOFR in accordance with the specific formula and other provisions set forth herein, the daily SOFR rate for any U.S. Government Securities Business Day that immediately precedes one or more days that are not U.S. Government Securities Business Days will be multiplied by the number of calendar days from and including such U.S. Government Securities Business Day to, but excluding, the following U.S. Government Securities Business Day.

If the Issuer determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred in respect of Compounded SOFR (or the daily SOFR used in the calculation hereof) prior to the relevant SOFR Determination Time, then the provisions below will apply.

“**Business Day**” means any weekday that is a U.S. Government Securities Business Day and is not a legal holiday in New York and each (if any) Business Day Centre(s) and is not a date on which banking institutions in those cities are authorised or required by law or regulation to be closed;

“**Compounded SOFR**” with respect to any Underlying Interest Determination Date, means the rate of return of a daily compound interest investment computed in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

If the Issuer determines on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the then-current Benchmark, the Issuer shall use the fallback provisions formally recommended by the Relevant Governmental Body with reference to the Benchmark. If such recommendation are not available, the following provisions should apply.

The Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Notes in respect of all determinations on such date and for all determinations on all subsequent dates. In connection with the implementation of a Benchmark Replacement, the Issuer will have the right to make Benchmark Replacement Conforming Changes from time to time, without any requirement for the consent or approval of the Noteholders.

Any determination, decision or election that may be made by the Issuer pursuant to this section, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection:

- (i) will be conclusive and binding absent manifest error;
- (ii) will be made in the sole discretion of the Issuer; and
- (iii) notwithstanding anything to the contrary in the documentation relating to the Notes, shall become effective without consent from the Noteholders or any other party.

“**Benchmark**” means, initially, Compounded SOFR, as such term is defined above; provided that if the Issuer determines on or prior to the Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to Compounded SOFR (or the published daily SOFR used in the calculation thereof) or the then-current Benchmark, then “Benchmark” shall mean the applicable Benchmark Replacement.

- (ii) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, the ISDA Fallback Adjustment; or
- (iii) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Issuer giving due consideration to any industry- accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate notes at such time;

"Benchmark Replacement Conforming Changes" means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) that the Issuer decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Issuer decides that adoption of any portion of such market practice is not administratively feasible or if the Issuer determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Issuer determines is reasonably necessary);

- (ii) in the case of clause (iii) of the definition of "Benchmark Transition Event", the date of the public statement or publication of information referenced therein.

“**Unadjusted Benchmark Replacement**” means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

Any Benchmark Replacement, Benchmark Replacement Adjustment and the specific terms of any Benchmark Replacement Conforming Changes, determined under this Interest Rate Linked Note Condition 6 will be notified promptly by the Issuer to the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), the Calculation Agent, the Paying Agents and, in accordance with Base Condition 16 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date on which such changes take effect.

No later than notifying the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), of the same, the Issuer shall deliver to the Fiscal Agent, or the Euroclear Registrar (in the case of CREST Dematerialised Notes), a certificate signed by two authorised signatories of the Issuer:

- (A) confirming (x) that a Benchmark Transition Event has occurred, (y) the relevant Benchmark Replacement and, (z) where applicable, any Benchmark Replacement Adjustment and/or the specific terms of any relevant Benchmark Replacement Conforming Changes, in each case as determined in accordance with the provisions of this Interest Rate Linked Note Condition 6; and
- (B) certifying that the relevant Benchmark Replacement Conforming Changes are necessary to ensure the proper operation of such Benchmark Replacement and/or Benchmark Replacement Adjustment.

If the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Interest Rate Linked Note Condition 6, the Underlying Reference Rate shall be (A) that determined as at the last preceding Underlying Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Underlying Interest Determination Date from that which applied to the last preceding relevant Underlying Interest Determination Date, the Margin relating to the relevant Underlying Interest Determination Date, in place of the Margin relating to that last preceding Underlying Interest Determination Date) or (B) if there is no such preceding Underlying Interest Determination Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

7. Screen Rate determination for Underlying Reference Rate being €STR

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Reference Rate is to be determined and €STR is specified as the Underlying Reference Rate in the applicable Final Terms, the Underlying Reference Rate will, subject as provided below, be Compounded Daily €STR plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Underlying Interest Determination Date.

"**Compounded Daily €STR**" means, with respect to any Underlying Interest Determination Date, the rate of return of a daily compound interest investment (with the daily euro short-term rate as reference rate for the calculation of interest) as calculated by the Calculation Agent as at the relevant Underlying Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded if necessary to the nearest fifth decimal place, with 0.000005 being rounded upwards):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{€STR}_i \times n_i}{D} \right) - 1 \right] \times \frac{D}{d}$$

where:

"**d**" means the number of calendar days in the relevant Observation Period;

"**D**" means the number specified as such in the relevant Final Terms (or, if no such number is specified, 360);

"**d_o**" means the number of TARGET Days in the relevant Observation Period;

the "**€STR reference rate**", in respect of any TARGET Day, is a reference rate equal to the daily euro short-term rate ("**€STR**") for such TARGET Day as provided by the European Central Bank as the administrator of €STR (or any successor administrator of such rate) on the website of the European Central Bank (or, if no longer published on its website, as otherwise published by it or provided by it to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors) on the TARGET Day immediately following such TARGET Day (in each case, at the time specified by, or determined in accordance with, the applicable methodology, policies or guidelines, of the European Central Bank or the successor administrator of such rate);

"**€STR_i**" means the €STR reference rate for the relevant TARGET Day "i".

"**i**" is a series of whole numbers from one to "d_o", each representing the relevant TARGET Day in chronological order from, and including, the first TARGET Day in the relevant Observation Period; to, and including, the last TARGET Day in such period;

"**n_i**" for any TARGET Day "i" in the relevant Observation Period, means the number of calendar days from (and including) such TARGET Day "i" up to (but excluding) the following TARGET Day;

"**Observation Period**" means, the period(s) indicated as such in the applicable Final Terms; and

"**p**" for any latest Observation Period, means the number of TARGET Days specified as the "Observation Shift Period" in the relevant Final Terms.

Subject to Interest Rate Linked Note Condition 9, if, where any Underlying Reference Rate is to be calculated pursuant to this Interest Rate Linked Note Condition 7, in respect of any TARGET Day in respect of which an applicable €STR reference rate is required to be determined, such €STR reference rate is not made available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, then the €STR reference rate in respect of such TARGET Day shall be the €STR reference rate for the first preceding TARGET Day in respect of which €STR reference rate was published by the European Central Bank on its website, as determined by the Calculation Agent.

Subject to Interest Rate Linked Note Condition 9, if the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Interest Rate Linked Note Condition 7, the Underlying Reference Rate shall be (A) that determined as at the last preceding Underlying Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Underlying Interest Determination Date from that which applied to the last preceding relevant Underlying Interest Determination Date, the Margin relating to the relevant Underlying Interest Determination Date, in place of the Margin relating to that last preceding relevant Underlying Interest Determination Date) or (B) if there is no such preceding Underlying Interest Determination Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

8. Screen Rate Determination for Reference Rate being SARON

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Underlying Reference Rate is to be determined and SARON is specified as the Underlying Reference Rate in the applicable Final Terms, the Underlying Reference Rate will, subject as provided below, be Compounded Daily SARON plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this Interest Rate Linked Note Condition 5:

“**Compounded Daily SARON**”, will be calculated by the Calculation Agent on each Underlying Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SARON_{i-SIXBD} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

“**d**” means the number of calendar days in the relevant Observation Period;

“**d₀**” means the number of SIX Business Days in the relevant Observation Period;

ANNEX 11 – ADDITIONAL TERMS AND CONDITIONS FOR INTEREST RATE LINKED NOTES

“**SARON_i**” means the SARON Reference Rate for the relevant SIX Business Day “**i**”;

For the avoidance of doubt, the formula for the calculation of Compounded Daily SARON only compounds the SARON Reference Rate in respect of any SIX Business Day. The SARON Reference Rate applied to a day that is a non- SIX Business Day will be taken by applying the SARON Reference Rate for the previous SIX Business Day but without compounding.

If, in respect of any SIX Business Day in the relevant Observation Period (as applicable), the Calculation Agent determines that the SARON Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SARON Reference Rate shall, subject to subject to Interest Rate Linked Note Condition 9 (*Benchmark Rate Replacement*), be the SARON Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding SIX Business Day on which the SARON Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to Interest Rate Linked Note Condition 9 (*Benchmark Rate Replacement*), if the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Interest Rate Linked Note Condition 5, the Underlying Reference Rate shall be (A) that determined as at the last preceding Underlying Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Underlying Interest Determination Date from that which applied to the last preceding

Underlying Interest Determination Date, the Margin relating to the relevant Underlying Interest Determination Date, in place of the Margin relating to that last preceding Underlying Interest Determination Date) or (B) if there is no such preceding Underlying Interest Determination Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

9. Benchmark Rate Replacement

Other than in the case of a U.S. dollar-denominated Note for which the Underlying Reference Rate is specified in the relevant Final Terms as being SOFR, notwithstanding the provisions in Interest Rate Linked Note Condition 3, 4, 5, 6, 7 and 8, if the Issuer (in consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for determining the Underlying Interest Rate) that (i) determines a Benchmark Rate Event has occurred and (ii) the relevant Benchmark Event Effective Date will fall on or prior to the day which would have been (but for the occurrence of the Benchmark Rate Event Effective Date) an Interest Determination Date in respect of the relevant Reference Rate, then the following provisions shall apply:

- (1) in respect of each Interest Period commencing on or after the Benchmark Rate Event Effective Date, the Reference Rate will be substituted by the Successor Rate (as adjusted in accordance with the Adjustment Spread, if any) for determining the Underlying Interest Rate in respect of each such Interest Period;
- (2) the Issuer (in consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Underlying Interest Rate) will determine the adjustments (if any) to be made to the provisions of the Notes as it deems necessary in order the Successor Rate to be used for determining the Underlying Interest Rate;
- (3) the Issuer shall promptly and, in any case prior to the Benchmark Rate Event Effective Date, give notice to the Noteholders of the relevant Benchmark Rate Event, the Successor Rate and the adjustments (if any) made according to the sub-paragraph (2) above, in accordance with Base Condition 16 (*Notices*);

For the purposes of this Interest Rate Linked Note Condition 9:

"Adjustment Spread" means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Issuer (in consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Underlying Interest Rate), determines is required to be applied to the Successor Rate in order to reduce or eliminate, to the

extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to Noteholders as a result of the replacement of the Underlying Reference Rate with the Successor Rate and is the spread, formula or methodology which:

- (i) is formally recommended by any Relevant Nominating Body in relation to the replacement of the Underlying Reference Rate with the Successor Rate; or
- (ii) in absence of any recommendation by any Relevant Nominating Body, the Issuer (in consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Underlying Interest Rate) determines is recognised or acknowledged as being in customary market usage in international debt capital markets transactions in relation to the replacement of the Reference Rate with the Successor Rate; or
- (iii) if no such customary market usage is recognised or acknowledged, the Issuer (in consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Underlying Interest Rate) determines (acting in good faith and in a commercially reasonable manner) to be appropriate for the replacement of the Reference Rate with the Successor Rate.

- (ii) the competent authority for the administrator of that Reference Rate or any entity with insolvency or resolution authority over such administrator has issued a public statement, or has published information, in which it is stated that the administrator has ceased or will cease to provide that Reference Rate or certain tenors for which that Reference Rate is calculated and which correspond to the Interest Periods, permanently or indefinitely, *provided that*, at the time of the issuance of the statement or the publication of the information, there is no successor administrator that will continue to provide that Reference Rate or that tenor; or
- (iii) the competent authority for the administrator of that Reference Rate has issued a public statement, or has published information, in which it is announced that that Reference Rate is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that Reference Rate is intended to measure and that representativeness will not be restored; or

ANNEX 11 – ADDITIONAL TERMS AND CONDITIONS FOR INTEREST RATE LINKED NOTES

- (iv) it has or will become unlawful (including, without limitation, under Regulation (EU) 2016/1011, if applicable) for the Calculation Agent or the Issuer to calculate any payments due to be made to any Noteholder using that Reference Rate.

“Benchmark Rate Event Effective Date” means, in respect of a Benchmark Event:

"Successor Rate" means, in respect of a Reference Rate in relation to which a Benchmark Rate Event has occurred, the rate formally designated, nominated or recommended as the replacement rate for that Reference Rate by the administrator of such Reference Rate or any Relevant Nominating Body in the most recent statement or publication preceding the relevant Benchmark Rate Event Effective Date, *provided that*, in presence of two or more rates each of which has been formally designated, nominated or recommended by the administrator of such Reference Rate or any Relevant Nominating Body as a replacement rate for that Reference Rate, the Replacement Rate will be one of such rates as selected by the Issuer (in consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Underlying Interest Rate). Without limiting the generality of the foregoing, in case of occurrence of a Benchmark Rate Event in respect of “EURIBOR”, according to the recommendations published on 11 May 2021 by the Working Group on euro risk free

rates on EURIBOR fallback trigger events and €STR-based EURIBOR fallback rates (the “**2021 WG Recommendations**”), the Replacement Rate for such rate will be (*provided that* the 2021 WG Recommendations are not superseded or replaced by any subsequent statement or publication by the administrator of the relevant Reference Rate of any Nomination Body) €STR.

10. Determination of Underlying Interest Rate

The Calculation Agent will, on or as soon as practicable after each date on which the Underlying Interest Rate is to be determined, which if the Notes are Hybrid Notes and Hybrid Business Day is specified as applicable in the applicable Final Terms, will be deemed to be a Scheduled Trading Day for the purposes of determining whether such day is a Hybrid Business Day (the "**Underlying Interest Determination Date**"), determine the Underlying Reference Rate (subject to any Minimum Underlying Reference Rate or Maximum Underlying Reference Rate specified in the applicable Final Terms). The Calculation Agent will notify the Principal Paying Agent of the Underlying Reference Rate as soon as practicable after calculating the same.

11. Minimum and/or Maximum Underlying Reference Rate

If the applicable Final Terms specifies a Minimum Underlying Reference Rate, then, in the event that the Underlying Reference Rate determined in accordance with the provisions of Interest Rate Linked Note Conditions 2, 3, 4, 5, 6 and 7 above (as appropriate) is less than such Minimum Underlying Reference Rate, the Underlying Reference Rate shall be such Minimum Underlying Reference Rate.

If the applicable Final Terms specifies a Maximum Underlying Reference Rate, then, in the event that the Underlying Reference Rate determined in accordance with the provisions of Interest Rate Linked Note Conditions 2, 3, 4, 5, 6 and 7 above (as appropriate) is greater than such Maximum Underlying Reference Rate, the Underlying Reference Rate shall be such Maximum Underlying Reference Rate.

Upon the occurrence of an Event Determination Date in relation to any Reference Entity, the Issuer will:

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (i) if the applicable Settlement Method is Auction Settlement, make payment in respect of each Credit Linked Note of its *pro rata* share of the Auction Settlement Amount on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method;
- (ii) if the applicable Settlement Method is Auction Settlement (Leveraged), make payment in respect of each Credit Linked Note of its *pro rata* share of the Auction Settlement Amount (Leveraged) on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method;
- (iii) if the applicable Settlement Method is Physical Settlement, perform its obligations in respect of each Credit Linked Note in accordance with Credit Linked Note Condition 5 (*Physical Settlement*);
- (iv) if the applicable Settlement Method is Cash Settlement, make payment in respect of each Credit Linked Note of its *pro rata* share of the Credit Linked Event Cash Settlement Amount on the Credit Event Cash Settlement Date; and
- (v) if the applicable Settlement Method is Cash Settlement (Leveraged), make payment in respect of each Credit Linked Note of its *pro rata* share of the Credit Linked Event Cash Settlement Amount (Leveraged) on the Credit Event Cash Settlement Date.

Where the applicable Settlement Method is Auction Settlement, if an Event Determination Date occurs with respect to a Reference Entity following the occurrence of a Fallback Settlement Event with respect to a prior Event Determination Date in relation to such Reference Entity and no Fallback Settlement Event occurs with respect to a subsequent Event Determination Date, the Issuer shall, if it so elects on or prior to a related Valuation Date or Delivery Date, redeem the Credit Linked Notes pursuant to the occurrence of the subsequent Event Determination Date in accordance with this Credit Linked Note Condition 2(b) (*Redemption following Event Determination Date*) by Auction Settlement.

This Credit Linked Note Condition 2(b) (*Redemption following Event Determination Date*) shall not apply, and the Issuer shall have no obligations hereunder in respect of Zero Recovery Credit Linked Notes.

(c) **Redemption at Maturity**

Where "Redemption at Maturity" is specified as applicable, payment of any Outstanding Nominal Amount, Auction Settlement Amounts, Auction Settlement Amounts (Leveraged), Credit Event Cash Settlement Amounts or Credit Event Cash Settlement Amounts (Leveraged), as applicable, shall be deferred until the later of the Credit Linked Note Maturity Date and the last Auction Settlement Date or Cash Settlement Date determined in respect of any Reference Entity (and notwithstanding any other

provision of the Base Conditions or these Credit Linked Note Conditions, no additional interest shall be payable on any payment of any amount which is so deferred).

(d) Redemption following a Merger Event

If “Merger Event” is specified as applicable in the Final Terms and in the case that:

“Reference Entity/Holder Merger” is specified as applicable, in the event that in the determination of the Calculation Agent a Reference Entity/Holder Merger has occurred, the Issuer may give notice to the Noteholders in accordance with Base Condition 16 (*Notices*), and redeem all but not some only of the Credit Linked Notes on the Merger Event Redemption Date, and if the Credit Linked Notes are so redeemed or, as the case may be, cancelled, the Issuer shall pay an amount to each Noteholder in respect of each Credit Linked Note, which amount shall be the greater of: (i) if a Principal Protection Level is specified in the Final Terms, the product of such Principal Protection Level and the initial Nominal Amount of such Credit Linked Note; and (ii) the fair market value of such Credit Linked Note taking into account the relevant Merger Event, and where “Hedging Link Provisions” are applicable, less the cost to the Issuer and/or its Affiliates of unwinding any related hedging arrangements (including without limitation any Credit Unwind Costs, all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner), or, where "Hedging Link Provisions" are not applicable, plus a pro rata reimbursement of all costs paid by the initial purchasers of the Credit Linked Notes to the Issuer which were taken into account in determining the issue price of the Credit Linked Notes, or if "Monetisation Option" is specified as applicable in the applicable Final Terms, an amount in respect of each Credit Linked Note held by such Noteholder calculated and paid in accordance with Base Condition 11(c).

"Reference Entity/Issuer Merger" is specified as applicable, in the event that in the determination of the Calculation Agent a Reference Entity/Issuer Merger has occurred, the Issuer may either:

- (i) redeem the Credit Linked Notes in accordance with (i) above; or
- (ii) replace the relevant affected Reference Entity/ies (the "**Affected Reference Entity/ies**") respectively, with Similar Reference Entity/ies. In such event, where "Hedging Link Provisions" is applicable, any costs of the Issuer arising in connection with any re-hedging of such substitution may be recovered through an adjustment to the interest payable on the Credit Linked Notes and/or any redemption amounts payments payable under the Credit Linked Notes. The Calculation Agent shall notify the Issuer, which shall in its turn notify the Noteholders pursuant to the provisions of Base Condition 16 (*Notices*) of the decision taken by the Issuer and any adjustments made to the terms of the Credit Linked Notes. Details of any adjustment or decision made in relation to the above may be obtained by the Noteholders upon request at the Calculation Agent's specified address.

Notwithstanding the foregoing, where "Hedging Link Provisions" are specified as not applicable and the Calculation Agent determines that the relevant Merger Event constitutes a force majeure, the Issuer shall

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

pay to each Noteholder in respect of each Credit Linked Note, the fair market value of such Credit Linked Note, taking into account the relevant Merger Event, provided that no account will be taken of costs (other than costs that are unavoidable in connection with the early redemption of the Credit Linked Notes), as determined by the Calculation Agent acting in a commercially reasonable manner.

(e) Additional Credit Linked Note Disruption Events

If the Calculation Agent determines that an Additional Credit Linked Note Disruption Event has occurred, the Issuer may redeem the Credit Linked Notes by giving notice to Noteholders in accordance with Base Condition 16 (*Notices*). If the Credit Linked Notes are so redeemed, the Issuer will pay an amount to each Noteholder in respect of each Credit Linked Note equal to:

- (i) the greater of: (a) if a Principal Protection Level is specified in the Final Terms, the product of such Principal Protection Level and the initial Nominal Amount of such Credit Linked Note; and (b) the fair market value of such Credit Linked Note taking into account the Additional Credit Linked Note Disruption Event, less (where “Hedging Link Provisions” are specified as applicable) the cost to the Issuer and/or its Affiliates of unwinding any underlying hedging arrangements; or
- (ii) if "Monetisation Option" is specified as applicable in the applicable Final Terms, an amount in respect of each Credit Linked Note held by such Noteholder calculated and paid in accordance with Base Condition 11(c); or
- (iii) where "Hedging Link Provisions" are specified as not applicable and the Calculation Agent determines that the Additional Credit Linked Note Disruption Event constitutes a force majeure, the fair market value of such Credit Linked Note, taking into account the relevant Additional Credit Linked Note Disruption Event, provided that no account will be taken of costs (other than costs that are unavoidable in connection with the early redemption of the Credit Linked Notes),

all as determined by the Calculation Agent in a commercially reasonable manner.

(f) Suspension of Obligations

If there is a DC Credit Event Question in relation to any Reference Entity, then (unless the Issuer otherwise elects by notice to the Calculation Agent and the Noteholders) from the date of such DC Credit Event Question (and notwithstanding that the relevant Credit Derivatives Determinations Committee has yet to determine whether Publicly Available Information is available or that a Credit Event has occurred), any obligation of the Issuer to redeem any Credit Linked Note (including pursuant to Credit Linked Note Condition 2(b) (*Redemption following Event Determination Date*)) (and the timing requirements of the Cash Event Cash Settlement Date, Valuation Date, Relevant Valuation Date, NOPS Cut-off Date, Physical Settlement Period and any other provisions pertaining to settlement) insofar as it relates to the relevant Reference Entity, or pay any interest amount which would otherwise be due thereon or any obligation of the Calculation Agent to calculate any interest amount (in each case, regardless of whether any such interest relates to the relevant Reference Entity), shall, insofar as it relates to the relevant

Reference Entity, be and remain suspended until the date of the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal.

During such suspension period, the Issuer shall not be obliged to, nor entitled to, take any action in connection with the redemption of the Credit Linked Notes, in each case insofar as they relate to the relevant Reference Entity, or in connection with the payment of any applicable interest on the Credit Linked Notes, nor, if the Final Terms specifies that "Calculation and Redemption Suspension" applies, shall the Calculation Agent be obliged to take any action in connection with the calculation of any interest amount (in each case, if the Final Terms specifies that "Calculation and Redemption Suspension" applies, regardless of whether any such interest relates to the relevant Reference Entity). Once the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal has occurred, such suspension shall terminate and any obligations so suspended shall resume on the Credit Linked Note Business Day following such public announcement by ISDA, with the Issuer and, as the case may be, the Calculation Agent having the benefit of the full day notwithstanding when the suspension began. Any interest amount so suspended shall, subject always to Credit Linked Note Condition 3(a) (*Calculation of Interest Amount*), become due on a date selected by the Calculation Agent falling not later than fifteen Business Days following such public announcement by ISDA.

For the avoidance of doubt, no additional interest shall accrue on any payment of interest or any other amounts which are deferred in accordance with this Credit Linked Note Condition 2(f) (*Suspension of Obligations*).

(g) Miscellaneous provisions relating to Redemption

If the Credit Linked Notes are partially redeemed, the relevant Credit Linked Notes or, if the Credit Linked Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such partial redemption. Upon such partial redemption, the Outstanding Nominal Amount of each Credit Linked Note shall be reduced for all purposes (including accrual of interest amounts thereon but without duplication with any cessation of interest accrual pursuant to Credit Linked Note Condition 3(a) (*Calculation of Interest Amount*)) accordingly.

Redemption of any Credit Linked Note in accordance with this Credit Linked Note Condition 2 (*Redemption*), together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the Issuer in relation thereto.

3. Interest

(a) Calculation of Interest Amount

In the case of Credit Linked Notes which are specified in the Final Terms to bear interest and subject to Credit Linked Note Condition 4.8 (*Credit Linked Principal Only Credit Linked Notes*), such interest amounts shall accrue on the daily Outstanding Nominal Amount of each Credit Linked Note as the same may be reduced from time to time in accordance with the Credit Linked Note Conditions. Base Condition

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

7 (*Interest*) shall be construed accordingly in relation to Credit Linked Notes. Upon the occurrence of an Event Determination Date in respect of any Reference Entity, the Outstanding Nominal Amount of each Credit Linked Note shall, for the purposes of the calculation of accrual of interest thereon, be deemed to have been reduced in an amount equal to such Credit Linked Note's *pro rata* share of the relevant Reference Entity Notional Amount (or, in the case of Tranching Credit Linked Notes, of the corresponding Writedown Amount) with effect from and including:

- (a) either:
 - (i) if "Accrual to Interest Payment Date" is specified as applicable in the Final Terms, the Interest Payment Date; or
 - (ii) if "Accrual to Interest Period End Date" is specified as applicable in the Final Terms, the Interest Period End Date,

immediately preceding such Event Determination Date (or, in the case of the first Interest Payment Date or Interest Period End Date, the Interest Commencement Date); or

- (b) if "Accrual to Event Determination Date" is specified as applicable in the Final Terms, such Event Determination Date.

(b) Interest following Scheduled Maturity

Subject always to Credit Linked Note Condition 3(a) (*Calculation of Interest Amount*), if an Extension Notice has been given (other than pursuant to paragraph (d) of the definition of "Extension Notice"), each Credit Linked Note which is outstanding following the Scheduled Maturity Date shall continue to bear interest on its daily Outstanding Nominal Amount from (and including) the Scheduled Maturity Date to (but excluding) the related Credit Linked Note Maturity Date at an interest Rate equal to either:

- (i) if "Deposit Rate" is specified as applicable in the Final Terms under the heading "Interest following Scheduled Maturity", the rate that Mediobanca, Mediobanca International or MBFL would pay to an independent customer in respect of overnight deposits in the currency of the Credit Linked Notes; or
- (ii) such other rate as shall be specified for such purpose in the Final Terms (which may be zero),

subject in all cases to a minimum of zero. If "Deposit Rate" is not so specified or no such other rate is specified for such purpose, no interest shall accrue during the relevant period. For the avoidance of doubt, if an Extension Notice has been given pursuant to paragraph (d) of the definition thereof, no interest shall accrue from (and including) the Scheduled Maturity Date to (but excluding) the related Credit Linked Note Maturity Date.

(c) Interest Payment Dates

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

If the Credit Linked Notes are redeemed pursuant to the Base Conditions or these Credit Linked Note Conditions, the Scheduled Maturity Date, the Credit Linked Note Maturity Date (if not the Scheduled Maturity Date), the last Auction Settlement Date, the last Credit Event Cash Settlement Date or the last Delivery Date, as the case may be, shall be an Interest Payment Date in respect of each Credit Linked Note and the Issuer shall pay any interest that is accrued and unpaid in respect of each Credit Linked Note on such Interest Payment Date.

(d) Hybrid Interest Notes

- (i) If Hybrid Interest (Simple) is specified as applicable in the applicable Final Terms, Credit Linked Note Condition 3(a) and 3(b) will not apply for the purpose of the calculation of the Interest to be calculated in accordance with the provisions of Base Condition 7(c) (*Structured Rate Notes*) (the “**Linked Interest**”). The Linked Interest will be calculated in accordance with the provisions of Base Condition 7(c) (*Structured Rate Notes*) on the basis of the terms and the original Nominal Amount, specified in the applicable Final Terms.
- (ii) If Hybrid Interest (Credit) is specified as applicable in the applicable Final Terms, Credit Linked Note Condition 3(a) (*Calculation of Interest Amount*) will apply for the purpose of the calculation of the Linked Interest. The Linked Interest will be calculated in accordance with the provisions of Base Condition 7(c) (*Structured Rate Notes*) on the basis of the terms specified in the applicable Final Terms and the Nominal Amount as reduced according to Credit Linked Note Condition 3(a) (*Calculation of Interest Amount*).

Bonus Interest Credit Linked Notes

If the Credit Linked Notes are Bonus Interest Credit Linked Notes, an additional amount shall be payable on either:

- (i) where “**Final Payment**” is specified as the applicable Bonus Interest Type in the relevant Final Terms, the Credit Linked Notes Maturity Date; or
- (ii) where “**Running Basis**” is specified as the applicable Bonus Interest Type in the relevant Final Terms, the specified Bonus Interest Payment Dates,

in relation to the Credit Linked Notes in an amount equal, in respect of each Credit Linked Note, to the initial Nominal Amount thereof multiplied by the Outstanding Bonus Interest Rate, and where the Running Basis is applicable, multiplied by the Bonus Coupon Day Count Fraction.

4. Terms relating to Credit Linkage Features

(a) Nth-to-Default Credit Linked Notes

Where the Credit Linked Notes are Nth-to-Default Credit Linked Notes, an Event Determination Date shall not be taken into account for the purposes of Credit Linked Note Condition 2 (*Redemption*) and

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Credit Linked Note Condition 3 (*Interest*) unless and until the number of Reference Entities in respect of which an Event Determination Date has occurred is equal to “N” (as specified in the Final Terms). Unless a value is specified for “M” in the Final Terms of such Credit Linked Notes, with effect from such date, no Event Determination Date shall occur in respect of any other relevant Reference Entity. Where a value is specified for “M”, the provisions of Credit Linked Note Condition 2 (*Redemption*) and Credit Linked Note Condition 3 (*Interest*) shall apply in respect of every subsequent Event Determination Date until the number of Reference Entities in respect of which an Event Determination Date has occurred is equal to “M” (as specified in the Final Terms). Where "Unwind Costs for the Remaining Names" is specified as applicable in the Final Terms of such Credit Linked Notes, an amount equal to the Unwind Value of the Reference CDS in respect of the Reference Entity which has not been determined as the Nth-to-Default Reference Entity (where “N” is 1) shall be added to the Credit Unwind Costs in respect of the Auction Settlement Amount, the Auction Settlement Amount (Leveraged), the Credit Event Cash Settlement Amount or the Credit Event Settlement Amount (Leveraged), as applicable.

(b) Tranched Credit Linked Notes

The following provisions shall apply in respect of Credit Linked Notes that are Tranched Credit Linked Notes. For clarification, in respect of such Credit Linked Notes, in the event of any inconsistency between the following and the remainder of the Credit Linked Note Conditions, the following shall prevail:

- (i) Unless the Credit Linked Notes have been previously redeemed or purchased and cancelled in full (including pursuant to any Credit Linked Note Condition), the Issuer will redeem each Tranched Credit Linked Note on the Credit Linked Note Maturity Date by payment of an amount equal to the Outstanding Nominal Amount of such Credit Linked Note (together with interest, if any, payable thereon) plus if “Incurred Recoveries” is specified as applicable in the applicable Final Terms, its *pro rata* share of the Aggregate Incurred Recovery Amount, provided that (unless “Zero Recovery Credit Linked Notes” is applicable in the Final Terms or the Final Price is specified in the Final Terms) if an Unsettled Credit Event has occurred, (A) a Redemption Preliminary Amount will be payable on the Credit Linked Note Maturity Date and a Redemption Residual Amount will be payable on the Final Settlement Date, and (B) the Aggregate Incurred Recovery Amount (if any) in respect of each Tranched Credit Linked Note shall be payable on the Final Settlement Date instead of the Credit Linked Note Maturity Date. For the avoidance of doubt, no interest amount shall accrue or be payable in respect of any Aggregate Incurred Recovery Amount or any payment or postponement of payment thereof.
- (ii) If the Outstanding Nominal Amount of any Tranched Credit Linked Note is reduced to zero, such Credit Linked Note will be redeemed in full by payment of an amount equal to its *pro rata* share of the Aggregate Incurred Recovery Amount (if any) on the Final Settlement Date, and, for the avoidance of doubt, no interest amount shall accrue or be payable in respect of any Aggregate Incurred Recovery Amount (or any payment or postponement of payment thereof) and the Issuer shall have no further obligations in respect of such Credit Linked Notes.

- (iii) If the Calculation Agent determines in relation to any Reference Entity:
- (A) without prejudice to the sub-paragraphs below, that a Credit Event has occurred or may occur on or prior to any Interest Payment Date;
 - (B) that a Potential Failure to Pay has occurred or may occur on or prior to any Interest Payment Date;
 - (C) that a Potential Repudiation/Moratorium has occurred or may occur on or prior to any Interest Payment Date;
 - (D) that a Credit Event Resolution Request Date has occurred or may occur on or prior to any Interest Payment Date; or
 - (E) (unless “Zero Recovery Credit Linked Notes” is applicable in the Final Terms or the Final Price is specified in the Final Terms) that an Unsettled Credit Event has occurred,

then interest (if any) on such Tranching Credit Linked Note shall be deemed to cease to accrue on an Outstanding Nominal Amount equal to its *pro rata* share of the sum of : (i) the maximum Incurred Loss Amounts, and (ii) the maximum Incurred Recovery Amounts (if “Incurred Recoveries” is specified as applicable in the Final Terms), which could be determined (assuming an Auction Final Price, Weighted Average Final Price or Final Price of zero) (a “**Deemed Interest Reduction**”) with effect from and including the Interest Period End Date (or, if none, the Interest Commencement Date) immediately preceding the date of such determination or (in the case of the occurrence of an Unsettled Credit Event) the relevant date applicable pursuant to Credit Linked Note Condition 3(a) (*Calculation of Interest Amount*). In such case, the related Interest Shortfall Amount (if any) shall be payable on the related Interest Shortfall Payment Date. No interest shall be payable in respect of any such postponement of payment of any Interest Shortfall Amount or any other interest or other amounts.

- (iv) If any day is a Final Price Calculation Date with respect to more than one Reference Entity, the Loss Amount, the Recovery Amount, the Incurred Loss Amount and the Incurred Recovery Amount (if applicable) with respect to each Reference Entity shall be calculated in the order that either of the following events occurred with respect to such Reference Entities: (i) the Credit Event Resolution Request Date (provided that if a Credit Event Resolution Request Date occurs in respect of more than one such Reference Entity on the same day, the first Reference Entity in respect of which the DC Secretary announces that the relevant DC Credit Event Question was effective and the relevant Credit Derivatives Determinations Committee was in possession of the relevant Publicly Available Information, in each case in accordance with the “Credit Event Resolution Request Date” definition, shall be deemed to have satisfied this condition first) or (ii) the delivery of the Credit Event Notice (provided that if any of the relevant Credit Event

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Notices are delivered at the same time, in a sequential order as determined by the Calculation Agent).

(c) Combination Credit Linked Notes

Where the Credit Linked Notes are Combination Credit Linked Notes:

- (i) where any Credit Component is specified in the Final Terms as an "Interest Component", amounts payable in respect of interest on the Notes shall, subject to (iv) below, be calculated by reference to the terms set out in respect of such Credit Component;
- (ii) where any Credit Component is specified in the Final Terms as a "Principal Component", amounts payable by way of redemption of the Notes shall, subject to (iv) below, be calculated by reference to the terms set out in respect of such Credit Component;
- (iii) where any Credit Component is specified in the Final Terms as a "Principal and Interest Component", amounts payable by way of redemption of the Notes shall, subject to (iv) below, be calculated by reference to the terms set out in respect of such Credit Component; and
- (iv) more than one Credit Component may be specified in the Final Terms as an "Interest Component", "Principal Component" or "Principal and Interest Component", provided that a related "Component Percentage" is specified; in such case, all references in the definitions of "Reference Entity Notional Amount" and "Outstanding Nominal Amount" to the "initial aggregate Nominal Amount" shall, for the purposes of such Credit Component be references to the related Component Nominal Amount.

(d) Hybrid Credit Linked Notes

Where the Credit Linked Notes are Hybrid Credit Linked Notes, then:

- (i) if the Final Terms provide that "Event Determination Date Overrides Automatic Early Redemption" is applicable, an Automatic Early Redemption Date shall not be capable of occurring in respect of the Credit Linked Notes if, as of the related Automatic Early Redemption Valuation Date, an Event Determination Date has occurred (but any Event Determination Date occurring after such Automatic Early Redemption Valuation Date shall be disregarded); and
- (ii) if the Final Terms specify that "Credit Linked Calculation Basis" is applicable, any reference to the "Nominal Amount", "Calculation Amount", "Specified Denomination" or any related abbreviation for the purpose of determining any amount payable by way of interest or coupon or on scheduled or early redemption of the Notes and which is calculated by reference to a Type of Underlying Reference other than the Reference Entity or Entities or the credit risk thereof, shall be to the Outstanding Nominal Amount, save with respect to any amounts determined and paid under any item of the Final Terms specified as an "Excluded Item" for such purpose (which may include, without limitation, Item 22 (*Final Payout*)); and

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

(iii) the Credit Linked Note Maturity Date shall notwithstanding such definition, be subject to deferral as provided for in these Credit Linked Note Conditions and as provided with respect to the Maturity Date in any terms and conditions of the Credit Linked Notes which relate to a Type of Underlying Reference referred to at (ii) above.

(e) Basket Credit Linked Notes where the Final Terms specify a Distribution End Date

If a Distribution Period Event Determination Date occurs with respect to any Reference Entity and any Basket Credit Linked Notes, Credit Linked Note Conditions 2(b) (*Redemption following Event Determination Date*), 2(c) (*Settlement at Maturity*) and 5 (*Physical Settlement*) shall not apply and the following provisions shall apply (and for clarification, in respect of such Credit Linked Notes, in the event of any inconsistency between the following and the remainder of the Credit Linked Note Conditions, the following shall prevail); where the Final Terms specify that "Distribution Period Redemption" applies:

(i) irrespective of the applicable Settlement Method, the Issuer will redeem each outstanding Credit Linked Notes in part, on the fifth Business Day following the Distribution End Date in an Outstanding Nominal Amount corresponding to such Credit Linked Note's pro rata share of the relevant Reference Entity Notional Amount by making a payment in respect of each Credit Linked Note equal to its pro rata share of the related Reference Entity Notional Amount. For this purpose, in the case of an M(M)R Restructuring, Credit Linked Note Condition 9(a) (*Multiple Credit Event Notices*) shall not apply; and

(ii) for the avoidance of doubt, no further Event Determination Date may occur in respect of such Reference Entity; or

(iii) where the Final Terms specify that "Redemption at Maturity" applies:

(a) with effect from such Distribution Period Event Determination Date, such Reference Entity shall no longer be treated as a Reference Entity for the purpose of these Credit Linked Note Conditions and no further Event Determination Date may occur with respect thereto, including where the Event Determination Date relates to a Restructuring Credit Event in respect of which an Exercise Amount has been determined; and

(b) no adjustment shall be made to the Reference Entity Notional Amount in respect of any other Reference Entity as a result of the above (notwithstanding the definition thereof);
or

(iv) where the Final Terms specify that "Distribution Period Event Determination Date Disapplication" applies, notwithstanding anything to the contrary in these Credit Linked Note Conditions, any Distribution Period Event Determination Date which occurs with respect to a Reference Entity shall not be treated as an Event Determination Date for the purpose of these

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Credit Linked Note Conditions and only Event Determination Dates which occur on or after the Distribution End Date shall be treated as Event Determination Dates for the purpose of these Credit Linked Note Conditions.

(f) Bonus Coupon Credit Linked Notes

If the Credit Linked Notes are Bonus Coupon Credit Linked Note, an additional amount shall be payable on either:

- (i) where "Final Payment" is specified as the applicable Bonus Coupon Type in the relevant Final Terms, the Final Settlement Date; or
- (ii) where "Running Basis" is specified as the applicable Bonus Coupon Type in the relevant Final Terms, the specified Bonus Coupon Payment Dates,

in relation to the Credit Linked Notes in an amount equal, in respect of each Credit Linked Note, to the initial Nominal Amount thereof multiplied by the Outstanding Bonus Coupon Rate, and where the Running Basis is applicable, multiplied by the Bonus Coupon Day Count Fraction.

(g) Credit Linked Interest Only Credit Linked Notes

If "Credit Linked Interest Only" is specified as applicable in the applicable Final Terms, Credit Linked Note Condition 3 (*Interest*) will apply to the Notes, but Credit Linked Notes Conditions 2(a) (*Redemption at Credit Linked Notes Maturity Date*), 2(b) (*Redemption following Event Determination Date*) and 2(c) (*Redemption at Maturity*) will not apply. Unless the Credit Linked Notes have previously been redeemed or purchased and cancelled in full (including pursuant to Credit Linked Note Conditions 2(d) (*Redemption following a Merger Event*) or 2(e) (*Additional Credit Linked Note Disruption Events*)) the Issuer will redeem each Credit Linked Note on the relevant Credit Linked Note Maturity Date by payment of the original Nominal Amount specified in the applicable Final Terms.

(h) Credit Linked Principal Only Credit Linked Notes

If "Credit Linked Principal Only" is specified as applicable in the applicable Final Terms, Credit Linked Note Condition 2 (*Redemption*) will apply to the Notes but Credit Linked Note Condition 3 (*Interest*) will not apply. Where the redemption of any such Credit Linked Notes is postponed following the Scheduled Maturity Date, no interest shall accrue in respect of any such Credit Linked Notes from (and including) the Scheduled Maturity Date until the relevant date of redemption.

Where any such Credit Linked Notes are subject to redemption in full in circumstances where further amounts are or may be payable subsequently in respect of interest thereon, then, only to the extent required by the terms of any relevant clearing system in order to permit payment of such interest, each Credit Linked Note shall be deemed to remain outstanding in an amount equal to one unit of the Specified Currency. No payment shall be made in respect of such outstanding amount, and each Credit Linked

Note which is deemed to be outstanding on such basis shall be cancelled in full on the last date for payment of interest thereon.

5. Physical Settlement

(a) Delivery and payment

If Physical Settlement applies to any Credit Linked Note, then, upon the occurrence of an Event Determination Date, the Issuer shall, on or prior to the related Physical Settlement Date and subject to Credit Linked Note Condition 5(b), Credit Linked Note Condition 5(c) and Credit Linked Note Condition 5(f), redeem such Credit Linked Note in full (or, where such Credit Linked Note is a Basket Credit Linked Note, in part, in an Outstanding Nominal Amount corresponding to such Credit Linked Note's *pro rata* share of the relevant Reference Entity Notional Amount), respectively, by:

- (b) delivering a *pro rata* share of the Deliverable Obligations specified in the related Notice of Physical Settlement or NOPS Amendment Notice, as applicable; and
- (c) paying such Credit Linked Note's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount.

(b) Partial Credit Event Cash Settlement

If, due to an event beyond the control of the Issuer, it is impossible or illegal for the Issuer to Deliver or, due to an event beyond the control of the Issuer or any Noteholder, it is impossible or illegal for the relevant Noteholder or, where “Hedging Link Provisions” is specified as applicable in the Final Terms, to accept Delivery of any of the Deliverable Obligations (other than a Deliverable Obligation described in paragraph (d) of the definition of “Deliverable Obligation”) specified in a Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, on the related Physical Settlement Date, then on such date the Issuer shall Deliver any of the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, for which it is possible and legal to take Delivery. If any Undeliverable Obligations have not been delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Credit Event Cash Settlement shall apply with respect to such Undeliverable Obligations and, accordingly, the Issuer shall pay the relevant Noteholders an amount equal to the Partial Credit Event Cash Settlement Amount, to be apportioned *pro rata* amongst the relevant Noteholders on the Partial Credit Event Cash Settlement Date.

(c) Non-Delivery of Deliverable Obligations

If the Issuer does not Deliver any Deliverable Obligation specified in a Notice of Physical Settlement or NOPS Amendment Notice, as applicable, other than as a result of an event or circumstance contemplated in Credit Linked Note Condition 5(b) above (including following the occurrence of a Hedge Disruption Event), such failure shall not constitute an Event of Default or breach of agreement for the purpose of

the Credit Linked Notes and the Issuer may continue to attempt to Deliver the Deliverable Obligations that are Bonds or Loans until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, any such Deliverable Obligations have not been Delivered, then Partial Credit Event Cash Settlement shall apply with respect to such Deliverable Obligations and the Issuer shall pay to the Noteholders an amount equal to the Partial Credit Event Cash Settlement Amount to be apportioned *pro rata* amongst the Noteholders on the Partial Credit Event Cash Settlement Date.

(d) Aggregation and Rounding

Where a Noteholder holds Credit Linked Notes in an Outstanding Nominal Amount greater than the Specified Denomination, the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of the Credit Linked Notes of such Noteholder shall be aggregated for the purposes of this Credit Linked Note Condition 5. If the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of each Credit Linked Note to be redeemed pursuant to this Credit Linked Note Condition 5(d) on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable Obligations then the Outstanding Principal Balance of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Deliverable Obligations that were not capable of being Delivered shall, if and to the extent practicable, be sold by the Issuer or such other agent as may be appointed by the Issuer for such purpose and, if they are so sold, the Issuer shall make payment in respect of each Credit Linked Note in an amount equal to its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof.

(e) Delivery and Fees

The Delivery of any of the Deliverable Obligations pursuant to the provisions of this Credit Linked Note Condition 5 (*Physical Settlement*) shall be made in such manner as the Issuer shall determine, in a commercially reasonable manner, to be appropriate for such Delivery. Subject as set out in the definition of "Deliver":

- (i) any recordation, processing or similar fee reasonably incurred by the Issuer and/or any of its Affiliates and payable to the agent under a Loan in connection with an assignment or novation (where Deliverable Obligations include Assignable Loans or Consent Required Loans) or participation (where Deliverable Obligations include Direct Loan Participations) shall be payable by the relevant Noteholders, and if any stamp tax or transaction tax is payable in connection with the Delivery of any Deliverable Obligations, payment thereof shall be made by the relevant Noteholders; and
- (ii) where "Hedging Link Provisions" is applicable, any other expenses arising from the Delivery and/or transfer of the Deliverable Obligations shall be for the account of the Noteholders or the

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Issuer, as appropriate, determined by the Calculation Agent in accordance with then current market conventions.

Delivery and/or transfer of the Deliverable Obligations shall be delayed until all expenses relating to such Delivery or transfer payable by the Noteholders pursuant to (i) and/or (ii) above, as applicable, have been paid to the satisfaction of the Issuer.

(f) Physical Delivery Confirmation Notice

A Noteholder will not be entitled to any of the amounts or assets specified as being due to it in this Credit Linked Note Condition 5 upon the occurrence of an Event Determination Date and delivery of the Notice of Physical Settlement unless it has presented or surrendered (as is appropriate) the relevant Credit Linked Note and delivered a Physical Delivery Confirmation Notice in accordance with Base Condition 12.1 (*Physical Delivery Confirmation Notice Requirement*). For so long as the Credit Linked Notes are held in any clearing system, any communication from such clearing system on behalf of the Noteholder containing the information required in a Physical Delivery Confirmation Notice will be treated as a Physical Delivery Confirmation Notice. For as long as Bearer Notes are represented by a Global Note, surrender of Credit Linked Notes for such purpose will be effected by presentation of the Global Note and its endorsement to note the Outstanding Nominal Amount of Credit Linked Notes to which the relevant a Physical Delivery Confirmation Notice relates.

(g) Disapplication of Physical Settlement

Where “Hedging Link Provisions” are specified as not applicable in the applicable Final Terms, Physical Settlement will not apply.

6. Provisions relating to Obligation Category and Characteristics and Deliverable Obligation Category and Characteristics

(a) Obligation Characteristics

If either of the Obligation Characteristics "Listed" or "Not Domestic Issuance" is specified in the related Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though the relevant Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds.

(b) Deliverable Obligation Category and Characteristics

If:

- (i) any of the Deliverable Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" is specified in the related Final Terms or is applicable in respect of the applicable Transaction Type, such Final Terms shall be construed as though such Deliverable Obligation

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds;

- (ii) the Deliverable Obligation Characteristic "Transferable" is specified in the Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans;
- (iii) any of the Deliverable Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans; and
- (iv) more than one of "Assignable Loan", "Consent Required Loan" and "Direct Loan Participation" are specified in the Final Terms as Deliverable Obligation Characteristics or is applicable in respect of the applicable Transaction Type, the Deliverable Obligations may include any Loan that satisfies any one of such Deliverable Obligation Characteristics specified and need not satisfy all such Deliverable Obligation Characteristics.

(c) Relevant Guarantee

If an Obligation or a Deliverable Obligation is a Relevant Guarantee, the following will apply:

- (i) For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Relevant Guarantee shall be deemed to be described by the same category or categories as those that describe the Underlying Obligation.
- (ii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or Deliverable Obligation Characteristics, if any, specified in the Final Terms or applicable in respect of the relevant Transaction Type from the following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law".

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

(iv) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.

(v) For the avoidance of doubt the provisions of this Credit Linked Note Condition 6 apply in respect of the definitions of "Obligation" and "Deliverable Obligation" as the context admits.

(d) **Maximum Maturity**

For purposes of the application of the Deliverable Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the remaining maturity shall be zero.

(e) **Financial Reference Entity Terms and Governmental Intervention**

If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in respect of a Reference Entity, if an obligation would otherwise satisfy a particular Obligation Characteristic or Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Deliverable Obligation Characteristic.

(f) **Prior Deliverable Obligation or Package Observable Bond**

For purposes of determining the applicability of Deliverable Obligation Characteristics and the requirements specified in Credit Linked Note Condition 9(b) (Mod R) and Credit Linked Note Condition 9(c) (Mod Mod R) to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.

(g) **Subordinated European Insurance Terms**

If "Subordinated European Insurance Terms" is specified as applicable in respect of the Reference Entity, if an obligation would otherwise satisfy the "Maximum Maturity" Deliverable Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Deliverable Obligation Characteristic.

(h) **Accrued Interest**

With respect to any Credit Linked Notes for which:

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (i) "Physical Settlement" is specified to be the Settlement Method in the related Final Terms (or for which Physical Settlement is applicable as the Fallback Settlement Method), the Outstanding Principal Balance of the Deliverable Obligations being Delivered will exclude accrued but unpaid interest, unless "Include Accrued Interest" is specified in the related Final Terms, in which case, the Outstanding Principal Balance of the Deliverable Obligations being Delivered will include accrued but unpaid interest;
 - (ii) "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or if Cash Settlement is applicable as the Fallback Settlement Method), and:
 - (A) "Include Accrued Interest" is specified in the related Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall include accrued but unpaid interest;
 - (B) "Exclude Accrued Interest" is specified in the related Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall not include accrued but unpaid interest; or
 - (C) neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified in the related Final Terms, the Calculation Agent shall determine based on the then current market practice in the market of the Reference Obligation or Valuation Obligation, as applicable, whether the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation shall include or exclude accrued but unpaid interest and, if applicable, the amount thereof; or
 - (iii) Credit Linked Note Condition 5(b) (*Partial Credit Event Cash Settlement*) or Credit Linked Note Condition 5(c) (*Non-Delivery of Deliverable Obligations*) is applicable, the Calculation Agent shall determine, based on the then current market practice in the market for the relevant Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation or Unassignable Obligation, whether such Quotations shall include or exclude accrued but unpaid interest.
- (i) Asset Package Delivery
- "**Asset Package Delivery**" will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event.
- If the "Sovereign No Asset Package Delivery Supplement" is applicable in respect of a Reference Entity, then, notwithstanding the above, it shall be deemed that no Package Observable Bond exists with respect

to such Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

7. Successors

(a) Provisions for determining a Successor

- (i) Subject as set out in Credit Linked Note Condition 1(c) (*Index Credit Notes*), the Calculation Agent may determine, following any succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) and with effect from the Succession Date, any Successor or Successors under the definition of "Successor"; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under the definition of "Successor" (or the provisions relating to the determination of a Successor) acting in good faith and in a commercially reasonable manner on the basis of Eligible Information.

In calculating the percentages used to determine whether an entity qualifies as a Successor under the definition of "Successor", if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

- (ii) An entity may only be a Successor if:
- (I) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
 - (II) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
 - (III) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.
- (iii) In the case of an exchange offer, the determination required pursuant to the definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

- (iv) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

(b) Single Reference Entity

Where the Credit Linked Notes are Single Reference Entity Credit Linked Notes and a Succession Date has occurred and more than one Successor has been identified, each such Credit Linked Note will be deemed for all purposes to have been divided, with effect from the Succession Date, into the same number of new Credit Linked Notes as there are Successors with the following terms:

- (i) each Successor will be a Reference Entity for the purposes of one of the deemed new Credit Linked Notes;
- (ii) in respect of each deemed new Credit Linked Note, the Reference Entity Notional Amount will be the Reference Entity Notional Amount applicable to the original Reference Entity divided by the number of Successors; and
- (iii) all other terms and conditions of the original Credit Linked Notes will be replicated in each deemed new Credit Linked Note except that the Calculation Agent shall make such modifications as it determines, acting in good faith and in a commercially reasonable manner, are required in order to preserve the economic effects of the original Credit Linked Notes in the deemed new Credit Linked Notes (considered in aggregate).

(c) Nth-to-Default

Where the Credit Linked Notes are Nth-to-Default Credit Linked Notes:

- (i) where a Succession Date has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which a Credit Event has occurred) and more than one Successor has been identified, each such Credit Linked Note will be deemed for all purposes to have been divided, with effect from the Succession Date, into a number of new Credit Linked Notes equal to the number of Successors. Each such new Credit Linked Note shall include a Successor and each and every one of the unaffected Reference Entities and the provisions of Credit Linked Note Condition 7(b) (i) to (iii) (inclusive) shall apply thereto;

- (ii) if "Substitution" is specified as not being applicable in the Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to the Succession Date) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a Succession Date, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and
- (iii) if "Substitution" is specified as being applicable in the Final Terms, where the Surviving Reference Entity (other than a Reference Entity that is subject to the Succession Date) would be a Successor to a Legacy Reference Entity pursuant to a Succession Date:
 - (A) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
 - (B) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity.
- (d) Basket Credit Linked Notes and Tranched Credit Linked Notes

Where the Credit Linked Notes are Basket Credit Linked Notes or Tranched Credit Linked Notes, and one or more Successors have been identified in respect of a Reference Entity that has been the subject of a related Succession Date (the "**Affected Entity**"), then, with effect from the Succession Date:

- (i) the Affected Entity will no longer be a Reference Entity (unless it is a Successor as described in (ii) below);
- (ii) each Successor will be deemed a Reference Entity (in addition to each Reference Entity which is not an Affected Entity);
- (iii) the Reference Entity Notional Amount for each such Successor will equal the Reference Entity Notional Amount of the Affected Entity divided by the number of Successors;
- (iv) the Calculation Agent may make any modifications to the terms of the Credit Linked Notes which it determines, acting in good faith and in a commercially reasonable manner, may be required to preserve the economic effects of the Credit Linked Notes prior to the Succession Date (considered in the aggregate); and
- (v) for the avoidance of doubt, a Reference Entity may, as a result of a Succession Date, be represented by multiple Reference Entity Notional Amounts for the Successor(s) of such Reference Entity.

8. Provisions relating to LPN Reference Entities and CoCo Supplement

- (a) LPN Reference Entities

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

The following provisions shall apply if the relevant Final Terms provide that "LPN Reference Entity" is applicable:

- (i) Multiple Holder Obligation will not be applicable with respect to any Reference Obligation and any Underlying Loan;

 - (v) the "Not Subordinated" Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity; and
 - (vi) "Reference Obligation" shall mean each of the obligations listed as a Reference Obligation of the Reference Entity in the Final Terms or set forth on the relevant LPN Reference Obligations List (each, a "Markit Published LPN Reference Obligation"), as published by Markit Group Limited, or any successor thereto, which list is currently available at <http://www.markit.com/marketing/services.php>, any Additional LPN, determined in accordance with the definition thereof, and each Additional Obligation. Each Reference Obligation determined in accordance with the foregoing will be a Reference Obligation notwithstanding anything to the contrary in these Conditions and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity. Standard Reference Obligation shall be Not Applicable. The provision in the definition of "Original Non-Standard Reference Obligation" shall not apply. If there is more than one Reference Obligation, all applicable references in these Conditions to "the Reference Obligation" shall be construed as a reference to "a Reference Obligation", and all other provisions of these Conditions shall be construed accordingly. The provisions in "Substitute Reference Obligation" and "Substitution Event" shall not be applicable to LPN Reference Obligations.
- (b) Provisions relating to CoCo Supplement

The following provisions shall apply in respect of a Reference Entity if the "CoCo Supplement" is applicable:

- (i) If, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, the operation of one or more CoCo Provisions results in (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, such event shall be deemed to constitute a Governmental Intervention falling within paragraph (a) of the definition thereof.
- (ii) A CoCo Provision shall be deemed to be a provision which permits a Governmental Intervention for all purposes.
- (iii) The following terms shall have the following meanings:

"**Coco Provision**" means, with respect to an Obligation, a provision which requires (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, in each case, if the Capital Ratio is at or below the Trigger Percentage.

"**Trigger Percentage**" means the trigger percentage specified in respect of the Reference Entity (or if no such trigger percentage is specified, 5.25 per cent.).

"**Capital Ratio**" means the ratio of capital to risk weighted assets applicable to the Obligation, as described in the terms thereof in effect from time to time.

9. Restructuring Credit Event

(a) Multiple Credit Event Notices

Upon the occurrence of an M(M)R Restructuring with respect to a Reference Entity:

- (i) the Calculation Agent may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring, each such notice setting forth the amount of the relevant Reference Entity Notional Amount to which such notice applies (the "**Exercise Amount**") provided that if the Credit Event Notice does not specify an Exercise Amount, the then outstanding Reference Entity Notional Amount (and not a portion thereof) will be deemed to have been specified as the Exercise Amount;
- (ii) the provisions of these Credit Linked Note Conditions (including, without limitation, as to the determination of any Auction Settlement Amount, Auction Settlement Amount (Leveraged), Credit Event Cash Settlement Amount, Credit Event Cash Settlement Amount (Leveraged) and Loss Amount) shall be deemed to apply to an aggregate Outstanding Nominal Amount of Credit Linked Notes equal to the Exercise Amount only and all the provisions shall be construed accordingly; and
- (iii) the Exercise Amount in connection with a Credit Event Notice describing an M(M)R Restructuring must be an amount that is at least 1,000,000 units of the Specified Currency (or, if Japanese Yen, 100,000,000 units) in which the Reference Entity Notional Amount is

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

denominated or any integral multiple thereof or the entire relevant Reference Entity Notional Amount.

If any Credit Linked Note is subject to partial redemption in accordance with this Credit Linked Note Condition 9, the relevant Credit Linked Note or, if the Credit Linked Notes are represented by a Global Note, such Global Note shall be endorsed to reflect such partial redemption.

(b) Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Redemption Method in the related Final Terms (or is applicable as the Fallback Redemption Method), (ii) "Mod R" is specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Issuer to form part of the related Valuation Obligations Portfolio, as applicable, if such Deliverable Obligation or, as applicable, Valuation Obligation:

(A) is a Fully Transferable Obligation; and

(B) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date,

in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date.

(c) Mod Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Redemption Method in the related Final Terms (or is applicable as the Fallback Redemption Method), (ii) "Mod Mod R" is specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Issuer to form part of the related Valuation Obligations Portfolio, as applicable, if it (A) is a Conditionally Transferable Obligation and (B) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date. Notwithstanding the foregoing, for purposes of this paragraph, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

If the relevant Deliverable Obligation specified in the Notice of Physical Settlement (or in any NOPS Amendment Notice, as applicable) or, as applicable, the relevant Valuation Obligation selected, is a Conditionally Transferable Obligation with respect to which consent is required to novate, assign or transfer and the requisite consent is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason), or is not received by the Physical Settlement Date or, as applicable, the Relevant Valuation Date (in which case it shall be deemed to have been refused), the Issuer shall, as soon as reasonably practicable, notify the relevant Noteholders of such refusal (or deemed refusal) and:

- (i) each such Noteholder may designate a third party (which may or may not be an Affiliate of such Noteholder) to take Delivery of the Deliverable Obligation on its behalf; and
- (ii) if a Noteholder does not designate a third party that takes Delivery on or prior to the date which is three Credit Linked Note Business Days after the Physical Settlement Date, then the Issuer will redeem the Credit Linked Notes for which Delivery has not occurred, by payment of the relevant Partial Cash Settlement Amount to such Noteholder. For the avoidance of doubt Credit Linked Note Condition 5(b) will not apply to this paragraph.

(d) **General Terms relating to Mod R and Mod Mod R**

For the purposes of making a determination pursuant to "Mod R" and "Mod Mod R", final maturity date shall, subject to Credit Linked Note Condition 9(c) (Mod Mod R), be determined on the basis of the terms of the Deliverable Obligation or, as applicable, Valuation Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation or, as applicable, Valuation Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

(e) **Multiple Holder Obligations**

Notwithstanding anything to the contrary in the definition of "Restructuring" and related provisions, is applicable the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraph (a)(i) to (a)(v) (inclusive) thereof shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation, provided that any obligation that is a Bond shall be deemed to satisfy the requirements of sub-paragraph (b) of the definition of "Multiple Holder Obligation".

10. Miscellaneous Provisions relating to Credit Linked Notes

(a) **Determinations of the Calculation Agent**

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent in each case in good faith and in a

commercially reasonable manner pursuant to the Credit Linked Note Conditions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor (if applicable) and the Noteholders. Unless otherwise expressly stated, the Calculation Agent is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committee. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. If the Calculation Agent chooses to rely on the determinations of the relevant Credit Derivatives Determinations Committee it may do so without liability. Any such election, modification, determination or adjustment shall not create a significant imbalance between the rights and obligations of the Issuer compared to the Holders, to the detriment of the Holders. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Linked Notes including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and where “Hedging Link Provisions” are specified as applicable in the Final Terms, none of the Calculation Agent, the Issuer or the Guarantor (if applicable) shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

(b) Reversal of DC Resolutions

If, where a calculation or determination with respect to the Credit Linked Notes has been made by the Calculation Agent in reliance upon a DC Resolution or otherwise resulted from a DC Resolution, ISDA publicly announces that such DC Resolution has been reversed by a subsequent DC Resolution, such reversal will be taken into account for the purposes of any subsequent calculations, provided that the ISDA public announcement occurs prior to the DC Resolution Reversal Cut-off Date (or where redeemed in part, save to the extent of any such redemption). The Calculation Agent, acting in good faith and in a commercially reasonable manner, will make any adjustment to any future payments as are required to take account of such reversal, including any payment of additional interest or any reduction in any interest or any other amount payable under the Credit Linked Notes. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment.

(c) Change in Standard Terms and Market Conventions

Where “Hedging Link Provisions” are specified as applicable in the Final Terms, the Calculation Agent, acting reasonably, may (but shall not be obligated to) modify these Credit Linked Note Conditions from time to time with effect from a date designated by the Calculation Agent to the extent reasonably necessary to ensure consistency with prevailing market standards or market trading conventions, which are, pursuant to the agreement of leading dealers in the credit derivatives market or any relevant ISDA committee, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system, applicable to any Notional Credit Derivative Transaction or any Hedge Transaction entered into prior to such date or terms thereof. The Calculation Agent shall notify the Issuer and the Noteholders as soon as reasonably practicable upon making any such determination. For the avoidance of doubt, the Calculation Agent may not, without the consent of the Issuer, amend, pursuant

to this Credit Linked Note Condition 10(c) any of the terms and conditions of the Credit Linked Notes other than the Credit Linked Note Conditions.

In particular, the Calculation Agent may make such modifications as may be necessary to ensure consistency with any successor provisions ("**Successor Provisions**") which are published by ISDA and which supersede the 2014 ISDA Credit Derivatives Definitions, for the purposes of credit derivatives transactions generally (including with respect to transactions which are entered into prior to the relevant date of publication and which are outstanding as of that date) and/or may apply and rely on determinations of a Credit Derivatives Determinations Committee made in respect of a relevant Reference Entity under any such Successor Provisions notwithstanding any discrepancy between the terms of such Successor Provisions and these Credit Linked Note Conditions.

This Credit Linked Note Condition 10(c) shall apply unless the related Final Terms specifies that "Change in Standard Terms and Market Conventions" is not applicable.

(d) Delivery of Notices

As soon as reasonably practicable after receiving a Credit Event Notice or Notice of Publicly Available Information from the Calculation Agent, the Issuer shall promptly inform, or shall procure that the Calculation Agent informs the Noteholders in accordance with Base Condition 16 (*Notices*) provided that any failure or delay in giving such notice to Noteholders shall not affect the rights of the Issuer in relation thereto. Resolutions of the Credit Derivatives Determinations Committees are, as of the date hereof, available on the website of the Credit Derivatives Determinations Committees (<https://www.cdsdeterminationscommittees.org>) (or any successor website thereto).

(e) Effectiveness of Notices

Any notice referred to in Credit Linked Note Condition 10(d) above which is delivered on or prior to 5.00 p.m. (London time) on a London Business Day is effective on such date and if delivered after such time or on a day that is not a London Business Day, is deemed effective on the next following London Business Day.

A notice given by telephone by the Issuer or the Calculation Agent will be deemed to have been delivered at the time the telephone conversation takes place.

(f) Excess Amounts

If, on a Business Day, the Calculation Agent reasonably determines that an Excess Amount has been paid to Noteholders on or prior to such day, then following notification of the determination of an Excess Amount to the Issuer and Noteholders in accordance with Base Condition 16 (*Notices*), the Issuer may deduct any such Excess Amount from future payments in relation to the Credit Linked Notes (whether interest or principal) or may reduce the amount of any assets deliverable under the terms of the Credit

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Linked Notes to the extent that it determines, acting reasonably, to be necessary to compensate for such Excess Amount.

(g) Provisions Relating to Timing

Subject to Credit Linked Note Condition 10(e) and Credit Linked Note Condition 12(h), in order to determine the day on which an event occurs for purposes of the Credit Linked Note Conditions, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

(h) Payment Timing

Notwithstanding the "Credit Event Notice" definition and Credit Linked Note Condition 10(g) (*Provisions Relating to Timing*), if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone of its place of payment.

(i) Business Day Convention

If the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such last day shall be subject to adjustment in accordance with the applicable Business Day Convention; provided that if the last day of any period is the Credit Event Backstop Date or the Successor Backstop Date, such last day shall not be subject to any adjustment in accordance with any Business Day Convention.

(j) No Frustration

In the absence of other reasons, the Credit Linked Notes will not be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (i) the Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (ii) Obligations, Deliverable Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date

(k) Rounding

Any amount payable under these Credit Linked Note Conditions shall be rounded downwards to the nearest sub-unit of the relevant currency.

- (a) any reference to "Delivery Date" or "NOPS Effective Date" in the definitions of "Conditionally Transferable Obligation", "Deliverable Obligation", within any of the terms comprising "Deliverable Obligation Category" or "Deliverable Obligation Characteristic" and "Due and Payable Amount" shall be deemed to be a reference to the words "Relevant Valuation Date"; and

Calculation Agent acting in good faith and in a commercially reasonable manner)), shall not exceed the relevant Reference Entity Notional Amount.

"Weighted Average Quotation" means, in accordance with the bid quotations provided by the Credit Linked Note Dealers, the weighted average of firm quotations obtained from the Credit Linked Note Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Reference Obligation, Deliverable Obligation or Undeliverable Obligation, as the case may be, with an Outstanding Principal Balance or Due and Payable Amount, as applicable (or its equivalent in the relevant currency converted by the Calculation Agent, acting in good faith and in a commercially reasonable manner by reference to exchange rates in effect at the time of such determination), of as large a size as available but less than the Quotation Amount (in the case of Deliverable Obligations only, but of a size at least equal to the Minimum Quotation Amount) that in the aggregate are approximately equal to the Quotation Amount.

12. 2019 Narrowly Tailored Credit Event Provisions

The following are the "NTCE Provisions", which shall (i) not apply in respect of a Reference Entity if such Reference Entity is a Sovereign, or (b) apply in respect of a Reference Entity if such Reference Entity is not a Sovereign, in each case unless otherwise specified in the Final Terms (and reference in any applicable Transaction Type to "2019 NTCE Supplement to the 2014 ISDA Credit Derivatives Definitions (July 2019)" shall for clarification, be to these provisions).

- (a) Outstanding Principal Balance

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

The definition of "Outstanding Principal Balance" in Credit Linked Note Condition 11 shall be deleted and replaced with the following:

"The "**Outstanding Principal Balance**" of an obligation will be calculated as follows:

- (i) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where applicable in accordance with Credit Linked Note Condition 6(h) (*Accrued Interest*), the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (A) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (B) the amount of the Fixed Cap, if any);
- (ii) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (A) is subject to any Prohibited Action, or (B) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (I) payment or (II) a Permitted Contingency) (the amount determined in paragraph (i) less any amounts subtracted in accordance with this paragraph (ii), the "**Non-Contingent Amount**"); and
- (iii) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

unless otherwise specified, in accordance with the terms of the obligation in effect on either (I) the NOPS Effective Date (or if the terms of the obligation are amended after such date but on or prior to the Delivery Date, the Delivery Date), or (II) the Relevant Valuation Date; and

with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purposes of paragraph (B) above, "applicable laws" shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject.

Unless "Fallback Discounting" is specified as not applicable in the applicable Final Terms with respect to the relevant Reference Entity, then notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under paragraph (B) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent. of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent. of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent. of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and
- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee or, if none, as determined by the Calculation Agent in such manner and by reference to such source(s) as it determines appropriate."

(b) Failure to Pay

The definition of "Failure to Pay" in Credit Linked Note Condition 11 shall be deleted and replaced with the following:

"Failure to Pay" means, after the expiration of any applicable Grace Period (after the satisfaction of any conditions precedent to the commencement of such Grace Period), the failure by the Reference Entity to make, when and where due, any payments in an aggregate amount of not less than the Payment Requirement under one or more Obligations, in accordance with the terms of such Obligations at the time of such failure.

If an occurrence that would constitute a Failure to Pay (a) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (b) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination.

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Unless "Credit Deterioration Requirement" is specified as not applicable in respect of the relevant Reference Entity in the applicable Final Terms, then, notwithstanding the foregoing, it shall not constitute a Failure to Pay if such failure does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of the Reference Entity, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. In making such determination, the Calculation Agent may take into account the guidance note set out in paragraph 3 (Interpretive Guidance) of the ISDA 2019 Narrowly Tailored Credit Event Supplement to the 2014 ISDA Credit Derivatives Definitions (published on 15 July 2019).".

ANNEX A TO THE ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

AUCTION REDEMPTION

Capitalized terms used but not defined in this summary have the meaning specified in the Rules and the Form of Auction Settlement Terms (as defined below or in Annex B to the Additional Terms and Conditions for Credit Linked Notes). All times of day in this summary refer to such times in London.

Publication of Credit Derivatives Auction Settlement Terms

A Credit Derivatives Determinations Committee may determine that a Credit Event has occurred in respect of a Reference Entity (such entity, an "**Affected Reference Entity**") and that one or more auctions will be held in order to settle affected transactions referencing such Affected Reference Entity based upon a specified Auction Final Price determined in accordance with an auction procedure (each, an "**Auction**"). If an Auction is to be held, the Credit Derivatives Determinations Committee will publish Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity, based upon the Form of Auction Settlement Terms first published as Annex B to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions, published by the International Swaps and Derivatives Association, Inc. ("ISDA") on 12 March 2009 (the "**Form of Auction Settlement Terms**"). Noteholders should note that the Credit Derivatives Determinations Committees have the power to amend the form of Credit Derivatives Auction Settlement Terms for a particular auction and that this summary may therefore not be accurate in all cases. The following does not purport to be a complete summary and prospective investors must refer to the Form of Auction Settlement Terms for detailed information regarding the auction methodology set forth therein (the "**Auction Methodology**"). The Auction and the Auction Methodology apply to credit default swaps on the Reference Entity and do not apply specifically to the Credit Linked Notes. A copy of the Form of Auction Settlement Terms may be inspected at the offices of the Issuer and is also currently available at www.isda.org (or any successor website thereto). The Credit Derivatives Determinations Committee will additionally make several related determinations, including the date on which the Auction will be held (the "**Auction Date**"), the institutions that will act as participating bidders in the Auction (the "**Participating Bidders**") and the supplemental terms that are detailed in Schedule 1 to the Form of Auction Settlement Terms. The Credit Derivatives Determinations Committee may also amend the Form of Auction Settlement Terms for a particular auction and may determine that a public comment period is necessary in order to effect such an amendment if such amendment is not contemplated by the Rules.

Auction Methodology*Determining the Auction Currency Rate*

On the Auction Currency Fixing Date, the Administrators will determine the rate of conversion (each, an "**Auction Currency Rate**") as between the Relevant Currency and the currency of denomination of each Deliverable Obligation (each, a "**Relevant Pairing**") by reference to a Currency Rate Source or, if such Currency Rate Source is unavailable, by seeking mid-market rates of conversion from Participating Bidders (determined by each such

Participating Bidder in a commercially reasonable manner) for each such Relevant Pairing. If rates of conversion are sought from Participating Bidders and more than three such rates are obtained by the Administrators, the Auction Currency Rate will be the arithmetic mean of such rates, without regard to the rates having the highest and lowest values. If exactly three rates are obtained, the Auction Currency Rate will be the rate remaining after disregarding the rates having the highest and lowest values. For this purpose, if more than one rate has the same highest or lowest value, then one of such rates shall be disregarded. If fewer than three rates are obtained, it will be deemed that the Auction Currency Rate cannot be determined for such Relevant Pairing.

Initial Bidding Period

During the Initial Bidding Period, Participating Bidders will submit to the Administrators: (a) Initial Market Bids; (b) Initial Market Offers; (c) Dealer Physical Settlement Requests; and (d) Customer Physical Settlement Requests (to the extent received from customers).

Initial Market Bids and Initial Market Offers are firm quotations, expressed as percentages, to enter into credit derivative transactions in respect of the Affected Reference Entity on terms equivalent to the Representative Auction-Settled Transaction.

The Initial Market Bid and Initial Market Offer submitted by each Participating Bidder must differ by no more than the designated Maximum Initial Market Bid-Offer Spread and must be an integral multiple of the Relevant Pricing Increment (each as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity). The Initial Market Bid must be less than the Initial Market Offer.

Dealer Physical Settlement Requests and Customer Physical Settlement Requests are firm commitments, submitted by a Participating Bidder, on its own behalf or on behalf of a customer, as applicable, to enter into a Representative Auction-Settled Transaction, in each case, as seller (in which case, such commitment will be a "Physical Settlement Buy Request") or as buyer (in which case, such commitment will be a "Physical Settlement Sell Request"). Each Dealer Physical Settlement Request must be, to the best of such Participating Bidder's knowledge and belief, in the same direction as, and not in excess of, its Market Position. Each Customer Physical Settlement Request must be, to the best of the relevant customer's knowledge and belief (aggregated with all Customer Physical Settlement Requests submitted by such customer), in the same direction as, and not in excess of, its Market Position.

If the Administrators do not receive valid Initial Market Bids and Initial Market Offers from at least a minimum number of Participating Bidders (as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity), the timeline will be adjusted and the Initial Bidding Period extended, with the Auction recommencing at such time(s) specified by the Administrators, otherwise it will proceed as follows.

Determination of Open Interest, Initial Market Midpoint and Adjustment Amounts

The Administrators will calculate the Open Interest, the Initial Market Midpoint and any Adjustment Amounts in respect of the Auction.

The Open Interest is the difference between all Physical Settlement Sell Requests and all Physical Settlement Buy Requests.

To determine the Initial Market Midpoint, the Administrators will: (a) sort the Initial Market Bids in descending order and the Initial Market Offers in ascending order, identifying non-tradeable markets for which bids are lower than offers; (b) sort non-tradeable markets in terms of tightness of spread between Initial Market Bid and Initial Market Offer; and (c) identify that half of the non-tradeable markets with the tightest spreads. The Initial Market Midpoint is determined as the arithmetic mean of the Initial Market Bids and Initial Market Offers contained in the half of non-tradeable markets with the tightest spreads.

Any Participating Bidder whose Initial Market Bid or Initial Market Offer forms part of a tradeable market will be required to make a payment to ISDA on the third Business Day after the Auction Final Price Determination Date (an "**Adjustment Amount**"), calculated in accordance with the Auction Methodology. Any payments of Adjustment Amounts shall be used by ISDA to defray any costs related to any auction that ISDA has coordinated, or that ISDA will in the future coordinate, for purposes of settlement of credit derivative transactions.

If for any reason no single Initial Market Midpoint can be determined, the procedure set out above may be repeated.

At or prior to the Initial Bidding Information Publication Time on any day on which the Initial Bidding Period has successfully concluded, the Administrators publish the Open Interest, the Initial Market Midpoint and the details of any Adjustment Amounts in respect of the Auction.

If the Open Interest is zero, the Auction Final Price will be the Initial Market Midpoint.

Submission of Limit Order Submissions

In the event that the Open Interest does not equal zero, a subsequent bidding period will be commenced during the Initial Bidding Period which: (a) if the Open Interest is an offer to sell Deliverable Obligations, Participating Bidders submit Limit Bids; or (b) if the Open Interest is a bid to purchase Deliverable Obligations, Limit Offers, in each case, on behalf of customers and for their own account.

Matching bids and offers

If the Open Interest is a bid to purchase Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Offers and Limit Offers, as further described in the Auction Methodology. If the Open Interest is an offer to sell Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Bids and Limit Bids, as further described in the Auction Methodology.

Auction Final Price when the Open Interest is Filled

The Auction Final Price will be the price associated with the matched Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, that is the highest offer or the lowest bid, as applicable, provided that: (a) if the Open Interest is an offer to sell and the price associated with the lowest matched bid exceeds the Initial Market Midpoint by more than the "Cap Amount" (being the percentage that is equal to one half of the Maximum Initial Market Bid-Offer Spread (rounded to the nearest Relevant Pricing Increment)), then the Auction Final Price will be the Initial Market Midpoint plus the Cap Amount; and (b) if the Open Interest is a bid to purchase and the Initial Market Midpoint exceeds the price associated with the highest offer by more than the Cap Amount, then the Auction Final Price will be the Initial Market Midpoint minus the Cap Amount.

Auction Final Price when the Open Interest is Not Filled

If, once all the Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, have been matched to the Open Interest, part of the Open Interest remains, the Auction Final Price will be: (a) if the Open Interest is a bid to purchase Deliverable Obligations, the greater of (i) zero, and (ii) the highest Limit Offer or Initial Market Offer received; or (b) if the Open Interest is an offer to sell Deliverable Obligations, zero.

100 per cent. Cap to Auction Final Price

In all cases, if the Auction Final Price determined pursuant to the Auction Methodology is greater than 100 per cent., then the Auction Final Price will be deemed to be 100 per cent.

Publication of Auction Final Price

At or prior to the Subsequent Bidding Information Publication Time on any day on which the subsequent bidding period has successfully concluded, the Administrators will publish on their websites: (a) the Auction Final Price; (b) the names of the Participating Bidders who submitted bids, offers, valid Dealer Physical Settlement Requests and valid Customer Physical Settlement Requests, together with the details of all such bids and offers submitted by each; and (c) the details and size of all matched trades.

Restructuring

Following certain Restructuring credit events, more than one auction may be held and there may be more than one Auction Final Price and credit default swaps are grouped into buckets by maturity and depending on which party triggers the credit default swap. Deliverable obligations will be identified for each bucket (any deliverable obligations included in a shorter bucket will also be deliverable for all longer buckets). If the Credit Derivatives Determinations Committee determines to hold an auction for a particular bucket, then that auction will be held according to the existing auction methodology that has previously been used for Bankruptcy and Failure to Pay credit events as described in the summary below, except that the deliverable obligations will be limited to those falling within the relevant maturity bucket.

Execution of Trades Formed in the Auction

Each Participating Bidder whose Limit Bid or Initial Market Bid (or Limit Offer or Initial Market Offer if applicable) is matched against the Open Interest, and each Participating Bidder that submitted a Customer Physical Settlement Request or Dealer Physical Settlement Request, is deemed to have entered into a Representative Auction-Settled Transaction, and each customer that submitted such a Limit Bid, Limit Offer, or Physical Settlement Request is deemed to have entered into a Representative Auction-Settled Transaction with the dealer through whom the customer submitted such bid or offer. Accordingly, each such Participating Bidder or customer that is a seller of Deliverable Obligations pursuant to a trade formed in the auction must deliver to the buyer to whom such Participating Bidder or customer has been matched a Notice of Physical Settlement indicating the Deliverable Obligations that it will deliver, and such Deliverable Obligations will be sold to the buyer in exchange for payment of the Auction Final Price.

Timing of Auction Settlement Provisions

If an Auction is held in respect of an Affected Reference Entity, it is expected that the relevant Auction Date will occur on the third Business Day immediately prior to the 30th calendar day after which the relevant Credit Derivatives Determinations Committee received the request from an eligible market participant (endorsed by a member of the relevant Credit Derivatives Determinations Committee) to resolve whether a Credit Event has occurred with respect to such Reference Entity.

In respect of an Affected Reference Entity for which an Auction is held, the Auction Settlement Date will occur on a Business Day following the Auction Final Price Determination Date, as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity.

ANNEX B TO THE ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

CREDIT DERIVATIVES DETERMINATIONS COMMITTEES

In making certain determinations with respect to the Credit Linked Notes, the Calculation Agent may but is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committees. This Annex sets forth a summary of the Credit Derivatives Determinations Committees Rules, as published by ISDA and made available on the website of the Credit Derivatives Determinations Committees at <https://www.cdsdeterminationscommittees.org> (or any successor website thereto) as of 28 September 2018 (the "Rules") and is subject to the rules as published by ISDA from time to time and as amended from time to time. This summary is not intended to be exhaustive and prospective investors should also read the Rules and reach their own views prior to making any investment decisions. A copy of the Rules published by ISDA is available at: <https://www.cdsdeterminationscommittees.org> (or any successor website thereto).

Capitalised terms used but not defined in this summary have the meaning specified in the Final Terms or the Rules, as applicable.

Establishment of the Credit Derivatives Determinations Committees

In accordance with the Rules, a Credit Derivatives Determinations Committee has been formed for each of the regions of (a) the Americas, (b) Asia Ex-Japan, (c) Australia-New Zealand, (d) Europe, Middle East and Africa and (e) Japan. As of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. See "Risk Factors – Risk Associated with Credit Derivatives Determinations Committees" for additional information regarding conflicts of interest. The Credit Derivatives Determinations Committees will act in accordance with the Rules and will make determinations that are relevant for Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 ISDA Credit Derivatives Definitions, as amended from time to time (the "2014 Definitions"). ISDA will serve as the secretary of each Credit Derivatives Determinations Committee and will perform administrative duties and make certain determinations as provided for under the Rules.

Decision-making Process of the Credit Derivatives Determinations Committees

Each DC Resolution by a Credit Derivatives Determinations Committee will apply to Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions (depending on the applicable "Coverage Election" and subsequent determinations of the Credit Derivatives Determinations Committee) and for which the relevant provisions are not materially inconsistent with the provisions with respect to which the Credit Derivatives Determinations Committee bases its determination. As a result, determinations by the Credit Derivatives Determinations Committees are not applicable to the Noteholders, unless specified otherwise in the terms of the Credit Linked Notes. The Credit Derivatives Determinations Committees shall have no ability to amend the terms of the Credit Linked Notes. Furthermore, the institutions on the Credit Derivatives Determinations Committees owe no duty to the Noteholders. See "Risk Factors - Risks Associated with Credit Derivatives Determinations Committees" for further information. The terms of the Credit

Linked Notes provide that the Noteholders will be subject to certain determinations by the Credit Derivatives Determinations Committees. The Credit Derivatives Determinations Committees will be able to make determinations without action or knowledge by the Noteholders.

A Credit Derivatives Determinations Committee will be convened upon referral of (i) a question to ISDA by an identified eligible market participant and the agreement of at least one of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (ii) a question to ISDA by an unidentified eligible market participant and the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (iii) a question to ISDA by an eligible market participant which is an Eligible CCP (being an eligible clearing entity) and such question is not designated as a "General Interest Question" and relates to an eligible cleared Reference Entity with respect to such Eligible CCP and to certain specified matters such as a Credit Event, Potential Repudiation/Moratorium and/or Successor. ISDA will convene the Credit Derivatives Determinations Committee for the region to which the referred question relates, as determined in accordance with the Rules. Any party to a transaction that incorporates, or is deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions may refer a question to ISDA for a Credit Derivatives Determinations Committee to consider. Therefore, a binding determination may be made with respect to the Credit Linked Notes without any action by the Noteholders. Noteholders (in their capacity as holders of the Credit Linked Notes) will not be able to refer questions to the Credit Derivatives Determinations Committees.

Once a question is referred to a Credit Derivatives Determinations Committee, a DC Resolution may result quickly, as a binding vote usually must occur within two business days of the first meeting held with respect to such question unless the timeframe is extended by agreement of at least 80% of the voting members participating in a vote held in accordance with the Rules. In addition, voting members of the Credit Derivatives Determinations Committees are required to participate in each binding vote, subject only to limited abstention rights. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions, meeting statements and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Noteholders of such information (other than as expressly provided in the Final Terms). Noteholders shall therefore be responsible for obtaining such information. See "Risk Factors – Risks Associated with Credit Derivatives Determinations Committees".

The Credit Derivatives Determinations Committees have the ability to make determinations that may materially affect the Noteholders. The Credit Derivatives Determinations Committees will be able to make a broad range of determinations in accordance with the Rules that may be relevant to the Credit Linked Notes and materially affect the Noteholders. For each of the general types of questions discussed below, the Credit Derivatives Determinations Committees may determine component questions that arise under the 2014 Definitions or the Updated 2003 Definitions, or the Rules and that are related to the initial question referred. Since the terms governing the credit-linked elements of the Credit Linked Notes are substantially similar to the 2014 Definitions or, as the case may be, the Updated 2003 Definitions, such determinations may affect the Noteholders, as further described below.

Credit Events

The Credit Derivatives Determinations Committees will be able to determine whether a Credit Event has occurred and, if applicable, the date of such Credit Event. Related questions that are also within the scope of the Credit Derivatives Determinations Committees are whether a Potential Failure to Pay or a Potential Repudiation/Moratorium has occurred. In addition, the Credit Derivatives Determinations Committees will also determine, where necessary, whether the required Publicly Available Information has been provided. Each of these determinations, other than whether the required Publicly Available Information has been provided, requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The determination of whether the required Publicly Available Information has been provided requires the agreement of at least a majority of the voting members participating in a binding vote held in accordance with the Rules and is not eligible for external review. Each of these determinations may affect whether an Event Determination Date will occur under the Credit Linked Notes. If the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred with respect to one of the Reference Entity(ies) on or after the Credit Event Backstop Date, then an Event Determination Date is deemed to have occurred in respect of the Credit Linked Notes.

Successors

The Credit Derivatives Determinations Committees will be able to determine whether there are any Successor or Successors to a Reference Entity and the relevant Succession Date. In addition, the Credit Derivatives Determinations Committees will also determine the identity of the Successor(s) in accordance with the Rules. For a Reference Entity that is not a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments required to be made if there is a Steps Plan), the proportion of the Relevant Obligation(s) to which each purported Successor succeeds and the Succession Date. For a Reference Entity that is a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments to be made if there is a Steps Plan), whether a Sovereign Succession Event has occurred, if so the proportion of the Relevant Obligation(s) to which each purported Successor succeeds, and the Succession Date. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below, except for the actual identification of the Successor(s) for a Reference Entity (which only requires a majority and is not eligible for external review). The Calculation Agent may use the relevant DC Resolutions of the Credit Derivatives Determinations Committees in order to determine Successor(s) to the Reference Entity(ies).

Other Questions

The Credit Derivatives Determinations Committees will be able to determine whether circumstances have occurred that require a Substitute Reference Obligation to be identified and, if so, the appropriate Substitute Reference Obligation. The Credit Derivatives Determinations Committees may also make determinations in relation to (i) Standard Reference Obligations and if applicable replacement Standard Reference Obligations in accordance with the Standard Reference Obligation Rules and (ii) whether or not Asset Package Delivery is applicable pursuant to the 2014 Definitions and if so, any Asset Package relating to a Prior Deliverable Obligation or Package Observable Bond, as applicable. In addition, the Credit Derivatives Determinations Committees will

be able to determine whether an entity that acts as seller of protection under one or more transactions (such entity, the "Relevant Seller") or a Reference Entity has consolidated or amalgamated with, or merged into, or transferred all or substantially all its assets to, the Reference Entity or the Relevant Seller, as applicable, or that the Relevant Seller and the Affected Reference Entity have become Affiliates. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The Calculation Agent may follow such DC Resolutions in making the equivalent determinations with respect to the Credit Linked Notes.

The Credit Derivatives Determinations Committees will be able to determine other referred questions that are relevant to the credit derivatives market as a whole and are not merely a matter of bilateral dispute. Such questions require the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules for each Credit Derivatives Determinations Committee implicated by the relevant question, as determined in accordance with the Rules, in order to avoid the possible referral of the question to the external review process, as described further below. Furthermore, the question relating to such DC Resolution may also be referred to the external review process if at least a majority of the voting members participating in a binding vote held in accordance with the Rules agree. Any guidance given by the Credit Derivatives Determinations Committees with respect to questions of interpretation of the 2014 Definitions or, as the case may be, the Updated 2003 Definitions are likely to influence the Calculation Agent in interpreting equivalent provisions under the Credit Linked Notes.

Any such question can be submitted to the Credit Derivatives Determinations Committees by an unidentified eligible market participant for deliberation. The relevant Credit Derivatives Determinations Committee(s) will deliberate such question upon the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question. Once the deliberations on such question have commenced, the relevant Credit Derivatives Determinations Committee will proceed in accordance with the procedures described above with respect to the relevant question category, except that the identity of the eligible market participant who submitted the question will not be revealed to the members of the Credit Derivatives Determinations Committees or the general public.

External Review

As described immediately above, certain questions deliberated by the Credit Derivatives Determinations Committees are subject to an external review process if the required threshold is not met during the binding vote held with respect to such question. For such questions, if at least 80% of the voting members participating in a binding vote held in accordance with the Rules fail to agree, the question will be automatically referred to the external review process. Questions that are not eligible for external review often require only a simple majority of participating voting members to agree in order to reach a DC Resolution.

Questions referred to external review will be considered by a panel of three independent individuals who will be selected by either the relevant Credit Derivatives Determinations Committee or by ISDA at random. The default duration of the external review process (which can be modified by the relevant Credit Derivatives Determinations

Committee in accordance with the Rules) is twelve business days from the referral of the question and contemplates the receipt of both written submissions and oral argument. Any member of ISDA may provide written submissions to the external reviewers, which will be made available to the public on the ISDA website, and the conclusion reached in accordance with the external review process will be binding on the Noteholders. In instances where the vote of the relevant Credit Derivatives Determinations Committee was less than or equal to 60%, the decision of a majority of the external reviewers will be determinative. However, in instances where the vote of the relevant Credit Derivatives Determinations Committee was between 60% and 80%, all three external reviewers must agree in order to overturn the vote of the Credit Derivatives Determinations Committee.

Noteholders should be aware that the external reviewers may not consider new information that was not available to the relevant Credit Derivatives Determinations Committee at or prior to the time of the binding vote and questions may be returned to the Credit Derivatives Determinations Committee for another vote if new information becomes available. In addition, if the external reviewers fail to arrive at a decision for any reason, the entire process will be repeated. As a result, the external review process may be elongated in certain situations, leaving questions that may materially affect the Noteholders unresolved for a period of time.

The Composition of the Credit Derivatives Determinations Committees

Each Credit Derivatives Determinations Committee is composed of fifteen voting members and three non-voting consultative members. Ten of the voting members are dealer institutions, with eight serving across all regions and two potentially varying by region. The other five voting members are non-dealer institutions that serve across all regions. The three non-voting consultative members consist of one dealer institution and one non-dealer institution that serve across all regions and one dealer institution that could potentially vary by region. For the first composition of the Credit Derivatives Determinations Committees only, an additional non-voting dealer institution has been selected to serve across all regions.

Noteholders will have no role in the composition of the Credit Derivatives Determinations Committees. Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committees and the Noteholders will have no role in establishing such criteria. In addition, the composition of the Credit Derivatives Determinations Committees will change from time to time in accordance with the Rules, as the term of an institution may expire or an institution may be required to be replaced. The Noteholders will have no control over the process for selecting institutions to participate on the Credit Derivatives Determinations Committees and, to the extent provided for in the Credit Linked Notes, will be subject to the determinations made by such selected institutions in accordance with the Rules.

Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees

As of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. In such capacity, it may take certain actions that may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees, including (without limitation): (a) agreeing to deliberate a question referred to ISDA, (b) voting on the resolution of any question

being deliberated by a Credit Derivatives Determinations Committee and (c) advocating a certain position during the external review process. In addition, as a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, the Calculation Agent may refer a question to ISDA for a Credit Derivatives Determinations Committee to deliberate. In deciding whether to take any such action, the Calculation Agent (or its Affiliate) shall be under no obligation to consider the interests of any Holder. See "*Potential conflicts of interest of the Calculation Agent*" below for additional information.

Potential Conflicts of interest of the Calculation Agent

Since, as of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees and is a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, it may take certain actions which may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees. See "*Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees*" above for additional information. Such action may be adverse to the interests of the Noteholders and may result in an economic benefit accruing to the Calculation Agent. In taking any action relating to the Credit Derivatives Determinations Committees or performing any duty under the Rules, the Calculation Agent shall have no obligation to consider the interests of the Noteholders and may ignore any conflict of interest arising due to its responsibilities under the Credit Linked Notes.

Noteholders will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committees or the external reviewers. Institutions serving on the Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on the Credit Derivatives Determinations Committees do not owe any duty to the Noteholders and the Noteholders will be prevented from pursuing claims with respect to actions taken by such institutions under the Rules.

Noteholders should also be aware that institutions serving on the Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts.

Noteholders shall be responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Noteholders of such information (other than as expressly provided in the Final Terms). Failure by the Noteholders to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under the Final Terms and Noteholders are solely responsible for obtaining any such information.

Amendments to the Rules

ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

The Rules may be amended from time to time without the consent or input of the Noteholders and the powers of the Credit Derivatives Determinations Committees may be expanded or modified as a result.

- (c) *Realisation of Mortgaged Property upon early redemption or Event of Default*: If the Security in relation to any of the Mortgaged Property becomes enforceable where the Notes are declared immediately due and payable pursuant to Secured Notes Condition 7 (*Events of Default*) or otherwise as specified in the Final Terms, the Security Trustee or, where permitted in accordance with Secured Notes Condition 9 (*Disposal of Collateral Assets*) the Liquidation Agent may in its discretion and, if requested by an

Instructing Creditor, shall (in each case, subject to being indemnified and/or secured and/or prefunded to its satisfaction) realise such Mortgaged Property and/or take such action as may be permitted under applicable laws against any obligor in respect of such Mortgaged Property. The Security Trustee and Liquidation Agent will not have any liability as to the consequence of such action and will not have regard to the effect of such action on individual Noteholders or the Counterparty. On the occurrence of any such event, the Charged Agreement(s) may, if so provided therein, terminate in accordance with its or their terms.

3. Application of Proceeds

The Security Trust Deed provides for the application of the Realisation Amount in accordance with the relevant Security Ranking Basis specified below (following payment of (i) all amounts due to the Security Trustee and/or any receiver or other appointee under or pursuant to the Security Trust Deed, including any costs, expenses and taxes incurred in connection with enforcement or realisation in accordance with the Security Trust Deed and thereafter (ii) the Liquidation Agent in respect of its fees and expenses and thereafter (iii) all amounts due and unpaid to the Fiscal Agent under clause 11 of the Issue and Paying Agency Agreement).

Where Collateral Arrangements Only is specified as applying in the Final Terms the "**Security Ranking Basis**" means the Realisation Amount will be applied first, in the meeting claims of the Noteholders under the Notes on a *pari passu* and *pro rata* basis, and second, in paying any remaining amount to MBFL.

Where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms:

The applicable Final Terms will specify the "**Security Ranking Basis**" in accordance with which the Realisation Amount will be applied being one of the following (or otherwise as specified in the applicable Final Terms):

- (i) "**Noteholder Priority Basis**", meaning first in meeting claims of the Noteholders under the Notes on a *pari passu* and *pro rata* basis and, thereafter, in meeting the claims of the Counterparty under the Charged Agreement(s); or
- (ii) "**Pari Passu Basis**", meaning in meeting the claims of the Noteholders and the Counterparty under the Charged Agreement(s) on a *pari passu* and *pro rata* basis; or
- (iii) "**Counterparty Priority Basis**", meaning first, in meeting the claims of the Counterparty under the Charged Agreement(s) and, thereafter, in meeting the claims of the Noteholders on a *pari passu* and *pro rata* basis.

For the avoidance of doubt, the Counterparty shall not have any claim in respect of the Issuer's Rights under the Charged Agreement(s). Where more than one Counterparty is specified in the Final Terms then the Security Ranking Basis will be as specified in the Final Terms.

4. Shortfall after Application of Proceeds

In the event that, following the application of the Realisation Amount in accordance with the applicable Security Ranking Basis, the amount payable to a Noteholder in respect of each Note held by him or her is less than the Note Termination Amount (the difference being referred to as a "**Shortfall**"), MBFL (failing which, the Guarantor) shall remain liable for such Shortfall, but any such Noteholders shall not have recourse to the Mortgaged Property secured in respect of any other Series of Notes.

5. Adjustment of Collateral Assets

This Secured Notes Condition applies where Collateral Arrangements Only is specified as applying in the Final Terms.

The Final Terms will specify whether "Adjustment of Collateral Assets" applies to Secured Notes and where this is applicable, MBFL may or, in some cases, will be obliged to adjust Collateral Assets from time to time as described below. If no such specification is made in the Final Terms, Adjustment of Collateral Assets will be deemed to be not applicable.

Where Adjustment of Collateral Assets applies then MBFL may or must, as applicable, from time to time, at its own cost and subject to the Security Trust Deed, by giving not less than 2 Business Days' notice (an "**Adjustment Notice**") in writing to the Security Trustee exercise its rights or perform its obligations as follows:

- (a) If "Issuer Collateral Assets Optional Top Up Right" is specified as applying in the Final Terms, MBFL may at its option provide further Eligible Collateral and secure this in favour of the Security Trustee on the same terms *mutatis mutandis*, as the other Collateral Assets; and/or
- (b) If "Issuer Collateral Assets Excess Removal Right" is specified as applying in the Final Terms, MBFL may at its option require that any loans, cash, securities or other assets for the time being comprising the Collateral Assets are released from the Security Interests in accordance with the Security Trust Deed and transferred to it for its own account provided that immediately following such transfer the Collateral Assets Coverage Requirement is met, even though this may not be the case subsequently; and/or
- (c) If "Issuer Collateral Assets Maintenance Obligation" is specified as applying in the Final Terms, MBFL must at all times ensure the Collateral Assets Coverage Requirement is met and where required in order to do so must provide further Eligible Collateral and secure this in favour of the Security Trustee on the same terms, *mutatis mutandis* as the other Collateral Assets; and/or
- (d) If "Issuer Collateral Assets Substitution Right (with coverage test)" is specified as applying in the Final Terms, MBFL may require that any loans, cash, securities or other assets for the time being comprising the Collateral Assets be replaced by Eligible Collateral and the Security Trustee shall accordingly release the Collateral Assets from the Security Interests in accordance with the Security Trust Deed to enable such adjustment, provided that upon any release of the substituted Collateral Assets from the Security Interests, the replacement Collateral Assets are secured by MBFL on the same terms *mutatis mutandis* as the substituted Collateral Assets and the Collateral Assets Coverage Requirement must be met immediately following the adjustments, even if this is not the case subsequently; and/or

- (e) If “Issuer Collateral Assets Substitution Right (without coverage test)” is specified as applying in the Final Terms, MBFL may require that any loans, cash, securities or other assets for the time being comprising the Collateral Assets be replaced by Eligible Collateral and the Security Trustee shall accordingly release the Collateral Assets from the Security Interests in accordance with the Security Trust Deed to enable such adjustment, provided that upon any release of the substituted Collateral Assets from the Security Interests, the replacement Collateral Assets are secured by MBFL on the same terms *mutatis mutandis* as the substituted Collateral Assets and the aggregate Value of the Collateral Assets immediately following such adjustment must be at least equal to the aggregate Value of the Collateral Assets immediately prior to such adjustment, even if this is not the case subsequently.

The Final Terms will specify whether Value Basis or Nominal Basis will apply and the criteria for the Eligible Collateral.

In any of the above cases, all requirements of any relevant stock exchange or competent authority and any other conditions specified in the Final Terms must be complied with.

Following its delivery of an Adjustment Notice to the Security Trustee, MBFL must also notify the Fiscal Agent, the Custodian, the Account Bank, the Calculation Agent, the Liquidation Agent and the Noteholders as soon as reasonably practicable provided that any failure to do so will not affect the validity of the relevant adjustment to the Collateral Assets.

6. Early Redemption

- 6.1 *Early redemption upon termination of a Charged Agreement:* If “Early redemption upon a Charged Agreement Termination” is specified as applicable in the Final Terms, the Notes may be redeemed at the option of MBFL in whole, but not in part, any time, on giving not less than 30 nor more than 60 days’ notice (or such other period of notice as set out in the applicable Final Terms) to Noteholders in accordance with Base Condition 16 (*Notices*) (which notice shall be irrevocable), in the event that, where Charged Agreement/Collateral Arrangements are specified as applying in the Final Terms, if any applicable Transfer Agreement, Credit Support Document or Additional Charged Agreement is terminated in accordance with its terms prior to its stated date of termination.
- 6.2 *Early redemption upon a Regulatory Event:* If “Early redemption upon a Regulatory Event” is specified as applicable in the Final Terms, the Notes may be redeemed at the option of MBFL in whole, but not in part, any time, on giving not less than 30 nor more than 60 days’ notice (or such other period of notice as set out in the applicable Final Terms) to Noteholders in accordance with Base Condition 16 (*Notices*) (which notice shall be irrevocable), in the event that a change in applicable law or regulation occurs that results, or will result, solely by reason of the Notes being outstanding, in the relevant Issuer being required to be regulated by any additional jurisdiction or regulatory authority, or being subject to any additional legal requirement or regulation considered by the relevant Issuer to be materially onerous to it.
- 6.3 *Early redemption amount:* Each Note settled early pursuant to this Base Condition 6 will be redeemed at its Note Termination Amount.

7. Events of Default

If any of the following events (each an "**Event of Default**") occurs and is continuing, the holder of a Note of any Series may give written notice to the Fiscal Agent, the Liquidation Agent and the Security Trustee each at its specified office that such Note is immediately repayable, whereupon the Note Termination Amount (calculated on the basis that MBFL and the Guarantor are obligors of the highest creditworthiness) of such Note shall become immediately due and payable:

- (a) **Default in payment:** default is made for a period of (i) 5 Business Days or more in the payment of any Note Termination Amount, Automatic Early Redemption Amount, Optional Cash Redemption Amount (Call), Optional Cash Redemption Amount (Put), Instalment Amount, Cash Redemption Amount or other payment amount (excluding any Interest Amount) on any of the Notes or (ii) for a period of 15 Business Days or more in the payment of any Interest Amount due in respect of the Notes or any of them;
- (b) **Failure to deliver:** MBFL fails to deliver any Entitlement or Early Redemption Entitlement on the due date for delivery and such failure to deliver has not been remedied within 30 calendar days of notice of such failure having been given to MBFL by any Noteholder, provided that an Event of Default shall not occur under this Secured Notes Condition 7(b) if any of the conditions to settlement to be satisfied by the Noteholder have not been so satisfied as at the due date for delivery;
- (c) **Failure to perform any other Obligation:** MBFL or the Guarantor (where applicable) is in breach of or fails duly to perform any other obligation under or in respect of the Notes, the MBFL Deed of Guarantee, the Security Trust Deed, the Issue and Paying Agency Agreement, the Custody Agreement, or Account Bank Agreement and such failure continues for more than 30 days after the service by a holder of a Note or the Security Trustee of notice on MBFL requiring the same to be remedied;
- (d) **General suspension of payments:** MBFL or the Guarantor (where applicable) suspends its payments generally;
- (e) **Bankruptcy, composition or similar event:** a court in the country of domicile of MBFL or the Guarantor (where applicable) institutes bankruptcy proceedings or composition proceedings to avert a bankruptcy or MBFL or the Guarantor (where applicable) applies for institution of such proceedings or any event occurs in relation to MBFL or the Guarantor (where applicable) which under the laws of the Republic of Italy or Luxembourg has an analogous effect to such proceedings;
- (f) **Cross-default:** (i) any other present or future indebtedness of MBFL or the Guarantor for or in respect of moneys borrowed or raised becomes due and payable prior to its stated maturity as a result of any payment default thereon by MBFL or, as the case may be, the Guarantor, or (ii) any such indebtedness is not paid when due or, as the case may be, within an applicable grace period, or (iii) MBFL or the Guarantor fails to pay when due any amount payable by it under any present or future guarantee for, or indemnity in respect of any moneys borrowed or raised **provided that** an event of default pursuant to paragraphs (i), (ii) or (iii) above of this Secured Notes Condition 7 shall only occur if: (A) the aggregate amount of the relevant indebtedness, guarantees and indemnities in respect of which one of the events

mentioned in paragraphs (i), (ii) or (iii) above have occurred and is continuing exceeds €35,000,000 and (B) MBFL or the Guarantor is not contesting in good faith in a competent court in a recognised jurisdiction that the relevant indebtedness or guarantee and/or indemnity is due and enforceable, as appropriate;

- (g) **Insolvency:** either MBFL or the Guarantor is (or is deemed by law or a court to be) insolvent or bankrupt or unable to pay its debts, proposes or makes a general assignment or an arrangement or composition with or for the benefit of the relevant creditors in respect of any of such debts or a moratorium is agreed or declared in respect of or affecting all or any part of (or of a particular type of) the debts of MBFL or the Guarantor as the case may be;
- (h) **Winding-up:** an order is made or an effective resolution is passed for the winding-up or dissolution or administration of MBFL or the Guarantor applies or petitions for a winding-up or administration order in respect of itself or ceases or threatens to cease to carry on all or substantially all of its business or operations, in each case except for the purposes of and pursuant to or in connection with a reconstruction, amalgamation, reorganisation, merger, de-merger, consolidation, deconsolidation or disposal or contribution in kind of assets or branches of business;
- (i) **Ownership:** MBFL ceases to be controlled by Mediobanca (except in the case of a reconstruction, amalgamation, reorganisation, merger, de-merger, consolidation or similar transaction by which Mediobanca assumes the payment obligations of MBFL under the Notes);
- (j) **Illegality:** it is or will become unlawful for MBFL to perform or comply with any one or more of its obligations under any of the Notes;
- (k) **Guarantee:** the MBFL Deed of Guarantee ceases to be a valid and binding obligation of the Guarantor or it becomes unlawful for the Guarantor to perform its obligations under the MBFL Deed of Guarantee or the MBFL Deed of Guarantee is claimed by MBFL or the Guarantor not to be in full force and effect (except in the case of a reconstruction, amalgamation, reorganisation, merger, de-merger, consolidation or similar transaction by which Mediobanca assumes the payment obligations of MBFL under the Notes);
or
- (l) if specified in the Final Terms any Additional Event of Default occurs in respect of the relevant Series of Notes.

For the purpose of paragraph (f) above, any indebtedness for borrowed money which is in a currency other than euro shall be translated at the spot rate for the sale of the relevant currency against the purchase of euro in Luxembourg as quoted by a leading bank selected by the Fiscal Agent for this purpose on the day in Luxembourg on which such premature repayment becomes due or, as the case may be, such default occurs (or, if for any reason such a rate is not available on that day, on the earliest possible date thereafter).

8. Enforcement

Following an Event of Default which is continuing the Security Trustee may, at any time, at its discretion and without notice, take such action under or in connection with any of the Security Documents as it may think fit (including, without limitation, enforcing the Notes upon the Notes becoming enforceable), provided that it shall not be bound to take any such action unless:

- (a) it shall have been so directed in writing by the Instructing Creditor; and
- (b) it shall have been indemnified and/or secured and/or pre-funded to its satisfaction.

No Notesholder shall be entitled to enforce the Notes or to proceed directly against MBFL to enforce the other provisions of the Security Document(s) unless the Security Trustee, having become bound so to enforce or to proceed, fails so to do within a reasonable time and such failure is continuing.

In the event that the Realisation Amount is insufficient to pay all amounts due to the Notesholders, MBFL (failing which the Guarantor) shall remain liable for the Shortfall. No Notesholder shall be entitled to have recourse to the Mortgaged Property secured in respect of any other Series of Notes.

9. Disposal of Collateral Assets

- (a) If an Event of Default has occurred or the Notes are otherwise declared immediately due and payable and, in either case, an Instructing Creditor has directed the Security Trustee to take action to enforce the Notes, the Security Trustee will as soon as reasonably practicable notify the Liquidation Agent of this (such notice a "**Collateral Liquidation Event Notice**") and the Liquidation Agent will take action to dispose of the Collateral Assets pursuant to this Secured Notes Condition 9 (such disposal being a "**Collateral Liquidation Event**").

The Liquidation Agent shall not otherwise be required to monitor, enquire or satisfy itself as to whether a Collateral Liquidation Event might arise. Prior to receipt by it of a Collateral Liquidation Event Notice, the Liquidation Agent may assume that no such event has occurred.

The Liquidation Agent shall be entitled to rely on a Collateral Liquidation Event Notice without investigation.

- (b) Following receipt by it of a valid Collateral Liquidation Event Notice the Liquidation Agent will on behalf of MBFL and the Guarantor, so far as is practicable in the circumstances effect a liquidation of the Collateral Assets for settlement as soon as reasonably practicable following the effective delivery of the related Collateral Liquidation Event Notice.

Following the occurrence of a Collateral Liquidation Event and effective delivery of a valid Collateral Liquidation Event Notice, the security shall be released without further action on the part of the Security Trustee to the extent necessary for the Liquidation Agent to effect the disposal of the Collateral Assets. Nothing in this paragraph will operate to release the charges and other security interests over the proceeds of the liquidation of the Collateral Assets.

ANNEX 13 – ADDITIONAL TERMS AND CONDITIONS FOR SECURED NOTES

The Liquidation Agent must account to the Security Trustee for all of the proceeds of disposal and apply these only as directed by the Security Trustee.

PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Provisions relating to Notes while in Global Form

Clearing System Accountholders

Each Global Note will be in bearer form. Consequently, in relation to any Tranche of Notes represented by a Global Note, references in the Terms and Conditions of the Notes to "**Noteholder**" are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary (in the case of a CGN) or a common safekeeper (in the case of an NGN) for Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper.

Each of the persons shown in the records of Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an "**Accountholder**") must look solely to Euroclear and/or Clearstream Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the bearer of the Global Note.

Exchange of Temporary Global Notes

Whenever any interest in a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the relevant Issuer shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and (in the case of an NGN) effectuated, to the bearer of the Temporary Global Note; or
- (b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system and received by the Fiscal Agent against presentation and (in the case of final exchange) surrender of the Temporary Global to or to the order of the Fiscal Agent within 7 days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons,

Talons and Receipts attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

If:

- (a) a Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (Luxembourg time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
- (b) Definitive Notes have not been delivered by 5.00 p.m. (Luxembourg time) on the forty-fifth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or
- (c) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (Luxembourg time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on such forty-fifth day (in the case of (b) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under the Deeds of Covenant. Under the Deeds of Covenant, persons shown in the records of Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note will acquire directly against the relevant Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system.

Where the Notes are listed on the Euronext Dublin and its rules so require, the Issuer will give notice of the exchange of the Permanent Global Note for Definitive Notes pursuant to Base Condition 16 (*Notices*).

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and, where applicable, with Coupons, Talons and Receipts attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note

against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been delivered by 5.00 p.m. (Luxembourg time) on the forty-fifth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (Luxembourg time) on such forty-fifth day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deeds of Covenant). Under the relevant Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note will acquire directly against the relevant Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system.

Where the Notes are listed on the Euronext Dublin and its rules so require, the relevant Issuer will give notice of the exchange of the Permanent Global Note for Definitive Notes pursuant to Base Condition 16 (*Notices*).

Conditions applicable to Global Notes

Each Global Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Global Note. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Global Note will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Note to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the relevant Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Global Note, the relevant Issuer shall procure that, in respect of a CGN, the payment is noted on a schedule thereto and, in respect of an NGN, the payment is entered *pro rata* in the records of Euroclear and Clearstream Luxembourg.

Notices: Notwithstanding Condition 16 (*Notices*) of the Base Conditions, while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are) deposited with a depositary, common depositary or common safekeeper (as the case may be) for Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Condition 16 (*Notices*) of the Base Conditions, on the date of delivery to Euroclear and/or Clearstream Luxembourg and/or any other relevant clearing system; *provided, however, that*, so long as the Notes are listed on the Official List of the Euronext Dublin and its rules so require, notices will also be published in a leading newspaper having general circulation in Ireland or on the website of the Euronext Dublin (www.euronext.com/en/markets/dublin).

USE OF PROCEEDS

The net proceeds of the issue of each Tranche of Notes will be used for the general corporate purposes of the relevant Issuer.

Green, Social or Sustainability Bonds

If the Tranche of the Notes to be issued is described as Green Bonds and/or Social Bonds and/or Sustainability Bonds, the relevant Final Terms will describe the relevant projects to which the net proceeds of the Tranche of Notes will be applied, including by reference to the relevant bond framework and where further details of the relevant projects will be available. Debt Division

Lending & Structured Finance

The Financing teams serve Mediobanca's Italian and international customers, through the branch offices located in Paris, London and Madrid, offering:

- **Structured finance** (acquisition finance, loans for LBOs/MBOs, project finance, infrastructure finance, real estate finance): financial support to corporate counterparties and institutional investors as part of leveraged transactions to acquire stakes in listed and unlisted companies; a wide range of lending transactions are developed, arranged, structured, underwritten and executed based on complex structures, and because of their size these are often syndicated on the international market. On the back of its solid track record in various sectors, customers are provided with advisory services covering the entire process of structuring deals to support investment and infrastructure or industrial projects, including offering strategies, selection of the most effective debt instruments, hedging strategies, financial modelling and structuring contracts.

Notes are placed with retail investors through public offerings (implemented via the Wealth Management division companies' proprietary network), through individual third-party banking networks (either on an exclusive basis or via groups of banks operating as syndicates), and direct sales on the MOT bond market operated by Borsa Italiana. Demand from institutional investors is met via public offerings of securities on the Euromarket and by private placements of bespoke products tailored to meet the investor's specific requirements.

NPL acquisitions management

As from this year, the NPL portfolio management business spun off to Revalea S.p.A., which was incorporated in April 2022 and obtained clearance to operate from the supervisory authority at the year-end, has been included as part of the Holding Functions.

New products or new activities

Without prejudice to the contents hereof (section 5.1), no significant new products and/or services have been introduced that are worth being recorded or disclosed publicly.

Principal markets

The Mediobanca Group's activities are principally focused on the domestic market (from a geographical standpoint Italy accounts for approximately 80% of the Group's loan book). In particular:

- Corporate & Investment Banking (CIB): in WB, half the revenues and loan book is originated by the Italian market, the other half by other countries (notably France, Spain and the United Kingdom); while Specialty Finance activities are focused on the domestic Italian market. The division employs some 632 staff, 146 of whom are based outside Italy;

- Consumer Banking: activities focus exclusively on the Italian market, and employ approximately 1,507 staff at 248 branches/agencies;
- Wealth Management (WM): this division's activity is focused primarily on the Italian market, with the exception of CMB (which operates in the Principality of Monaco), RAM AI (which operates throughout Europe from its headquarters in Switzerland), and Polus Capital (which operates in the United Kingdom); and employs 2,140 staff, with approximately 1,200 FAs/relationship managers, and over 200 branches/financial shops;
- Leasing activities chiefly target the domestic market.

The agreement on future relations between the United Kingdom and the European Union was signed on 30 December 2020, ratified by the European Parliament in April 2021, even though it had already been applied provisionally from 1 January 2021 as authorized by the European Council. For financial services, the agreement does not provide for any broader reciprocal access to markets than the agreements which the EU has entered into with other commercial partners. At the end of March 2021, the EU and the United Kingdom executed a Memorandum of Understanding establishing a framework for Financial Services Regulatory Co-operation, which does not replace the banking and financial services passporting arrangements.

Mediobanca currently operates in the United Kingdom, both at its London branch office and cross-border, under the Temporary Permissions Regime (TPR) permitted by the Financial Conduct Authority (FCA), which allows the Bank to continue to perform its current activities as though it were formally authorized. The FCA has asked Mediobanca to start the formal process in order to receive its own authorization to operate in the United Kingdom as a third country branch from the Financial Conduct Authority by June 2022. Mediobanca has also undertaken a series of initiatives, in accordance with the ECB guidance, to address the issue of no longer being allowed to serve EU clients from the United Kingdom. These have included transferring some front office staff members (including some considered as key function holders) from the London branch offices to other offices located within the EU (15 in total in the course of 2020). There are still some areas of uncertainty, however, regarding the application of some of the market regulations (e.g. on shares/derivatives trading obligations), for which specific solutions have been adopted in order to ensure that the new rules are complied with. The total number of staff employed by the London branch, which was 89 as at 30 June 2020, had declined to 73 as at 30 June 2022. It should be emphasized that the Group's activities in the United Kingdom continue to be relatively minor (accounting for approximately 3% of its total revenues).

As far as regards UK-based Group company Polus Capital ("Polus"), the company has delegated management of its funds to an Ireland-based fund manager (Carne Global Fund Managers Ireland Limited), which in turn has sub-delegated management back to Polus itself. Polus will therefore continue to handle the investment strategies and portfolio management for the funds. The marketing activity for the funds, though, will be performed by a company in the process of being set up to be owned by Polus.

LEGAL AND ARBITRATION PROCEEDINGS

As at the date of this Base Prospectus, none of the proceedings involving Mediobanca and its consolidated subsidiaries may have, or have had in the recent past, a material impact on the Group's financial position or profitability, and as far as Mediobanca is aware, no litigation, arbitration or administrative proceedings which may have such material impact has either been announced or is pending.

A description of the main tax disputes and litigation pending is provided below, purely for information purposes:

Litigation pending and tax disputes

Civil Proceedings - Claim for damages

Among the most significant legal proceedings still pending against Mediobanca there is the following claim for damages made by:

- Lucchini S.p.A. in A.S. ("**Lucchini**") against 12 banks (including Mediobanca) claiming that the banks would have contributed to the economic and financial distress of the company for having drawn up and executed an industrial and financial plan of the company based on allegedly unrealistic forecasts and a restructuring agreement pursuant to article 182-*bis* of the bankruptcy law which provided for guarantees excessively favourable to the banks, thus delaying Lucchini's submission to the extraordinary administration procedure. With a ruling on 21 July 2020, the Court of Milan rejected Lucchini's request, ordering him to pay the costs. With a notice of appeal served on 28 September 2020 Lucchini appealed the sentence. Mediobanca is awaiting the Court of Appeal to issue its final judgement. By ruling dated 28 December 2022, the Court of Appeal of Milan dismissed the claims brought by Lucchini splitting legal expenses among the parties. Lucchini did not bring the appeal before the Court of Cassation by the term of 28 June 2023 and therefore the proceeding can be considered ended.

It should be noted that on 26 July 2022 the Court of Florence declared the dismissal of the dispute previously pending between Fondazione Monte dei Paschi di Siena ("**FMPS**"), its former directors, as well as Mediobanca and other 13 banks. This ruling follows the settlement agreement entered into between FMPS and the pool of banks involved in such proceedings on 20 December 2021, which provided for, *inter alia*, a waiver of the litigation proceedings. Pursuant to this agreement, Mediobanca paid an amount considerably lower in respect of the original *petitum* of the claim.

Tax – Administrative proceedings

With regard to the dispute pending with the Italian tax authorities, the following significant changes should be noted with respect to the previous year.

With reference to the alleged failure to apply transparency tax rules as required by the legislation on Controlled Foreign Companies (CFC) on income earned by CMB Monaco and Compagnie Monégasque de Gestion in financial years 2013, 2014 and 2015 (for a total of €124.4m of income and €53.7m in disputed taxes, plus penalties and interest), three disputes were pending against the Tax Authorities, at different levels of judgement. In detail, Mediobanca won the case in the first and second instances of the dispute relating to financial year 2013/2014 (2013 profits, tax of €21.3m, plus interest and penalties). On 14 September 2022, the tax authorities notified the appeal before the Court of Cassation and on the following 20 October Mediobanca notified its counter-claims. In the joint disputes relating to financial years 2014/2015 and 2015/2016 (respectively 2014 and 2015 profits, taxes of €16.1m and €16.4m, plus interest and penalties), the Bank, which had won the case in the first instance, last 13 September 2022 filed an appearance in Court to defend its rights in the second instance before the Lombardy Regional Tax Commission. The discussion on appeal is postponed to a new role.

With reference to Mediobanca's alleged failure to apply withholding taxes on interest expense paid as part of a secured financing transaction, a total of three disputes relating to the years 2014 - 2015 - 2016 (taxes, respectively, of €2.3m, €1.9m and €2.2m, plus interest and penalties) are pending. For the first two years, the Milan Provincial Tax Commission had dismissed the appeals lodged by the Bank; the two rulings were later appealed on 6 October and 12 December 2022, respectively. With reference to the disputed third year, on 11 November 2022, Italian tax authority issued an assessment notice against which Mediobanca lodged an appeal at the Court of First Instance on 11 April 2023.

With reference to the dispute for €6.8m regarding non-repayment of interest accrued on VAT credits claimed by SelmaBipiemme for the year 2005 can be considered settled on a final basis; the Financial Administration waived the right to proceed before the Court of Cassation and paid out the full reimbursement of the sums claimed. The relevant provision of €3m was therefore released.

With reference the dispute relating to the former Banca Esperia's failure to report a money transfer abroad as part of the tax monitoring communication requirements, for which fines of €5.9m had been handed down, can be considered ended. On 29 September 2022, the ruling of the Court of Cassation was published. In it, the Court dismissed the appeal lodged by the Bank and ordered it to pay the costs of the litigation.

Further tax proceedings

In addition to those listed above, eight additional disputes are pending, including:

- two disputes relating to non-repayment of interest accrued on VAT credits claimed by SelmaBipiemme (the "Company") for the year 2008 (total amount of €2.5m) are pending; with reference to interest on VAT credits for the third quarter of 2008, the Company won the case in the first instance. The Italian Revenue Agency later notified the appeal on 18 October 2022 against which the Company filed an objection on 12 December 2022; and

- six disputes involving direct and indirect tax of minor amounts and at different stages of the ruling process, involving a total certified amount of €1.6m in tax.

Proceedings with supervisory authorities

Mediobanca has no ongoing proceedings with any supervisory authority.

In relation to the effects of the so-called “Lexitor” ruling of the Court of Justice of the European Union, the Italian Constitutional Court, by ruling dated 22 December 2022, stated that Article 11-octies, paragraph 2, of the Italian government’s Sostegni Bis Decree was partially unconstitutional. As a result of such ruling of the Constitutional Court, consumers will be entitled to a proportional reduction of all costs incurred in relation to consumer credit agreements, even if they were concluded before 25 July 2021, without prejudice to the statute of limitations provided by law (10 years). On the basis of this ruling Compass deemed appropriate to set aside €3.3m, bringing provisions to €15m.

Antitrust proceedings

As far as the Group is concerned, Compass has been fined by the Italian Competition Authority for € 4,7 million and € 250,000 for alleged unfair commercial practices consisting in the mandatory sales of insurance policies paired with personal loans granted to customers. Compass denied the allegations and appealed before the Italian Administrative Tribunal and then before the State Council. These proceedings are still pending in the European Court of Justice. For the time being the sale of such insurance policies has been suspended.

Inspections

As part of the ordinary supervisory activities by the ECB, it should be noted that an OSI (on-site inspection) on the subject of "market risk" was launched in September 2019. The final follow-up letter of the inspection was delivered on 16 March 2022; the Issuer already replied to ECB with the action plan. In November 2021, an additional inspection was launched in parallel, focused specifically on market risk issues relating to calculation and monitoring of trading P&L, independent price verification and fair value measurement on a small sample of selected transactions. The final follow-up letter of the inspection was delivered on 16 December 2022; the Issuer already replied to ECB with the action plan

REGULATORY ASPECTS

The Mediobanca Group is subject to extensive regulation and supervision by the Bank of Italy, CONSOB, the ECB and is also subject to the authority of the Single Resolution Board ("**SRB**"). The banking laws to which the Mediobanca Group is subject govern the activities in which banks may engage and are designed to maintain the safety and soundness of such institutions and limit their exposure to risk. In addition, the Mediobanca Group must comply with financial services laws that govern its marketing and selling practices. New acts of legislation and regulations may be introduced in Italy and the European Union that may affect the Mediobanca Group, including proposed regulatory initiatives that could significantly alter the Mediobanca Group's capital requirements.

The rules applicable to banks and other entities in banking groups include implementation of measures consistent with the regulatory framework set out by the Basel Committee on Banking Supervision (the "**Basel Committee**").

In accordance with the regulatory frameworks described above and consistent with the regulatory framework being implemented at the European Union level, the Mediobanca Group has in place specific procedures and internal policies to monitor, among other things, liquidity levels and capital adequacy, the prevention and detection of money laundering, privacy protection, ensuring transparency and fairness in customer relations and registration and reporting obligations. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect the Mediobanca Group's results of operations, business and financial condition. In addition, as at the date of this Base Prospectus, certain laws and regulations have only been recently approved and the relevant implementation procedures are still in the process of being developed.

Basel III and the CRD IV Package

In the wake of the global financial crisis that began in 2008, the Basel Committee on Banking Supervision ("**BCBS**") approved, in the fourth quarter of 2010, revised global regulatory standards ("**Basel III**") on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. The Basel III framework adopts a gradual approach, with the requirements to be implemented over time, with full enforcement in 2019.

In January 2013, the BCBS revised its original proposal in respect of the liquidity requirements in light of concerns raised by the banking industry, providing for a gradual phasing-in of the Liquidity Coverage Ratio with a full implementation in 2019 as well as expanding the definition of high-quality liquid assets to include lower quality corporate securities, equities and residential mortgage backed securities. Regarding the other liquidity requirement, the net stable funding ratio, the BCBS published the final rules in October 2014 which took effect from 1 January 2018.

The Basel III framework has been implemented in the EU through new banking requirements: Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit

institutions and the prudential supervision of credit institutions and investment firms (the “**CRD IV Directive**”) and Regulation (EU) No. 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No. 648/2012, as amended or replaced from time to time (the “**CRD IV Regulation**”) and together with the CRD IV Directive, the “**CRD IV Package**”). The CRD IV Package has been subsequently updated by Regulation (EU) No. 2019/876 (“**CRR II**”) and Directive (EU) No. 2019/878 (“**CRD V**”).

Full implementation began on 1 January 2014, with particular elements being phased in over a period of time (the requirements are now largely fully effective as of 1 January 2019 and some minor transitional provisions provide for phase-in until 2024). Further details on the implementation of the Banking Reform Package (as defined below) are provided in the paragraph “*Revision to the CRD IV Package*” below.

National options and discretions that were so far exercised by national competent authorities will be exercised by the Single Supervisory Mechanism (“**SSM**”) in a largely harmonised manner throughout the Banking Union. In this respect, on 14 March 2016, the European Central Bank (the “**ECB**”) adopted Regulation (EU) No. 2016/445 on the exercise of options and discretions, as subsequently amended. Depending on the manner in which these options/discretions had been exercised by the national competent authorities and on the manner in which the SSM will exercise them in the future, additional/lower capital requirements may result.

In addition to the capital requirements under CRD IV, the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014, as subsequently amended, (“**BRRD**”) introduces requirements for banks to maintain at all times a sufficient aggregate amount of own funds and eligible liabilities (the “**Minimum Requirement for Own Funds and Eligible Liabilities**”, or “**MREL**”). The Issuer has to meet MREL requirements on a consolidated basis. MREL constrains the structure of liabilities and may require the use of subordinated debt, which would have an impact on cost and potentially on the Issuer’s financing capacity.

In Italy, the Government approved a Legislative Decree on 12 May 2015 (“**Decree 72/2015**”) implementing the CRD IV Directive and amending the Italian Banking Act. Decree 72/2015 entered into force on 27 June 2015. Decree 72/2015 impacts, *inter alia*, on:

- proposed acquirers of holdings in credit institutions, requirements for shareholders and members of the management body (Articles 23 and 91 of the CRD IV Directive);
- competent authorities’ powers to intervene in cases of crisis management (Articles 64, 65, 102 and 104 of the CRD IV Directive);
- reporting of potential or actual breaches of national provisions (so called whistleblowing, Article 71 of the CRD IV Directive); and
- administrative penalties and measures (Article 65 of the CRD IV Directive).

The Bank of Italy published supervisory regulations on banks in December 2013 (Circular of the Bank of Italy No. 285 of 17 December 2013, as subsequently amended from time to time by the Bank of Italy, (the “**Circular**”

No. 285”) which came into force on 1 January 2014, implementing the CRD IV Package and the Banking Reform Package, and setting out additional local prudential rules. The CRD IV Package is also supplemented in Italy by technical rules relating to the CRD IV Directive and the CRD IV Regulation published through delegated regulations of the European Commission and guidelines of the EBA.

As part of the CRD IV Package, certain transitional arrangements as implemented by the Circular No. 285 have been gradually phased-out. The transitional arrangements which provide for the regulatory capital recognition of outstanding instruments which qualified as Tier I and Tier II capital instruments under the framework which the CRD IV Package replaced but which no longer meet the minimum criteria under the CRD IV Package have been gradually phased out.

Capital Requirements

According to Article 92 of the CRD IV Regulation, as amended by the CRR II, institutions shall at all times satisfy the following own funds requirements: (i) a CET1 Capital ratio of 4.5 per cent.; (ii) a Tier 1 Capital ratio of 6 per cent.; (iii) a Total Capital ratio of 8 per cent, and (iv) the Leverage Ratio of 3 per cent. These minimum ratios are complemented by the following capital buffers to be met with CET1 Capital:

- *Capital conservation buffer*: set at 2.5 per cent from 1 January 2019 (pursuant to Article 129 of the CRD IV and Part I, Title II, Chapter I, Section II of Circular No. 285);
- *Counter-cyclical capital buffer ("CCyB")*: set by the relevant competent authority between 0% - 2.5% of credit risk exposures towards counterparties each of the home Member State, other Member States and third countries (but may be set higher than 2.5 % where the competent authority considers that the conditions in the Member State justify this), with gradual introduction from 1 January 2016 and applying temporarily in the periods when the relevant national authorities judge the credit growth excessive (pursuant to Article 130 of the CRD IV and Part I, Title II, Chapter I, Section III of Circular No. 285). The Bank of Italy has set, and decided to maintain, the CCyB (relating to exposures towards Italian counterparties) at 0% for the fourth quarter of 2022;
- *Capital buffers for globally systemically important banks ("G-SIBs")*: set as an "additional loss absorbency" buffer varying depending on the sub-categories on which the globally systemically important institutions ("G-SIIs") are divided into. The lowest sub-category shall be assigned a G- SII buffer of 1 % of the total risk exposure amount calculated in accordance with Article 92(3) of the CRD IV Regulation and the buffer assigned to each sub-category shall increase in gradients of at least 0,5 % of the total risk exposure amount calculated in accordance with Article 92(3) of the CRD IV Regulation. G-SIBs is determined according to specific indicators (size, interconnectedness, lack of substitutes for the services provided, global cross border activity and complexity) and, being phased in from 1 January 2016 (pursuant to Article 131 of the CRD IV and Part I, Title II, Chapter I, Section IV of Circular No. 285), became fully effective on 1 January 2019. Based on the most recently updated list of G-SIIs published by the Financial Stability Board ("FSB") on 21 November 2022, neither the Issuer (nor any member of the Mediobanca

Group) is a G-SIB and therefore they do not need to comply with a G-SIBs capital buffer requirement (or a leverage ratio buffer); and

- *Capital buffers for other systemically important banks at a domestic level ("O-SIIs")*: up to 3.0% as set by the relevant competent authority (reviewed at least annually), to compensate for the higher risk that such banks represent to the financial system (pursuant to Article 131 of the CRD IV and Title II, Chapter 1, Section IV of Circular No. 285). The Bank of Italy has not identified so far the Mediobanca Group as an O-SII, therefore the Issuer does not need to comply with an O-SII capital buffer requirement.

In addition to the above-mentioned capital buffers, under Article 133 of the CRD IV Directive, as amended by the CRD V, each Member State may introduce a Systemic Risk Buffer of Common Equity Tier 1 capital for the financial sector or one or more subsets of that sector in order to prevent and mitigate long-term non-cyclical systemic or macroprudential risks not otherwise covered by the CRD IV Package, in the sense of a risk of disruption in the financial system with the potential of having serious negative consequences on the financial system and the real economy in a specific Member State.

With update No. 38 of 22 February 2022, the Circular No. 285 was amended in order to provide for, *inter alia*, the introduction of:

- (i) the possibility for the Bank of Italy to activate the systemic risk buffer ("**SyRB**") for banks and banking groups authorised in Italy. In particular, the requirement to maintain a systemic risk buffer of Common Equity Tier 1 is intended to prevent and mitigate macro-prudential or systemic risks not otherwise covered with the macro-prudential instruments provided for by the CRD IV Regulation, as amended by the CRR II, the anti-cyclical capital buffer and the capital buffers for G-SII and for O-SII. The buffer ratio for systemic risk can be applied to all exposures or to a subset of exposures and to all banks or to one or more subsets of banks with similar risk profiles; and
- (ii) some macro-prudential instruments based on the characteristics of customers or loans (so-called "borrower-based measures"). Specifically, these are measures that are not harmonised at European level, which can be used to counter systemic risks deriving from developments in the real estate market and from high or rising levels of household and non-financial corporate debt.

Furthermore, with update No. 39 of 13 July 2022, the Circular No. 285 was amended in order to align its provisions with Articles 104 to 104c of the CRD IV Directive, as amended by the CRD V. In particular, the amendments introduced to Part I, Chapter 1, Title III of the Circular No. 285 provide for, *inter alia*, the introduction of:

- (i) A clear differentiation between components of Pillar 2 Requirements estimated from an ordinary perspective and the Pillar 2 Guidance determined from a stressed perspective which supervisory authorities may require banks to hold; and
- (ii) The possibility for supervisory authorities to require additional capital in the presence of excessive leverage risk, under both ordinary and stressed conditions (P2R and Leverage Ratio and Pillar 2 Guidance Leverage Ratio).

Failure by an institution to comply with buffer requirements described above (“**Combined Buffer Requirements**”) may trigger restrictions on distributions by reference to the so-called Maximum Distributable Amounts (“**MDA**”) and the need for the bank to adopt a capital conservation plan on necessary remedial actions (Articles 140 to 141c of the CRD IV Directive).

In addition, Mediobanca Group is subject to the Pillar 2 Requirements for banks imposed under the CRD IV Package, which will be impacted, on an on-going basis, by the SREP. The SREP is aimed at ensuring that institutions have adequate arrangements and strategies in place to maintain liquidity and capital, including in particular the amounts, types and distribution of internal capital commensurate to their risk profile, in order to ensure sound management and coverage of the risks to which they are or might be exposed, including those revealed by stress testing, as well as risks the institution may pose to the financial system.

The quantum of any Pillar 2 Requirement imposed on a bank, the type of capital which it must apply to meeting such capital requirements, and whether the Pillar 2 requirement is “stacked” below the capital buffers (i.e. the bank’s capital resources must first be applied to meeting the Pillar 2 requirements in full before capital can be applied to meeting the capital buffers) or “stacked” above the capital buffers (i.e. the bank’s capital resources can be applied to meeting the capital buffers in priority to the Pillar 2 requirement) may all impact a bank’s ability to comply with the Combined Buffer Requirement.

In its publication of the 2016 EU-wide stress test results on 29 July 2016, the EBA has recognised a distinction between “Pillar 2 requirements” (stacked below the capital buffers) and “Pillar 2 capital guidance” (stacked above the capital buffers). With respect to Pillar 2 capital guidance, the publication stated that, in response to the stress test results, competent authorities may (among other things) consider “setting capital guidance, above the combined buffer requirement”. Competent authorities have remedial tools if an institution refuses to follow such guidance. The ECB published a set of “Frequently asked questions on the 2016 EU-wide stress test”, confirming this distinction between Pillar 2 requirements and Pillar 2 capital guidance and noting that “Under the stacking order, banks facing losses will first fail to fulfil their Pillar 2 capital guidance. In case of further losses, they would next breach the combined buffers, then Pillar 2 requirements, and finally Pillar 1 requirements”.

The distinction between “Pillar 2 requirements” and “Pillar 2 capital guidance” has been codified by the CRD V. Whereas the former are mandatory requirements imposed by supervisors to address risks not covered or not sufficiently covered by Pillar 1 and buffer capital requirements, the latter refers to the possibility for competent authorities to communicate to an institution their expectations for such institution to hold capital in excess of its capital requirements (Pillar 1 and Pillar 2) and Combined Buffer Requirements in order to cope with forward-looking and remote situations. Under the CRD V, only Pillar 2 requirements, and not Pillar 2 capital guidance, will be relevant in determining whether an institution is meeting its Combined Buffer Requirement.

Non-compliance with Pillar 2 capital guidance does not amount to a failure to comply with capital requirements, but should be considered as a "pre alarm warning" to be used in a bank's risk management process. If capital levels go below Pillar 2 capital guidance, the relevant supervisory authorities, which should be promptly informed in detail by the bank of the reasons of the failure to comply with the Pillar 2 capital guidance, will take into consideration appropriate and proportional measures on a case by case basis (including, by way of example, the

possibility of implementing a plan aimed at restoring compliance with the capital requirements including capital strengthening requirements).

On 23 July 2020 the EBA published Guidelines for competent authorities for the special procedures for the SREP 2020, identifying how flexibility and pragmatism could be exercised in relation to the SREP framework in the context of the COVID-19 pandemic. The 2020 SREP cycle focused on the ability of the supervised entities to handle the challenges of the COVID-19 crisis and its impact on their current prospective risk profile.

The Bank of Italy notified to the EBA its intention to comply with the abovementioned Guidelines on 23 September 2020. The Bank of Italy in fact announced to the supervised entities that only in exceptional cases, due to a significant increase in their current and prospective risk profiles, it would have updated the banks' current requirements.

On 18 March 2022, the EBA published its final report on revised Guidelines on common procedures and methodologies for SREP and supervisory stress testing. The EBA has developed the revised SREP Guidelines in order to implement the changes brought by CRD V and CRR II (as defined below). In particular, the revision of the Guidelines, while keeping the original framework with the main SREP elements intact, reflects, among other things, the introduction of the assessment of the risk of excessive leverage and the revision of the methodology for the determination of the Pillar 2 Guidance. Additional relevant changes are related to the enhancement of the principle of proportionality and the encouragement of cooperation among prudential supervisory authorities and AML/CFT supervisors, as well as resolution authorities. The Bank of Italy should report its intention to comply with the Guidelines by 2 months after the publication of the translation in the official EU languages (still pending). The guidelines will apply from 1 January 2023.

The CRD IV Package introduced a leverage ratio with the aim of restricting the level of leverage that an institution can take on, to ensure that an institution's assets are in line with its capital. The Leverage Ratio Delegated Regulation (EU) No. 2015/62 was adopted on 10 October 2014 and was published in the Official Journal of the European Union in January 2015 amending the calculation of the leverage ratio compared to the current text of the CRD IV Regulation ("**Leverage Ratio Regulation**"). Institutions have been required to disclose their leverage ratio from 1 January 2015. The CRD IV Package contains specific mandates for the EBA to develop draft regulatory or implementing technical standards as well as guidelines and reports related to liquidity coverage ratio and leverage ratio in order to enhance regulatory harmonisation in Europe through the Single Rule Book. The CRR II complemented the system of reporting and disclosure, as envisaged in the Leverage Ratio Regulation, by the introduction of the Leverage Ratio as own fund requirement.

Liquidity and leverage requirements

The CRD IV Package also introduced the LCR. This is a stress liquidity measure based on modelled 30-day outflows. Commission Delegated Regulation (EU) 2015/61 of 10 October 2014 supplementing the CRR with regard to liquidity coverage requirement for credit institutions ("**LCR Delegated Act**") was adopted in October 2014 and published in the Official Journal of the European Union in January 2015. On 20 May 2022, amendments to the LCR Delegated Act were published in the Official Journal (Commission Delegated Regulation (EU)

2022/786 of 10 February 2022) and has applied as of July 2022. Most of these amendments has been introduced to better allow the credit institutions issuing covered bonds to comply, on one hand, with the general liquidity coverage requirement for a 30 calendar day stress period and, on the other hand, with the cover pool liquidity buffer requirement, as laid down by Directive (EU) 2019/2162 of the European Parliament and of the Council. The NSFR is part of the Basel III framework and aims to promote resilience over a longer time horizon (1 year) by creating incentives for banks to fund their activities with more stable sources of funding on an on-going basis. The NSFR has been introduced as a requirement in the CRR II published in June 2019 and is applicable from June 2021.

Revision to the CRD IV Package

On 23 November 2016, the European Commission presented a comprehensive package of reforms to further strengthen the resilience of EU banks and investment firms (“**Banking Reform Package**”). The Banking Reform Package amends many existing provisions set out in the CRD IV Package, the BRRD and the SRMR. These proposals were agreed by the European Parliament, the Council of the EU and the European Commission and were published in the Official Journal of the EU on 7 June 2019 entering into force 20 days after, even though most of the provisions are applicable as of 28 June 2021, allowing for a smooth implementation of the new provisions.

The Banking Reform Package includes:

- (i) revisions to the standardised approach for counterparty credit risk;
- (ii) changes to the market risk rules which include the introduction first of a reporting requirement pending the implementation in the EU of the latest changes to the FRTB (as defined below) published in January 2019 by the BCBS and then the application of own funds requirements as of 1 January 2023;
- (iii) a binding leverage ratio (and related improved disclosure requirements) introduced as a backstop to risk-weighted capital requirements and set at 3% of an institution's Tier 1 capital;
- (iv) a binding NSFR (which will require credit institutions and systemic investment firms to finance their long-term activities (assets and off-balance sheet items) with stable sources of funding (liabilities) in order to increase banks' resilience to funding constraints). This means that the amount of available stable funding will be calculated by multiplying an institution's liabilities and regulatory capital by appropriate factors that reflect their degree of reliability over a year. The NSFR will be expressed as a percentage and set at a minimum level of 100%, indicating that an institution holds sufficient stable funding to meet its funding needs during a one-year period under both normal and stressed conditions. The NSFR will apply at a level of 100% at individual and a consolidated level starting from 28 June 2021, unless competent authorities waive the application of the NSFR on an individual basis as of two years after the date of entry into force of the EU Banking Reform Package;
- (v) changes to the large exposures limits, now calculated as the 25% of Tier 1; and

(vi) improved own funds calculation adjustments for exposures to SMEs and infrastructure projects.

In particular, on 7 June 2019, the legal acts of the “Banking Reform Package” regarding the banking sector have been published on the EU Official Journal. Such measures include, together with the amendments to the BRRD and to SRMR, (i) CRR II amending the CRD IV Regulation as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and (ii) CRD V amending the CRD IV as regards exempted entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures. The amendments proposed better align the current regulatory framework to international developments in order to promote consistency and comparability among jurisdictions.

Such measures entered into force on 27 June 2019, while a) the CRR II is applicable from 28 June 2021, excluding some provisions with a different date of application (early or subsequent), b) the CRD V and BRRD 2 shall be implemented into national law by 28 December 2020 excluding some provisions which will be applicable subsequently.

In Italy, the Government approved a Legislative Decree on 8 November 2021 (“**Decree 182/2021**”) implementing the CRD V Directive and amending the Italian Banking Act. Decree 182/2021 entered into force on 30 November 2021. Decree 182/2021 impacts, *inter alia*, on:

- proposed acquirers of holdings in credit institutions, requirements for shareholders and members of the management body (Articles 22, 23 and 91 of the CRD V Directive);
- competent authorities’ powers to impose additional own fund requirements (Articles 104 and 104a of the CRD V Directive);
- authorisation regime applicable to financial holding companies and mixed financial holding companies (Article 21a of the CRD V Directive); and
- regime governing the banking groups and introduction of the status of “intermediate EU parent” (Article 21c of the CRD V Directive).

Moreover, it is worth mentioning that the BCBS concluded the review process of the models (for credit risk, counterparty risk, operational risk and market risk) for the calculation of minimum capital requirements, including constraints on the use of internal models and introducing the so-called “output floor” (setting a minimum level of capital requirements calculated on the basis of internal models equal, when fully implemented, to 72.5 per cent. of those calculated on the basis of the standardised methods). The main purpose is to enhance consistency and comparability among banks. The new framework was finalised for market risk in 2016 and finally revised in January 2019. The new framework for credit risk and operational risk was completed in December 2017.

On 27 October 2021, the European Commission published, as part of a legislative package that includes also amendments to CRD V, the text of the proposal to amend the CRR II (“**CRR III**” and jointly the “**2021 Reform**

Package”). In particular, the 2021 Reform Package legislative initiative aims at implementing in the EU the 2017 Basel Accord and further elements not included in such international framework contributing to financial stability and to the steady financing of the economy in the context of the post-COVID 19 crisis recovery. This general objective can be broken down in four more specific objectives:

- (i) to strengthen the risk-based capital framework, without significant increases in capital requirements overall;
- (ii) to enhance the focus on ESG risk in the prudential framework;
- (iii) to further harmonise supervisory powers and tools; and
- (iv) to reduce institutions' administrative costs related to public disclosure and to improve access to institutions prudential data.
- (v) to insert in the CRR a dedicated treatment for the indirect subscription of instruments eligible for internal MREL (i.e. “daisy chain approach”).

Once agreed on the final text between the various stakeholders involved in the legislative process (European Commission, European Parliament and Council of the EU) and once implemented in the Union, these regulatory changes will impact the entire banking system and consequently could determine changes in the capital calculation and increase capital requirements. The analysis carried out by the EBA, published in December 2019 upon request of the European Commission, shows that the adoption of the new Basel III criteria would require banks to increase minimum capital requirements (“**MCR**”) by 23.6 per cent., resulting in a capital deficit of €124 billion. On 21 August 2020, the EBA was requested by the European Commission to update further its Basel III impact study and published the new impact analysis on 15 December 2020. The overall impact is presented under two implementation scenarios: the first one updates the impact presented in the previous Call for Advice (“**CfA**”) reports (the “**Basel III scenario**”); the second one (the “**EU-specific scenario**”) considers the additional features requested by the European Commission in its CfA, i.e. applying the SME supporting factors on top of the Basel SME preferential risk weight treatment; maintaining EU credit valuation adjustment (“**CVA**”) exemptions; exercising the jurisdictional discretion contemplated in the Basel III framework to exclude the bank-specific historical loss component from the calculation of the capital for operational risk (internal loss multiplier (“**ILM**”)=1). Under the Basel III scenario, the steady-state implementation of the overall reform scheduled for January 2028 could increase the minimum required capital (MRC) amount, which includes Pillar 2 requirements and EU-specific buffers, by +18.5% with respect to the December 2019 baseline. Under the EU-specific scenario, steady-state implementation of the final Basel III framework (*i.e.* 2028) could increase the MRC amount by +13.1% with respect to the December 2019 baseline.

The EBA has been conducting regular and ad-hoc quantitative impact studies to assess or monitor the impact of various rules on the EU banking sector.

Regular monitoring exercise includes also a monitoring exercise to assess the impact of the Basel III framework on a sample of EU banks that the EBA conducts in coordination and in parallel with the BCBS (“**Basel III**

Monitoring Exercise). This exercise assesses the impact of the latest regulatory developments at BCBS level in the following area: (a) global regulatory framework for more resilient banks and banking systems; (b) the Liquidity Coverage Ratio and liquidity risk monitoring tools; (c) the leverage ratio framework and disclosure requirements; (d) the Net Stable Funding Ratio; and (e) the post-crisis reforms.

The impact of the Basel III is assessed using mostly the following measures:

- (i) percentage impact on minimum required Tier 1 capital (MRC);
- (ii) impact, in basis point, on the current actual Tier 1 capital ratio; and
- (iii) Tier 1 shortfall resulting from the full implementation of Basel III, namely the capital amount that banks need to fulfil the Basel III MCR.

According to EBA Decision no. EBA/DC/2021/373 concerning information required for the monitoring of Basel supervisory standards published on 18 February 2021 ("**EBA Decision**"), the Basel III Monitoring Exercise, which is currently only being carried out on a small sample of credit institutions and on a voluntary basis, should be extended to a broader and stable set of credit institutions. In particular, in order to ensure consistency, accuracy and completeness of the data provided, G-SIIs and O-SIIs, as well as credit institutions whose Tier 1 capital equals or exceeds €3 billion, or total assets equal or exceeding €30 billion, should be included in the sample.

Pursuant to EBA Decision, as of 31 December 2021, the Basel III Monitoring Exercise will become mandatory and will be carried out on an annual basis only.

On 30 September 2022, EBA published its first mandatory Basel III Monitoring Report which assess the impact that Basel III full implementation will have on EU banks in 2028. According to this assessment, the full Basel III implementation would result in an average increase of 15.0% of the current Tier 1 minimum required capital. Thus, to comply with the new framework, banks would need EUR 1.2 billion of additional Tier 1 capital.

On 4 May 2020, EBA published its final draft technical standards on specific reporting requirements for market risk, in accordance with the mandate set out in the provisions of the CRR II.

In particular, the implementing technical standards ("**ITS**") introduced uniform reporting templates, the template related instructions, the frequency and the dates of the reporting, the definitions and the IT solutions for the specific reporting for market risk. These ITS introduce the first elements of the Fundamental Review of the Trading Book (FRTB) into the EU prudential framework by means of a reporting requirement. Based on the ITS submitted by the EBA, the European Commission adopted the Implementing Regulation no. 2021/453/EU of 15 March 2021 which applied from 5 October 2021.

Revisions to the Basel III framework

In December 2017, the Basel Committee published of its final set of amendments to its Basel III framework (known informally as "**Basel IV**"). Basel IV is expected to introduce a range of measures, including:

- (i) changes to the standardised approach for the calculation of credit risk;
- (ii) limitations to the use of IRB approaches, mainly banks will be allowed to use the F-IRB approach and the SA, only for specialised lending the A-IRB will be still used;
- (iii) a new framework for determining an institution's operational risk charge, which will be calculated only by using a new standardised approach;
- (iv) an amended set of rules in relation to credit valuation adjustment; and
- (v) an aggregate output capital floor that ensures that an institution's total risk weighted assets ("**RWA**") generated by IRB models are no lower than 72.5% of those generated by the standardised approach.

According to the Basel Committee, Basel IV should be introduced as a global standard from January 2022, with the output capital floor being phased-in (starting at 50% from 1 January 2022 and reaching 72.5% as of 1 January 2025). In this occasion, the Basel Committee postponed the suggested implementation date for the Fundamental Review of the Trading Book ("**FRTB**") has been postponed by the Basel Committee to January 2023 to allow it to finalise the remaining elements of the framework and align the implementation date with the other Basel IV reforms.

ECB Single Supervisory Mechanism

On 15 October 2013, the SSM Regulation for the establishment of SSM. The SSM Regulation provides the ECB, in conjunction with the national competent authorities of the Eurozone and participating Member States, with direct supervisory responsibility over "banks of significant importance" in those Member States. "Banks of significant importance" include any Eurozone bank in relation to which (i) the total value of its assets exceeds €30 billion or – unless the total value of its assets is below €5 billion – the ratio of its total assets over the national gross domestic product exceeds 20%; (ii) is one of the three most significant credit institutions established in a Member State; (iii) has requested, or is a recipient of, direct assistance from the European Financial Stability Facility or the European Stability Mechanism and/or (iv) is considered by the ECB to be of significant relevance where it has established banking subsidiaries in more than one participating Member State and its cross-border assets/liabilities represent a significant part of its total assets/liabilities. Mediobanca has been classified as a significant supervised entity pursuant to the SSM Regulation and Regulation (EU) No. 468/2014 of the European Central Bank of 16 April 2014 (the "**SSM Framework Regulation**") and, as such, is subject to direct prudential supervision by the ECB.

The relevant national competent authorities continue to be responsible, in respect of the Mediobanca Group, for supervisory functions not conferred on the ECB, such as consumer protection, money laundering, payment services, and supervision over branches of third country banks. The ECB is exclusively responsible for the prudential supervision of Mediobanca, which includes, *inter alia*, the power to: (i) authorise and withdraw authorisation; (ii) assess acquisition and disposal of holdings; (iii) ensure compliance with all prudential requirements laid down in general EU banking rules; (iv) set, where necessary, higher prudential requirements to protect financial stability under the conditions provided by EU law; (v) ensure compliance with robust corporate

governance practices and internal capital adequacy assessment controls and (vi) intervene at the early stages when risks to the viability of a bank exist, in coordination with the relevant resolution authorities. The ECB may exercise options and discretions under the SSM and SSM Framework Regulation in relation to Mediobanca.

The Bank Recovery and Resolution Directive

The BRRD, entered into force on 2 July 2014, is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an institution that is failing or likely to fail so as to ensure the continuity of the institution's critical financial and economic functions, while minimizing the impact of an institution's failure on the economy and financial system.

The BRRD contains four resolution tools and powers which may be used alone (except for the asset separation tool) or in combination with other resolution tools where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe and (c) a resolution action is in the public interest: (i) sale of business – which enables resolution authorities to direct the sale of the institution or the whole or part of its business on commercial terms; (ii) bridge institution – which enables resolution authorities to transfer all or part of the business of the firm to a “bridge institution” (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation – which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in – which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims (including the Notes) into shares or other instruments of ownership (i.e. other instruments that confer ownership, instruments that are convertible into or give the right to acquire shares or other instruments of ownership, and instruments representing interests in shares or other instruments of ownership) (the “**general bail-in tool**”). Such shares or other instruments of ownership could also be subject to any future application of the BRRD. For more details on the implementation in Italy please refer to the paragraphs below.

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down/convert into shares or other instruments of ownership at the point of non-viability and before any other resolution action is taken (“**non- viability loss absorption**”). Any shares issued to holders of subordinated notes upon any such conversion may also be subject to any application of the general bail-in tool. The point of non-viability under the BRRD is the point at which the relevant authority determines that the institution meets the conditions for resolution (but no resolution action has yet been taken) or that the institution or its group will no longer be viable unless the relevant capital instruments are written-down/converted or extraordinary public support is to be provided.

Resolution authorities have the power to amend or alter the maturity of certain debt instruments issued by an institution under resolution, amend the amount of interest payable under such instruments, the date on which the interest becomes payable (including by suspending payment for a temporary period) and to restrict the termination rights of holders of such instruments. The BRRD also provides for a Member State, after having assessed and

exhausted the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. Resolution authorities may provide public equity support to an institution and/or take the institution into public ownership. Such measures must be taken in accordance with the EU state aid framework and will require a contribution to loss absorption from shareholders and creditors via write-down, conversion or otherwise, in an amount equal to at least 8 % of total liabilities (including own funds).

As an exemption from these principles, the BRRD allows for three kinds of extraordinary public support to be provided to a solvent institution without triggering resolution: 1) a State guarantee to back liquidity facilities provided by central banks according to the central banks' conditions; 2) a State guarantee of newly issued liabilities; or 3) an injection of own funds in the form of precautionary recapitalisation. In the case of precautionary recapitalization EU state aid rules require that shareholders and junior bond holders contribute to the costs of restructuring.

An SRF (as defined below) was set up under the control of the SRB (as defined below). It ensures the availability of funding support while the bank is resolved. It is funded by contributions from the banking sector. The SRF can only contribute to resolution if at least 8 per cent. of the total liabilities, including own funds, of the bank have been bailed-in.

The BRRD requires all Member States to create a national, prefunded resolution fund, reaching a level of at least 1 per cent. of covered deposits by 31 December 2024. The National Resolution Fund for Italy was created in November 2015 and required both ordinary and extraordinary contributions to be made by Italian banks and investment firms. In the Banking Union, the National Resolution Funds set up under the BRRD were superseded by the single resolution fund, established by the European Regulation no. 806/2014 as of 1 January 2016 (“**Single Resolution Fund**” or “**SRF**”) and those funds have been pooled together gradually. Therefore, as of 2016, the Single Resolution Board calculates, in line with the Council Implementing Regulation no. 2015/81/EU (the “**Council Implementing Act**”), the annual contributions of all institutions authorised in the Member States participating in the SSM and the SRM. The SRF is financed by the European banking sector. The total target size of the Fund is equal to at least 1 per cent. of the covered deposits of all banks in the Member States participating in the Banking Union. The SRF is to be built up over eight years, beginning in 2016, to the target level of EUR 55 billion (the basis being 1 per cent. of the covered deposits in the financial institutions of the Banking Union). Once this target level is reached, in principle, the banks will have to contribute only if the resources of the SRF are actually used in order to deal with resolutions of other institutions.

Under the BRRD, the target level of the National Resolution Funds was set at national level and calculated on the basis of deposits covered by deposit guarantee schemes. Under the SRM, the target level of the SRF is European and is the sum of the covered deposits of all institutions established in the participating Member States. This results in significant variations in the contributions by the banks under the SRM as compared to the BRRD. As a consequence of this difference, when contributions would have been paid based on a joint target level starting as of 2016, contributions of banks established in Member States with a high level of covered deposits could abruptly have decreased, while contributions of those banks established in Member States with fewer covered deposits could abruptly have increased. In order to prevent such abrupt changes, the Council Implementing Act (i.e.

Council Implementing Regulation no. 2015/81) provides for an adjustment mechanism to remedy these distortions during the transitional period by way of a gradual phasing in of the SRM methodology.

Implementation of the BRRD in Italy

The BRRD has been implemented in Italy through the adoption of two Legislative Decrees by the Italian Government, namely Legislative Decrees No. 180/2015 and 181/2015 (together, the “**BRRD Decrees**”), both of which were published in the Italian Official Gazette (*Gazzetta Ufficiale*) on 16 November 2015. Legislative Decree No. 180/2015 is a stand-alone law which implements the provisions of BRRD relating to resolution actions, while Legislative Decree No. 181/2015 amends the existing Banking Act and deals principally with recovery plans, early intervention and changes to the creditor hierarchy. The BRRD Decrees entered into force on the date of publication on the Italian Official Gazette (i.e. 16 November 2015), save that: (i) the general bail-in tool applies from 1 January 2016; and (ii) a “depositor preference” granted for deposits other than those protected by the deposit guarantee scheme and excess deposits of individuals and SMEs is effective from 1 January 2019.

It is important to note that, pursuant to article 49 of Legislative Decree No. 180/2015, resolution authorities may not exercise the write down/conversion powers in relation to secured liabilities, including covered bonds or their related hedging instruments, save to the extent that these powers may be exercised in relation to any part of a secured liability (including covered bonds and their related hedging instruments) that exceeds the value of the assets, pledge, lien or collateral against which it is secured. The BRRD specifically contemplates that *pari passu* ranking liabilities may be treated unequally. Further, although the BRRD provides a safeguard in respect of shareholders and creditors upon application of resolution tools, Article 75 of the BRRD sets out that such protection is limited to the incurrence by shareholders or, as appropriate, creditors, of greater losses as a result of the application of the relevant tool than they would have incurred in a winding up under normal insolvency proceedings. It is therefore possible not only that the claims of other holders of junior or *pari passu* liabilities may have been excluded from the application of the general bail-in, but also that the safeguard referred to above does not apply to ensure equal (or better) treatment compared to the holders of such fully or partially excluded claims. This is due to the fact that the safeguard is not intended to address such possible unequal treatment but rather to ensure that shareholders or creditors do not incur greater losses in a bail-in (or other application of a resolution tool) than they would have received in a winding up under normal insolvency proceedings.

Certain categories of liability are subject to the mandatory exclusions from bail-in foreseen in Article 44(2)(g) of the BRRD. For instance, most forms of liability for taxes, social security contributions or to employees benefit from privilege under Italian law and as such are preferred to ordinary senior unsecured creditors in the context of liquidation proceedings. Article 108 of the BRRD requires that Member States modify their national insolvency regimes such that deposits of natural persons and micro, small and medium sized enterprises in excess of the coverage level contemplated by deposit guarantee schemes created pursuant to the BRRD have a ranking in normal insolvency proceedings which is higher than the ranking which applies to claims of ordinary, unsecured, non-preferred creditors. In addition, the BRRD does not prevent Member States, including Italy, from amending national insolvency regimes to provide other types of creditors, with rankings in insolvency higher than ordinary, unsecured, non-preferred creditors. Legislative Decree No. 181/2015 has amended the creditor hierarchy in the

case of admission of Italian banks and investment firms to resolution as well as compulsory liquidation procedures by providing that, as from 1 January 2019, all deposits other than those protected by the deposit guarantee scheme and excess deposits of individuals and SMEs will benefit from a preference in respect of senior unsecured liabilities, though with a ranking which is lower than that provided for individual/SME deposits exceeding the coverage limit of the deposit guarantee scheme. On 25 October 2017 the European Parliament, the Council and the European Commission agreed on elements of the review of the BRRD. As part of this process Article 108 of the BRRD was amended by Directive (EU) 2017/2399. Member States were required to adopt and publish relevant laws, regulations and administrative provisions necessary to comply with the amendment to the creditor hierarchy by 29 December 2018.

Legislative Decree No. 181/2015 has also introduced strict limitations on the exercise of the statutory rights of set-off normally available under Italian insolvency laws, in effect prohibiting set-off by any creditor in the absence of an express agreement to the contrary.

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

Revisions to the BRRD framework

The Banking Reform Package included Directive (EU) 2019/879, which provides for a number of significant revisions to the BRRD (known as "**BRRD II**"). BRRD II provides that Member States are required to ensure implementation into local law by 28 December 2020 with certain requirements relating to the implementation of the standard on total loss absorbing capacity for systematically important banks ("**TLAC**") applying from January 2022 while the transitional period for full compliance with MREL requirements is foreseen until 1 January 2024, with interim targets for a linear build-up of MREL set at 1 January 2022. The Banking Reform Package includes, amongst other things:

- (i) full implementation of the FSB's TLAC standard in the EU and revisions to the existing MREL regime. Additional changes to the MREL framework include changes to the calculation methodology for MREL, criteria for the eligible liabilities which can be considered as MREL, the introduction of internal MREL and additional reporting and disclosure requirements on institutions;
- (ii) introduction of a new category of "top-tier" banks, being banks which are resolution entities that are not G-SIIs but are part of a resolution group whose total assets exceed €100 billion;
- (iii) the introduction of a new moratorium power for resolution authorities and requirements on the contractual stays in resolution; and
- (iv) amendments to the article 55 regime in respect of the contractual recognition of bail-in.

Changes to the BRRD under BRRD II will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

On 1 December 2021, Legislative Decree no. 193 of 8 November 2021 (“**Decree No. 193**”), implementing the BRRD II into the Italian jurisdiction, entered into force, amending Legislative Decree no. 180/2015 (Decree no. 180) and the Italian Banking Act.

The provisions set forth in the Decree No. 193 includes, among other things:

(i) *Changes to the MREL regulatory framework*

The amendments introduced to Legislative Decree no. 180/2015 aligned the Italian regulatory framework regulating MREL, and the criteria according to which it is calculated, to the provisions set forth in BRRD II.

In particular, the amended version of Decree No. 180 clearly envisages that MREL shall be determined by the Bank of Italy on the basis of the following criteria:

- (a) the need to ensure that the application of the resolution tools to the resolution entity is adequate to meet the resolution’s objectives;
- (b) the need to ensure that the resolution entity and its subsidiaries belonging to the same corporate group subject to resolution have sufficient own funds and eligible assets to ensure that, if the bail-in tool or write-down or conversion powers, respectively, were to be applied to them, losses could be absorbed and that it is possible to restore the total capital ratio and, as applicable, the leverage ratio to a level necessary to enable them to continue to comply with the conditions for authorisation, according to the regulatory framework currently in force, even if the resolution plan envisages the possibility for certain classes of eligible liabilities to be excluded from bail-in or to be transferred in full to a recipient under a partial transfer;
- (c) the size, the business model, the funding model and the risk profile of the entity; and
- (d) the extent to which the failure of the entity would have an adverse effect on financial stability, due to the interconnectedness of the entity with other institutions or entities or with the rest of the financial system.

(ii) *New ranking for subordinated instruments of banks which do not qualify as own fund*

Article 91 of the Banking Law has been modified by Decree No. 193 to transpose into the Italian legislative framework the provisions envisaged by Article 48(7) of the BRRD II.

In particular, according to the amended version of Article 91, subordinated instruments which do not qualify (and no part thereof is recognized) as own funds items shall rank senior to own funds items (including any instruments only partly recognized as own funds items) and junior to senior non-preferred instruments. Moreover, if own funds items cease, in their entirety, to be classified as such, they will rank senior to own funds items but junior to senior non-preferred instruments.

The abovementioned provisions also applies to instruments issued before the entrance into force of Decree No. 193, such as 1 December 2021.

(iii) *New minimum denomination requirement*

Article 12-ter of the Italian Banking Act, introduced by Decree No. 193, provides for the determination of a minimum unit value for bonds and debt securities issued by banks or investment firms equal to Euro 200,000 for subordinated bonds and other subordinated securities or Euro 150,000 for Senior Non Preferred debt instruments (“*strumenti di debito chirografario di secondo livello*”).

Any contracts entered into with non-professional investors and relating to investment services having as their object the instruments referred to in Article 12-ter of the Italian Banking Act issued after 1 December 2021, that do not respect the minimum unit value, shall be declared as null and void (Article 25-quarter of the Financial Services Act, as amended by Decree No. 193).

Without prejudice to the restrictions outlined above on the sale to retail investors, the ban previously in force on the placement of Senior Non Preferred debt instruments with non-qualified investors has been repealed by Article 5 of Decree No. 193.

As the BRRD II has only recently been implemented in Italy and other Member States, there is uncertainty as to the effects of its application in practice.

Also, certain provisions of the BRRD II remain subject to regulatory technical standards and implementing technical standards to be prepared by the European Banking Authority. In addition to the BRRD II, it is possible that the application of other relevant laws, the CRD V and the CRR II and any amendments thereto or other similar regulatory proposals, including proposals by the FSB on cross-border recognition of resolution actions, could be used in such a way as to result in the Notes absorbing losses in the manner described above. Any actions by the relevant resolution authority pursuant to the powers granted to it as a result of the transposition of the BRRD, as amended by the BRRD II, or other measures or proposals relating to the resolution of financial institutions, may adversely affect the rights of holders of the Notes, the price or value of an investment in the Notes and/or the Issuer’s ability to satisfy its obligations under the Notes.

The Single Resolution Mechanism

On 19 August 2014, SRMR entered into force. The SRMR became operational on 1 January 2016. There are, however, certain provisions including those concerning the preparation of resolution plans and provisions relating to the cooperation of the SRB with national resolution authorities, which entered into force on 1 January 2015. The SRMR was subsequently updated with the Banking Reform Package in June 2019. The SRMR, which complements the SSM, applies to all banks supervised by the SSM. It will mainly consist of the SRB and the SRF.

Regulation (EU) No. 2019/877 of the European Parliament and of the Council of 20 May 2019 (“**SRM II Regulation**”) amends the SRM Regulation as regards the loss-absorbing and recapitalization of credit institutions and investment firms.

The Single Resolution Mechanism framework ensures that, instead of national resolution authorities, there will be a single authority – i.e. the SRB – which takes all relevant decisions for the resolution of banks being supervised

by the SSM and part of the Eurozone. In line with the changes to BRRD II described above, revisions to the provisions of the SRM Regulation (in relation to MREL) are due to change in due course.

In such a context, it is worth to mention the process to review - started by the European Commission in November 2020 – the Crisis Management and Deposit Insurance ("CMDI") framework. Following this revision, new and different legal and regulatory requirements may apply to the Group, in particular the intention of the European legislator is to amend the BRRD, the SRMR and the Deposit Guarantee Schemes Directive ("DGSD").

Measures to counter the impact of the "COVID-19" virus

European and national authorities have undertaken several measures to support the banking and financial market to counter the economic effects of COVID-19.

On 10 March 2020, through an addendum to the 2019 credit agreement between the Italian Banking Association ("ABI") and the Business Associations, the possibility of requesting suspension or extension was extended to loans granted until 31 January 2020. The moratorium refers to loans to micro, small and medium-sized companies affected by the COVID-19 outbreak. The capital portion of loan repayment instalments may be requested to be suspended for up to one year, later extended until 30 June 2021. The suspension is applicable to medium/long-term loans (mortgages), including those concluded through the issue of agricultural loans, and to property or business assets leasing transactions. In the latter case, the suspension concerns the implicit capital instalments of the leasing. On 21 April 2020, through an agreement entered into with the consumer associations, the moratorium was extended to credit to households, including the suspension of the principal portion of mortgage-backed loans and unsecured loans repayable in instalments.

On 11 March 2020, ESMA, considering the spread of COVID-19 and its impact on the EU financial markets, issued four recommendations in the following areas: (1) business continuity planning, (2) market disclosure, (3) financial reporting and (4) fund management.

1. **Business Continuity Planning:** ESMA has recommended all financial market participants to be ready to apply their contingency plans to ensure operational continuity in line with regulatory obligations.
2. **Market disclosure:** issuers should disclose as soon as possible any relevant significant information concerning the impacts of COVID-19 on their fundamentals, prospects or financial situation in accordance with their transparency obligations under the Regulation (EU) No. 596/2014 (MAR), as a disclosure obligation contained in Article 17, paragraph 1 of the MAR, pursuant to which issuers are required to disclose to the public without delay any inside information directly concerning them.
3. **Financial reporting:** ESMA has recommended issuers to provide transparency on the actual and potential impacts of COVID-19, to the extent possible based on both a qualitative and quantitative assessment on their business activities, financial situation and economic performance in their 2019 year-end financial report if these have not yet been finalised or otherwise in their interim financial reporting disclosures.

4. Fund Management: ESMA has encouraged fund managers to continue to apply the requirements on risk management and to react accordingly.

The ECB, at its monetary policy meeting held on 12 March 2020, decided to adopt a comprehensive set of monetary policy measures, consisting of three key elements: first, safeguarding liquidity conditions in the banking system through a series of favourably-priced longer term refinancing operations (LTROs); second, protecting the continued flow of credit to the real economy through a fundamental recalibration of targeted longer term refinancing operations (TLTROs); and, third, preventing tightening of financing conditions for the economy in a pro-cyclical way via an increase in the asset purchase programme (APP).

As regards TLTRO, the Governing Council decided to apply considerably more favourable terms during the period from June 2020 to June 2021 to all TLTRO III operations outstanding during that time. Throughout this period, the interest rate on these TLTRO III operations will be 25 basis points below the average rate applied in the Eurosystem's main refinancing operations.

The Governing Council also decided to add a temporary envelope of additional net asset purchases of €120 billion until the end of the year, ensuring a strong contribution from the private sector purchase programmes. On 18 March 2020, this was followed by the announcement of the €750 billion Pandemic Emergency Purchase Program (PEPP), increased with a further €600 billion on 4 June 2020. Net asset purchases under the PEPP ended as of April 2022. Principal payments from maturing securities purchased under it are being reinvested in full.

On 12 March 2020, the ECB Banking Supervision leg, the SSM, published the first supervisory response to provide banks with a temporary capital and operational relief. According to the ECB statements: i) banks are allowed to operate temporarily below the level of capital defined by the Pillar 2 Guidance, the capital conservation buffer (CCB) and the LCR to release resources for financing households and undertakings; ii) the ECB encourages also national macroprudential authorities to relax the countercyclical capital buffer (“CCyB”); iii) banks are allowed to partially use capital instruments that do not qualify as Common Equity Tier 1 (CET1) capital to meet the Pillar 2 Requirements (P2R), for example Additional Tier 1 (AT1) or Tier II instruments; iv) banks will discuss with the ECB further individual measures, such as modified timetables, processes and deadlines (e.g. for on-site inspections or remedial actions); v) flexibility will be granted for the application of the ECB Guidance to banks on non-performing loans to adjust to bank's specific situation due to COVID-19.

On 10 February 2022, the ECB announced that it did not see it as necessary to allow banks to operate below the level of capital defined by their Pillar 2 Guidance beyond December 2022, nor to extend beyond March 2022 the supervisory measure that allow them to exclude central bank exposure from their leverage ratios. Therefore, banks are: (i) expected to operate above Pillar 2 Guidance from 1 January 2023; (ii) re-include central bank exposures in leverage ratio from 1 April 2022; and (iii) have ample headroom above capital and leverage ratio requirements.

Among the various measures adopted by the Italian government to address the epidemiological emergency due to COVID-19 outbreak, on 17 March 2020 Law Decree No. 18 (“**Cura Italia Decree**”) was adopted. The Cura Italia Decree has introduced special measures derogating from the ordinary proceeding of the Guarantee Fund for SMEs in order to simplify the requirements for access to the guarantee and strengthen the intervention of the Guarantee

Fund for SMEs itself, as well as the possibility of transforming the DTA relating to losses that can be carried forward but not yet deducted and to the amount of the ACE (“*Aiuto alla Crescita Economica*“) notional return exceeding the total net income, to the extent of 20 per cent. of the impaired loans sold by 31 December 2020.

On 20 March 2020, the ECB announced additional measures (in addition to those already undertaken on 12 March 2020 on temporary capital and operational relief for banks) to ensure that its directly supervised banks can continue to fulfil their role to fund households and corporations amid the COVID-19 related economic shock to the global economy. The ECB published also a detailed FAQ on the measures adopted with the aim of updating it as needed. In particular, the ECB recommended to:

- give banks further flexibility in prudential treatment of loans backed by public guarantees, by extending to them the preferential treatment foreseen in its Guidance for NPLs for loans guaranteed or insured;
- encourage banks to avoid excessive procyclical effects when applying the IFRS 9 international accounting standard;
- activate capital and operational relief measures announced on 12 March 2020.

On 25 March 2020, the EBA and ESMA published detailed statements to address IFRS 9 accounting issues due to the COVID-19 outbreak and linked to the exceptional measures taken by banks and governments to address the situation, which affected compliance with the EBA Guidelines on the definition of default (DoD) and forbearance/past-due classifications of loans.

The EBA statement of 25 March 2020 explained the functioning of the prudential framework in relation to the exposures in default, the identification of forborne exposures and impaired exposures in accordance with IFRS 9. In particular, EBA has clarified some additional aspects of the operation of the prudential framework concerning:

- the classification of exposures in default;
- the identification of forborne exposures;
- the accounting treatment of the aforesaid exposures

Specifically, the EBA repeated the concept of flexibility in the application of the prudential framework, clarifying that an exposure should not be automatically reclassified as (i) exposure in default, (ii) forborne exposure, or (iii) impaired exposure under International Financial Reporting Standard - IFRS9, in case of adoption of credit tolerance measures (such as debt moratorium) by national governments.

The ESMA statement of 25 March 2020 provided guidance on the application of IFRS 9 (Financial Instruments) addressed to issuers and auditors with regard to the calculation of expected losses and related disclosure requirements, in particular, as regards the suspension (or deferral) of payments established for credit agreements (e.g. moratorium on debt) that impact the calculation of Expected Credit Loss (ECL) under the principles set forth in IFRS 9. On 20 May 2020, ESMA published a Public Statement addressing the implications of the COVID-19

pandemic on the half-yearly financial reports of listed issuers (the "**Public Statement**"). The Public Statement provided recommendations on areas of focus identified by ESMA and highlighted: i) the importance of providing relevant and reliable information, which may require issuers to make use of the time allowed by national law to publish half-yearly financial reports while not unduly delaying the timing of publication; ii) the importance of updating the information included in the latest annual accounts to adequately inform stakeholders of the impacts of COVID-19, in particular in relation to significant uncertainties and risks, going concern, impairment of non-financial assets and presentation in the statement of profit or loss; and iii) the need for entity-specific information on the past and expected future impact of COVID-19 on the strategic orientation and targets, operations, performance of issuers as well as any mitigating actions put in place to address the effects of the pandemic. The Public Statement was conceived to be applicable also to financial statements in other interim periods when IAS 34 Interim Financial Reporting is applied. It called on the management, administrative and supervisory bodies, including audit committees, of issuers and, where applicable, their auditors, to take due consideration of the recommendations included within the statement."

On 27 March 2020, the Basel Committee's oversight body, the Group of Central Bank Governors and Heads of Supervision ("**GHOS**"), has deferred Basel III implementation to increase operational capacity of banks and supervisors to respond to the immediate financial stability priorities resulting from the impact of the COVID-19 on the global banking system.

The measures endorsed by the GHOS comprise the following changes to the implementation timeline of the outstanding Basel III standards:

- the implementation date of the Basel III standards finalised in December 2017 has been deferred by one year to 1 January 2023. The accompanying transitional arrangements for the output floor has also been extended by one year to 1 January 2028.
- the implementation date of the revised market risk framework finalised in January 2019 has been deferred by one year to 1 January 2023.
- the implementation date of the revised Pillar 3 disclosure requirements finalised in December 2018 has been deferred by one year to 1 January 2023.

On 27 March 2020, the European Central Bank published a recommendation addressed to significant banks to refrain from paying dividends and from share buy-backs aimed at remunerating shareholders for the duration of the economic shock related to COVID-19. The ECB has decided to extend the recommendation on dividends until 1 January 2021 with the new Recommendation ECB/2020/35 that repeals the previous Recommendation ECB 2020/19 of 27 March 2020.

On 15 December 2020, the ECB recommended that banks exercise extreme prudence on dividends and share buy-backs. To this end, the ECB asked all banks to consider not distributing any cash dividends or conducting share buy-backs, or to limit such distributions, until 30 September 2021. Given the persisting uncertainty over the economic impact of the COVID-19 pandemic, the ECB expects dividends and share buy-backs to remain below

15 per cent. of the cumulated profit for 2019-2020 and not higher than 20 basis points of the CET1 ratio. Banks that intend to pay dividends or buy back shares need to be profitable and have robust capital trajectories. They are expected to contact their Joint Supervisory Team to discuss whether the level of intended distribution is prudent. The recommendation remained valid until the end of September 2021. On 23 July 2021, the ECB decided not to extend dividend recommendation beyond September 2021 with the new Recommendation ECB/2021/31. In particular, the ECB considered that the reduced economic uncertainty allows the thorough supervisory assessment of the prudence of bank's plans to distribute dividends and conduct share buybacks on an individual basis with a careful forward-looking assessment of capital plans in the context of the normal supervisory cycle.

On 1 April 2020 the ECB provided banks with further clarifications on the use of forecasts for the Expected Credit Loss (ECL) calculations under IFRS 9, after having invited banks to opt, if not done before, for applying the IFRS 9 five-year transitional arrangements included in the CRR to mitigate the First Time Application (FTA) capital impact of the new accounting principle.

On 2 April 2020, the EBA published more detailed guidance on the criteria to be fulfilled by legislative and non-legislative moratoria applied before 30 June 2020. The Guidelines acknowledged that Member States have implemented a broad range of support measures in order to minimise the medium- and long-term economic impacts of the efforts taken to contain the COVID-19 pandemic. In light of this, the EBA Guidelines clarify several aspects of payment moratoria, such as that they do not automatically trigger the classification as forborne or distressed restructuring if the measures taken are based on the applicable national law or on an industry or sector-wide private initiative agreed and applied broadly by the relevant credit institutions. In June 2020, the EBA further extended the application date of its Guidelines by three months, from until 30 September 2020, and on the 21 September, communicated its phasing-out. However, on 2 December 2020 the Guidelines were reactivated until 31 March 2021.

On 29 January 2021, the EBA published the "Report on the implementation of selected COVID-19 policies", which contains a series of clarifications in the form of questions and answers (Q&A) on the interpretation of the EBA Guidelines, in particular with regard to the overall duration of the deferred payment to fall within the scope of the EBA Guidelines on moratoriums. However, the clarifications did not concern the hypothesis in which the moratorium pursuant to law, even if granted before 31 September, was extended for more than 9 months due to a subsequent law.

In continuity with the Cura Italia Decree, Law Decree no. 23 of 8 April 2020 ("**Liquidity Decree**") was issued, a further measure deemed necessary to support Italian entrepreneurship. The Liquidity Decree, in addition to providing an additional guarantee managed by SACE Simest (SACE), a company of the Cassa Depositi e Prestiti group, aims to further strengthen the Guarantee Fund for SMEs by redrawing its rules for accessing, by including also companies with no more than 499 employees and professionals, as well as increasing the guarantee coverage percentages already provided by Article 49 of the Cura Italia Decree (provision that is repealed). In the wake of the latter provision, the Liquidity Decree makes further exceptions to the ordinary rules of the Guarantee Fund for SMEs, which will be applicable until 31 December 2020. The Government extended such measures until 30 June 2022.

On 28 April 2020, the European Commission published a legislative proposal for amending the CRR to ease banking activity during the COVID-19 emergency and ensure the flow of loans to households and businesses.

The measures, both temporary and exceptional, have been promoted to mitigate the immediate impact of COVID-19 related developments, and they imply:

- the reintroduction of prudential filters to manage the current situations of strong turbulence in the markets and to neutralize the effects of losses and gains on the value of debt securities held in the portfolio available for sale as if the securities were valued at cost instead of at fair value;
- a temporary approach to market risk in order to allow supervisors to implement appropriate measures to avoid automatic increases in the quantitative addendum (in particular over the period January 2020 and December 2021);
- more favourable treatment of government guarantees granted during the crisis, aligning the calendar provisioning applied to positions with government guarantees with the calendar provisioning applied to credits guaranteed by Export Credit Agencies;
- early application of certain measures provided for in CRR2: i) extension of the SME Supporting Factor; ii) introduction of the Infrastructure Supporting Factor; iii) improved weighting calibration for loans guaranteed by salary/pension share disposals; iv) improved prudential treatment of software;
- an adaptation of the timeline of the application of international accounting standards to banks' capital (IFRS9 phase-in arrangements);
- the postponement of the date of application of the additional reserve requirement for the leverage ratio of systemic banks ("G-SIB buffer");
- a change in the way of excluding certain exposures from the calculation of the leverage ratio;
- the introduction of a transitional regime for EU Sovereign exposures in the currency of another EU Member State.

Following the positive vote of the plenary session of the European Parliament (19 June 2020), the "CRR Quick-Fix" has been published in the European Official Journal on 26 June and has entered into force the following day (27 June 2020).

On 19 May 2020, the Law Decree No. 34 of 19 May 2020 (the so-called "**Decreto Rilancio**") was published in the Official Journal, introducing urgent measures in the areas of healthcare, work and economic support, as well as social policies, related to the epidemiological emergency caused by COVID-19.

Such decree has been signed in the Law No. 77/2020. It introduced some provisions (valid until 31 December 2020) which are aimed at strengthening SME's capital, thus preventing their insolvency risk. Particular reference is made to two public tools: "Patrimonio PMI" fund, which is aimed at subscribing new bonds issued by SME

corporates with €10 million turnover, which have been impacted by COVID-19 a turnover reduction of 33 per cent. in April and May 2020 (two tax credits are granted to other investors <20 per cent. of the investment> in such corporates, and to the corporates above indicated which have suffered losses <50 per cent. of the losses which exceed the 10 per cent. of the Net worth, but in the limit of the 30 per cent. of the capital increase>); and the so-called "Patrimonio rilancio" (Dedicated assets within CDP) which is aimed at subscribing new bonds (mainly convertible bonds) and shares in order to support the real economy.

In August 2020 the Government approved the Law Decree "August" (Law Decree 14 August 2020, No. 104, converted into Law 13 October 2020, No. 126) containing several urgent measures in support of health, work and economy, linked to the COVID-19 emergency. The measures introduced by the Law regard the extension of the moratorium for SME until 31 January 2021 (formerly 30 September 2020) and, for tourist sector, until 31 March 2021. Such prorogation operate automatically, unless expressly waived by the beneficiary company. They also provide technical changes to the possibility (Article 55, Law Decree Cura Italia No. 18/2020) to convert the DTAs into tax credits (application to special regimes, such as consolidated and transparency). The decree above mentioned also widens the scope of the public guarantee, too, extending the FCG guarantee scope to companies which already got a prorogation of the guarantee due to temporary difficulties of the beneficiary and including financial intermediation and holding financial assets activities in the 30k guaranteed loans. It also extends SACE guarantee scope also to companies admitted to the arrangement procedure with business continuity (or certified plans and restructuring agreements) if their exposures are not classifiable as non-performing exposures (at the date of submission of the application), they don't present amounts in arrears and the lender can reasonably assume the full repayment of the exposure at maturity.

In October and November 2020, the Council of Ministers approved the "Relieves" Law Decree (Law Decree 28 October 2020, No. 137) and the "Relieves 2" Law Decree (Law Decree 9 November 2020, No.

149) which provides further urgent measure regarding health protection, support to workers and production sectors, justice and safety linked to COVID-19 epidemic. Main measures introduced by the Law are a non-refundable aid for enterprises whose sectors have been restricted and the prorogation of "rental" Tax credit to October-December period and extension to enterprises with turnover exceeding €5 million and which have had a 50 per cent. reduction of turnover. In March 2021, the Council of Ministers approved the "Support" Law Decree (Law Decree 22 March 2021, No. 41) which provides further urgent measure regarding health protection, support to workers and production sectors linked to COVID-19 pandemic. Such decree introduces a new non-refundable aid for enterprises and professionals which have had a 30 per cent. reduction of turnover.

Finally, among the measures adopted in response to the COVID-19 emergency, we recall the Capital Markets Recovery Package proposal (so-called "quick fix") published by the European Commission in July, which proposes targeted amendments to the MiFID, the Prospectus Regulation as well as the Securitization Regulation. The package aimed to provide European economies with some relief to face the crisis emerging from the COVID-19 pandemic.

United States of America

Neither the Notes nor the Guarantee thereof have been nor will they be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act) except in certain transactions exempt from or not subject to, the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder.

The applicable Final Terms will identify whether Regulation S Compliance Category 2, TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver the Notes (a) as part of its distribution at any time or (b) otherwise until 40 days after the later of the commencement of the offering and the Issue Date, within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S of the Securities Act. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the commencement of the offering of any Series of Notes, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an applicable exemption from registration under the Securities Act.

Prohibition of sales to EEA Retail Investors

If the Final Terms in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression “retail investor” means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); or

- (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or

(A) ITALIAN TAXATION OF THE NOTES ISSUED BY MEDIOBANCA

The Notes issued by Mediobanca may be subject to different tax regimes depending on whether:

- they qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) implying a capital investment (*impiego di capitale*); or

- they qualify as atypical securities (*titoli atipici*); or
- they qualify as derivative financial instruments or bundles of derivative financial instruments.

Depending on the features of the Notes, the following Italian tax treatments may apply to the Notes.

1. Notes qualifying as bonds or securities similar to bonds

Decree No. 239 regulates the tax treatment of interest, premium and other income including the difference between the redemption amount and the issue price) (hereinafter collectively referred to as "**Interest**") from certain securities issued, *inter alia*, by Italian resident banks. The provisions of Decree No. 239 only apply to those Notes which qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) pursuant to Article 44 of Decree No. 917. For this purpose, securities similar to bonds are securities that (i) entail an unconditional obligation to pay, at maturity, an amount not lower than their nominal value (with or without payment of periodic interest) and (ii) do not give any right to directly or indirectly participate in the management of the issuer or of the business in relation to which the securities are issued nor any type of control on the management.

Italian resident Noteholders

Pursuant to Decree No. 239, payments of Interest accrued on Notes issued by Mediobanca are subject to a substitute tax, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent. in the Republic of Italy (either when Interest is paid or when payment thereof is obtained by the holder on a sale of the Notes) if made to beneficial owners who are:

- (1) individuals resident in the Republic of Italy for tax purposes, holding the Notes not in connection with entrepreneurial activities; or
- (2) Italian resident non-commercial partnerships (other than "*società in nome collettivo*", or "*società in accomandita semplice*" or similar partnerships), or a *de facto* partnerships not carrying out commercial activities or professional associations; or
- (3) Italian resident private or public institutions, other than companies, trusts not carrying out mainly or exclusively commercial activities, the Italian State and public and territorial entities; or
- (4) investors exempt from Italian corporate income tax.

All the above categories are qualified as "net recipients" (unless they have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and has opted for the so-called "*regime del risparmio gestito*" (the "**Asset Management Regime**"), according to Article 7 of Decree No. 461 of 21 November 1997, as amended and supplemented from time to time ("**Decree No. 461**").

In the event that the Noteholders described above under (1) and (3) are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional income tax. As a consequence,

Interest on the Notes will be included in the relevant beneficial owner's Italian income tax return and will be subject to ordinary income tax and the *imposta sostitutiva* tax may be recovered as a deduction from the income tax due.

Subject to certain limitations and requirements (including a minimum holding period), Interest in respect of Notes that qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) received by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the 26 per cent. *imposta sostitutiva* on Interest if the Notes are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1, paragraphs 100 – 114, of Law No. 232 of 11 December 2016 (as further amended and applicable from time to time, "**Law No. 232**") and Article 1, paragraphs 211-215, of Law no. 145 of 30 December 2018 (as further amended and applicable from time to time, "**Law No. 145**") and in Article 13-*bis* of Law Decree No. 124 of October 26, 2019 (as further amended and applicable from time to time, "**Law Decree No. 124**"). Pursuant to Article 1, paragraphs 219-225-*bis* of Law n. 178 of 30 December 2020 as further amended and applicable from time to time ("**Finance Act 2021**"), it is further provided that Italian resident individuals investing in long-term individual savings account compliant with Article 13-*bis*, paragraph 2-*bis* of Decree 124 may benefit from a tax credit corresponding to possible capital losses, losses and negative differences realised in respect of certain qualifying financial instruments comprised in the long-term individual savings account, provided that certain conditions and requirements are met (*e.g.* including the loss of the possibility to subsequently set off the relevant capital losses, losses and negative differences against future capital gains).

Pursuant to Decree No. 239, the 26 per cent. *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* (so-called "**SIMs**"), fiduciary companies, *società di gestione del risparmio* ("**SGRs**"), stockbrokers and other qualified entities identified by a decree of the Ministry of Finance ("**Intermediaries**" and each an "**Intermediary**") that must (A) (i) be resident in Italy, (ii) be a permanent establishment in Italy of non-Italian resident Intermediaries or an entity or (iii) be an entity or a company not resident in Italy, acting through a system of centralised administration of notes and directly connected with the Department of Revenue of Italian Ministry of Finance having appointed an Italian representative for the purposes of Decree No. 239, and (B) intervene in any way in the collection of Interest or, also as transferees, in the transfers or, disposals of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant notes or in a change of the Intermediary with which the notes are deposited.

Where the Notes and the relevant coupons are not deposited with an Italian resident Intermediary (or with a permanent establishment in Italy of a foreign Intermediary), the *imposta sostitutiva* is applied and withheld by any Italian resident Intermediary paying Interest to the holders of the Notes or, in its absence, by the Issuer.

Interest payments will not be subject to the 26 per cent. *imposta sostitutiva* if made to beneficial owners who are:

- (1) Italian resident corporations or permanent establishments in Italy of non resident corporations to which the Notes are effectively connected;

- (2) Italian resident partnerships carrying out commercial activities ("*società in accomandita semplice*" or "*società in nome collettivo*");
- (3) Italian resident open-ended or closed-ended collective investment funds (together the "**Funds**" and each a "**Fund**"), Italian investment companies with variable capital ("SICAVs"), Italian resident non-real estate investment companies with fixed capital ("SICAFs"), Italian resident pension funds referred to in Legislative Decree No. 252 of 5 December 2005 ("**Decree No. 252**"), Italian resident real estate investment funds ("**Real Estate Funds**") and Italian real estate investment companies with fixed capital ("**Real Estate SICAFs**") subject to the regime provided for by Law Decree No. 351 of 25 September 2001;
- (4) Italian resident individuals holding the Notes not in connection with entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an Italian authorised financial intermediary and have opted for the Asset Management Regime.

Such categories are qualified as "gross recipients". To ensure payment of Interest in respect of the Notes without the application of *imposta sostitutiva*, gross recipients indicated here above under (1) to (4) must: (a) be the beneficial owners of payments of Interest on the Notes and (b) timely deposit the Notes together with the coupons relating to such Notes directly or indirectly with an Italian authorised financial intermediary (or a permanent establishment in Italy of a foreign Intermediary). Where the Notes and the relevant coupons are not deposited with an Italian intermediary (or a permanent establishment in Italy of a foreign Intermediary), the *imposta sostitutiva* is applied and withheld by any Italian Intermediary paying Interest to the holders of the Notes or, absent that, by the Issuer.

Where the Notes and the relevant coupons are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any Italian Intermediary (or permanent establishment in Italy of foreign intermediary) which intervenes in the payment of Interest to any Noteholder or by the Issuer and Noteholders who are Italian resident companies or permanent establishments in Italy of foreign corporations to which the Notes are effectively connected are entitled to deduct the *imposta sostitutiva* suffered from income taxes due.

Italian resident individuals holding Notes not in connection with entrepreneurial activity who have opted for the Asset Management Regime in connection with their investment in the Notes are subject to a 26 per cent. annual *imposta sostitutiva* (the "**Asset Management Tax**") on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the Notes during the holding period). The Asset Management Tax is applied on behalf of the taxpayer by the managing authorised intermediary.

If the investor is resident in Italy and is a Fund, a SICAV or a non-real estate SICAF and the relevant Notes are held by an authorised intermediary, Interest accrued during the holding period on such Notes will not be subject to *imposta sostitutiva*, but must be included in the financial results of the Fund, SICAV or non-real estate SICAF. The Fund, SICAV or SICAF will not be subject to taxation on such result, but a withholding tax of 26 per cent. will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders (the "**Collective Investment Fund Tax**").

Where a Noteholder is a Real Estate Fund or a Real Estate SICAF to which the provisions of Law Decree No. 351 of 25 September, 2001, as subsequently amended, apply, Interest accrued on the Notes will be subject neither to *imposta sostitutiva* nor to any other income tax in the hands of a Real Estate Fund or a Real Estate SICAF. The income of the real Estate Fund or of the Real Estate SICAF is subject to tax, in the hands of the unitholder, depending on the *status* and percentage of participation, or, when earned by the Fund, through distribution and/or upon redemption or disposal of the units.

Where a Noteholder is an Italian resident pension funds subject to the regime provided by Article 17 of Decree No. 252, Interest relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but will be subject to a 20 per cent. tax (the "**Pension Fund Tax**") on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the Notes during the holding period).

Subject to certain limitations and requirements (including minimum holding period), Interest relating to the Notes may be excluded from the taxable base of the Pension Fund Tax if the Notes are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1, paragraphs 100-114 of Law No. 232 and Article 1, paragraphs 211-215-*bis*, of Law No. 145, and in Article 13-*bis* of Law Decree No. 124 as amended and applicable from time to time. Pursuant to Article 1, paragraphs 219-225 of the Finance Act 2021, it is further provided that Italian resident individuals investing in long-term individual savings account compliant with Article 13-*bis*, paragraph 2-*bis* of Decree 124 may benefit from a tax credit corresponding to possible capital losses, losses and negative differences realised in respect of certain qualifying financial instruments comprised in the long-term individual savings account, provided that certain conditions and requirements are met (*e.g.* including the loss of the possibility to subsequently set off the relevant capital losses, losses and negative differences against future capital gains).

Interest accrued on the Notes by beneficial owners who are Italian resident corporations and permanent establishments in Italy of foreign entities to which the Notes are effectively connected are subject to tax in Italy in accordance with ordinary rules and would be included in the taxable income for corporate income tax purposes (IRES), currently applying at a rate of 24 per cent. (increased by an additional tax at the rate of 3.5 in case of Bank of Italy and financial institutions, with the exclusion of SGRs) and in certain circumstances, depending on the "status" of the Noteholder also in the net value of production for the purposes of regional tax on productive activities (IRAP), generally applying at a rate of 3.9 per cent. (which may be varied by each Italian Region by up to 0.92 per cent.).

Non-Italian resident Noteholders

Pursuant to Decree No. 239, payments of Interest accrued on Notes issued by Mediobanca which qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) will not be subject to the 26 per cent. *imposta sostitutiva* if made to beneficial owners who are non-Italian resident beneficial owners of Notes not having a permanent establishment in Italy to which the Notes are effectively connected, **provided that:**

- such beneficial owners are resident for tax purposes in a State or territory which allows for an adequate exchange of information with the Italian tax authorities as included in the Decree of the Minister of Finance dated 4 September 1996, as amended and supplemented from time to time. According to Article 11(4)(c) of Decree 239 the White List will be updated every six months period. In absence of the issuance of the new White List, reference has to be made to the above-mentioned Decree dated 4 September 1996, as amended from time to time; an
- all the requirements and procedures set forth in Decree No. 239 and the relevant implementing rules in order to benefit from the exemption from the *imposta sostitutiva* have been promptly and properly complied with in due time.

Decree No. 239, also provides for additional exemptions from the *imposta sostitutiva* for payments of Interest in respect of the Notes made to (i) international bodies and organisations established in accordance with international agreements ratified in Italy, (ii) certain foreign institutional investors resident or established in State or territory included in the White List, even if they do not have the *status* of taxpayer in their own country of establishment; and (iii) Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State.

To ensure payment of Interest in respect of the Notes without the application of the *imposta sostitutiva*, non-Italian resident investors indicated above must:

- be the beneficial owners of payments of Interest on the Notes;
- deposit the Notes in due time together with the coupons relating to such Notes directly or indirectly with an Italian bank or SIM or with a permanent establishment in Italy of a non-Italian resident bank or SIM, or with a non-Italian resident entity participating in a centralised securities management system which is in contact, via computer, with the Italian Ministry of Economics, and
- file in due time with the relevant depository a self-declaration (*autocertificazione*) stating, *inter alia*, to be resident, for tax purposes, or established, as the case may be, in a State or territory included in the White List. Such statement which is requested neither for international bodies nor for entities set up in accordance with international agreements ratified by Italy nor for foreign Central Banks or entities managing, *inter alia*, official State reserves - must comply with the requirements set forth by Italian Ministerial Decree of 12 December 2001 and is valid until withdrawn or revoked. Additional statements may be required for non-Italian resident Noteholders who are institutional investors. The self-declaration (*autocertificazione*) is not required for non-Italian resident investors that are international entities and organisations established in accordance with international agreements ratified in Italy and Central Banks or entities which manage, accordance with international agreements ratified in Italy and Central Banks or entities which manage, *inter alia*, the official reserves of a foreign state.

Failure of a non-resident holder of the Notes to comply in due time with the procedures set forth in Decree No. 239 and in the relevant implementation rules will result in the application of the *imposta sostitutiva* on the Interest payments to a non-resident holder of the Notes.

Non-resident holders of the Notes who are subject to *imposta sostitutiva* might, nevertheless, be eligible for a total or partial relief under an applicable double taxation treaty between the Republic of Italy and the country of residence of the relevant holder of the Notes.

Fungible Issues

Pursuant to Article 11, paragraph 2 of Decree No. 239, where the relevant issuer issues a new tranche forming part of a single series with a previous tranche, for the purposes of calculating the amount of interest subject to substitute tax, the issue price of the new tranche will be deemed to be the same as the issue price of the original tranche. This rule applies where (a) the new tranche is issued within 12 months from the issue date of the previous tranche, and (b) the difference between the issue price of the new tranche and that of the original tranche does not exceed 1 per cent. of the nominal value of the notes multiplied by the number of years of the duration of the notes.

Capital gains tax

Any gain obtained from the sale or redemption of the Notes would be treated as part of the taxable business income (and, in certain circumstances, depending on the "*status*" of the Noteholder, also as part of the net value of the production for IRAP purposes) if realised by Italian resident companies, Italian resident partnerships carrying out commercial activities or similar commercial entities (including Italian permanent establishments of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Pursuant to Decree No. 461, where an Italian resident Noteholder is (i) an individual not engaged in an entrepreneurial activities to which the Notes are connected, (ii) an Italian resident partnership not carrying out commercial activities or (iii) an Italian private or public institution not carrying out mainly or exclusively commercial activities, any capital gain realised by such Noteholder from the sale or transfer for consideration of the Notes would be subject to a substitute tax (*imposta sostitutiva*), levied at the current rate of 26 per cent.. Noteholders may generally offset against capital losses with gains of the same nature.

In respect of the application of such substitute tax, taxpayers may opt for one of the three regimes described below.

Under the so called "*regime della dichiarazione*" (the "**Tax Declaration Regime**"), which is the standard regime for taxation of capital gains, the 26 per cent *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss of the same nature, realised pursuant to all investment transactions carried out during any given tax year. The overall capital gains realised in any tax year, net of any incurred capital loss of the same nature, must be reported in the relevant annual tax return and the substitute tax must be paid on such gains together with any balance income tax due for the relevant tax year. Capital losses in excess of capital gains may be carried forward against capital gains of the same nature realised in any of the four succeeding tax years.

As an alternative to the Tax Declaration Regime, the holders of the Notes who are:

- Italian resident individuals not engaged in entrepreneurial activities to which the Notes are connected;

- Italian resident partnerships not carrying out commercial activities;
- Italian private or public institutions not carrying out mainly or exclusively commercial activities,

may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or transfer or redemption of the Notes under the so called "*regime del risparmio amministrato*" (the "**Administrative Savings Regime**"), according to Article 6 of Decree No. 461. Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries (or permanent establishments in Italy of foreign intermediaries) and (ii) an express election for the Administrative Savings Regime being timely made in writing by the relevant Noteholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or transfer or redemption of the Notes, as well as on capital gains realised as at revocation of its mandate, net of any relevant incurred capital loss of the same nature, and is required to pay the relevant amount to the Italian tax authorities on behalf of the holder of the Notes, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Where a sale or transfer or redemption of the Notes results in a capital loss, such loss may be offset against capital gains of the same nature subsequently realised, within the same relationship of deposit, in the same tax year or in the following tax years up to the fourth. Under the Administrative Savings Regime, the Noteholder is not required to declare the capital gains in the annual tax return.

Where the Notes are part of a portfolio managed under the Asset Management Regime by an Italian asset management company or an authorised financial intermediary, the capital gains realised upon sale, transfer or redemption of the Notes will not be subject to the substitute tax on capital gains but will contribute the determination of the annual accrued appreciation of the managed portfolio, subject to the Asset Management Tax. Any depreciation of the managed portfolio at year end may be carried forward against appreciation accrued in each of the following years up to the fourth. Under the Asset Management Regime, the Noteholder is not required to declare the capital gains realised in the annual tax return.

Subject to certain conditions, capital gains in respect of Notes that qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) realised upon sale, transfer or redemption by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity may be exempt from taxation, including the *imposta sostitutiva* of 26 per cent., if the Notes are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) pursuant Article 1, paragraph 100 – 114, of Law No. 232 and Article 1, paragraphs 211-215, of Law No. 145, and in Article 13-*bis* of Law Decree No. 124 as amended and applicable from time to time. Pursuant to Article 1, paragraphs 219-225-*bis* of the Finance Act 2021, it is further provided that Italian resident individuals investing in long-term individual savings account compliant with Article 13-*bis*, paragraph 2-*bis* of Decree 124 may benefit from a tax credit corresponding to possible capital losses, losses and negative differences realised in respect of certain qualifying financial instruments comprised in the long-term individual savings account, provided that certain conditions and requirements are met (*e.g.* including the loss of the possibility to subsequently set off the relevant capital losses, losses and negative differences against future capital gains).

Any capital gains on Notes held by Funds, SICAVs and non-real estate SICAFs contribute to determine the increase in value of the managed assets of the Funds, SICAVs or non-real estate SICAFs accrued at the end of each tax year. The Funds, SICAVs or SICAFs will not be subject to taxation on such increase, but the Collective Investment Fund Tax will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders.

Where a Noteholder is an Italian resident Real Estate Fund or Real Estate SICAF, to which the provisions of Law Decree No. 351 of 25 September 2001, as subsequently amended, apply, capital gains realised will be subject neither to *imposta sostitutiva* nor to any other income tax in the hands of the Real Estate Fund or Real Estate SICAF. The income of the Real Estate Fund or Real Estate SICAF is subject to tax, in the hands of the unitholder, depending on the status and percentage of participation, or, when earned by the Real Estate Fund or Real Estate SICAF, through distribution and/or upon redemption or disposal of the units.

Any capital gains on Notes held by a Noteholder who is an Italian pension fund (subject to the regime provided for by Article 17 of Decree No. 252) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent.. Pension Fund Tax.

Subject to certain limitations and requirements (including minimum holding period), capital gains in respect of Notes realised upon sale, transfer or redemption by Italian resident pension fund may be excluded from the taxable base of the Pension Fund Tax, if the Notes are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1, paragraphs 100 - 114 of Law No. 232 and Article 1, paragraphs 211-215, of Law No. 145, and in Article 13-bis of Law Decree No. 124 as amended and applicable from time to time. Pursuant to Article 1, paragraphs 219-225-bis of the Finance Act 2021, it is further provided that Italian resident individuals investing in long-term individual savings account compliant with Article 13-bis, paragraph 2-bis of Decree 124 may benefit from a tax credit corresponding to possible capital losses, losses and negative differences realised in respect of certain qualifying financial instruments comprised in the long-term individual savings account, provided that certain conditions and requirements are met (*e.g.* including the loss of the possibility to subsequently set off the relevant capital losses, losses and negative differences against future capital gains).

Capital gains realised by non-Italian-resident Noteholders without a permanent establishment in Italy to which the Notes are effectively connected from the sale or redemption of Notes traded on regulated markets in Italy or abroad are not subject to the *imposta sostitutiva*, regardless of whether the Notes are held in Italy. In such a case, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Noteholders who hold the Notes with an Italian authorised financial intermediary and elect to be subject to the Asset Management Regime or are subject to the Administrative Savings Regime, may be required to file in due time to the Italian authorised financial intermediary an appropriate statement (*autocertificazione*) that they are not resident in Italy for tax purposes.

Capital gains realised by non-Italian resident Noteholders without a permanent establishment in Italy to which the Notes are effectively connected from the sale or redemption of Notes not traded on regulated markets issued by

an Italian or non-Italian resident issuer may in certain circumstances be taxable in Italy, if the Notes are held in Italy.

Where the Notes are not listed on a regulated market in Italy or abroad:

- pursuant to the provisions of Decree No. 461 non Italian resident beneficial owners of the Notes with no permanent establishment in Italy to which the Notes are effectively connected are exempt from the *imposta sostitutiva* in the Republic of Italy on any capital gains realised upon sale for consideration or redemption of the Notes if they are resident, for tax purposes (a) in a State or territory included in the White List and (b) all the requirements and procedures set forth in Decree No. 239 and in the relevant implementation rules, as subsequently amended, in order to benefit from the exemption from the *imposta sostitutiva* are met or complied with in due time. The same exemption applies where the beneficial owners of the Notes are (i) international entities or organisations established in accordance with international agreements ratified by Italy; (ii) certain foreign institutional investors established in countries included in the White List, even if they do not have the status of tax payers in their own country of residence; or (iii) Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State.
- In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Notes are connected that may benefit from a double taxation treaty with the Republic of Italy providing that capital gains realised upon the sale or redemption of Notes are to be taxed only in the country of tax residence of the recipient, will not be subject to the *imposta sostitutiva* in the Republic of Italy on any capital gains realised upon the sale or redemption of Notes.

Under these circumstances, if non-Italian residents without a permanent establishment in Italy to which the Notes are effectively connected elect for the Asset Management Regime or are subject to the Administrative Savings Regime, exemption from Italian capital gains tax will apply upon condition that they file in time with the authorised financial intermediary an appropriate statement (*autocertificazione*) stating that they meet the aforesaid requirement.

Please note that for a non-Italian resident, the Administrative Savings Regime shall automatically apply, unless it is expressly waived this regime, where the Notes are deposited in custody or administration with an Italian resident authorised financial intermediary or permanent establishment in the Republic of Italy of a foreign intermediary.

2. Notes qualifying as atypical securities

Notes issued by Mediobanca which represent a capital investment but do not fall within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) may qualify as 'atypical' securities (*titoli atipici*) pursuant to article 5 of Decree No. 512. In that case, Interest payments relating to Notes issued by Mediobanca may be subject to a 26 per cent. withholding tax. For this purpose, securities similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value, with or without the payment of periodic interest, and do not give any right to directly or indirectly participate

in the management of the issuer or to the business in connection to which the securities were issued, nor to control the same.

Where the Noteholder is (i) an Italian resident individual engaged in an entrepreneurial activity to which the Notes are connected, (ii) an Italian resident company or a similar Italian resident commercial entity, (iii) a permanent establishment in Italy of a foreign entity to which the Notes are effectively connected, (iv) an Italian resident commercial partnership or (v) an Italian resident commercial private or public institution, the 26 per cent. withholding tax applies as a provisional withholding tax. In all other cases - including if the Noteholder is non-Italian resident - the withholding tax applies as a final withholding tax.

Subject to certain limitations and requirements (including a *minimum* holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the withholding tax on interest, premium and other income relating to the Notes which qualify as "atypical" securities) pursuant to Article 5 of Law Decree No. 512 of 30 September 1983, if such Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant to Article 1, paragraph 100 -114 of Law No. 232 and Article 1, paragraphs 211-215, of Law No. 145, and in Article 13-*bis* of Law Decree No. 124 as amended and applicable from time to time. Pursuant to Article 1, paragraphs 219-225-*bis* of the Finance Act 2021, it is further provided that Italian resident individuals investing in long-term individual savings account compliant with Article 13-*bis*, paragraph 2-*bis* of Decree 124 may benefit from a tax credit corresponding to possible capital losses, losses and negative differences realised in respect of certain qualifying financial instruments comprised in the long-term individual savings account, provided that certain conditions and requirements are met (*e.g.* including the loss of the possibility to subsequently set off the relevant capital losses, losses and negative differences against future capital gains).

Double taxation treaties entered into by Italy may apply allowing for a lower (generally 10 per cent., or, in certain cases, nil) rate of withholding tax in the case of payments to non-Italian resident Noteholders, subject to proper compliance with applicable subjective and procedural requirements.

For the sake of completeness, it is worth pointing out that non-Italian resident Noteholders may be entitled to claim, if certain relevant conditions are met, a reduction of such 26 per cent. withholding tax under the double taxation treaty, if any, entered into by Italy and its country of residence, subject to timely filing of required documentation.

3. Notes qualifying as derivative securities

Where the proceeds from the Notes issued by Mediobanca qualify as securitised derivative financial instruments do not qualify as income from a capital investment, the tax regime described under Section 1.4 above applies according to article 67 of Decree No. 917 and Decree No. 461.

(B) LUXEMBOURG TAX REGIME OF THE NOTES ISSUED BY MEOBANCA INTERNATIONAL AND MBFL

1. Tax treatment of the Notes issued by Mediobanca International and MBFL in Luxembourg

The Notes should follow their debt accounting treatment, and be treated as debt from a Luxembourg direct tax point of view. However, the Luxembourg tax authorities may in the future conclude that based on their features the Share Linked Notes are to be considered as equity for Luxembourg tax purposes and, accordingly, follow the tax treatment of equity.

Luxembourg tax residency of the holders of the Notes

A holder of the Notes will not become resident, or be deemed to be resident, in Luxembourg by reason only of the holding of the Notes, or the execution, performance, delivery and/or enforcement of the Notes (holding of the Notes includes receipt of interest and repayment of the principal).

Luxembourg direct tax treatment of the Notes

(a) Luxembourg tax treatment of Notes qualifying as debt

Withholding tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Notes can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however:

- (i) with respect to Luxembourg resident investors, to the application as regards Luxembourg resident individuals of the Luxembourg law of 23 December 2005 (the “**Relibi Law**”), as modified, which foresees a 20% final withholding tax (which is final when Luxembourg resident individuals are acting in the context of the management their private wealth) on interest payments made by Luxembourg paying agents to Luxembourg individual residents. This withholding tax also applies on accrued interest received upon sale, redemption or repurchase of the Notes. Luxembourg resident investors not holding the Notes as business assets may benefit, under conditions, from such final 20% withholding tax for interest payments that are made through a paying agent established in another EU-Member State or in a Member State of the European Economic Area; and
- (ii) responsibility for the withholding of tax in application of the above-mentioned Luxembourg law of 23 December 2005, as amended, is assumed by the Luxembourg paying agent within the meaning of the Relibi Law.

Non-resident holders of Notes, not having a permanent establishment, a permanent representative, or a fixed place of business in Luxembourg to which the Notes or income thereon are attributable, are not subject to Luxembourg

Non-resident corporate or individual holders of Notes acting in the course of the management of a professional or business undertaking, who have a permanent establishment, a permanent representative, or a fixed place of business in Luxembourg to which or to whom such Notes are attributable, are subject to Luxembourg income tax (and where applicable municipal business tax) on interest accrued or received, redemption premiums or issue discounts, under the Notes and on any gains realised upon the sale, exchange or disposal of the Notes.

Resident individual holders of the Notes

Resident individual holders of the Notes, acting in the course of the management of his/her private wealth, are subject to Luxembourg income tax at progressive rates in respect of interest or similar income received, redemption premiums or issue discounts, under the Notes, except if (i) withholding tax has been levied on such payments in accordance with the Relibi Law, or (ii) the individual holder of the Notes has opted for the application of a currently 20% tax in full discharge of income tax in accordance with the Relibi Law, which applies if a payment of interest has been made or ascribed by a paying agent established in a EU Member State (other than Luxembourg), or in a Member State of the European Economic Area (other than a EU Member State).

A gain realised by resident individual holders of the Notes, acting in the course of the management of his/her private wealth, upon the sale, exchange or disposal, in any form whatsoever, of Notes is not subject to Luxembourg income tax, provided this sale, exchange or disposal took place more than six (6) months after the Notes were acquired. However, any portion of such gain corresponding to accrued but unpaid interest income is subject to Luxembourg income tax, except if tax has been levied on such interest in accordance with the Relibi Law.

Resident individual holders of the Notes, acting in the course of the management of a professional or business undertaking must include interest or similar income received, redemption premiums or issue discounts, under the Notes, as well as any gain realised upon the sale, exchange or disposal, in any form whatsoever, of Notes, in their taxable basis, which will be subject to Luxembourg income tax at progressive rates. If applicable, the tax levied in accordance with the Relibi Law will be credited against his/her final tax liability.

Resident corporate holders of the Notes

Resident corporate holders of the Notes or foreign enterprises having a permanent establishment in Luxembourg must include any interest or similar income received, redemption premiums or issue discounts, under the Notes,

as well as any gain realised upon the sale, exchange or disposal, in any form whatsoever, of the Notes, in their taxable income for Luxembourg income tax assessment purposes.

Corporate holders of the Notes that are governed by the law of 11 May 2007 on family estate management companies, as amended, or by the law of 17 December 2010 on undertakings for collective investment, as amended, or the law of 13 February 2007 on specialised investment funds, as amended, or by the law of 23 July 2016 on reserved alternative investment funds and which do not fall under the special tax regime set out in article 48 thereof, are neither subject to Luxembourg income tax (or where applicable municipal business tax) in respect of interest or similar income received, redemption premiums or issue discounts, under the Notes, nor on any gain realised upon the sale, exchange or disposal, in any form whatsoever, of the Notes.

Net Wealth Tax

Resident corporate holders of the Notes as well as non-resident corporate holders of the Notes which maintain a permanent establishment, fixed place of business or a permanent representative in Luxembourg to which such Notes or income thereon are attributable, are subject to Luxembourg net wealth tax on such Notes, except if the holders of the Notes are a family estate management company introduced by the law of 11 May 2007 on family estate management companies, as amended, an undertaking for collective investment governed by the law of 17 December 2010 on undertakings for collective investment, as amended, a securitisation vehicle governed by and compliant with the law of 22 March 2004 on securitisation, as amended, a capital company governed by and compliant with the law of 15 June 2004 on venture capital vehicles, as amended, a specialised investment fund governed by the law of 13 February 2007 on specialised investment funds, as amended, a reserved alternative investment fund governed by the law of 23 July 2016 on reserved alternative investment funds⁸ or a professional pension institution governed by the law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations.

(b) Luxembourg tax treatment of Notes qualifying as equity

Withholding Tax

In principle, dividends (including interest qualified tax-wise as dividends) paid by the Issuer to the holders of Notes are subject to a 15% withholding tax in Luxembourg.

⁸ Please note however that securitisation companies governed by the law of 22 March 2004 on securitisation, as amended, capital companies governed by the law of 15 June 2004 on venture capital vehicles, as amended, and reserved alternative investment funds governed by the law of 23 July 2016 and which fall under the special tax regime set out under article 48 thereof, professional pension institutions governed by the law of 13 July 2005 on institutions for occupational retirement provision in the form of pension savings companies with variable capital and pension savings associations may, under certain conditions, be subject to minimum net wealth tax.

However, subject to the provisions of an applicable double tax treaty, the rate of the withholding tax may be reduced.

Furthermore, a domestic withholding the exemption may apply if, at the time the dividend is made available, (i) the receiving entity is an eligible company which (ii) has held or commits itself to hold for an uninterrupted period of at least 12 months a participation of at least 10% of the share capital of the Issuer or a participation of an acquisition price of at least EUR 1.2 million. Eligible entities include either a company covered by Article 2 of the amended EU Parent-Subsidiary Directive, or a Luxembourg permanent establishment thereof, or a company resident in a State having concluded a double tax treaty with Luxembourg and subject to a tax corresponding to Luxembourg corporate income tax or a Luxembourg permanent establishment thereof, or a company limited by shares (*société de capitaux*) or a cooperative society (*société coopérative*) resident in the European Economic Area other than an EU Member State and liable to a tax corresponding to Luxembourg corporate income tax or a Luxembourg permanent establishment thereof, or a Swiss company limited by share capital which is effectively subject to corporate income tax in Switzerland without benefiting from an exemption. However, the domestic withholding tax exemption will not apply in case the transaction qualifies as an abuse of law under the general anti-abuse rule.

Income Tax

Luxembourg Resident Individual Holder of Notes

Dividends (including interest qualified tax-wise as dividends) derived from the Notes by resident individual holders, who act in the course of the management of either their private wealth or their professional or business activity, are subject to income tax at the progressive ordinary rate. Such dividend may benefit from the 50% exemption set forth in Article 115, section 15, letter a) of the LITL, subject to the fulfilment of the conditions set out therein. A tax credit is further granted for Luxembourg withholding taxes, if any.

Capital gains realised on the disposal of the Notes by resident individual holders, should not be subject to income tax, unless said capital gains qualify either as speculative gains or as gains on a substantial participation. Capital gains on the Notes are deemed to be speculative gains and are subject to income tax at ordinary income tax rates if the Notes are disposed of within 6 months after their acquisition or if their disposal precedes their acquisition. A participation is deemed to be substantial where a Luxembourg resident individual holder of the Notes has either alone or together with his spouse and/or underage children, held directly or indirectly at any time within the 5 years preceding the disposal, more than 10% of the share capital of the Issuer. A holder of the Notes is also deemed to alienate a substantial participation if he acquired free of charge, within the 5 years preceding the transfer, a participation that was constituting a substantial participation in the hands of the transferor (or any of the successive transferor in case of successive transfers free of charge within the same 5-year period). Capital gains realised on a substantial participation more than 6 months after the acquisition thereof are subject to income tax according to the half-global rate method. A disposal may include a sale, an exchange, a contribution or any other kind of alienation of the Notes.

Luxembourg Resident Corporate Holders of Notes

Dividends (including interest qualified tax-wise as dividends) and other payments derived from the Notes and paid to a Luxembourg fully taxable resident company are subject to income tax, unless the conditions of the participation exemption regime, as described below, are satisfied. If these conditions are not met, under current Luxembourg tax laws, 50% of the gross amount of dividends (including interest qualified tax-wise as dividends) received on the Notes may be exempt from income tax pursuant to article 115, section 15, letter a) of the LITL. A tax credit is further granted for Luxembourg withholding taxes, if any.

Under the participation exemption regime, dividends (including interest qualified tax-wise as dividends) derived from the Notes may be exempt from income tax at the level of the holder of the Notes, except for the amount of the expenses which directly relate to this shareholding and which have reduced the Luxembourg fully taxable resident company's taxable basis in the year of receipt of the dividend, if cumulatively, (i) the holder of the Notes is a Luxembourg resident fully taxable company, or a Luxembourg permanent establishment of a company covered by Article 2 of the amended EU Parent-Subsidiary Directive, or a Luxembourg permanent establishment of a company limited by share capital resident in a country having a tax treaty with Luxembourg, or a Luxembourg permanent establishment of a limited company or a cooperative company resident in the European Economic Area other than a EU Member State, (ii) the beneficiary has held or commits itself to hold the Notes for an uninterrupted period of at least 12 months at the time of the distribution and (iii) during this whole period, the Notes represent a participation of at least 10% in the share capital of the Issuer or a participation of an acquisition price of at least EUR 1.2 million. The benefits of the participation exemption regime do not however apply where the transaction qualifies as an abuse of law under the general anti-abuse rule.

Capital gains realised by a Luxembourg fully taxable resident company on the Notes are subject to income tax at ordinary rates. However, under the participation exemption regime, capital gains realised on the Notes may be exempt from income tax, except for the amount of the expenses which directly relate to this shareholding and which have reduced the Luxembourg fully taxable resident company's taxable basis in the year of disposal and prior years, if the above-mentioned conditions are met except that the acquisition price threshold is EUR 6 million for capital gains purposes. Taxable gains are determined as being the difference between the price for which the Notes have been disposed of and the fiscal value.

Luxembourg Resident Companies benefiting from a Special Tax Regime

Holders of Notes who are undertakings for collective investment governed by the law of 17 December 2010, as amended, specialised investment funds governed by the law of 13 February 2007, as amended, reserved alternative investment funds organised as specialised investment funds under the law of 23 July 2016, or family wealth management companies governed by the law of 11 May 2007, as amended, are exempt from income tax in Luxembourg. Dividends (including interest qualified tax-wise as dividends) derived from and capital gains realised on the Notes are thus not subject to income tax in their hands.

Companies subject to the law of 15 June 2004, as amended, on venture capital investment companies and or reserved alternative investment funds organised as venture capital investment companies under the law of 23 July 2016 might enjoy an exemption on income and gains from the Notes in accordance with, and subject to, the requirements of such law.

Luxembourg Non-Resident Holders of Notes

Non-resident holders of Notes who have neither a permanent establishment nor a permanent representative in the Grand Duchy of Luxembourg to which the Notes are attributable are generally not liable to any Luxembourg income tax, whether they receive payments of dividends (including interest qualified tax-wise as dividends) or realize capital gains upon sale of the Notes, except for capital gains realised on a substantial participation (see above under section (a) before the acquisition or within the first 6 months of the acquisition thereof that are subject to income tax in Luxembourg at ordinary rates (subject to applicable double tax treaties).

Permanent Establishment of Luxembourg Non-Resident Holders of Notes

Dividends (including interest qualified tax-wise as dividends) received by a Luxembourg permanent establishment or a permanent representative of a non-resident holder of Notes to which the Notes are attributable, as well as capital gains realised on such Notes, are subject to Luxembourg income tax, unless the conditions of the participation exemption regime are satisfied (see above under section (b)). Dividends (including interest qualified tax-wise as dividends) deriving from Notes that do not qualify for the 100% exemption and received by a Luxembourg permanent establishment or permanent representative may benefit from the 50% exemption of the gross amount as described above according to article 115, section 15, letter a) of the LITL. A tax credit is further granted for the Luxembourg withholding tax, if any.

Net Wealth Tax

Luxembourg net wealth tax will not be levied on a holder of a Note unless: (i) such holder is, or is deemed to be, resident in Luxembourg for the purpose of the relevant provisions; or (ii) such Note is attributable to an enterprise or part thereof which is carried on through a permanent establishment or a permanent representative in the Grand Duchy of Luxembourg.

Under the participation exemption regime, the Notes may be exempt from net wealth tax at the level of the holder of the Notes, if cumulatively, (i) the holder of the Notes is a Luxembourg resident fully taxable company, or a Luxembourg permanent establishment of a company covered by Article 2 of the amended EU Parent-Subsidiary Directive, or a Luxembourg permanent establishment of a company limited by share capital resident in a country having a tax treaty with Luxembourg, or a Luxembourg permanent establishment of a limited company or a cooperative company resident in the European Economic Area other than a EU Member State and (ii) the Notes represent a participation of at least 10% in the share capital of the Issuer or a participation of an acquisition price of at least EUR 1.2 million. The benefits of the participation exemption regime do not however apply where the transaction qualifies as an abuse of law under the general anti-abuse rule.

Minimum net wealth tax will be levied under certain circumstances only if the holder of the Note is, or is deemed to be, resident in Luxembourg for the purpose of the relevant provisions.

Luxembourg resident individuals are generally not subject to net wealth tax.

(c) **Other Taxes**

In principle, neither the issuance nor the transfer of Notes will give rise to any Luxembourg stamp duty, value-added tax, issuance tax, registration tax, transfer tax or similar taxes or duties.

However, a fixed registration duty may be due upon the registration of the Notes in Luxembourg in case where (i) the Notes are physically attached to a public deed or to any other document subject to mandatory registration, (ii) the Notes are deposited in the minutes of a notary (*déposé au rang des minutes d'un notaire*) or (iii) in case of a registration of the Notes on a voluntary basis or attachment to a document that is voluntarily registered.

Where a holder of Notes is a resident of Luxembourg for tax purposes at the time of his/her death, the Notes are included in his/her taxable estate for inheritance tax assessment purposes.

Gift tax may be due on a gift or donation of Notes if embodied in a Luxembourg deed passed in front of a notary or recorded in Luxembourg.

(d) **Foreign Account Tax Compliance Act**

Pursuant to sections 1471 to 1474 of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a “foreign financial institution”, which does not become a participating foreign financial institution by entering into an agreement with the U.S. Internal Revenue Service or is not otherwise exempt from or in deemed compliance with FATCA, may be required to withhold a 30% tax on certain payments it makes (foreign pass-through payments) to persons that fail to meet certain certification, reporting, or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including Luxembourg) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (IGAs), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply until two years after the date of the publication of Treasury Regulations defining the term “foreign passthru payments” and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining “foreign pass-through payments” are filed with the U.S. Federal Register generally would be “grandfathered” for purposes of FATCA withholding unless materially modified after such date.

Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes.

In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

(e) **CRS**

The Issuer may be required to report certain information about its Noteholders and, as the case may be, about individuals controlling Noteholders that are entities, on an automatic and annual basis to the Luxembourg tax administration (*Administration des contributions directes*) in accordance with, and subject to, the Luxembourg law of 24 July 2015 concerning FATCA, and/or the Luxembourg law of 18 December 2015 implementing Council Directive 2014/107/EU and the standard for automatic exchange of financial account information in tax matters developed by the OECD with the G20 countries (commonly referred to as the “**Common Reporting Standard**”), each as amended from time to time (each an **AEOI Law** and collectively the **AEOI Laws**). Such information, which may include personal data (including, without limitation, the name, address, country(ies) of tax residence, date and place of birth and tax identification number(s) of any reportable individual) and certain financial data about the relevant Notes (including, without limitation, their balance or value and gross payments made thereunder), will be transferred by the Luxembourg tax administration to the competent authorities of the relevant foreign jurisdictions in accordance with, and subject to, the relevant Luxembourg legislation and international agreements.

The Issuer reserves the right to reject any application for Notes or to redeem Notes (i) if the prospective investor or Noteholder does not provide the required information, documents or certificates or (ii) if the Issuer (or its delegates) has reason to believe that the information, documents or certificates provided to the Issuer (or its delegates) are incomplete or incorrect and the Noteholder does not provide, to the satisfaction of the Issuer (or its delegates), sufficient information to cure the situation. Prospective investors and Noteholders should note that incomplete or inaccurate information may lead to multiple and/or incorrect reporting under the AEOI Laws. Neither the Issuer nor any other person accepts any liability for any consequences that may result from incomplete or inaccurate information provided to the Issuer (or its delegates). Any Noteholder failing to comply with the Company’s information requests may be charged with any taxes and penalties imposed on the Issuer attributable to such Noteholder’s failure to provide complete and accurate information.

Each Noteholder and prospective investor acknowledges and agrees that the Issuer will be responsible to collect, store, process and transfer the relevant information, including the personal data, in accordance with the AEOI Laws. Each individual whose personal data has been processed for the purposes of any AEOI Law has a right of access to his/her personal data and may ask for a rectification thereof in case where such data is inaccurate or incomplete.

(C) ITALIAN TAX TREATMENT OF THE NOTES ISSUED BY MEDIOBANCA INTERNATIONAL AND MBFL IN ITALY

The Notes issued by Mediobanca International and MBFL may be subject to different tax regimes depending on whether:

- they qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) implying a capital investment (*impiego di capitale*); or

- they qualify as atypical securities (*titoli atipici*); or
- they qualify as derivative financial instruments or bundles of derivative financial instruments.

Depending on the features of the Notes, one of the following Italian tax treatments may apply to the Notes.

(a) **Notes qualifying as bonds or securities similar to bonds**

Italian resident Noteholders

Decree No. 239 regulates the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from certain securities issued, *inter alia*, by non-Italian resident entities. The provisions of Decree No. 239 only apply to those Notes which qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) pursuant to Article 44 of Decree No. 917. For this purposes securities similar to bonds are securities that (i) entail an unconditional obligation to pay, at maturity, an amount not lower than their nominal value (with or without periodic interest payments) and (ii) do not give any right to directly or indirectly participate in the management of the issuer or of the business in relation to which the securities are issued nor any type of control on the management.

Pursuant to Decree No. 239, a substitute tax, referred to as *imposta sostitutiva* at a rate of 26 per cent. is applied on Interest on Notes qualifying as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) within the meaning of Article 44 of Decree No. 917 issued by a non-Italian resident issuer accrued during the relevant holding period, if received by:

- (1) an Italian resident individual not engaged in an entrepreneurial activity to which the Notes are connected unless he has entrusted the management of his financial assets, including the Notes, to an authorised intermediary and has opted for the Asset Management Regime according to Article 7 of Decree No. 461; or
- (2) an Italian resident partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership) or a *de facto* partnership not carrying out commercial activities or professional association; or;
- (3) an Italian resident private or public institutions, other than companies, trusts not carrying out mainly or exclusively commercial activities, the Italian State and public and territorial entities; or
- (4) Italian resident investors exempt from Italian corporate income taxation.

If the Noteholders described under (1) and (3) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax. As a consequence, the Interest is subject to the ordinary income tax and the *imposta sostitutiva* may be recovered as a deduction from the income tax due.

Subject to certain limitations and requirements (including a minimum holding period), Interest in respect of Notes that qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) received by

Italian resident individuals holding the Notes not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the 26 per cent. substitute tax, on Interest if the Notes are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1, paragraphs 100 – 114, of Law No. 232/2002 and Article 1, paragraphs 211-215, of Law No. 145, and in Article 13-*bis* of Law Decree No. 124 as amended and applicable from time to time. Pursuant to Article 1, paragraphs 219-225-*bis* of the Finance Act 2021, it is further provided that Italian resident individuals investing in long-term individual savings account compliant with Article 13-*bis*, paragraph 2-*bis* of Decree 124 may benefit from a tax credit corresponding to possible capital losses, losses and negative differences realised in respect of certain qualifying financial instruments comprised in the long-term individual savings account, provided that certain conditions and requirements are met (*e.g.* including the loss of the possibility to subsequently set off the relevant capital losses, losses and negative differences against future capital gains).

Pursuant to Decree 239, the 26 per cent. *imposta sostitutiva* is applied by Italian Intermediaries or by permanent establishments in the Republic of Italy of Intermediaries resident outside Italy. Where the Notes and the relevant coupons are not deposited with an Intermediary, the substitute tax is applied and withheld by any Italian Intermediary (or permanent establishment in Italy of foreign intermediary) that intervenes in the payment of Interest to any Noteholder or, in its absence, by the Issuer.

Where Interest on Notes beneficially owned by the subjects from (1) to (4) above are not collected through the intervention of an Italian Intermediary (or permanent establishment in Italy of foreign intermediary) and as such no *imposta sostitutiva* is applied, the above Italian resident beneficial owners will be required to declare Interest in their yearly income tax return and subject them to final substitute tax at a rate of 26 per cent. (only limited to those Noteholders not engaged in a business activity to which the Notes are effectively connected), unless option for a different regime is allowed and made. Italian resident Noteholders that are individuals not engaged in entrepreneurial activity may elect instead to pay ordinary personal income taxes at the progressive rates applicable to them in respect of Interest on such Notes: if so, the beneficial owners should be generally entitled to a tax credit for withholding taxes applied outside Italy, if any.

Where an Italian resident Noteholder who is beneficial owner of the Notes is a company, an Italian resident commercial partnership or similar commercial entity, or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes and relevant coupons are timely deposited with an Intermediary, Interest from the Notes will not be subject to the substitute tax, but must be included in the relevant Noteholder's annual income tax return and are therefore subject to general Italian corporate taxation (and, in certain circumstances, depending on the *status* of the Noteholder, also to IRAP). In such cases, the beneficial owners should be generally entitled to a tax credit for withholding taxes applied outside Italy, if any.

For Noteholders who are Funds, SICAVs, non-real estate SICAFs, Real Estate Fund, Real Estate SICAF or Italian pension funds (subject to the regime provided for by Article 17 of Decree No. 252), please refer to paragraph "*Italian Taxation of the Notes issued by Mediobanca Notes qualifying as bonds or similar securities - Italian resident Noteholders*" above.

Non-Italian resident Noteholders

Imposta sostitutiva is not applied on interest payments to a non-Italian resident Noteholder not having a permanent establishment in Italy to which the Notes are effectively connected of Interest relating to Notes issued by a non-Italian resident issuer.

If Notes issued by a non-Italian resident issuer and beneficially owned by non-Italian residents are deposited with an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or are sold through an Italian bank or other resident financial intermediary (or permanent establishment in Italy of foreign intermediary) or in any case an Italian resident financial intermediary (or permanent establishment in Italy of foreign intermediary) intervenes in the payment of Interest on such Notes, to ensure payment of Interest without application of Italian taxation a non-Italian resident Noteholder may be required to produce to the Italian bank or other intermediary a statement (*autocertificazione*) stating that he or she is not resident in Italy for tax purposes.

Capital gains tax

Any gain obtained from the sale or transfer or redemption of the Notes by Italian resident Noteholders would be subject to the same tax regimes as described under section 1.4. "*Capital gains tax*", above.

Capital gains realised upon sale, transfer or redemption of the Notes by non Italian resident Noteholders without a permanent establishment in Italy to which the Notes are effectively connected may, in certain circumstances, be subject to a 26 per cent. *imposta sostitutiva*, if the Notes are held in Italy. However, the same exemptions illustrated under the section (A) 1.4 "*Capital gains tax*" apply to the benefit of non-Italian residents if capital gains on the Notes might become taxable due to the holding of the Notes in Italy.

Fungible issues

Pursuant to Article 11, paragraph 2 of Decree No. 239, where the relevant issuer issues a new tranche forming part of a single series with a previous tranche, for the purposes of calculating the amount of interest subject to *imposta sostitutiva*, the issue price of the new tranche will be deemed to be the same as the issue price of the original tranche. This rule applies where (a) the new tranche is issued within 12 months from the issue date of the previous tranche, and (b) the difference between the issue price of the new tranche and that of the original tranche does not exceed 1 per cent. of the nominal value of the notes multiplied by the number of years of the duration of the notes.

(b) Notes qualifying as atypical securities

Interest payments to Italian resident Noteholders relating to Notes issued by a non-Italian resident issuer which represent a capital investment but do not qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) may qualify as "atypical" securities (*titoli atipici*) pursuant to article 5 of Decree No.512 and may be subject to Italian withholding tax, levied at the rate of 26 per cent.. For this purpose, securities similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value, with or without the payment of periodic interest, and do not give any right to directly or

indirectly participate in the management of the issuer or to the business in connection to which the securities were issued, nor to control the same.

If the Notes are issued by a non-Italian resident issuer, a 26 per cent. withholding tax may apply in Italy if the Notes are placed ("*collocare*") in Italy and Interest payments on the Notes are collected through an Italian bank or other qualified financial intermediary. However, the 26 per cent. "entrance" withholding tax does not apply to Interest payments made:

- (a) to a non-Italian resident Noteholder. If Notes issued by a non-Italian resident issuer and beneficially owned by non-Italian residents are deposited with an Italian bank or other resident financial intermediary (or permanent establishment in Italy of foreign financial intermediary) or are sold through an Italian bank or other resident financial intermediary (or permanent establishment in Italy of foreign financial intermediary) or in any case an Italian resident financial intermediary (or permanent establishment in Italy of foreign financial intermediary) intervenes in the payment of Interest on such Notes, to ensure payment of Interest without application of Italian taxation a non-Italian resident Noteholder may be required to produce to the Italian bank or other financial intermediary a statement (*autocertificazione*) stating that he or she is not resident in Italy for tax purposes; and
- (b) to an Italian resident Noteholder which is (i) an Italian resident commercial partnership, (ii) an Italian resident company or a similar Italian resident commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are effectively connected) and (iii) a commercial private or public institution. In particular, in such cases, Interest must be included in the relevant Noteholder's annual income tax return, to be therefore subject to ordinary Italian business income taxation (and, in certain circumstances, depending on the *status* of the Noteholder, also to IRAP) according to the ordinary rules and the beneficial owners should be generally entitled to a tax credit for withholding taxes applied outside Italy, if any.

With respect to the other categories of Italian resident Noteholders, if Interest payments on Notes issued by a non-Italian resident issuer are not collected through an Italian resident bank or other financial intermediary, and as such no withholding tax is required to be levied, such Noteholders will be required to report the payments in their annual income tax return and subject them to a final substitute tax at rate of 26 per cent. (only limited to those Noteholders not engaged in a business activity to which the Notes are effectively connected). Italian resident individual beneficial owners holding Notes not in connection with a business activity may elect instead to pay ordinary personal income tax at the progressive rates applicable to them in respect of Interest payments: if so, the beneficial owners should generally benefit from tax credit for withholding taxes applied outside Italy, if any.

In case the Notes issued by a non-Italian resident issuer are held by an Italian resident individual engaged in a business activity and are effectively connected with same business activity, the Interest will be subject to the 26 per cent. withholding tax on a provisional basis and will be included in the relevant income tax return. As a consequence, the Interest will be subject to the ordinary income tax and the withholding tax may be recovered as a deduction from the income tax due.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the withholding tax on interest, premium and other income relating to the Notes which qualify as "atypical" securities) pursuant to Article 5 of Law Decree No. 512 of 30 September 1983, if such Notes are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant to Article 1, paragraphs 100 -114 of Law No. 232 232 and Article 1, paragraphs 211-215, of Law No. 145, and in Article 13-*bis* of Law Decree No. 124 as amended and applicable from time to time. Pursuant to Article 1, paragraphs 219-225-*bis* of the Finance Act 2021, it is further provided that Italian resident individuals investing in long-term individual savings account compliant with Article 13-*bis*, paragraph 2-*bis* of Decree 124 may benefit from a tax credit corresponding to possible capital losses, losses and negative differences realised in respect of certain qualifying financial instruments comprised in the long-term individual savings account, provided that certain conditions and requirements are met (*e.g.* including the loss of the possibility to subsequently set off the relevant capital losses, losses and negative differences against future capital gains).

(c) **Notes qualifying as derivative securities**

Where the proceeds from the Notes issued by Mediobanca International and MBFL qualify as securitised derivative financial instruments do not qualify as income from a capital investment, the tax regime described under Section (A) "*Capital gains tax*" above applies according to article 67 of Decree No. 917 and Decree No. 461.

(D) **PAYMENTS MADE BY THE GUARANTOR UNDER THE GUARANTEE**

There is no authority directly regarding the Italian tax regime of payments on notes made by an Italian resident guarantor. Accordingly, there can be no assurance that the Italian tax authorities will not assert an alternative treatment of such payments than that set forth herein or that the Italian courts would not support such an alternative treatment.

With respect to payments on the Notes made to Italian resident Noteholders by an Italian resident guarantor, in accordance with one interpretation of Italian tax law, any such payments may be subject to Italian withholding tax at the rate of 26 per cent. levied as a final tax or a provisional tax depending on the "*status*" of the Noteholder, pursuant to Decree No. 600. Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax in case of payments to non-Italian residents, subject to proper compliance with relevant subjective and procedural requirements.

In accordance with another interpretation, any such payment made by the Guarantor should be treated, in certain circumstances, as a payment by the relevant Issuer and made subject to the tax treatment described above under paragraph "*Italian Taxation of Notes issued by Mediobanca*" and "*Luxembourg Tax regime of the Notes issued by Mediobanca International and MBFL*".

(a) **Inheritance and gift taxes**

Pursuant to Law Decree No. 262 of 3 October 2006, as converted in law, with amendments, by Law No. 286 effective from 24 November 2006, transfers of Notes as a result of death or donation (or other transfers for no consideration) are generally taxed in Italy as follows:

- (i) transfers in favor of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding € 1,000,000.00 for each beneficiary;
- (ii) transfers in favor of siblings are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding € 100,000.00 for each beneficiary;
- (iii) transfers in favor of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift; and
- (iv) any other transfer is subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the beneficiary has a serious disability recognised by law, inheritance and gift taxes apply on its portion of the net asset value exceeding € 1,500,000.00.

If the donee sells the Notes for consideration within 5 years from the receipt thereof as a gift, the donee is required to pay the relevant *imposta sostitutiva* on capital gains as if the gift has never taken place.

A tax credit may be available for the inheritance and gift tax paid in Italy under the applicable double tax treaty on inheritance and gift, if any.

(b) **Transfer tax**

Contracts relating to the transfer of securities are subject to the following registration tax: (i) public deeds and notarised deeds are subject to a fixed registration tax at a rate of € 200.00; (ii) private deeds are subject to registration tax at a rate of € 200.00 only if they are voluntary registered or if the so-called "*caso d'uso*" or "*enunciazione*" occurs.

(c) **VAT and registration tax**

If the relevant Issuer decides to redeem the Notes upon their maturity by physical delivery to the investor, Italian VAT and/or registration tax may become payable.

(d) **Stamp Duty**

Pursuant to Article 13 par. 2^{ter} of the tariff Part I attached to Presidential Decree No. 642 of 26 October, 1972, a proportional stamp duty applies on an annual basis to any periodic reporting communications which may be sent by a financial intermediary to its clients in respect of any financial product and instrument, including the Notes, which may be deposited with such financial intermediary in Italy. The stamp duty applies at a rate of 0.2 per cent.

and it cannot exceed € 14,000 for taxpayers which are not individuals. This stamp duty is determined on the basis of the market value or, if no market value figure is available, on the basis of face value or redemption value, or in the case the face or redemption values cannot be determined, on the basis of purchase value of the financial assets (including banking bonds, *obbligazioni* and capital adequacy financial instruments) held.

The statement is deemed to be sent at least once a year, including with respect to the instruments for which is not mandatory nor the deposit nor the release nor the drafting of the statement. In case of reporting periods of less than 12 months, the stamp duty is payable based on the period accounted.

Pursuant to the law and the implementing decree issued by the Italian Ministry of Economy on 24 May, 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June, 2012) of an entity that exercises a banking, financial or insurance activity in any form within the Italian territory.

(e) Wealth tax on Notes deposited abroad

Pursuant to Article 19 of Decree No. 201 of 6 December 2011, Italian resident individuals non commercial entities, non commercial partnerships and similar institutions resident in Italy for tax purposes holding financial instruments, including the Notes, outside the Italian territory are required to declare them in their own annual tax returns and pay a wealth tax at the rate of 0.2 per cent. (IVAFE). Starting from fiscal year 2020, the wealth tax cannot exceed € 14,000 for taxpayers which are not individuals. The wealth tax is calculated on the market value at the end of the relevant year or, where no market value is available, on the nominal value or redemption value, or in the case the face or redemption values cannot be determined, on the purchase value of any financial asset held abroad by Italian resident individuals, including the Notes. A tax credit is granted for any foreign property tax levied abroad on the same financial assets. The financial assets held abroad are excluded from the scope of the wealth tax, if such financial assets are administered by Italian financial intermediaries pursuant to an administration agreement.

(f) Tax Monitoring Obligations

Italian resident individuals, non-commercial entities, non-commercial partnerships and similar entities resident in Italy for tax purposes are required, in certain circumstances, to report in their annual income tax return, (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return), according to Law Decree No. 167 of 28 June, 1990, converted into law by Law Decree No. 227 of 4 August, 1990, as amended from time to time, for tax monitoring purposes:

- (1) the amount of Notes issued by Mediobanca held abroad during each tax year;
- (2) the amount of Notes, issued by Mediobanca International, held abroad during each tax year; and
- (3) the amount of Notes, issued by Mediobanca International, held abroad during each tax year.

The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the actual owner of the instrument.

The above reporting requirement does not apply with respect to (i) foreign investments (including the Notes) deposited for management with Italian financial intermediaries or relevant contracts entered into through their intervention, upon condition that any related income has been subject to tax by such financial intermediaries, or (ii) if the foreign investments are exclusively composed of deposits and/or bank accounts and their aggregate value does not exceed € 15,000 threshold throughout the year.

(g) **Financial transaction tax**

Where the relevant Issuer decides to redeem the Share Linked Notes at their maturity by delivering Shares to the investor, an Italian Financial Transaction Tax ("**IFTT**") may apply. In particular, Article 1(491) of Law No. 228 of 24 December 2012 (the "**Stability Law for 2013**") as amended by Law Decree of 21 June 2013, N° 69, introduced a stamp duty-like IFTT of 0.2 per cent. on the transfer of shares and other equity-like instruments issued by Italian resident entities (for this purpose, residence must be determined on the basis of the location of the entity's registered office). This also encompasses any financial instruments that have such shares or equity-like instruments as their underlying assets, irrespective of the issuer's residence. The IFTT applies even if the transfer takes place outside Italy and/or any of the parties to the transaction are not resident in Italy.

The IFTT rate is reduced by half to 0.1 per cent. if the transfer takes place on a regulated market or multilateral trading system. The tax is determined with reference to the net daily balance of purchase and sale transactions performed by the same person in the same financial instrument. In particular, the taxable base is determined by multiplying: (i) the number of securities corresponding to the sum of the net daily balance of purchase and sale transactions for each financial instrument for which there are net purchases (as opposed to net sales); and (ii) the weighted average price of the purchases of such financial instruments carried out on the relevant day.

Article 1(492) of the Stability Law for 2013 introduces a fixed levy IFTT that applies to all transactions involving equity derivatives which have Italian shares, Italian equity-like instruments or Italian equity-related instruments as their underlying assets. An equity derivative is subject to the IFTT if the underlying or reference value consists of more than 50 per cent., of the market value of Italian shares, Italian equity-like instruments or Italian equity-related instruments, as measured on either: (i) the date of issuance, for financial instruments traded on regulated markets or on multilateral trading systems; or (ii) the date when the relevant contract is entered into in all other cases. The IFTT applies even if the transfer takes place outside Italy and/or any of the parties to the transaction are not resident in Italy.

The amount of tax due depends on the type of derivative instrument and on the contract's value, but is subject to a maximum of Euro 200. This IFTT is reduced to 1/5 of the relevant amount if the transfer takes place on a regulated market or multilateral trading system. If a derivative is equity-settled, the consequent share transaction is ordinarily subject to the IFTT under Article 1(491) of the Stability Law for 2013.

The IFTT under Article 1(491) of the Stability Law for 2013 is due by and borne by the (ultimate) transferee of the shares or equity-like instruments. The IFTT under Article 1(492) of the Stability Law for 2013 is due by each party involved in the relevant transaction. The IFTT must be paid and accounted for to the Italian tax authorities by any intermediary intervening in any way in the execution of such transactions, *e.g.* banks, fiduciary companies or investment firms licensed to provide investment services on a professional basis to the public in accordance with Article 18 of Italian Legislative Decree No. 58 of 24 February 1998, including non-Italian resident intermediaries. However, the Stability Law for 2013 provides that such an intermediary is permitted to refrain from executing the relevant transaction until they have received the amount of IFTT due on the transaction from the relevant person referred to above. Non-Italian resident intermediaries may appoint an Italian withholding agent as a tax representative in order to take care of the compliance regarding the IFTT. In the event that several financial intermediaries are involved, the obligation to make the payment of the IFTT to the Italian tax authorities falls on the party that directly receives the transaction order from the parties. If no intermediary is involved in a transaction, the relevant parties referred to above must pay the IFTT due directly to the Italian tax authorities.

A 0.02 per cent. IFTT has also been introduced on high frequency trading carried out on the Italian financial market.

Some exemptions may apply.

IFTT should not apply to Notes which qualify as atypical securities. However, an official position of the Italian Tax Authority in this regard is not available.

(E) IRISH TAXATION OF THE NOTES ISSUED BY MEDIOBANCA, MEDIOBANCA INTERNATIONAL AND MBFL

The following is a summary of the Irish withholding tax treatment of the Notes. The summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes.

The summary is based upon the laws of Ireland and the published practices of the Revenue Commissioners of Ireland as in effect on the date of this Base Prospectus. Prospective investors in the Notes should consult their own advisers as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the Notes including, in particular, the effect of any state or local law taxes, if applicable.

(a) Irish withholding tax

Irish withholding tax applies to certain payments including payments of:

- Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
- Irish source annual payments (annual payments are payments that are capable of being made for a period in excess of one year and are pure income-profit in the hands of the recipient); and

- Distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax.

Such withholding tax arises at the standard rate of income tax (currently 20 per cent.) to payments of Irish source yearly interest and Irish source annual payments, and at a prescribed rate of 25 per cent. to distributions.

On the basis that the relevant Issuer is not resident in Ireland for the purposes of Irish tax, nor does the relevant Issuer operate in Ireland through a branch or agency with which the issue of the Notes is connected, nor are the Notes held in Ireland through a depository or otherwise located in Ireland, then to the extent that payments of interest or annual payments arise on the Notes, such payments should not be regarded as payments having an Irish source for the purposes of Irish taxation.

Accordingly, the relevant Issuer or any paying agent acting on behalf of the relevant Issuer (save as described at Irish Encashment Tax below) should not be obliged to deduct any amount on account of Irish tax from payments made in connection with the Notes.

Separately, for as long as the Notes are quoted on a stock exchange, an investor should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Notes.

(b) **Irish encashment tax**

Payments on any Notes paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of Notes will be subject to Irish encashment tax at a prescribed rate of 25 per cent., unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Notes entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be the income of another person that is resident in Ireland. Separately, an exemption will apply where the payment is made to a company where that company is beneficially entitled to that income and is or will be within the charge to corporation tax in respect of that income.

(F) **PROPOSED EUROPEAN FINANCIAL TRANSACTIONS TAX (FTT)**

On 14 February 2013, the European Commission has published a proposal (the Commission's Proposal) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**Participating EU Member States**"). However, Estonia has since stated that it will not participate.

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of the Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the Participating EU Member States. Generally, it would apply to certain dealings in the Notes where at least

one party is a financial institution, and at least one party is established in a Participating EU Member State. A financial institution may be, or be deemed to be, "established" in a Participating EU Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating EU Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating EU Member State.

Joint statements issued on 8 December 2015 by Participating EU Member States, except Estonia, indicate an intention to implement the FTT by the end of June 2016. On 16 March 2016, Estonia completed the formalities required to leave the enhanced co-operation on FTT. On 17 June 2016, the Council of the European Union announced that the work on FTT will continue during the second half of 2016. The Council of the European Union discussed the state of the dossier in June 2017 and reiterated that further work at the Council and its preparatory bodies is still required, before a final agreement on this dossier can be reached.

The FTT proposal remains subject to negotiation between the Participating EU Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

Any such short positions could adversely affect future trading prices of Notes issued under the Programme.
